Chicken Soup for the Teenage Soul on Love & Friendship - Jack Canfield 2002

Friends. You gotta have 'em, but sometimes they drive you crazy. You love 'em, but sometimes they make you mad. They'll help you through a crisis...unless they are the crisis. So What's The Deal? Friends are more than just the people you hang out with. They make you laugh, they keep your secrets, they offer advice (some good, some bad), they give you a shoulder to cry on. Sometimes they move away, or betray your trust, or flake out, but mostly they are the people who are always there for you. And they know you'll be there when they need you most. Because that's what it means to be a friend. Sometimes friendship is overwhelming, sometimes it's confusing, sometimes you feel like you don't have a friend in the world, but don't worry, it's like that for everyone. That's what the stories in this book are all about. They're from real teens, and they're about the bizarre, difficult and wonderful things that really happened to them and their friends. Put that together with weird facts, cool graphics, fun advice and quizzes designed to help you figure what you and your friends are all about, and you've got the real deal on friendship

Reading Like a Girl - Sara K. Day 2013-06-03

By examining the novels of critically and commercially successful authors such as Sarah Dessen (Someone Like You), Stephenie Meyer (the Twilight series), and Laurie Halse Anderson (Speak), Reading Like a Girl: Narrative Intimacy in Contemporary American Young Adult Literature explores the use of narrative intimacy as a means of reflecting and reinforcing larger, often contradictory, cultural expectations regarding adolescent women, interpersonal relationships, and intimacy. Reading Like a Girl explains the construction of narrator-reader relationships in recent American novels written about adolescent women and marketed to adolescent women. Sara K. Day explains, though, that such levels of imagined friendship lead to contradictory cultural expectations for the young women so deeply obsessed with reading these novels. Day coins the term "narrative intimacy" to refer to the implicit relationship between narrator and reader that depends on an imaginary disclosure and trust between the story's narrator and the reader. Through critical examination, the inherent contradictions between this enclosed, imagined relationship and the real expectations for adolescent women's relations prove to be problematic. In many novels for young women, adolescent female narrators construct conceptions of the adolescent woman reader, constructions that allow the narrator to understand the reader as a confidant, a safe and appropriate location for disclosure. At the same time, such novels offer frequent warnings against the sort of unfettered confession the narrators perform. Friendships are marked as potential sites of betrayal and rejection. Romantic relationships are presented as inherently threatening to physical and emotional health. And so, the narrator turns to the reader for an ally who cannot judge. The reader, in turn, may come to depend upon narrative intimacy in order to vicariously explore her own understanding of human expression and bonds.
