Sex Work - Colette Parent 2013-09-18

In the early twentieth century, abolitionists sought to stamp out sex work by penalizing all involved. In the generation that followed, neo-abolitionists looked at the sex industry from a feminist perspective, claiming that workers were victims caught in a patriarchal matrix. Yet both agreed that the industry was a destructive and corrupting force that should be eliminated. In this radical volume, five academics and activists convey their vision of prostitution as work, reclaiming the place of sex workers in the discussion of their lives and their work, and opposing discourses that position them as merely victims without agency.

The Dis(-)ease of Being a Woman - Ann Michele Lucas 1998

Legalizing Prostitution - Ronald Weitzer 2012

While sex work has long been controversial, it has become even more contested over the past decade as laws, policies, and enforcement practices have become more repressive in many nations, partly as a result of the ascendancy of interest groups committed to the total abolition of the sex industry. At the same time, however, several other nations have recently decriminalized prostitution. *Legalizing Prostitution* maps out the current terrain. Using America as a backdrop, Weitzer draws on extensive field research in the Netherlands, Belgium, and Germany to illustrate alternatives to American-style criminalization of sex workers. These cases are then used to develop a roster of "best practices" that can serve as a model for other nations considering legalization. *Legalizing Prostitution* provides a theoretically grounded comparative analysis of political dynamics, policy outcomes, and red-light landscapes in nations where prostitution has

been legalized and regulated by the government, presenting a rich and novel portrait of the multifaceted world of legal sex for sale.

The State of Sex - Barbara G. Brents 2009-12-16

How have Nevada's legal brothels survived, while the rest of the country criminalizes prostitution? How do brothels operation? Who works in them? This book brings social theory on globalizing economies, politics, leisure consumption, and emotional labor in interactive service work together with research on prostitution and sexual commerce.

Sociological Abstracts - Leo P. Chall 1998

CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

Sex For Sale - Ronald Weitzer 2022-11-22

Since the publication of the second edition in 2010, the field of sex work studies has expanded. This fully updated edition of *Sex for Sale: Prostitution, Pornography, and Erotic Dancing* presents an innovative, in-depth, and nuanced analysis of sex work, its risks, and benefits, and pays attention to newer and everchanging types of sex work and its actors, as well as public policies and laws that govern its trade. Now in its third edition, this volume includes updated research on traditional forms of sexual labor and incorporates original, empirically grounded research on newer or less researched phenomena. New chapters explore the use of technology among street sellers, blurring the line between street and online solicitation, in addition to chapters on historical

prostitution, transgender workers, illicit massage parlors, male strippers, commercial webcamming, alternative policies and legal systems, and the sex workers' rights movement. The combination of cutting-edge and comprehensive analyses and carefully constructed methodologies in *Sex for Sale* makes it an excellent source of information for scholars and university students in gender studies, sociology, and criminology.

Gender, Sex and Status - Gerhard Falk

2019-05-01

Bob Mills analyzes the Democratic Party and the Republican Party over the course of time. He finds both of them seriously flawed, and raises deep questions about the two-party system overall. Presenting a history of our two major political parties, Mills takes a balanced approach - equally critical of each party. In short chapters sprinkled with humor and loaded with historical references, he calls into question the very fundamentals of America's political infrastructure. This is a book for all those who are frustrated by the ridiculous election campaigns we have to endure and the inadequate options we face at election time. Democracy may be the best system, but only when it works.

Prostitution, Women and Misuse of the Law - Helen J. Self 2004-08-02

This is an examination, from a feminist historian's standpoint, of the background to the present system of regulating prostitution in Britain - which is generally admitted to be not only unjust and discriminatory, but ineffective even in achieving its stated aims. Concentrating on the 1950s, and especially on the Wolfenden Report and the 1959 Street Offences Act, it is a thorough exposure of the sexual double standard and general misogynist assumptions underlying legislation relating to prostitution. In addition to the detailed analysis of the 1950s legislation and the background to it, there is an exposition of the subsequent workings of the Act, and of attempts to amend or repeal it.

Sex Work on the Streets - Neil P. McKeaganey 1996

* How and why do people sell and buy sex? *
 What are the risks associated with prostitution?
 * Should prostitution be legalized? This book is the most detailed study ever provided on street

prostitution. It is based on three years' research in which the authors interviewed prostitutes and their clients and spent many months working in a red light area. The book makes extensive use of direct quotes from the women and the men, as well as fieldnotes from the authors based upon their observations in the red light area. Topics covered in the book include the women's negotiations with clients, HIV, drug use and violence. The book also describes the impact of working as a prostitute on women's home life. No attempt is made to moralise about prostitution in the book, instead the authors concentrate on the experiences of the women and men involved in selling and buying sex, and describe prostitution from their standpoint. *Sex Work on the Streets* will be of interest to a wide range of students and researchers in sociology, social policy, criminology and women's studies.

Sex as Crime? - Gayle Letherby 2013-05-13

This book brings together chapters by academics, researchers and practitioners to analyse how crimes such as sex work, domestic violence and rape and sexual assault have risen up the Government agenda in recent years. For example, the 'Paying the Price' consultation exercise on sex work in 2004, and recent legislation around sex crimes, including the Sex Offences Act (2003). This is a multi-disciplinary, social scientific, pro-feminist collection, which draws upon practice, empirical research, documentary analysis and overviews of research in the areas of sex work and sexual violence. Within *Sex as Crime* there are two distinct sub-sections: 'Sex for Sale' and 'Sex as Violence', but the broader and overriding link of sex as crime remains a paramount theme that spans the collection. Chapters include discussions of the impact of new regulations on street sex workers, and of street sex work on community residents, the use of the internet by men who pay for sex and men who sell it, sexual violence and identity, sex crimes against children and protecting children online and working with sex offenders. Other chapters explore reasons for such offending behaviour.

Mais oui c'est un travail ! - Colette Parent 2011-07-11T00:00:00-04:00

La question du travail du sexe fait toujours, aujourd'hui, l'objet de polémiques où le moralisme et les bons sentiments prévalent sur

la discussion ouverte. La traite des femmes pour fins de « prostitution » et leur vulnérabilité physique face à la violence et à l'homicide débouchent souvent sur des demandes de répression accrue, et ce sont les travailleuses du sexe qui font les frais de ces discours prohibitionnistes et moralisateurs. Soucieux de véhiculer auprès d'un large public une vision différente de la « prostitution » dans le respect des travailleuses du sexe et de remettre en question les bases du message néo-abolitionniste qui présente ces dernières essentiellement comme des victimes de souteneurs ou de leur fausse conscience, cinq spécialistes ont entrepris la rédaction collective d'un livre pour démystifier plusieurs préjugés liés au travail du sexe. Sont abordés dans ce livre original les fondements du débat actuel de la « prostitution » comme travail, les différentes réponses des régimes juridiques, la variété de pratiques et d'expertises mises en oeuvre par les femmes elles-mêmes, incluant celles des migrantes illégales, et l'action collective des regroupements qui luttent pour une reconnaissance du travail du sexe. Mais oui c'est un travail ! invite donc à déconstruire certains mythes et stéréotypes, et à étayer la preuve à l'effet qu'il est non seulement possible de défendre la légitimité du travail du sexe tout en luttant contre la violence, mais que cela est nécessaire.

New Sociologies of Sex Work - Kate Hardy
2016-05-06

Sex work studies have seen an expansion in publications over the past decade, drawing together disciplines from across the social sciences, namely sociology, criminology and social policy. There has, however, been a tendency for research and writing to focus on the more obvious aspect of the sex industry - the visible elements of female street prostitution and those features which attract media attention such as the criminalised aspects of the sex trade. The sex industry is diverse in terms of its organisation, presentation, participants and how it is located in the broader context of globalisation and regulation; there is a need for publications which demonstrate this breadth. This book makes an outstanding contribution to the sociology of sex work through advancing theoretical, policy, methodological and empirical

ideas as each chapter pushes the boundaries of a specific area by offering new and critical research as well as commentary.

Sex Work on the Streets - Mckeganey 1996
How and why do people sell and buy sex? What are the risks associated with prostitution? Should prostitution be legalized? This book is the most detailed study ever provided on street prostitution. It is based on three years' research in which the authors interviewed prostitutes and their clients and spent many months working in a red light area. The book makes extensive use of direct quotes from the women and the men, as well as fieldnotes from the authors based upon their observations in the red light area. Topics covered in the book include the women's negotiations with clients, HIV, drug use and violence. The book also describes the impact of working as a prostitute on women's home life. No attempt is made to moralise about prostitution in the book, instead the authors concentrate on the experiences of the women and men involved in selling and buying sex, and describe prostitution from their standpoint. *Sex Work on the Streets* will be of interest to a wide range of students and researchers in sociology, social policy, criminology and women's studies.
The British National Bibliography - Arthur James Wells 1996

Understanding Representation - Wendy Helsby
2019-07-25

This is the third book in the 'Understanding the Moving Image' series. Like other books in the series, it aims to provide a strong critical and theoretical base for the study of the media. It has been co-authored by experienced Media and Film Studies tutors, offering fresh and innovative ways of talking about the key concept of representation. How is the world mediated to deliver messages and create beliefs about groups such as the mentally ill, institutions like the family and schools, minority and marginalised people and issues of nation seen through football and films? It also looks outside our ethnocentric mediated world to see how we are represented to others. The choice of texts reflects both an attempt to push the boundaries of the study of representation with new research, but also to make it accessible and stimulating for students coming into this area for

the first time. Case studies reflect contemporary concerns in the media, often from different perspectives.

Sexual Life in Sweden - Hans Zetterberg
2021-10-15

Now available in English, *Sexual Life in Sweden* is a classic piece of sex research by one of Sweden's most distinguished social scientists. Sponsored by the Royal Commission on Sex Education more than thirty years ago, it remains the only study of sexual behavior in a randomly selected adult population sample ever funded by a government. Because an astonishing response rate was achieved (91 percent) during the course of Zetterberg's research, the claim that Sweden is one of the few countries where generalizations about national sexual behavior can be made may be stated with confidence. Zetterberg's study matches the gender of interviewers to that of subjects. From a theoretical perspective, Zetterberg analyzes the change in Sweden from a "restrictive" to a "contraceptive" society. The study makes it clear that, with over 1,000 acts of intercourse for every live birth, 90 percent of sexual activity between consenting adults in modern Sweden does not result simply for procreation. Nevertheless, the research yields a picture of a highly responsible society. Zetterberg explores the emergence of two powerful new norms: "when having sex, you must use contraception," and "when in an existing sexual relationship, you must not start another one." He also examines the issue of abortion as part of a concept of social justice. The author compares the behavior of those who experience an unwanted pregnancy with those who do not, and explains that abortion is seen by Swedes as part of the provision of the welfare and social justice system. Included is an examination of the sexual behavior of young people—the age of their first sexual experience, the circumstances surrounding it, whether positive parental involvement in their children's lives has any influence on their sexual conduct, and sex education programs in the schools. This translation of Zetterberg's study has been

prepared by British sociologist Graham Fennell, who also authored a new introduction positioning Zetterberg's work in the history of sex research and comparing its findings with contemporary studies in Scandinavia, Western Europe, and North America. In light of the ongoing controversies about sex education, its conclusions remain relevant to policy discussions today

Living Off Crime - Kenneth D. Tunnell 2006

This book is an explication of social class and the adjudication of repetitive property offenders within the under class. It describes their class-informed subculture and near absence of any politicized action or strategy. Visit our website for sample chapters!

The Oxford Handbook of the Economics of Prostitution - Scott Cunningham 2016

"A study of the economics of sex work"--

The Idea of Prostitution - Sheila Jeffreys 1997

Examines the changing concept of prostitution from the White Slave Traffic of the 19th century to its present status as a legal business. It compares types of prostitution such as male prostitutes, military brothels and pornography, with slavery and rape in marriage.

Liberalism and Prostitution - Peter de Marneffe 2012-04-01

Civil libertarians characterize prostitution as a "victimless crime," and argue that it ought to be legalized. Feminist critics counter that prostitution is not victimless, since it harms the people who do it. Civil libertarians respond that most women freely choose to do this work, and that it is paternalistic for the government to limit a person's liberty for her own good. In this book Peter de Marneffe argues that although most prostitution is voluntary, paternalistic prostitution laws in some form are nonetheless morally justifiable. If prostitution is commonly harmful in the way that feminist critics maintain, then this argument for prostitution laws is not objectionably moralistic and some prostitution laws violate no one's rights. Paternalistic prostitution laws in some form are therefore consistent with the fundamental principles of contemporary liberalism.
