

The Complete Dictionary Of Sexology

The Continuum Complete International Encyclopedia of Sexuality - Robert T. Francoeur
2004-01-01

--A completely updated one-volume edition of the 4-volume International Encyclopedia of Sexuality--Includes nearly 60 countries and places--12 not previously covered--by more than 200 authorities--It is the only reference work of its kind in any language

Sex Research and Sex Therapy - Ross Morrow
2013-06-17

Gynaecologist William Howell Masters and psychologist Virginia Eshelman Johnson pioneered research into the nature of human sexual response and the diagnosis and treatment of sexual disorders and dysfunctions from 1957 until the 1990s. This book examines their influential

scientific sex research and its groundbreaking implications for sex therapy and the study of human sexuality. Until now, these developments have been largely ignored in sociology. The book illuminates how Masters and Johnson have constructed their apparently scientific ideas about sexual function and dysfunction with reference to dominant Western discourses about sexuality. In addition, the book will explore some of the wider theoretical, conceptual and historical issues relating to the study of human sexuality. These will include a critical evaluation of conventional accounts of the history of the sociology of sex, particularly in the United States, major theoretical frameworks used in the study and understanding of human sexuality, and some of the key

concepts underpinning sex research and sex therapy. Imagining Teachers - Gustavo Fischman 2000
This book calls for a different understanding of the professional preparation of pre-service teachers, critically reflecting on issues of caring and gender, and challenging the dominance of 'words only' educational research methodologies. Using conceptual tools from visual anthropology, cultural studies, feminism and critical pedagogy, Fischman focuses on the educational dilemmas that students and professors in teacher education programs face within institutions that reinforce, rather than challenge, oppressive class, racial, ethnic and gender dynamics. He pays special attention to the transmission of models of teaching that are invested of essential masculine and feminine patterns that potentially lead to two very distinctive professional careers: one that is associated with 'dedication' and 'care', and a second that emphasizes

'order' and 'command'. Sexuality in America - Robert T. Francoeur 1999-08-01
Now available in a new paperback edition, this survey is different in both breadth and scope from all other reports on sexuality in the United States. It covers every topic imaginable, from a multicultural point of view, in order to reflect fully the complex society in which we live: the biological, psychological, social, and spiritual aspects of our sexual lives.

The Illustrated Dictionary of Sexology - Poosha Darbha, PhD 2001-11-01

A dictionary of terminology used in medicine, sexology, psychology, psychiatry, social and behavior sciences with reference to sexual anatomy, physiology, psychology, health, behavior and customs. Semi-academic.

The Wordsworth Dictionary of Sex - Robert M. Goldenson 1994

College Men and Masculinities - Shaun R.

*Downloaded from
legacy.opendemocracy.net
on 2023-09-30 by guest*

Harper 2010-03-08
COLLEGE MEN AND MASCULINITIES is a comprehensive handbook that offers a compilation of the best classic and contemporary research on male students in higher education. The editors, Shaun R. Harper and Frank Harris III—two experts in the field of men and masculinities—frame each of the six sections of the book with a summary of issues and implications for educational practice. Each section also includes a wealth of forward-thinking strategies and suggestions that faculty and institutional leaders can creatively employ on their campuses to reverse problematic trends and outcomes among male undergraduates. With contributions from leading scholars in education, sociology, psychology, and other disciplines, *College Men and Masculinities* explores the following issues in depth: Identity development and gender socialization Sexualities and sexual orientations

Destructive behaviors (judicial offenses, alcohol abuse, and violence) Health and wellness College men of color College men and sports This vital resource will help educators and administrators address the alarming trends and issues that arise from identity-related challenges among boys and college men. "What a valuable resource! This book includes some of the most influential research and theory on all aspects of collegiate masculinity—from sports to spirituality, hazing to hook-ups, and alcohol to assault. Always sensitive to how different groups of men experience college life, Harper and Harris's book will surely become the touchstone text for those who work with or study college men." —Michael Kimmel, author of *Manhood in America* and professor of sociology, Stony Brook University "Essential reading for all who care about gender equity, this book advances the conversation about men in college at the critical nexus of identity development, culture,

and relationship, enabling faculty and student affairs administrators to build more thoughtful and challenging educational environments for men from diverse populations."

—Susan Marine, Women's Center director and assistant dean for student life, Harvard University This book offers educators and administrators much-needed guidance for understanding and effectively meeting the developmental, academic, and social needs of undergraduate men."

—Chauncey Smith, undergraduate student leader, Morehouse College

Sex Offenders - Fabian M. Saleh 2021

"In his annual lecture to second year medical students, Dr. Fred Berlin describes an interview he had, early in his career, with a man whom he was evaluating following the man's arrest for child sexual abuse. Halfway through the interview, the arrested man interrupted Dr. Berlin's questions and said, You know, Doctor, your society takes a newborn baby boy; gathers family and friends,

takes a knife and without any anesthesia cuts skin off the tip of his penis. This is accepted as a religious act. I bend over and kiss that same penis, and I am arrested as a child sexual abuser. Can you explain that to me? (Berlin, 2000)"--

The Scent of Eros -

Inkhorn's Erotonomicon - Paul Convery 2012-11-01

For all those with lex on the brain, *Inkhorn's Erotonomicon* presents a unique lexicographical survey of love and lust in all its dimensions: sociological, somatological, sexological and sexosophical. Shunning the bland and the boring, eschewing common slang and swearwords, *Inkhorn's Erotonomicon* - *The Book of Sex Words* - is the first dictionary to gather together the obscure and the obsolete, the otiose and the ostentatious, the outlandish and the outrageous, showcasing words you would never otherwise have known existed for things you would never have believed possible. *Inkhorn* - your

intrepid word-hunter - brings you a dictionary which combines erudition with entertainment, providing concise and often quirky definitions for 5000 words and phrases across such diverse subject areas as Gendermaps & Gendermachy; Fornication & Fecundation; Organs & Orifices; Erotoleptis & Erotopraxis; Prostitution & Pornography; Matrimony & Matrimonotony; and Sexotica & Sexoterica. While even the largest unabridged dictionaries contain only a smattering of the more advanced and inventive erotic vocabulary, the entries in the Erotonomicon have been selected from a corpus of 25,000 words assembled from over 300 reference works and monographs in both print and electronic media. All original words have been comprehensively catalogued and their definitions cross-checked and verified wherever possible. No entries have been coined by the compiler. Welcome to Inkhorn's Erotonomicon - quite simply

the final word in dirty words!
Sex and Sexuality Among New York's Puerto Rican Youth - Marysol Asencio 2002
Though Latinos are the youngest and most rapidly growing minority ethnic group in the U.S. today, their experiences with regard to sexuality have received little attention. Remediating this, Sex, and Sexuality draws on the voices of second-generation Puerto Rican adolescents in New York to illustrate the complex interactions of class, culture, and acculturation that produce sexual behaviors and attitudes. Asencio reveals that programs encouraging abstinence, monogamy, and safer-sex practices have interacted with Latino adolescent social and cultural norms to produce changes - but not changes that reduce sexual risk. Her study presents both data and conclusions that have critical significance for the development of policy aimed at mitigating the devastation of HIV and other sexually transmitted diseases.

Interspersed with 'personal hauntings' from his own life and the lives of friends and relatives, Knowles reveals how historical discourses of sex continue to haunt us today. This book is a page-turner in simple and plain language about 'how sex got screwed up' for millennia. For Knowles, if we know the history of sex, we can get over it.

Liberating Minds - Norman G. Kester 1997-01-01

In this work, over 30 librarians (such as James V. Carmichael, Jr., Sanford Berman, Martha E. Stone, Gerald Perry, Barbara Gomez and Martha Cornog) address gay and lesbian issues facing the profession, and in some cases offer their own stories of understanding their sexuality and its implications on their professional lives. Some of the issues addressed are the need to uphold intellectual freedom, challenging the censorship of gay materials in libraries, AIDS material in the library, the information needs of gay and lesbian patrons, collection development, and confronting

homophobia.

The Complete Dictionary of Sexology - Robert T.

Francoeur 1995

A comprehensive dictionary of sexuality, this work covers 6000 sexually-related terms currently in use in the fields of the social and psychological sciences, biology and medicine, religion and law. Entries offer insights into contemporary technical terms and are cross-referenced.

A Descriptive Dictionary and Atlas of Sexology - Robert T.

Francoeur 1991-08-26

The editors of this dictionary have gathered terms and theories from glossaries in college textbooks on human sexuality, consulted medical dictionaries, and utilized concepts developed by psychologist John Money. The terms defined span the disciplines of sociology, biology, medicine, and the humanities. To be found among the more than 6000 entries are theories and observations about sex from Greek philosophers, Freud, and Masters and Johnson.

Downloaded from
legacy.opendemocracy.net
on 2023-09-30 by guest

Numerous entries include bibliographic information. Appendixes list philias and paraphilias; phobias and sexual anxieties; biographical sketches; and U.S. Supreme Court decisions relating to sexual behavior. Library Journal The field of sexuality spans a wide range of academic disciplines in the biological sciences, social sciences, and humanities, many of which do not share a common vocabulary. The diversity of expertise combined with a recent explosion of sexological research and knowledge has created confusion and inaccuracy in the cross-disciplinary use of language. By bringing together clear, succinct explanations of the terms and concepts used in each discipline, the authors of this descriptive dictionary have created a standard basis for communication throughout the field. This work provides more than six thousand entries. It defines the terms and theories that are essential to an understanding of the field and documents important

contributions to sexology--ranging from the observations of Greek philosophers to findings of sexual researchers from Kraftt-Ebing and Margaret Mead to Masters and Johnson. A substantial number of entries reflect the work of Dr. John Money, who significantly enriched the language of sexology and was responsible for such pivotal concepts as gender role and gender identity. Bibliographical information is provided for each topic and additional information is offered in the appendix. Researchers, professionals, and students working on any aspect of sex or sexuality will find this dictionary comprehensive and easy to use.

What Is Psychoanalysis? -

Barnaby B Barratt 2013-05-20
2020 American Board & Academy of Psychoanalysis (ABAPsa) book award winner!

In a radically powerful interpretation of the human condition, this book redefines the discipline of psychoanalysis by examining its fundamental assumptions about the

unconscious mind, the nature of personal history, our sexualities, and the significance of the "Oedipus Complex". With striking originality, Barratt explains the psychoanalytic way of exploring our inner realities, and criticizes many of the schools of "psychoanalytic psychotherapy" that emerged and prospered during the 20th century. In 1912, Sigmund Freud formed a "Secret Committee", charged with the task of protecting and advancing his discoveries. In this book, Barratt argues both that this was a major mistake, making the discipline more like a religious organization than a science, and that this continues to infuse psychoanalytic institutes today. What is Psychoanalysis? takes each of the four "fundamental concepts" that Freud himself said were the cornerstones of his science of healing, and offers a fresh and detailed re-examination of their contemporary importance. Barratt's analysis demonstrates how the profound work, as well

as the playfulness, of psychoanalysis, provides us with a critique of the ideologies that support oppression and exploitation on the social level. It will be of interest to advanced students of clinical psychology or philosophy, as well as psychoanalysts and psychotherapists.

Dictionary of Sexology -

Jacques Henri Bustanoby 1973
About 1000 terms intended for laymen and professionals. Also includes slang and vulgar terms as well as psychological and philosophical concepts. Entries include term or phrase, phonetic pronunciation, and concise definition. Cross references. A few drawings.

Human Sexuality - Vern L.

Bullough 2014-01-14

First Published in 1994. The purpose of an encyclopedia is to gather in one place information that otherwise would be difficult to find. Bring together a collection of articles that are authoritative and reflect a variety of viewpoints. The contributors come from a wide range of disciplines— from nursing to medicine, from

biology to history— and include sociologists, psychologists, anthropologists, political

scientists, literary specialists, academics and non-academics, clinicians and teachers, researchers and generalists.
