Animals, Deviance, and Sex Carmen M. Cusack 2015-10-13 *Animals, Deviance, and Sex* proposes that “deviance” is a fluid term that advances cultural, gender, human, and societal norms, but “deviant” labels that presume unequivocally to segregate superior human morality from animal sexuality may fail to see the forest for the trees. A plain reading of the word “deviance” may suggest scientific or quantitative classifications. Indeed, animal species may be grouped and analyzed according to generalized norms for each species. However, “deviance” may indicate moral relativism, which is fundamentally tied to historical and contemporary understandings of human sexuality and human-animal relationships. *Animals, Deviance, and Sex* argues that traditional and progressive classifications, analyses, and implications of human deviance could authentically be reworked in consideration of animals’ anatomy, breeding, copulation, gender, mating, nonconsent, and sexuality. Morally and ethically gray areas voluntarily and knowingly traversed by human-animal sexual linkages have expanded and become increasingly normalized by popular culture. *Animals, Deviance, and Sex’s* treatment of these trends is amusingly complex, yet unpretentious, truthfully proficient, and careful. Each chapter assiduously and succinctly tethers animal science, anecdotes, behavior and social science, current events, human-animal relationships, law, and theory throughout dozens of exotically-themed subchapters. *Animals, Deviance, and Sex* is a well-organized oeuvre demonstrating professional expertise and experience.

It is not the intention to undertake to guide or to direct the choice of a particular farm, but to supply the settler with initial information concerning the region in which he would like to establish a farm home."--Page ii.

Policing Cities Randy K Lippert 2013-07-18 *Policing Cities* brings together international scholars from numerous disciplines to examine urban policing, securitization, and regulation in nine countries and the conceptual issues these practices raise. Chapters cover many of the world’s major cities, including New York, Beijing, Paris, London, Berlin, Mexico City, Johannesburg, Rio de Janeiro, Boston, Melbourne, and Toronto, as well as other urban areas in Britain, United States, South Africa, Germany, Australia and Georgia. The collection examines the activities and reforms of the traditional public police, but also those of emerging public and private policing agents and spaces that fall outside the public police’s purview and which previously have received little attention. It explores dramatic changes in public policing arrangements and strategies, exclusion of urban homeless people, new forms of urban surveillance and legal regulation, and securitization and militarization of urban spaces. The core argument in the volume is that cities are more than mere background for policing, securitization and regulation. Policing and the city are intimately intertwined. This collection also reveals commonalities in the empirical interests, methodological preferences, and theoretical concerns of scholars working in these various disciplines and breaks down barriers among them. This is the first collection on urban policing, regulation, and securitization with such a multi-disciplinary and international character. This collection will have a wide readership among upper level undergraduate and graduate level students in several disciplines and countries and can be used in geography/urban studies, legal and socio-legal studies, sociology, anthropology, political science, and criminology courses.

*Why We Love The Dogs We Do* Stanley Coren 2012-12-11 For anyone who has worried that being beguiled by puppy love might lead only to a short-lived dalliance, Stanley Coren provides the ultimate matchmaking service. Combining his expertise in human psychology and animal behaviour with the research of other animal experts, Coren classifies dogs according to such personality traits as friendliness, protectiveness, and steadiness. To discover which dogs will suit them best, readers take simple personality tests that reveal what they are looking for in a relationship. Extroverted men, for example, may be surprised to find that poodles make the ideal companions; shy women are likely to prefer the company of a bulldog; and men lacking trust might consider an independent Shar-Pei. Stories about people and their four-legged best friends - and a gallery of photographs - capture the special dynamics between couples ranging from Freud and his Chow-Chow to Picasso and his Afghan hound.

**Children and Companion Animals: Psychosocial, Medical, and Neurobiological Implications** Andrea M. Beetz 2018-08-16 Children and companion animals seem to have a natural affinity towards each other. Most children desire a relationship with their own companion animals or at least demonstrate an interest to interact with animals in general. Living with companion animals or interacting with animals may have psychosocial, neurobiological, or medically relevant effects on typically developing children and juveniles as well as those with diverse and special needs. In this eBook, we present several articles addressing the relationships between children/juveniles and animals in different countries, including Austria, Germany, Jamaica, Japan, the United Kingdom and the United States. Three articles discuss approaches in animal-assisted education, including animal keeping and animal assisted interventions in schools, and an experimental study investigating immediate effects of dogs on reading competence and accompanying stress reactions with cortisol and behavior. Other articles address topics involving children and their companion animals, including dog-walking by children and juveniles, risks of dog bites by the family dog, selection of pet dogs for families with a child with autism spectrum disorder (ASD) and the relationships that children with ASD have with their family cats. The interactions between children/juveniles and animals addressed in this eBook provide new insights into some scarcely investigated themes, and underline the significance of animals in children's lives.

**Woof!** Andrew De Prisco 2011-11-01 The book Joan Rivers calls "my dog bible," Woof! is the quintessential queer guide for dog lovers, offering a hilarious take on gay dog ownership unlike any other book out there! Author Andrew De Prisco and illustrator Jason O'Malley have created a LGBTQ classic that defines the 28 "breeds" of gay men and recommends which breeds are best for each. From Drag Queen and All-American Boy to Twink, Leatherman, and Log Cabin Queer, every gay man will find advice and hilarity on every page of this award-winning gift book. (For gay men who are not sure of their breed, there is a temperament sorter to help determine their homo DNA.) In addition to being a breed-selection guide for the dog-loving Q-set, Woof! provides no-nonsense information about how to purchase a dog from a breeder, bringing the puppy home, training, caring, and feeding for the dog. It also offers tongue-in-cheek pointers along the lines of choosing the best gay name for the puppy, shopping for extravagant accessories, throwing a gay puppy shower (for the gifts!), hiring the right staff to take care of the puppy, and using the well-cared-for dog as a man magnet. DePrisco, who has been actively involved in the dog world (and gay world) for over two decades, has tapped all his doggy resources to bring readers the most fabulous advice from some of the nation's Top Dog Men, including breeders of Westminster Best in Show winners, world-revered judges, and international canine experts. The chapter "Studs and Bitches: The Secret Sex Lives of Dogs" addresses hot topics such as homosexual dogs, promiscuity in the dog world, and getting unleashed and hooking up at dog parks. In the book's final chapter, "The Rainbow Tour: Stepping Out in Gay Society," the author throws a virtual pride parade of doggy activities, from the über-queer world of dog shows to vacations, gay resorts, and camping (with actual tents!). The true message of the book;beyond the campy humor, wildly funny illustrations, and off-color remarks;rings out from every page: Woof! is for everyone who wants to be the most responsible and devoted dog owners on the planet.

Everything I Know About Men I Learned From My Dog Clare Staples 2013-08-13 "When you start training your dog (or dating a man), it is a good idea to have three bottom-line rules that you enforce no matter what . . ." DOGS No sleeping on the bed. No jumping up on people. No eating people's food. MEN Be consistent. Have a sense of humor. Be financially self-sufficient. Hilarious, insightful, witty, and wise, Clare Staples is saying what most women have been thinking. And in Everything I Know About Men I Learned From My Dog, the former model and party girl turned relationship expert proves that what works for the four-legged companion in a woman's life can work equally well for the two-legged variety. Divided into immediately evident categories, such as "Selecting a Breed" and "How to Stay the Boss," and packed with good-humored observations and practical advice, Everything I Know About Men I Learned From My Dog is the perfect field guide to any girl's two most complicated companions -- her dog and her man. From choosing the right personality to figuring out your companion's quirks and idiosyncrasies, dog ownership and human relationships can be complex affairs. What do you do when he bares his teeth or is a little clingy? How do you reward him when he is good and scold him when he is naughty? With Clare Staples's simple, clever tips, your relationships with both species will be happier and more successful. DON'T GO FOR LOOKS MAN: Handsome men are never a great bet. Often they have learned to rely on their looks and have not had to develop a personality or sense of humor -- far more important qualities. DOG: Don't choose a dog for looks alone. Looks are only skin-deep -- loyalty, devotion, and eagerness to please and unconditional love are the most wonderful things. DON'T CHANGE YOUR LIFESTYLE MAN: When you first meet your man, don't change anything for him. Don't give up your friends or hobbies. Never cancel anything to be with him. DOG: When you first get a dog, chances are he will whine when you leave him alone, but he'll get used to it and appreciate you more when you spend quality time with him. GIVE POSITIVE REWARDS MAN: When your man does something that you like -- such as brings you a present -- reward him. Give him a treat, spoil him. DOG: All dogs love praise. Train a dog with positive rewards for positive behavior.

**How to Love Animals** Henry Mance 2021-04-29 A far-reaching, urgent, and thoroughly engaging exploration of our relationship with animals - from the acclaimed Financial Times journalist. This might be the worst time in history to be an animal. But is there a happier way? Factory farms, climate change, deforestation and pandemics have made our relationship with the other species unsustainable. In response, Henry Mance sets out on a personal quest to see if there is a fairer way to live alongside the animals we love. He goes to work in an abattoir and on a farm to investigate the reality of eating meat and dairy. He explores our dilemmas around over-fishing the seas, visiting zoos and owning pets, and he meets the chefs, activists, scientists and tech visionaries who are redefining how we think about animals.
