Chicken Soup for the Working Woman's Soul - Jack Canfield 2003

Whether she is a corporate executive or a factory worker, an entrepreneur or a "mompreneur," today's woman is an integral part of the workforce and the American Dream. Women have made inroads in many professions that were once the domain of only men while juggling the many demands of work and family. From the woman who manages a staff of fifty, to the mother who choreographs the comings and goings of a family of five, women are the ultimate multitaskers. This collection celebrates the diversity and special contributions of women in the world of work-their hopes, their dreams and aspirations, and their accomplishments. This very special book also acknowledges the important and often unappreciated women in the homeplace through stories of stay-at-home moms for whom raising children was their most important task. These tales recognize the vital contributions of women who find their reward in devoting their lives to their families instead of collecting a paycheck. Chapters include: All in a Day's Work; Balancing Work and Family; Teamwork; Special Moments, and more, and each shares the trials of working women and the special joys that achieving career dreams can bring. Readers will laugh, cry and nod in agreement as they connect with women who are not just making a living, but making a life.

Leadership for a Digital World - Annika Steiber 2022-05-07

The pace of change today is unprecedented. As more than one observer has said, change itself has changed. Technologies and markets in virtually every industry are now subject to rapid and unpredictable change, placing a premium on the ability to successfully manage new paradoxes, such as being entrepreneurial and efficient, as well as able to sense shifts and

rapidly respond and secure enough stability for quality and efficiency. In short, enterprise leaders face a paradigm shift in management, and they will be forced to transform their organizations in order to survive in the 21st century. This book will provide leaders with the fundamental principles for managing a firm in the digital economy, as well as the Rendanheyi business model, developed for the new century. Finally, the book will provide leaders with a case, based on GE Appliances, on how they can effectively transform their own organizations. Foreword by Edgar Schein and Peter Schein.

Spiritual Warfare for Women - Leighann McCoy 2011-07-01

Evil is real, and Christian women know it. While most books on the topic of spiritual warfare take a charismatic approach, Spiritual Warfare for Women aims directly at the center of the evangelical market, giving instruction and assurance to all women who want to protect themselves and the ones they love. McCoy provides spiritual wisdom and practical tips on identifying the enemy's strategies, overcoming fear, and exercising the power that comes from God. The book is structured around the battle between God's love and Satan's lies. Once a woman can embrace the first and reject the second, she is well on her way to victory.

Unstoppable - Chris Zook 2007-05-03

Over the next decade, two out of every three companies will face the challenge of their corporate lives: redefining their core business. Buffeted by global competition and facing an uncertain future, more and more executives will realize that they must make fundamental changes in their core even as they continue delivering the goods and services that keep them in business today. Unstoppable shows these managers how to look deep within their organizations to find undervalued, unrecognized, or underutilized assets that can serve as new platforms for sustainable growth. Drawing on more than thirty interviews with CEOs from companies such as De Beers, American Express, and Samsung, it shows readers how to recognize when the core needs reinvention and how to deploy the "hidden assets" that can be the basis for tomorrow's growth. Building on the author's previous books, Profit from the Core and Beyond the Core, this book shows how any company in crisis can transform itself to become truly unstoppable.

What Every Woman Should Know about

Cervical Cancer - Nenad Markovic 2016-12-19

This book (an updated and extended edition) is about mobilizing women and health care policy makers and providers to unite their efforts in a single strategy for fighting cervical cancer worldwide. The objective of this strategy would be to reverse cervical cancer prevalence and mortality rates among all 2.4 billion women at risk and to achieve this goal within 10-15 years of implementation. Cervical Cancer Screening (Pap test, VIA, VILI, or HPV) failed to stop

cervical cancer worldwide simply because many countries could not afford developing infrastructure necessary to carry on the global strategy, and because the outreach could not accomplish the targeted 51% of the population at risk. In 2015, there is still 600,000 women getting cervical cancer annually and 300,000 of them die. Every minute one woman gets cervical cancer and every 2 minutes one woman dies from this preventable disease. In 21st Century the Information Technology (IT) Revolution has made substantial impact on medicine enabling remote points-of care, scattered around the world, to be e-connected with experts in distant medical centers and to obtain quality diagnosis and proper guidelines for curative therapy of early stages of cervical cancer. Low frequency of costly interventions needed makes IT-based screening financially and socially beneficial for mass screening. This new Mobile Health technology with the Global Strategy for Fighting Cervical Cancer is subject to elaboration in our book as the new hope when old efforts have failed to stop the world "epidemics" of this grave but preventable disease. The language is adapted for easy reading and understanding by professionals and lay-persons. This book is intended for women at risk for cervical cancer, their health care providers, health insurance companies, government responsible for making health policy and healthcare industry because all of them have special role in the new Global Strategy elaborated in details in this book.

The Three Strategies of the Unstoppable Woman

- Britt Santowski 2010-07

This new book is a game-changer for entrepreneur-curious & entrepreneur-minded women. Instead of delivering water to a thirsty community, this book shows you how to dig your own well so that you can provide for yourself. For now. For the rest of your life. It sets out to reposition entrepreneur-minded women within you. Thus empowered, this book will move you: * from paralysis to potential * from hostility to harmony * from fear to freedom * from stagnation to action * from shame & blame to power & mobility * from invisible to spectacular. This book is unlike any other book ever written on the subject. Oh, sure, there's a plethora of books out there that promise you change. "If I can do it, so can you," many of them tout, and they proceed to tell their stories. Of course, if that were true, then there would be a Disneyland on every street corner, Warren Buffet would

have no secrets, there would be a hidden millionaire in every fry chef, and world peace would have arrived centuries ago because universal wealth would have long ago been achieved. This book is different, in that author Britt Santowski: => Respects YOU the reader, recognizing that your life's experiences is what makes you the expert, the center. She doesn't waste time showing you what's wrong with you; she points you to all that can be right. => Views the challenge of becoming an entrepreneur exclusively through the eyes and experience of woman. Because, guess what, women ARE different. => Understands that change can only come when the fear of staying "here" is going to hurt more than your fear of fading into a permanent state of inconspicuity. => Prepares you to shift from a invisible "role" (mother, wife, daughter, employee) to a spectacular contributor in both your own life and your legacy with others => Takes you over the hurdle that it's never too late. Even if you're halfway through life, you've got a second half to fill. This book will help you fill it, momentarily. => Shows you how to reach inside yourself, and discover and activate the power of your full potential. Learn about the three ultimate strategies that will help you structure an unshakable foundation of confidence and success. While no book can guarantee your success (and RUN AWAY if one ever deigns to make such a promise!), this book gives you the three foundational strategies upon which you can structure your own success: Accountability, Collaboration and Initiative. The Three Strategies of the UNSTOPPABLE WOMAN will show you: * Why letting go of your inner VICTIM is critical for your future success, and why you need to walk away from her sweet cousin, BLAME * How to recognize and celebrate your inner genius (and yes, she is there) * Why having a definite major purpose is critical to your success * How you can easily expand your network and influence, by simply leveraging what you already have access to * What's wrong with the Law of Attraction, and how you can avoid the pitfalls of woo-woo gurus * Concrete tools that will create an unstoppable momentum to guide you into a life of your creation. After all, here's the bottom line: You will spend more time dead than alive. Deciding to take control of your "alive time" puts you in

the Director's chair. The Three Strategies of the Unstoppable Woman will give you the three ultimate strategies that you can use to establish baseline confidence in whatever it is you choose to do with your life. This is NOT "Just Another Boring Business Book." No business plans, no capital fundraising proposals, no spreadsheets. All that is yet to come. This is the book that precedes all others. If you don't have the proper mind set, an unbreakable mental foundation, all the business tools in the world will not help you succeed. This book is about starting at the most logical place: The beginning. And if you didn't start there, it's never too late to back up!

The Oxford Handbook of Women, Peace, and Security - Sara E. Davies 2019

Passed in 2000, the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women, Peace, and Security (WPS) agenda. This agenda is a significant international normative and policy framework addressing the gender-specific impacts of conflict on women and girls, including protection against sexual and gender-based violence, promotion of women's participation in peace and security processes, and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies

after conflict. Implementation within and across states and international organizations - and within peace and security operations - has been slow despite significant transnational advocacy in support of the WPS agenda. The Oxford Handbook of Women, Peace, and Security brings together scholars, advocates, and policymakers to provide an overview of what we know concerning what works to promote women's participation in peace and security, what works to protect women and girls from sexual and gender-based violence and other human rights violations, and what works to prevent conflict drawing on women's experiences and knowledge of building peace from local to global levels. Just as importantly, it addresses the gaps in knowledge on and the future direction of scholarship on WPS. The handbook particularly aims to build on the findings from the 2015 Global Study of Resolution 1325, commissioned by the UN-Secretary General. Over the course of six sections, the handbook addresses the concepts and early history behind WPS; the theory and practice of WPS; international institutions involved with the WPS agenda; the implementation of WPS in conflict prevention, peace operations, peace building, arms control, human-rights protection, and protection of civilians; connections between WPS and other UN resolutions and agendas; and the ongoing and future challenges of WPS.

The Falling Rate of Learning and the Neoliberal Endgame - David Blacker 2013-12-13

The current neoliberal mutation of capitalism has evolved beyond the days when the wholesale exploitation of labor underwrote the world system's expansion. While "normal" business profits plummet and theft-by-finance rises, capitalism now shifts into a mode of elimination that targets most of us—along with our environment—as waste products awaiting managed disposal. The education system is caught in the throes of this eliminationism across a number of fronts: crushing student debt, impatience with student expression, the looting of vestigial public institutions and, finally, as coup de grâce, an abandonment of the historic ideal of universal education. "Education reform" is powerless against eliminationism and is at best a mirage that diverts oppositional energies. The very idea of education activism becomes a comforting fiction. Educational institutions are strapped into the eliminationist project—the neoliberal endgame—in a way that admits no escape, even despite the heroic gestures of a few. The school systems that capitalism has built and directed over the last two centuries are fated to go down with the ship. It is rational therefore for educators to cultivate a certain pessimism. Should we despair? Why, yes, we should—but cheerfully, as confronting elimination, mortality, is after all our common fate. There is nothing and everything to do in

order to prepare.
