Taking the

Love: A Treatise on the Science of Sex-attraction for the use of Physicians and Students of Medical Jurisprudence Bernard Simon Talmey 2020-09-28

In its right appreciation, love has been exalted by the ancients in song and story and extolled by priest and philosopher. "To the Spirit, to Heaven, to the Sun, to the Moon, to Earth, to Night, to the Day, and to the Father of all that is and will be, to Eros." Such an invocation was possible only among the ancient civilized nations. They recognized the importance of sexuality in life. They could not see any moral turpitude in actions, regarded by them as the design of nature and as the acme of felicity. They discovered in Love the focus of life. For this reason sexuality among the ancients was an object of pure reverence as the fundamental force of life. The divine adoration of sex was the practice of every tribe and nation of prehistoric antiquity. Even the organs of sex were considered beautiful and pleasurable objects, and were admired accordingly. The phallus, or the male sex-organ, and the yoni, the external female genitals, were symbols of the worship of the ancients and were objects of special religious rites. In the remotest antiquity the worship of the generative principle was the only religion known to men. Sex-worship was not confined to any one race. It was the form of worship common to all primeval nations of the globe. The Hindus, Chaldeans, Hebrews, Egyptians, Greeks, Romans, Gauls, Celts, Teutons, Britons and Scandinavians, all shared in phallicism and yonism. The study of sexual activities and of generation was the basis of ancient Hindu theology. Siva had on his left arm a ring on which was portrayed the sex organs in the act of procreation. The Greek bacchanalia, and the Roman saturnalian mysteries, the free love that prevailed during the festivities in honor of Mylitta,

Anaitis, and Aphrodita were still relics of sex-worship. Herodotos' statement that in Babylon women offered themselves, once at least in their lives, in the Temple of Venus, and that only after so doing were they considered free to marry, and his further report that the women on the vessels sailing for Bubastis to the festivals of Iris uncovered themselves in the presence of the men, show that sex-worship was not unknown among Assyrians and Egyptians. In the historic time sex worship was almost replaced by other forms of religion. Yet there are traces of the cult of the phallus to be found everywhere in ancient profane and sacred history. The temple in which the emperor Elgabal was brought up was represented on a bronze coin of his reign; an ionic peristyle with a peek into the Cella, but instead of the statue of a god was a gigantic phallus. Even the Hebrews worshipped in the phallus the principle of the production of life before the adoption of the cult of Jehovah. Records of phallicism can still be found in the Old Testament. Instead of invoking the Deity in taking a solemn oath, Abraham orders his servant to place his hand upon his phallus, because the phallus was still kept in its former high veneration. The slain enemy was, for this reason, deprived of his phallus. David bought Saul's daughter with a trophy of two hundred phalli, taken from the slain Philistines. Circumcision also shows the incorporation of phallic ritual with religion.

Manifesto of Surrealism André Breton 2016-12-30 Two Surrealist Manifestos were issued by the Surrealist movement, in 1924 and 1929. They were both written by André Breton. André Breton was explicit in his assertion that Surrealism was, above all, a revolutionary movement. The first Surrealist manifesto was written by Breton and published in 1924 as a booklet (Editions du Sagittaire). The document defines Surrealism as: "Psychic automatism in its pure state, by which one proposes to express - verbally, by means of the written word, or in any other manner - the actual functioning of thought. Dictated by thought, in the absence of any control exercised by reason,

exempt from any aesthetic or moral concern." Surrealism is a cultural movement that began in the early 1920s, and is best known for its visual artworks and writings. The aim was to "resolve the previously contradictory conditions of dream and reality". Artists painted unnerving, illogical scenes with photographic precision, created strange creatures from everyday objects and developed painting techniques that allowed the unconscious to express itself.

Marshfield Dreams Ralph Fletcher 2005-09-01 The colorful boyhood of a popular author comes to life in this personal account Imagine learning from a nosy classmate that your mother is having yet another baby. To Ralph's classmates, news of one more Fletcher baby is just "scuttlebutt." But for Ralph, the oldest of nine, being part of a large family means more kids to join in the fun—from making tripods in the woods and "snicking" up the rug, to raising chicks and even discovering a meteor (well, maybe). It doesn't feel like there's life beyond Marshfield, Massachusetts. Then one day Dad's new job moves the family to Chicago, and there's so much Ralph has to leave behind. In this humorous and captivating memoir, Ralph Fletcher traces the roots of his storytelling.

Space, Time and Culture David Carr 2012-11-03 Interculturality has been one of key concepts in

phenomenological literature. It seeks to clarify the philosophical basis for intercultural exchange within the horizon of our life-world. The essays in this volume focus on the themes around space, time and culture from the perspectives of Chinese and Western phenomenologists. Though the discussions begin with classical phenomenological texts in Husserl, Heidegger or Merleau-Ponty, they extend to the problems of Daoism and Buddhism, as well as to sociology and analytic philosophy. The collection of this volume is a fruitful result of inter-cultural exchange of phenomenology.

The Woman Movement Ellen Key 2022-07-21 "The Woman Movement" is a book on feminist activism by Ellen Key. The Woman's Movement includes the demand for the vote, but it looks upon the vote merely as a reasonable condition for attaining far wider and more fundamental ends. In this book, the author believes that the Movement will progress less by an increased aptitude to claim rights than by increased power of self-development, that it is not by what they can seize, but by what they are, that women, or for the matter of that men, finally count. The author regards the task of women as constructive rather than destructive; they are the architects of the future of humanity, and she holds that this is a task that can only be carried out side by side with men, not because man's work and woman's work is, or should be, identical, but because each supplement and aids the other, and whatever gives greater strength and freedom to one sex equally fortifies and liberates the other sex." The author Ellen Key (1849-1926), was a Swedish difference feminist writer who wrote on a wide range of topics including family life, ethics, and education, as well as a prominent member

of the Modern Breakthrough movement. She was a women's rights activist and an early proponent of a child-centered approach to education and parenting. She is particularly noted for her book on education, "The Century of the Child" (1900), which was translated into English.

Art in Theory Paul Wood 2020-12-11 A ground-breaking new anthology in the Art in Theory series, offering an examination of the changing relationships between the West and the wider world in the field of art and material culture Art in Theory: The West in the World is a ground-breaking anthology that comprehensively examines the relationship of Western art to the art and material culture of the wider world. Editors Paul Wood and Leon Wainwright have included over 350 texts, some of which appear in English for the first time. The anthologized texts are presented in eight chronological parts, which are then subdivided into key themes appropriate to each historical era. The majority of the texts are representations of changing ideas about the cultures of the world by European artists and intellectuals, but increasingly, as the modern period develops, and especially as colonialism is challenged, a variety of dissenting voices begin to claim their space, and a counter narrative to western hegemony develops. Over half the book is devoted to 20th and 21st century materials, though the book's unique selling point is the way it relates the modern globalization of art to much longer cultural histories. As well as the anthologized material, Art in Theory: The West in the World contains: A general introduction discussing the scope of the collection Introductory essays to each of the eight parts, outlining the main themes in their historical contexts Individual introductions to each text, explaining how they relate to the wider theoretical and political currents of their time Intended for a wide audience, the book is essential reading for students on courses in art and art history. It will also be useful to specialists in the field of art history and readers with a general interest in the culture and politics of the modern world.

An Introduction to Art Charles Harrison 2020-03-10 At once engaging, personal, and analytical, this book provides the intellectual resources for the critical understanding of art Charles Harrison's landmark book offers an original, clear, and wide-ranging introduction to the arts of painting and sculpture, to the principal artistic print media, and to the visual arts of modernism and post-modernism. Covering the entire history of art, from Paleolithic cave painting to contemporary art, it provides foundational guidance on the basic character and techniques of the different art forms, on the various genres of painting in the Western tradition, and on the techniques of sculpture as they have been practiced over several millennia and across a wide range of cultures. Throughout the

book, Harrison discusses the relative priorities of aesthetic appreciation and historical inquiry, and the importance of combining the two approaches. Written in a style that is at once graceful, engaging, and personal, as well as analytical and exact, this illuminating book offers an impassioned and timely defense of the importance and value of the firsthand encounter with works of art, whether in museums or in their original locations.

The Secret Rose Garden Mahmud Shabistari 2002-01-01 Shabistari's Secret Rose Garden (1317 A.D.) must be reckoned among the greatest mystical poetry of any time or land. Treating such themes as the Self and the One, The Spiritual Journey, Time and this Dream-World, and the ecstasy of Divine Inebriation, Shabistari's work is a perennial witness to the capabilities and destiny of humanity. Stressing the One Light that exists at the heart of all religious traditions, Shabistari's work is one of the clearest and most concise guides to the inner meaning of Sufism, and offers a stunningly direct exposition of Sufi mystical thought in poetic form: "I" and "you" are but the lattices, in the niches of a lamp, through which the One Light shines. "I" and "you" are the veil between heaven and earth; lift this veil and you will see no longer the bonds of sects and creeds. When "I" and "you" do not exist, what is mosque, what is synagogue? what is the Temple of Fire?

Art as Art Ad Reinhardt 1991-06-06 Ad Reinhardt is probably best known for his black paintings, which aroused as much controversy as admiration in the American art world when they were first exhibited in the 1950s. Although his ideas about art and life were often at odds with those of his contemporaries, they prefigured the ascendance of minimalism. Reinhardt's interest in the Orient

and in religion, his strong convictions about the value of abstraction, and his disgust with the commercialism of the art world are as fresh and valid today as they were when he first expressed them.

Essays on Art and Language Charles Harrison 2003-09-12 Critical and theoretical essays by a long-time participant in the Art & Language movement. These essays by art historian and critic Charles Harrison are based on the premise that making art and talking about art are related enterprises. They are written from the point of view of Art & Language, the artistic movement based in England—and briefly in the United States—with which Harrison has been associated for thirty years. Harrison uses the work of Art & Language as a central case study to discuss developments in art from the 1950s through the 1980s. According to Harrison, the strongest motivation for writing about art is that it brings us closer to that which is other than ourselves. In seeing how a work is done, we learn about its achieved identity: we see, for example, that a drip on a Pollock is integral to its technical character, whereas a drip on a Mondrian would not be. Throughout the book, Harrison uses specific examples to address a range of questions about the history, theory, and making of modern art—questions about the conditions of its making and the nature of its public, about the problems and priorities of criticism, and about the relations between interpretation and judgment.

The End of the Twins Saul Diskin 2012-03 "Saul Diskin's extraordinary memoir is rich with unique and wonderful intimacy-the intimacy of twinship. For me this made that closest of bonds come alive in a way no other book I've read has succeeded in doing. Diskin makes one feel like a twin, see the world through a twin's eyes, suffer with him in a way that is at times almost unbearably close and poignant. One becomes immersed in the life and death struggle. The medical detail is wonderfully well-done, as are all the relationships. The peculiar and overwhelming nature of twinship is brought out in a way that's both uncannily spirited and wholly down-to-earth; completely unsentimental. The reader participates at every point and on every page in an intimacy that he knows only death can end." -JOHN BAYLEY, author of *Elegy for Iris* "...you have captured the essence of the twin relationship more eloquently than anyone else I have ever read." Nancy Segal, author of *Entwined Lives, Indivisible by Two and Someone Else's Twin*. "What is it like to lose your mirror-image, your other half, your secret sharer? The End of the Twins is an arresting memoir that evokes the mysteries of twinship and the irrevocability of loss." -ERICA JONG, author of *Fear of Flying* and

Becoming Light "A moving account of a unique bereavement from which we can all learn about love and loss." -HAROLD S. KUSHNER, author of When Bad Things Happen to Good People
