Unbearable Lightness Portia de Rossi 2011-03-03 "I didn't decide to become anorexic. It snuck up on me disguised as a healthy diet, a professional attitude. Although there was a certain glamour to anorexics, I didn't want to be one. I just wanted to excel in dieting. And weighing in at 80 pounds on 300 calories a day, I was the best little dieter there ever was." In scalding prose, Portia de Rossi reveals the pain and illness that haunted her for decades. She alternately starved herself and binged, putting her life in danger and lying to herself and everyone around her about the depth of her illness. From her lowest point, Portia began the painful climb back to health and happiness, ultimately falling head over heels in love with Ellen DeGeneres. In this remarkable and landmark book, she tells a story that inspires hope and nourishes the spirit.

Before We Were Strangers Renée Carlino 2015-08-18 Before We Were Strangers description forthcoming from Atria Books.

The Bohemian South Shawn Chandler Bingham 2017-05-08 From the southern influence on nineteenth-century New York to the musical legacy of late-twentieth-century Athens, Georgia, to the cutting-edge cuisines of twenty-first-century Asheville, North Carolina, the bohemian South has long contested traditional views of the region. Yet, even as the fruits of this creative South have famously been celebrated, exported, and expropriated, the region long was labeled a cultural backwater. This timely and illuminating collection uses bohemia as a novel lens for reconsidering more traditional views of the South. Exploring wide-ranging locales, such as Athens, Austin, Black Mountain College, Knoxville, Memphis, New Orleans, and North Carolina's Research Triangle, each essay challenges popular interpretations of the South, while highlighting important bohemian sub- and countercultures. The Bohemian South provides an important perspective in the New South as an epicenter for progress, innovation, and experimentation. Contributors include Scott Barretta, Shawn Chandler Bingham, Jaime Cantrell, Jon Horne Carter, Alex Sayf Cummings, Lindsey A. Freeman, Grace E. Hale, Joanna Levin, Joshua Long, Daniel S. Margolies, Chris Offutt, Zandria F. Robinson, Allen Shelton, Daniel Cross Turner, Zackary Vernon, and Edward Whitley.

Gastrophysics Charles Spence 2017-03-30 A ground-breaking book by the world-leading expert in sensory science: Freakonomics for food Why do we consume 35% more food when eating with one more person, and 75% more when with three? Why are 27% of drinks bought on aeroplanes tomato juice? How are chefs and companies planning to transform our dining experiences, and what can we learn from their cutting-edge insights to make memorable meals at home? These are just some of the ingredients of Gastrophysics, in which the pioneering Oxford professor Charles Spence shows how our senses link up in the most extraordinary ways, and reveals the importance of all the "off-the-plate" elements of a meal: the weight of cutlery, the colour of the plate (his lab showed that red is associated with sweetness - we perceive salty popcorn as tasting sweet when served in a red bowl), the background music and much more. Whether dining alone or at a dinner party, on a plane or in front of the TV, he reveals how to understand what we're tasting and influence what others experience. Meal-times will genuinely never be the same again.

Romancing the Zombie Ashley Szanter 2017-10-06 The zombie--popular culture's undead darling--shows no signs of stopping. But as it develops to suit changing audience tastes, its characteristics transform. This collection of new essays examines the latest incarnation, the romantic zombie, a re-humanized monster we want to help, heal and connect with rather than destroy. The authors discuss our increasingly sympathetic view of the reanimated dead as more than physical bodies devoid of life and personality. Their essays cover a range of topics, including audience obsession with Apocalyptic love; the problem of a kinder, gentler undead; the millennial reinvention of the "sexy zombie"; and "uncanny valley romance."

Food Words Peter Jackson 2013-05-23 Food Words is an A-Z series of provocative essays on key topics in the dynamic field of food studies, focusing on current controversies and debates.

The Perfect Meal Charles Spence 2014-09-22 The authors of The Perfect Meal examine all of the elements that contribute to the diners experience of a meal (primarily at a restaurant) and investigate how each of the diners senses contributes to their overall multisensory experience. The principal focus of the book is not on flavor perception, but on all of the non-food and beverage factors that have been shown to influence the diners overall experience. Examples are: the colour of the plate (visual) the shape of the glass (visual/tactile) the names used to describe the dishes (cognitive) the background music playing inside the restaurant (aural) Novel approaches to understanding the diners experience in the restaurant setting are explored from the perspectives of decision neuroscience, marketing, design, and psychology. 2015 Popular Science Prose Award Winner.

Side Dishes Melissa A Fitch 2009-06-25 Moving beyond the "main dishes" of traditional literary works, Side Dishes offers a provocative and delicious new understanding of Latin American women's authorship and activism. The book illuminates a wealth of creative and intellectual work by Latin American women—editors, directors, cartoonists, academics, performance artists, and comedians—and explores them in light of their treatment of women's sexuality. Side Dishes considers feminist pornography and literary representations of masturbation, bisexuality, lesbianism, and sexual fantasies; the treatment of lust in stand-up comedy and science fiction; critical issues in leading feminist journals; and portrayals of sexuality in four contemporary Latin American films. Melissa A. Fitch concludes with a look at the rise of women's and gender studies programs in Latin America.

The Sex Life of Food Bunny Crumpacker 2007-04-01 "The sex life of food" doesn't mean that the strawberries have fallen in love with the oatmeal. It's a look at food—and sex—and how they go together in our daily lives much more often than we realize. There are so many ways that hunger and desire act on each other, and so many things that can influence our preferences. Not only are people moved by the taste, texture, and the shapes of the food they eat, but even the names of some dishes can kindle hunger—of both kinds—in some. As the author writes, "Sometimes cooking is foreplay, eating is making love, and doing the dishes is the morning after." The many things Bunny Crumpacker shares with the readers of her fascinating book almost could have inspired her to write a novel, sending Adam and Eve (with their apple) traveling through history as the icons of our passions. Instead, she has gone far beyond the obvious to bring us unexpected and tantalizing knowledge of how much and in how many surprising ways we assuage our hunger for both food and sex and how where there's one, there is often the other. The result is a continued delight. There's history and humor, obvious connections and truly amazing ones. The author enlightens us on a myriad of topics, including food in fairy tales, what politicians eat, comfort food, and manners at the table. But enough! There's too much to say. Turn the pages and let Bunny Crumpacker introduce you to The Sex Life of Food.

Providing Healthy and Safe Foods As We Age Institute of Medicine 2010-11-29 Does a longer life mean a healthier life? The number of adults over 65 in the United States is growing, but many may not be aware that they are at greater risk from foodborne diseases and their nutritional needs change

as they age. The IOM's Food Forum held a workshop October 29-30, 2009, to discuss food safety and nutrition concerns for older adults.

Women Food and God Geneen Roth 2011-09-29 Millions of us are locked into an unwinnable weight game, as our self-worth is shredded with every diet failure. Combine the utter inefficacy of dieting with the lack of spiritual nourishment and we have generations of mad, ravenous self-loathing women. So says Geneen Roth, in her life-changing new book, *Women, Food and God*. Since her 1991 bestseller, *When Food Is Love*, was published, Roth has taken the sum total of her experience and combined it with spirituality and psychology to explain women's true hunger. Roth's approach to eating is that it is the same as any addiction - an activity to avoid feeling emotions. From the first page, readers will be struck by the author's intelligence, humour and sensitivity, as she traces the path of overeating from its subtle beginnings through to its logical end. Whether the drug is booze or brownies, the problem is the same: opting out of life. She powerfully urges readers to pay attention to what they truly need - which cannot be found in a supermarket. She provides seven basic guidelines for eating (the most important is to never diet) and shares reassuring, practical advice that has helped thousands of women who have attended her highly successful seminars. Truly a thinking woman's guide to eating - and an anti-diet book - women everywhere will find insights and revelations on every page.

The Consuming Geographies of Food Hillary J. Shaw 2014-04-24 The consumption and distribution of food, as well as its production, has become a major public policy issue over the past few decades; what we eat is no longer merely a private matter but carries significant externalities for wider society. Its increasing significance within the public arena implies a dissonance regarding the boundaries of food; where do we draw the line between food as private and food as public? What are the rights of society to impinge upon individual food consumption, and what conflicts will ensue when this boundary is disputed? *The Consuming Geographies of Food* explores these multiple issues of food across different regions of the world from the consumer's perspective. It uniquely explicates the factors that lead customers towards certain typologies of consumption and towards certain types of retailing, offering a comprehensive review of the obesity problem, the phenomenon of food deserts and the issue of exclusion from a healthy diet. It then considers the effects of food on the consumer, the dynamic relationship between food and people, and the issue of food exclusion before concluding with possible futures for food consumption, from low-technology projects to high-technology scenarios. Based on original research into food access, ethics and consumption in both developed and less-developed countries this book will be of interest to students, researchers and academics in the fields of geography, economics, hospitality health, marketing, nutrition and sociology.

Milk Fed Melissa Broder 2022-02-17 Rachel is twenty-four, a lapsed Jew who has made calorie restriction her religion. By day, she maintains an illusion of control by way of obsessive food rituals. At night, she pedals nowhere on the elliptical machine. Then Rachel meets Miriam, a young Orthodox Jewish woman intent upon feeding her. Rachel is suddenly and powerfully entranced by Miriam - by her sundaes and her body, her faith and her family - and as the two grow closer, Rachel embarks on a journey marked by mirrors, mysticism, mothers, milk, and honey. Pairing superlative emotional insight with unabashed vivid fantasy, Melissa Broder tells a tale of appetites: of physical hunger, of sexual desire, of spiritual longing. *Milk Fed* is a tender and riotously funny meditation on love, certitude, and the question of what we are all being fed, from one of our major writers on the psyche - both sacred and profane.

I Love Jesus, But I Want to Die Sarah J. Robinson 2021-05-11 A compassionate, shame-free guide for your darkest days "A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized."—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn't cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to "choose joy" and "pray more." So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

Should We Eat Meat? Vaclav Smil 2013-03-18 Meat eating is often a contentious subject, whether considering the technical, ethical, environmental, political, or health-related aspects of production and consumption. This book is a wide-ranging and interdisciplinary examination and critique of meat consumption by humans, throughout their evolution and around the world. Setting the scene with a chapter on meat's role in human evolution and its growing influence during the development of agricultural practices, the book goes on to examine modern production systems, their efficiencies, outputs, and impacts. The major global trends of meat consumption are described in order to find out what part its consumption plays in changing modern diets in countries around the world. The heart of the book addresses the consequences of the "massive carnivory" of western diets, looking at the inefficiencies of production and at the huge impacts on land, water, and the atmosphere. Health impacts are also covered, both positive and negative. In conclusion, the author looks forward at his vision of "rational meat eating", where environmental and health impacts are reduced, animals are treated more humanely, and alternative sources of protein make a higher contribution. *Should We Eat Meat?* is not an ideological tract for or against carnivorousness but rather a careful evaluation of meat's roles in human diets and the environmental and health consequences of its production and consumption. It will be of interest to a wide readership including professionals and academics in food and agricultural production, human health and nutrition, environmental science, and regulatory and policy making bodies around the world.

Voices of the Food Revolution Robbins, John 2013-05-01 Did you know that: More than 80% of the foods you eat in restaurants and buy at supermarkets contain genetically engineered ingredients, and that these ingredients have been linked to toxic and allergic reactions in people; sickness, sterility, and fatalities in livestock; and damage to virtually every organ studied in lab animals? If you don't count French fries, ketchup or pizza as vegetables, more than half of Americans eat no vegetables at all? Cows raised for meat are impacting our climate more than cars? It's possible to be a positive food revolutionary without sounding like a self-righteous nag? Join John and Ocean Robbins for 21 intimate, game-changing conversations with some of the world's leading "food revolutionaries": scientists, doctors, teachers, farmers, economists, activists, and nutritionists working on food issues today. Introduced and with commentary by John Robbins and his son Ocean, the book features luminaries such as: Dean Ornish, MD, on his years-in-the-making breakthrough with Medicare (his program for healing heart disease is now covered) Kathy Freston on making incremental, manageable changes to how we eat. Colin Campbell, PhD, (author of the famed China Study) with the latest research on animal protein and human health. Joel Fuhrman, MD (author of the bestselling *Eat to Live*), on achieving excellent health through diet. Caldwell Esselstyn, MD, of the Cleveland Clinic on wiping out heart disease by changing what we eat. Vandana Shiva, PhD, on GMOs and Big Ag. Rory Freedman on how to stop eating misery and start looking fabulous. Raj Patel on building a saner global food policy. Each contributor discusses his or her work in depth, but together they make one rallying cry: for a healthy, sustainable, humane, and delicious revolution in how we and the world are fed. Over twenty-five years ago John Robbins started a revolution. This book is proof of how far we've come, a fascinating look behind the scenes of the multi-faceted food movement, and a call to join in the work of ensuring our health and food future.

Body And Soul Anne Stirling Hastings 1996 Maintained by the broadcast media and advertising, as well as by prurient "old wives tales" handed down by tradition. The author confronts our most closely held views of sexuality, such as the belief in a powerful dominating sex drive, and the perception of monogamy as an ideal to force ourselves to live up to. She also explains how sexual harassment can be seen as a perversion of the mating dance, and how traditional sex therapy actually encourages the use of cultural.

Handbook of Color Psychology Andrew J. Elliot 2015-12-17 We perceive color everywhere and on everything that we encounter in daily life. Color science has progressed to the point where a great deal is known about the mechanics, evolution, and development of color vision, but less is known about the relation between color vision and psychology. However, color psychology is now a burgeoning, exciting area and this Handbook provides comprehensive coverage of emerging theory and research. Top scholars in the field provide rigorous overviews of work on color categorization, color symbolism and association, color preference, reciprocal relations between color perception and psychological functioning, and variations and deficiencies in color perception. The Handbook of Color Psychology seeks to facilitate cross-fertilization among researchers, both within and across disciplines and areas of research, and is an essential resource for anyone interested in color psychology in both theoretical and applied areas of study.

The Omnivore's Dilemma Michael Pollan 2007-08-28 "Outstanding . . . a wide-ranging invitation to think through the moral ramifications of our eating habits." —The New Yorker One of the New York Times Book Review's Ten Best Books of the Year and Winner of the James Beard Award Author of This is Your Mind on Plants, How to Change Your Mind and the #1 New York Times Bestseller In Defense of Food and Food Rules What should we have for dinner? Ten years ago, Michael Pollan confronted us with this seemingly simple question and, with *The Omnivore's Dilemma*, his brilliant and eye-opening exploration of our food choices, demonstrated that how we answer it today may determine not only our health but our survival as a species. In the years since, Pollan's revolutionary examination has changed the way Americans think about food. Bringing wide attention to the little-known but vitally important dimensions of food and agriculture in America, Pollan launched a national conversation about what we eat and the profound consequences that even the simplest everyday food choices have on both ourselves and the natural world. Ten years later, *The Omnivore's Dilemma* continues to transform the way Americans think about the politics, perils, and pleasures of eating.

Multisensory Flavor Perception Betina Piqueras-Fiszman 2016-04-14 Multisensory Flavor Perception: From Fundamental Neuroscience Through to the Marketplace provides state-of-the-art coverage of the latest insights from the rapidly-expanding world of multisensory flavor research. The book highlights the various types of crossmodal interactions, such as sound and taste, and vision and taste, showing their impact on sensory and hedonic perception, along with their consumption in the context of food and drink. The chapters in this edited volume review the existing literature, also explaining the underlying neural and psychological mechanisms which lead to crossmodal perception of flavor. The book brings together research which has not been presented before, making it the first book in the market to cover the literature of multisensory flavor perception by incorporating the latest in psychophysics and neuroscience. Authored by top academics and world leaders in the field Takes readers on a journey from the neurological underpinnings of multisensory flavor perception, then presenting insights that can be used by food companies to create better flavor sensations for consumers Offers a wide perspective on multisensory flavor perception, an area of rapidly expanding knowledge

Different Sex Life Of Food When Body And Soul Meet To Eat eBook Formats Explained

1. EPUB (Electronic Publication):

EPUB is one of the most common eBook formats, known for its versatility and compatibility across a wide range of eReaders and devices.

Features include reflowable text, adjustable font sizes, and support for images and multimedia.

EPUB3, an updated version, offers enhanced interactivity and multimedia support.

2. MOBI (Mobipocket):

MOBI was originally developed for Mobipocket Reader but is also supported by Amazon Kindle devices.

It features a proprietary format and may have limitations compared to EPUB, such as fewer font options.

3. PDF (Portable Document Format):

PDFs are a popular format for eBooks, known for their fixed layout, preserving the book's original design and formatting.

While great for textbooks and graphic-heavy books, PDFs may not be as adaptable to various screen sizes.

4. AZW/AZW3 (Amazon Kindle):

These formats are exclusive to Amazon Kindle devices and apps.

AZW3, also known as KF8, is an enhanced version that supports advanced formatting and features.

5. HTML (Hypertext Markup Language):

HTML eBooks are essentially web pages formatted for reading.

They offer interactivity, multimedia support, and the ability to access online content, making them suitable for textbooks and reference materials.

6. TXT (Plain Text):

Plain text eBooks are the simplest format, containing only unformatted text.

They are highly compatible but lack advanced formatting features.

Choosing the right Sex Life Of Food When Body And Soul Meet To Eat eBook format is crucial for a seamless reading experience on your device. Here's a quick guide to format compatibility with popular eReaders:

EPUB: Compatible with most eReaders, except for some Amazon Kindle devices. Also suitable for reading on smartphones and tablets using dedicated apps.

MOBI: Primarily compatible with Amazon Kindle devices and apps.

PDF: Readable on almost all devices, but may require zooming and scrolling on smaller screens.

AZW/AZW3: Exclusive to Amazon Kindle devices and apps.

HTML: Requires a web browser or specialized eBook reader with HTML support.

TXT: Universally compatible with nearly all eReaders and devices.
