[Social Works](#) - Shannon Jackson 2011-02-21

'a game-changer, a must-read for scholars, students and artists alike' – Tom Finkelpearl At a time when art world critics and curators heavily debate the social, and when community organizers and civic activists are reconsidering the role of aesthetics in social reform, this book makes explicit some of the contradictions and competing stakes of contemporary experimental art-making. *Social Works* is an interdisciplinary approach to the forms, goals and histories of innovative social practice in both contemporary performance and visual art. Shannon Jackson uses a range of case studies and contemporary methodologies to mediate between the fields of visual and performance studies. The result is a brilliant analysis that not only incorporates current political and aesthetic discourses but also provides a practical understanding of social practice.

Even the Children of Strangers - Donald Wilson Jackson 1992

In this book Donald Jackson unravels the complex meanings of equal protection doctrine and its various interpretations over the last 134 years. He explores the conceptual basis for a variety of "pecking orders" (or discriminations) - most notably race and sex, but also wealth, occupation, and education - that have been used to justify special privilege, status, or rewards. He also examines the tensions between equal protection and American individualism, offering possible ways to resolve apparently intractable conflicts between individualism and affirmative action policies. Jackson argues that an assumption of human equality is always appropriate and that the burden of proof should be on

those who want to justify treating people differently, for whatever reason. Our long-standing difficulty, he contends, has not been with the principle of equality but with the inferior reasons we have accepted for deviating from that principle. Deliberately cast for the general reader, this study should widen the public understanding of equality and raise the level of the debates that surround it.

Justice Robert H. Jackson's Unpublished Opinion in Brown v. Board - David M. O'Brien 2017-11-17

Brown v. Board of Education is widely recognized as one of the US Supreme Court's most important decisions in the twentieth century. Robert H. Jackson, an associate justice on the case, is generally considered one of the Court's most gifted writers. Though much has been written about *Brown*, citing the writing and remarks of the justices who participated in the 1954 decision, comparatively little has been said about Jackson or his unpublished opinion, which is sometimes even mistakenly taken as a dissenting opinion. This book visits *Brown v. Board of Education* from Jackson's perspective and, in doing so, offers a reinterpretation of the justice's thinking, and of the Supreme Court's decision making, in a ruling that continues to reverberate through the nation's politics and public life. Weaving together judicial biography, legal history, and judicial politics, Justice Robert H. Jackson's Unpublished Opinion in *Brown v. Board* provides a nuanced look at constitutional interpretation, and the intersection of law and politics, from inside the mind of a justice, within the context of a Court deciding a seminal case. Through an analysis of six drafts of Jackson's unpublished concurring opinion, David M. O'Brien explores the justice's evolving thoughts on relevant issues at critical moments in the case. His retelling of *Brown* presents a new view of longstanding arguments confronted by Jackson and the other justices over "original intent" versus a "living Constitution," the role of the Court, and social change and justice in American political life. The book includes the final draft of Jackson's unpublished opinion, as well as the Warren Court's opinions in *Brown* and in *Bolling v. Sharpe*, for comparison, along with a timeline of developments and decision making leading to the Court's landmark ruling.

[A Vast Conspiracy](#) - Jeffrey Toobin 2000-10-13

"A Vast Conspiracy", which topped bestseller lists around the country, is the definitive account of the most extraordinary public saga of the times: the Clinton sex scandals. Toobin takes an entirely fresh look at the story that began around Paula Jones's kitchen table in Arkansas, and ended on the Senate floor, with only the second vote on presidential impeachment in American history.

Burning Down the House - Brian Pusser 2012-02-01

Heterosexuality in Theory and Practice - Chris Beasley 2012-10-12

This book explores heterosexualities in their complex and everyday expressions. It engages with theories about the intersection of sexuality with other markers of difference, and gender in particular. The outcome will productively upset equations of heterosexuality with heteronormativity and accounts that cast heterosexuality in "sex critical, sex as danger" terms. Queer/feminist 'pro-sex' perspectives have become prevalent in analyses of sexuality, but in these approaches queer becomes the site of subversive, transgressive, exciting and pleasurable sex, while heterosex, if mentioned at all, continues to be seen as objectionable or dowdy. It challenges heterosexuality's comparative absence in gender/sexuality debates and the common constitution of

heterosexuality as nasty, boring and normative. The authors develop an innovative analysis showing the limits of the sharply bifurcated perspectives of the "sex wars". This is not a revisionist account of heterosexuality as merely one option in a fluid smorgasbord, nor does it dismiss the weight of feminist/pro-feminist critiques of heterosexuality. This book establishes that if relations of domination do not constitute the analytical sum of heterosexuality, then identifying its range of potentialities is clearly important for understanding and helping to undo its "nastier" elements.

Jackson's Trust - Violet Duke

It's no secret that sports analyst Jackson Gray doesn't do relationships. What is a secret, however, is the reason why. Jackson's life is...complicated. And being assigned to train the station's cute new sideline reporter isn't helping one bit. It's bad enough the gorgeous tomboy's encyclopedic football knowledge clearly rivals his own, but she's also the most genuine, down to earth woman he's ever met. Sweet as hell, too—his weakness. Given his family history, and the future he's done his damndest to avoid, falling in love was never a risk Jackson's been willing to take. Until now. For Leila Hart, becoming an NFL sportscaster has always been the dream, and thanks to Jackson's fierce support and mentoring, it all finally seems within reach. Problem is, a girl can only take so much of that intense growl of his murmuring smart,

sexy football stats in her earpiece all day long. And don't get her started on the random acts of kindness he does that never fail to make her ovaries swoon. Yes, they have sizzling hot chemistry. But falling for a friend (and co-worker to boot) is just a terrible idea—especially for a woman like Leila, trying to make it in a male-dominated field, while navigating a complicated life of her own...
