Age of discrepancies Olivier Debrouse 2006 "The first exhibition to offer a critical assessment of the artistic experimentation that took place in Mexico during the last three decades of the twentieth century. The exhibition carefully analyzes the origins and emergence of techniques, strategies, and modes of operation at a particularly significant moment of Mexican history, beginning with the 1968 Student Movement, until the Zapatista uprising in the State of Chiapas. The show includes work by a wide range of artists, including Francis Alys, Vicente Rojo, Jimmie Durham, Helen Escobedo, Julio Galán, Felipe Ehrenberg, José Bedia, Guillermo Gómez-Peña, Francisco Toledo, Carlos Amoraes, Melanie Smith, and Alejandro Jodorowsky, among many others. The edition is illustrated with 612 full-color plates of the art produced during these last three decades of the twentieth century reflect the social, political and technical developments in Mexico and ranged from painting and photography to poster design, installation, performance, experimental theatre, super-8 cinema, video, music, poetry and popular culture like the films and ephemeral actions of 'Panic' by Alejandro Jodorowsky, Pedro Friedeberg's pop art, the conceptual art, infrarealists and urban independent photography, artists books, the development of contemporary political photography, the participation of Mexican artists in Fluxus in the seventies and the contribution of Ulises Carrión to the international artist book movement and popular rock music, the pictorial battles of the eighties and the emergence of a variant of neo-conceptual art in 1990. The exhibition is curated by Olivier Debrouse, Pilar García de Garmenos, Cuauhtémoc Medina, Álvaro Vázquez Mantecón"--

Quality Control in Criminal Investigation Xabier Agirre Aranburu 2020-11-09 Edited by Xabier Agirre Aranburu, Morten Bergsmo, Simon De Smet and Carsten Stahn, this 1,108-page book offers detailed analyses on how the investigation and preparation of fact-rich cases can be improved, both in national and international jurisdictions. Twenty-four chapters organized in five parts address, inter alia, evidence and analysis, systemic challenges in case-preparation, investigation plans as instruments of quality control, and judicial and prosecutorial participation in investigation and case-preparation. The authors include Antonio Angotti, Devasheesh Bais, Olympia Bekou, Gilbert Bitti, Leïla Bourguiba, Thijs B. Bouwknegt, Ewan Brown, Eleni Chaitidou, Cale Davis, Markus Eikel, Shreeyash Uday Lalit, Moa Lidén, Tor-Geir Myhrer, Trond Myklebust, Matthias Neuner, Christian Axboe Nielsen, Gilad Noam, Gavin Oxburgh, David Re, Alf Butenschøn Skre, Usha Tandon, William Webster and William H. Wiley, in addition to the four co-editors. There are also forewords by Fatou Bensouda and Manoj Kumar Sinha, and a prologue by Gregory S. Gordon. The book follows from a conference at the Indian Law Institute in New Delhi, and is the main outcome of the third leg of a research project of the Centre for International Law Research and Policy (CILRAP) known as the 'Quality Control Project'. Other books produced by the project are *Quality Control in Fact-Finding* (Second Edition, 2020) and *Quality Control in Preliminary Examination: Volumes 1 and 2* (2018). Covering three distinct phases - documentation, preliminary examination and investigation - the volumes consider how the quality of each phase can be improved. Emphasis is placed on the nourishment of an individual mindset and institutional culture of quality control. *Subject Catalog* Library of Congress 1975

The Age of Globalization Benedict Anderson 2013-11-05 The exchange of ideas makes history as surely as the exchange of gunfire. *The Age of Globalization* (previously published as *Under Three Flags*) is an account of the unlikely connections that made

up late nineteenth-century politics and culture. In particular, Benedict Anderson examines the links between militant anarchists in Europe and the Americas and the anti-imperialist uprisings in Cuba, China, and Japan. Told through the complex intellectual interactions of two great Filipino writers—the political novelist José Rizal and the pioneering folklorist Isabelo de los Reyes—*The Age of Globalization* is a brilliantly original work on how global networks shaped the nationalist movements of the time.

Spain, a Global History Luis Francisco Martinez Montes

2018-11-12 From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense—the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system—but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of

polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing *Don Quixote*, Velázquez was painting *Las Meninas*, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

Borges, Desire, and Sex Ariel de la Fuente 2020-09 Until now Jorge Luis Borges has been considered an asexual author who could not read or write about sex, but in this study historian Ariel de la Fuente reveals for the first time the relationship between Borges's sexual biography, his erotic readings, and the expression of desire and sex in his literature.

Fictions of Containment in the Spanish Female Picaresque Emily Kuffner 2019 This study examines the interdependence of gender, sexuality and space in the early modern period, which

saw the inception of architecture as a discipline and gave rise to the first custodial institutions for women, including convents for reformed prostitutes. Meanwhile, conduct manuals established prescriptive mandates for female use of space, concentrating especially on the liminal spaces of the home. This work traces literary prostitution in the Spanish Mediterranean through the sixteenth and seventeenth centuries, from the rise of courtesan culture in several key areas through the shift from tolerance of prostitution toward repression. Kuffner's analysis pairs canonical and noncanonical works of fiction with didactic writing, architectural treatises, and legal mandates, tying the literary practice of prostitution to increasing control over female sexuality during the Counter Reformation. By tracing erotic negotiations in the female picaresque novel from its origins through later manifestations, she demonstrates that even as societal attitudes towards prostitution shifted dramatically, a countervailing tendency to view prostitution as an essential part of the social fabric undergirds many representations of literary prostitutes. Kuffner's analysis reveals that the semblance of domestic enclosure figures as a primary erotic strategy in female picaresque fiction, allowing readers to assess the variety of strategies used by authors to comment on the relationship between unruly female sexuality and social order.

'Los Invisibles' Richard Cleminson 2007 A book about homosexuality in Spain. It focuses on the change in cultural representation of same-sex activity through medicalisation, social and political anxieties about race and the late emergence of homosexual sub-cultures in the last quarter of the twentieth century. It constitutes an analysis of discourses and ideas from a social history and medical history position.

El Tunel Ernesto Sabato 1992-04 For those interested in South American literature, this is a "tour-de-force". Clever and gripping from beginning to end, "El Tunel" reveals how an intelligent and educated man can be driven to insanity and even crime by his

own doubts and the obsessive drive for the love of a woman.

The Complete Poetry César Vallejo 2007-01-08 This first translation of the complete poetry of Peruvian César Vallejo (1892-1938) makes available to English speakers one of the greatest achievements of twentieth-century world poetry. Handsomely presented in facing-page Spanish and English, this volume, translated by National Book Award winner Clayton Eshleman, includes the groundbreaking collections *The Black Heralds* (1918), *Trilce* (1922), *Human Poems* (1939), and *Spain, Take This Cup from Me* (1939). Vallejo's poetry takes the Spanish language to an unprecedented level of emotional rawness and stretches its grammatical possibilities. Striking against theology with the very rhetoric of the Christian faith, Vallejo's is a tragic vision—perhaps the only one in the canon of Spanish-language literature—in which salvation and sin are one and the same. This edition includes notes on the translation and a fascinating translation memoir that traces Eshleman's long relationship with Vallejo's poetry. An introduction and chronology provide further insights into Vallejo's life and work.

Think Skinny, Feel Fit Alejandro Chabán 2017-06-06 Before you can lose pounds, you must shed weight. Alejandro Chabán suffered from being overweight as a child and from anorexia and bulimia as an adolescent, and desperately tried to have a healthy body. Then, after trying different diets and exercise regimens, he finally lost 150 pounds. But he discovered that even though his body was thin, in his mind, he was still overweight. This realization inspired him to develop techniques to accept these feelings and transform them into powerful practices. In 2012, this proven method led Alejandro to found Yes You Can!®, a program that has helped thousands of people to follow a healthy lifestyle with a Latin flavor. In *Think Skinny, Feel Fit*, Alejandro shares for the first time the seven steps that were essential in helping him master his mind in order to transform his body. Using personal anecdotes and examples, Alejandro explains in detail what it

means to be emotionally overweight, how emotions and physical well-being are connected, and how best to identify the mental obstacles that weigh down your mind and body. These steps, grounded in positive-thinking techniques, meditation, and self-acceptance and commitment, will help you lead a happier, healthier life. Now you can say "Yes!" to finally taking care of yourself the way you deserve.

Spatial and Temporal Dimensions for Legal History Massimo Meccarelli 2016-07-01

<http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes,

but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

When We Cease to Understand the World Benjamín Labatut
2020-09-03 SELECTED FOR BARACK OBAMA'S SUMMER
READING LIST 'A monstrous and brilliant book' Philip Pullman
'Wholly mesmerising and revelatory... Completely fascinating'
William Boyd Sometimes discovery brings destruction When We
Cease to Understand the World shows us great minds striking out
into dangerous, uncharted terrain. Fritz Haber, Alexander
Grothendieck, Werner Heisenberg, Erwin Schrödinger: these are
among the luminaries into whose troubled lives we are thrust as
they grapple with the most profound questions of existence. They
have strokes of unparalleled genius, they alienate friends and
lovers, they descend into isolated states of madness. Some of
their discoveries revolutionise our world for the better; others
pave the way to chaos and unimaginable suffering. The lines are
never clear. With breakneck pace and wondrous detail, Benjamín
Labatut uses the imaginative resources of fiction to break open
the stories of scientists and mathematicians who expanded our
notions of the possible.

Closing the Cancer Divide Felicia Marie Knaul 2012-12-17

Cancer has become a leading cause of death and disability and a serious yet unforeseen challenge to health systems in low- and middle-income countries. A protracted and polarized cancer transition is under way and fuels a concentration of preventable risk, illness, suffering, impoverishment from ill health, and death among poor populations. Closing this cancer divide is an equity imperative. The world faces a huge, unperceived cost of failure to take action that requires an immediate and large-scale global response. Closing the Cancer Divide presents strategies for innovation in delivery, pricing, procurement, finance, knowledge-building, and leadership that can be scaled up by applying a diagonal approach to health system strengthening. The chapters provide evidence-based recommendations for developing programs, local and global policy-making, and prioritizing research. The cases and frameworks provide a guide for developing responses to the challenge of cancer and other chronic illnesses. The book summarizes results of the Global Task Force on Expanding Access to Cancer Care and Control in Developing Countries, a collaboration among leaders from the global health and cancer care communities worldwide, originally convened by Harvard University. It includes contributions from civil society, global and national policy-makers, patients and practitioners, and academics representing an array of fields.

Spanish Poetry of the Twentieth Century Andrew Debicki
2021-12-14 Twentieth-century Spanish poetry has received comparatively little attention from critics writing in English. Andrew Debicki now presents the first English-language history published in the United States to examine the sweep of modern Spanish verse. More important, he is the first to situate Spanish poetry in the context of European modernity, to trace its trajectory from the symbolists to the postmodernists. Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories, Debicki offers detailed discussions of salient books and texts to construct an original and

compelling view of his subject. He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences. He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern, especially the poetics of text as process rather than as product. By centering his study on major periods and examining within each the work of poets of different ages, Debicki develops novel perspectives. The late 1960s and early 1970s, for example, were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound, intertextual, and often self-referential lyricism. This book will be essential reading for specialists in modern Spanish letters, for advanced students, and for readers interested in comparative literature.

Chilean Poet Alejandro Zambra 2022-02-17 Gonzalo is a frustrated would-be poet in a city full of poets; poets lurk in every bookshop, prop up every bar, ready to debate the merits of Teillier and Millan (but never Neruda - beyond the pale). Then, nine years after their bewildering breakup, Gonzalo reunites with his teen sweetheart, Carla, who is now, to his surprise, the mother of a young son, Vicente. Soon they form a happy sort-of family - a stepfamily, though no such word exists in their language. In time, fate and ambition pull the lovers apart, but when it comes to love and poetry, what will be Gonzalo's legacy to his not-quite-stepson Vicente? Zambra chronicles with tenderness and insight the everyday moments - absurd, painful, sexy, sweet, profound - that constitute family life in this bold and brilliant new novel.

The Land Within Pedro García Hierro 2005 By describing the fabric of relationships indigenous peoples weave with their environment, *The Land Within* attempts to define a more precise

notion of indigenous territoriality. A large part of the work of titling the South American indigenous territories may now be completed but this book aims to demonstrate that, in addition to management, these territories involve many other complex aspects that must not be overlooked if the risk of losing these areas to settlers or extraction companies is to be avoided.

Alexandre Surralls holds a doctorate in anthropology from the School for Higher Studies in Social Sciences and is a researcher on the staff of the National Centre for Scientific Research. Pedro Garca Hierro is a lawyer from Madrid Complutense University and the Pontifical Catholic University of Peru. He has worked with various indigenous organizations, on issues related to the identification and development of collective rights and the promotion of intercultural democratic reforms.

Principles of Transnational Civil Procedure American Law Institute 2005-12-12 The American Law Institute and UNIDROIT

(International Institute for the Unification of Private Law) are preeminent organizations working toward the clarification and advancement of the procedural rules of law. Recognizing the need for a 'universal' set of procedures that would transcend national jurisdictional rules and facilitate the resolution of disputes arising from transnational commercial transactions, Principles and Rules of Transnational Civil Procedure was launched to create a set of acceptable rules and principles that would be accepted globally. This work strives to reduce uncertainty for parties obliged to litigate in unfamiliar surroundings and promote fairness in judicial judgments. As recognized standards of civil justice, Principles and Rules of Transnational Civil Procedure can be used in pleadings, development, and presentation of evidence, legal argument, and tribunal judgments such as arbitration. The result is a work which significantly contributes to the promotion of a universal rule of law norm.

The Uses of Enchantment Bruno Bettelheim 2010-05-11

Winner of the National Book Award and National Book Critics Circle Award "A charming book about enchantment, a profound book about fairy tales."—John Updike, The New York Times Book Review Bruno Bettelheim was one of the great child psychologists of the twentieth century and perhaps none of his books has been more influential than this revelatory study of fairy tales and their universal importance in understanding childhood development. Analyzing a wide range of traditional stories, from the tales of Sindbad to "The Three Little Pigs," "Hansel and Gretel," and "The Sleeping Beauty," Bettelheim shows how the fantastical, sometimes cruel, but always deeply significant narrative strands of the classic fairy tales can aid in our greatest human task, that of finding meaning for one's life.

Stranger to the Moon Evelio Rosero 2021-09-07 A fantastical novel about power and subservience by the great Evelio Rosero, winner of Colombia's National Literature Prize The renowned

Colombian writer Evelio Rosero has never been one to shy away from the darker aspects of his nation's history and society. His magnificent novel *Stranger to the Moon* portrays a world that seems to exist outside time and place but taps into the dark myths and collective subconscious of his country, with its harrowing inequality and violence. A parable of pointed social criticism, with naked humans imprisoned in a house in order to serve the needs of "the vicious clothed ones," the novel describes what ensues when a single "naked one" privately rebels, risking his own death and that of his fellow prisoners. Each subsequent section of the book adds further layers to the ritualistic and bizarre social order inhabited by its characters. Insects and reptiles are trained as agents and spies against the naked ones, and only the most fortunate humans manage to reach old age by taking up strategic spots near the kitchens and grabbing for the fiercely contested food. *Stranger to the Moon* is a brave, powerful, and distinctive novel by a writer who arguably holds the strongest claim to the title of Colombia's greatest living author.

Goya Janis A. Tomlinson 2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous *Naked Maja* and *Clothed Maja* are also

highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

The Complete Posthumous Poetry César Vallejo 1980-09-29 The Translation judges for the National Book Awards--Richard Miller, Alastair Reid, Eliot Weinberger--cited Clayton Eshleman and Jose Rubia Barcia's translation of Cesar Vallejo's *The Complete Posthumous Poetry* as follows: "This, the first National Book Award to be given to a translation of modern poetry, is a recognition of Clayton Eshleman's seventeen-year apprenticeship to perhaps the most difficult poetry in the Spanish language. Eshleman and his present collaborator, Jose Rubia Barcia, have not only rendered these complex poems into brilliant and living English, but have also established a definitive Spanish text based on Vallejo's densely rewritten manuscripts. In recreating this modern master in English, they have also made a considerable addition to poetry in our language."

They Forged the Signature of God Viriato Sención 1995 This vivid exposé of corruption and political tyranny in the Dominican Republic rang so true to the reality that the President of that country went on television to denounce the book. Sención's novel follows the lives of three seminary students who suffer from church-state oppression. The book also gives a chilling portrait of Dr. Ramos, a sinister autocrat, who manages to survive six terms as president of his country through manipulation and tyranny.

Literature and Historiography in the Spanish Golden Age Sofie Kluge 2021-09-30 Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period's own "aesthetic-historical culture" which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy. *Literature and Historiography in the Spanish Golden Age: The Poetics of History* investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. Music on Stage Volume 2 Luis Campos 2020-11-11

Performance by its very nature embraces many constituents, the theories of which have developed into discreet disciplines as ongoing research deepens our understanding and knowledge of each one of them. Concomitantly, there continues to grow a greater interlinking, fusion and blurring of discreet boundaries between traditional genres – features highlighted in the seventeen papers presented here. Topics explored in this volume include: the intermedial performance of the Irrepressibles and electronically controlled sounds on the concert platform; the ways in which the physical body dictates movement and character and how the embodiment of the voice goes beyond character stereotypes; how Romeo Catellucci legitimized the audience's gaze whilst staging brain-damaged patients; interculturalism in a new operatic work focusing on the current Israeli-Palestinian crisis; interrogating transgenerational depictions of Otherness in the Rocky Horror Show; musical speech in Iannis Xenakis' reworking of ancient Greek in his *Oresteia*; genre conflation in terms of unaccompanied monodrama; trans-genre adaptation in Strauss's *Der Rosenkavalier* and Philip Glass's "Cocteau trilogy"; and textual and musical comedy in Ligeti's *Le Grand Macabre*, among others.

The System of Objects Jean Baudrillard 2020-04-07 The System of Objects is a tour de force—a theoretical letter-in-a-bottle tossed into the ocean in 1968, which brilliantly communicates to us all the live ideas of the day. Pressing Freudian and Saussurean categories into the service of a basically Marxist perspective, The System of Objects offers a cultural critique of the commodity in consumer society. Baudrillard classifies the everyday objects of the “new technical order” as functional, nonfunctional and metafunctional. He contrasts “modern” and “traditional” functional objects, subjecting home furnishing and interior design to a celebrated semiological analysis. His treatment of nonfunctional or “marginal” objects focuses on antiques and the psychology of collecting, while the metafunctional category extends to the useless, the aberrant and even the “schizofunctional.” Finally, Baudrillard deals at length with the implications of credit and advertising for the commodification of everyday life. The System of Objects is a tour de force of the materialist semiotics of the early Baudrillard, who emerges in retrospect as something of a lightning rod for all the live ideas of the day: Bataille’s political economy of “expenditure” and Mauss’s theory of the gift; Reisman’s lonely crowd and the “technological society” of Jacques Ellul; the structuralism of Roland Barthes in The System of Fashion; Henri Lefebvre’s work on the social construction of space; and last, but not least, Guy Debord’s situationist critique of the spectacle.

The Notebooks of Don Rigoberto Mario Vargas Llosa 2012-08-16 Don Rigoberto - a rather grey insurance executive by day, a dedicated pornographer and sexual enthusiast by night - misses Lucrecia, his estranged second wife. He desperately compensates for her absence by filling his notebooks with a steamy mix of memory and sexual fantasy. Husband and wife have been separated for a year because of a sexual encounter between

Rigoberto's pre-pubescent son Alfonso and his stepmother. Alfonso is a strange fey creature of angelic appearance and apparently diabolical impulses - more seducer than seduced despite his age. He visits Lucrecia's house without his father's knowledge and insists that he wants his parents to make up, having apparently forgotten the incident that caused the original break-up. Meanwhile, Rigoberto and Lucrecia are each receiving highly erotic letters which each believe to have been sent by the other but may well have been written by Alfonso. Add to all this the notebooks at the core of the novel and the reader is drawn into Don Rigoberto's own confusion between imagination and physical reality. The Notebooks of Don Rigoberto is a funny, sexy, disquieting and very compelling novel that is one of Vargas Llosa's finest works.

Disabled Bodies in Early Modern Spanish Literature

Encarnación Juárez-Almendros 2017-12-31 This study examines the concepts and role of women in selected Spanish discourses and literary texts from the late fifteenth to seventeenth centuries from the perspective of feminist disability theories, concluding that paradoxically, femininity, bodily afflictions, and mental instability characterized the new literary heroes at the very time Spain was at the apex of its imperial power.
