Censoring Sex Research - Thomas K Hubbard 2013-08-31

This volume brings into daylight one of the most explosive episodes of censorship and censure of academic scholarship in recent decades, presenting an extended version of Bruce Rind's suppressed essay on sexual relations between male adults and adolescents cross-culturally, accompanied by twelve essays arguing for or against Rind and analysing the controversy.

[Building a Safepath: from Confusion to Clarity](#) - SafePath Children's Advocacy Center 2019-10-30
 Building a Safe Path : From Confusion to Clarity Caregiver Handbook is a guide for parents and caregivers wanting to make a difference in the lives of children who have been sexually abused. Building a SafePath provides education around the issues that emerge when a child has been sexually abused—guiding parents about such topics as the effects of sexual abuse, stress and

coping, the grief process, criminal and legal issues, and safety.

Assessing Sex Offenders - Terence W. Campbell 2007

This book reviews the scientific evidence relevant to assessing the recidivism risk of sex offenders, as well as the issues related to sex offenders, in considerable detail. It is not an attempt for creating sympathy for sex offenders. Substantial numbers of psychologists claim they can accurately identify the recidivism risk of sex offenders. Despite the very limited, peer-reviewed data related to these claims, many psychologists insist the scientific evidence supports their efforts in this regard. Too often, the issues detailed in these chapters have been overlooked and/or misinterpreted. As a result, the likelihood of psychologists misusing and abusing scientific data when assessing sex offenders should not be underestimated. This book identifies numerous instances of such misuse and abuse. Topics include: sexually violent person civil commitment statutes, clinical judgment and clinical experience, guided clinical risk assessments, actuarial assessment of recidivism risk, actuarial instruments for assessing recidivism risk, computing

classification accuracy, supplementary assessment procedures, adjusted actuarial assessments, diagnostic classification, treating sex offenders, and ethical obligations. Ultimately, however, the book challenges psychologists to recognize and respond to their scientific and professional responsibilities. When testifying as expert witnesses, ethical obligations prohibit psychologists from misinforming and misleading legal proceedings. These same obligations necessitate that psychologists support their opinions with relevant research data.

Canadian Journal of Psychiatry - 2009

Sex Offenders - Fabian M. Saleh 2021

"In his annual lecture to second year medical students, Dr. Fred Berlin describes an interview he had, early in his career, with a man whom he was evaluating following the man's arrest for child sexual abuse. Halfway through the interview, the arrested man interrupted Dr. Berlin's questions and said, You know, Doctor, your society takes a newborn baby boy; gathers family and friends, takes a knife and without any anesthesia cuts skin off the tip of his penis. This is accepted as a religious act. I bend over and kiss that same penis, and I am arrested as a child sexual abuser. Can you explain that to me? (Berlin, 2000)"--

The Sourcebook to Public Record Information - Peter Julius Weber 2004-10

Stop Searching . . . Start Finding! Professionals frustrated with searching for public records can now get accurate and current information on how to obtain records directly from the government. The revised and updated 5th edition of The Sourcebook to Public Record Information profiles-in-detail over 20,000 government agencies that house public records. More than a directory, the agency profiles found in The Sourcebook include access procedures, access restrictions, fees, online capabilities, turnaround times, along with addresses, phone/fax numbers, and additional information. Comprehensive Coverage! The Sourcebook contains an informative ?Public Record Primer? and the industry?s most comprehensive and current and profiles of County Courts, County Recording Offices, State Agencies, Federal Courts, plus, a place name/ZIP

Code/county cross index to locate the correct county location. Also includes state/county maps. This extensive guide of over 1,840 pages is a superb time saving and cost cutting resource for background investigations, libraries, legal research, people/asset location and background screening.

Practitioner's Guide to Empirically Supported Measures of Anger, Aggression, and Violence - George F Ronan 2013-07-26

This book contains three sections. Part I includes an introductory chapter and an applied chapter on conducting a risk assessment. Part II provides a description of how the measures were organized and quick-view tables that provide easy access to measures with enough information to allow for an estimate of the likelihood that reading additional information about a particular measure would prove fruitful. Measures are organized alphabetically into tables for measures of anger, aggression, or violence. Each of the tables provides the name of the measure, the purpose for which the measure was developed, and the targeted population. The tables also provide information on the method of assessment, the amount of time required to use the measure, and the page number where additional information is available. Part II also contains the review of each measure. Part III provides examples of measures that can be copied for research or clinical purposes.

Current Issues in Higher Education - Stanley D. Murphy 1998

A collection of 13 studies based on research into ongoing changes in higher education in the US. They cover leadership, wellness and health programs, student services, administration, curriculum, technology, athletics, diversity, volunteer service, and international issues. Discussion questions for each study are appended for use in a graduate education course. Annotation copyrighted by Book News, Inc., Portland, OR

Sex Offenders - Fabian M. Saleh M.D. 2009-02-11

This comprehensive reference by nationally recognized experts provides an interdisciplinary overview of existing knowledge about sex offenders. It provides in-depth coverage of the problem of identification, risk assessment and management, treatment, and legal solutions. It

seeks to ensure public safety while at the same time maintaining medical integrity and respect for due process. The book is intended for psychiatrists, clinical psychologists, and researchers who work with sex offenders, as well as attorneys, members of the judiciary, and policymakers.

The Journal of the American Academy of Psychiatry and the Law - 2000

Protecting Your Children From Sexual Predators - Dr. Leigh Baker 2002-04-17

Predators are everywhere and they can strike at any time-- and they come in all shapes and sizes. More than 1.2 million families will report child sexual abuse by the end of this year. Research suggests that many hundreds of thousands more boys and girls from all backgrounds and of all ages may experience abuse that is not reported. To keep your family from becoming part of these frightening statistics, you must read this invaluable book. Protecting Your Children from Sexual Predators details everything you need to know and everything you need to do to keep your child safe. You will learn how to identify potential sexual predators, how to recognize the signs of the grooming behaviors that come before the actual act of sexual abuse, and how to arm your children with the necessary skills to prevent abuse. Sexual predators commit the most heinous acts against the more defenseless members of our society. They often are disguised as harmless and caring people; they may interact with your children as their baby-sitters, youth group leaders, clergy, teachers, coaches, neighbors, medical professionals, and family members. What these predators hold in common is their ability to earn the trust of both the children they attack and their parents. In Protecting Your Children from Sexual Predators, Dr. Leigh Baker gives you the unique opportunity to meet these predators up close and to examine: * The ten most common characteristics they display, such as refusal to take responsibility for their actions, sense of entitlement, and the need for power and control. * How they lead their victims through the five stages of sexual abuse. * The four types of personalities they commonly exhibit. * How female sexual predators can gain access to your child. * The ways that juveniles offend against

other children. * How sexual predators travel the Internet and the many ways that they can harm your child through cyberspace. * How baby-sitting can pose a danger to your child if you don't take the necessary steps to ensure safety. * How to use the sex offender registry to prevent known predators from gaining access to your child. By allowing parents to identify sexual predators before their children are harmed, Dr. Baker takes the battle to end sexual abuse to the only front where it can ever truly be won: the home front.

Grant\$ for Children and Youth - 1994

Tall Walls and High Fences - Bob Alexander 2020-10-15

Texas has one of the world's largest prison systems, in operation for more than 170 years and currently employing more than 28,000 people. Hundreds of thousands of people have been involved in the prison business in Texas: inmates, correctional officers, public officials, private industry representatives, and volunteers have all entered the secure facilities and experienced a different world. Previous books on Texas prisons have focused either on records and data of the prisons, personal memoirs by both inmates and correctional officers, or accounts of prison breaks. Tall Walls and High Fences is the first comprehensive history of Texas prisons, written by a former law enforcement officer and an officer of the Texas prisons. Bob Alexander and Richard K. Alford chronicle the significant events and transformation of the Texas prison system from its earliest times to the present day, paying special attention to the human side of the story. Incarceration policy evolved from isolation to hard labor to rodeo and educational opportunities, with reform measures becoming an ever-evolving quest. The complex job of the correctional officer has evolved as well—they must ensure custody and control over the inmate population at all times, in order to provide a proper environment conducive to safety and positive change. Alexander and Alford focus especially on the men and women who work with diligence and dedication at their jobs “inside the walls,” risking their lives and—in too many instances—giving their lives in a peculiar line of duty most would find unpalatable. Within these

pages are stories of prison breaks, bloodhounds chasing escapees, and gunfights. Inside the walls are deadly confrontations, human trafficking, rape, clandestine consensual trysts, and tricks turned against correctional officers. Famous people and episodes in Texas prison history receive their due, from Texas Rangers apprehending and placing outlaws in prison to the famed gunfighter John Wesley Hardin's time in and out of prison. Tall Walls and High Fences covers numerous convict escape attempts and successes, including the 1974 prison siege at Huntsville and the 2007 prisoner gunfight and escape at the Wynne Unit. Throughout this long history Alexander and Alford pay special tribute to the more than 75 correctional officers, lawmen, and civilians who lost their lives in the line of duty.

The Victimization of Women - Michelle L. Meloy 2010-12-24

In *The Victimization of Women*, Michelle Meloy and Susan Miller present a balanced and comprehensive summary of the most significant research on the victimizations, violence, and victim politics that disproportionately affect women. They examine the history of violence against women, the surrounding debates, the legal reforms, the related media and social-service responses, and the current science on intimate-partner violence, stalking, sexual harassment, sexual assault, and rape. They augment these victimization findings with original research on women convicted of domestic battery and men convicted of sexual abuse and other sex-related offenses. In these new data, the authors explore the unanticipated consequences associated with changes to the laws governing domestic violence and the newer forms of sex-offender legislation. Based on qualitative data involving in-depth, offender-based interviews, and analyzing the circumstances surrounding arrests, victimizations, and experiences with the criminal justice system, *The Victimization of Women* makes great strides forward in understanding and ultimately combating violence against women.

Trauma and Dissociation in Convicted Offenders - Kathryn Quina 2013-01-11

Better understand the men and women most affected by trauma in our society Convicted

offenders quite often are found to have a history of trauma. *Trauma and Dissociation in Convicted Offenders: Gender, Science, and Treatment Issues* provides a comprehensive look at the connection between complex trauma and the likelihood of being a convicted offender. This unique text focuses on what factors increase the likelihood of being a convicted offender, and what treatment possibilities lay ahead for these individuals. Substance abuse, childhood sexual abuse, and other traumatic experiences and their links to incarcerated men and women are discussed in detail. Interventions and research within the corrections system are examined, with recommendations on how to better serve this population. *Trauma and Dissociation in Convicted Offenders: Gender, Science, and Treatment Issues* takes a reasoned stand on women and men in prison, understanding that while they are being punished for breaking the law, they also are survivors of trauma whose dysfunctions underscore the need for greater understanding and more research. This valuable source presents the most current research results while providing a clear view on important future directions of study and focus. Each chapter of this insightful resource is extensively referenced and many have tables to clearly present data. Topics in *Trauma and Dissociation in Convicted Offenders: Gender, Science, and Treatment Issues* include: the relationship between post-traumatic stress and lifetime substance abuse among incarcerated women research on women inmates with HIV sexual risk and hazardous drinking behavior study on the link between trauma and women domestic violence offenders dissociation and memory in sex abusers the 're-criminalization' of mental illness the effectiveness of group therapy for incarcerated women survivors of childhood sexual abuse (CSA) challenges, ethical issues, and benefits of conducting research with abuse survivors in a women's prison facility *Trauma and Dissociation in Convicted Offenders: Gender, Science, and Treatment Issues* is an essential resource for clinicians, educators, students, policymakers, and researchers.

Congressional Record - United States. Congress 2004

The Congressional Record is the official record of the proceedings and debates of the United

States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Clinical Assessment of Malingering and Deception, Fourth Edition - Richard Rogers
2020-05-28

"Widely used by practitioners, researchers, and students--and now thoroughly revised with 70% new material--this is the most authoritative, comprehensive book on malingering and related response styles. Leading experts translate state-of-the-art research into clear, usable strategies for detecting deception in a wide range of psychological and psychiatric assessment contexts, including forensic settings. The book examines dissimulation across multiple domains: mental disorders, cognitive impairments, and medical complaints. It describes and critically evaluates evidence-based applications of multiscale inventories, other psychological

measures, and specialized methods. Applications are discussed for specific populations, such as sex offenders, children and adolescents, and law enforcement personnel. Key Words/Subject Areas: malingering, deception, deceptive, feigning, dissimulation, feigned cognitive impairment, feigned conditions, defensiveness, response styles, response bias, impression management, false memories, forensic psychological assessments, forensic assessments, clinical assessments, forensic mental health, forensic psychological evaluations, forensic psychologists, forensic psychiatrists, psychological testing and assessment, detection strategies, expert testimony, expert witnesses, family law, child custody disputes, child protection, child welfare Audience: Forensic psychologists and psychiatrists; other mental health practitioners involved in interviewing and assessment, including clinical psychologists, social workers, psychiatrists, and counselors. Also of interest to legal professionals"--
