Transient Sex - Brent Reiten 1989

*Transient* - Zachry Wheeler 2016-11-08

In a dark and distant future, death is obsolete. Jonas is a transient: a human spy living as an eternal. His mission is simple: always learn, never get caught. In the year 2578, an immortal regime controls the planet. Endless war has pushed humanity to the brink of extinction. Desperate to survive, the remaining factions deploy teenage spies, hoping to defeat the enemy from within. After years in the lion's den, Jonas has grown to admire the eternal civilization. He is learning to love what he blindly hated, blurring the mission and himself. But a reckoning is coming. The fates of billions hang in the balance. When the axe falls, Jonas must choose between his family and his species. *Transient* is a Readers' Favorite® 5-Star Selection and a B.R.A.G. Medallion Honoree "An exceptionally well-written, thought-provoking novel that ultimately carries a humanist message, contrasting feigned morality with perceived evil." —Lex Allen, Readers' Favorite "The world-building that author Zachry Wheeler does in *Transient* is simply amazing. I thoroughly enjoyed this book and highly recommend it." —Geoff Habiger, Readers' Favorite "An exciting read from the beginning." —Tanja Jurkovic, Readers' Favorite "With its Kafkaesque rendering of humanity's backstory against the vampire-like eternals, the story has intrigue and drama focusing on a young spy's personal dilemma." —Lit Amri, Readers' Favorite "There is much to like, and much to admire, about Zachry Wheeler's ingeniously unique and nimble interpretation of the rather widely exploited vampire genre in his instantly engaging novel, *Transient*." —Joel R. Dennstedt, Readers' Favorite

*Male Sex Work in the Digital Age* - Paul Ryan 2019-03-20

This book explores the lives of male sex workers living in Dublin, Ireland. It focuses on the stories of young Brazilian and Venezuelan migrants who use their micro-celebrity on social media to construct a brand that can be converted into financial advantage within the sex industry. The book focuses on two sites: Grindr, which these men use to build a transient pop-up escort profile that is linked to Instagram, which in turn provides followers with access to a curated digital identity built around consumption. Ryan explores how the muscular body acts as a form of physical and erotic capital providing the raw material of these digital identities as they are broadcast on new online subscription platforms like OnlyFans. *Male Sex Work in the Digital Age* offers fascinating insights into the role social media plays in (re)creating a new and more flexible understanding of commercial sex. Students and scholars across a range of disciplines, including sociology, gender studies, sexuality studies, LGBTQ studies, media studies and law, will find this book of interest.

*Dangerous Liaisons* - Charles Frank Robinson 2006-01-01

In the South after the Civil War, segregation--and race itself--was based on the idea that interracial sex posed a biological threat to the white race. In this groundbreaking book, Charles Robinson examines how white southerners enforced antimiscegenation laws. His findings challenge conventional wisdom, documenting a pattern of selective prosecutions under which interracial domestic relationships were punished even more harshly than transient sexual encounters.

**The Homeless Transient in the Great Depression** - Joan M. Crouse 1986-01-01

Years before the Dust Bowl exodus raised America's conscience to the plight of its migratory citizenry, an estimated one to two million homeless, unemployed Americans were traversing the country, searching for permanent community. Often mistaken for bums, tramps, hoboes or migratory laborers, these transients were a new breed of educated, highly employable men and women uprooted from their middle- and working-class homes by an unprecedented economic crisis. The Homeless Transient in the Great Depression investigates this population and the problems they faced in an America caught between a poor law past and a social welfare future. The story of the transient is told from the perspective of the federal, state, and local governments, and from the viewpoint of the social worker, the community, and the transient. In narrowing the focus of the study from the national to the state level, Joan Crouse offers a close and sensitive examination of each. The choice of New York as a focal point provides an important balance to previous literature on migrancy by shifting attention from the Southwest to the Northeast and from a preoccupation with rejection on the federal level to the concerted effort of the state to deal with the non-resident poor in a humane yet fiscally responsible manner.

**Cetacean Societies** - Janet Mann 2000-06

"Part review, part testament to extraordinary dedication, and part call to get involved, Cetacean Societies highlights the achievements of behavioral ecologists inspired by the challenges of cetaceans and committed to the exploration of a new world."—from the preface by Richard Wrangham Long-lived, slow to reproduce, and often hidden beneath the water's surface, whales and dolphins (cetaceans) have remained elusive subjects for scientific study even though they have fascinated humans for centuries. Until recently, much of what we knew about cetaceans came from commercial sources such as whalers and trainers for dolphin acts. Innovative research methods and persistent efforts, however, have begun to penetrate the depths to reveal tantalizing glimpses of the lives of these mammals in their natural habitats. Cetacean Societies presents the first comprehensive synthesis and review of these new studies. Groups of chapters focus on the history of cetacean behavioral research and methodology; state-of-the-art reviews of information on four of the most-studied species: bottlenose dolphins, killer whales, sperm whales, and humpback whales; and summaries of major topics, including group living, male and female reproductive strategies, communication, and conservation drawn from comparative research on a wide range of species. Written by some of the world's leading cetacean scientists, this landmark volume will benefit not just students of cetology but also researchers in other areas of behavioral and conservation ecology as well as anyone with a serious interest in the world of whales and dolphins. Contributors are Robin Baird, Phillip Clapham, Jenny Christal, Richard Connor, Janet Mann, Andrew Read, Randall Reeves, Amy Samuels, Peter Tyack, Linda Weilgart, Hal Whitehead, Randall S. Wells, and Richard Wrangham.

**Same-Sex Affairs** - Peter Boag 2003-08-14

Same-Sex Affairs is a path-breaking history of male homosexuality in the Pacific Northwest from 1890 to 1930.

Sexuality and the Sacred - James B. Nelson 1994-01-01

This volume is rooted in two convictions: first, sexuality is far more comprehensive and more fundamental to our existence than simply

genital sex, and, second, sexuality is intended by God to be neither incidental nor detrimental to our spirituality but a fully integrated and basic dimension of that spirituality. The authors address what our sexual experience reveals about God, the ways we understand the gospel, and the ways we read scripture and tradition and attempt to live faithfully.

*The Oxford Handbook of Clinical Psychology* - David H. Barlow 2014

The exponential growth of clinical psychology since the late 1960s can be measured in part by the extensive literature on the subject. The field has come to be defined as much by its many topics as its many voices. The Oxford Handbook of Clinical Psychology synthesizes these decades of literature in one volume. In addition to core sections on topics such as training, assessment, diagnosis, and intervention, the handbook includes chapters devoted to emerging issues in the clinical field, including health care reforms, cultural factors, and technological innovations and challenges. Each chapter offers a review of the most pertinent literature, outlining issues and identifying possibilities for future research.

**The Transient Unemployed** - John N. Webb 1936

**Moral Panics, Sex Panics** - Gilbert Herdt 2009-06-01

Finalist for 2010 LGBT Anthology Award from the Lambda Literary Awards Unwed teen mothers, abortion, masturbation, pornography, gay marriage, sex trafficking, homosexuality, and HIV are just a few in a long line of issues that have erupted into panics. These sexual panics spark moral crusades and campaigns, defining and shaping how we think about sexual and reproductive rights. The essays in *Moral Panics, Sex Panics* focus on case studies ranging from sex education to AIDS to race and the "down low," to illustrate how sexuality is at the heart of many political controversies. The contributors also reveal how moral and sexual panics have become a mainstay of certain kinds of conservative efforts to win elections and gain power in moral, social, and political arenas. *Moral Panics, Sex Panics* provides new and important insights into the role that key moral panics have played in social processes, arguing forcefully against the political abuse of sex panics and for the need to defend full sexual and reproductive rights. Contributors: Cathy J. Cohen, Diane

DiMauro, Gary W. Dowsett, Janice M. Irvine, Carole Joffe, and Saskia Eleonora Wieringa.

*The Sexual Murderer* - Eric Beauregard 2016-10-04

Sexual homicide continues to be one of the most widely reported and sensationalised forms of murder, attracting fascination from the public and scholars alike. Despite this continued interest, few empirical studies have been conducted on this particular form of sexual crime. *The Sexual Murderer* provides an analytical review of the state of knowledge on the sexual murderer and his offense, and presents new data that confronts some of the accepted ideas and myths surrounding this type of homicide. The authors draw on original data stemming from both offenders and the police to present an exhaustive and accurate picture of the sexual murderer and his offense, and compare the sex offenders who do kill with sex offenders who, despite being very violent, do not. Each chapter includes a section on the practical implications of the findings, and what the findings mean for professionals working with these cases and for the criminal justice system. This book explores themes including the role of fantasies, paraphilias, and personality; criminal career; context of the crime; journey to murder; modus operandi and crime scene; sex trade workers; avoiding detection; body disposal pathways; and whether we can predict sexual homicide occurrence. This book is a comprehensive resource for academic and professionals involved in sexual homicide cases, such as psychologists, psychiatrists, investigators and profilers, as well as individuals working in the field of sexual violence. This book will also be of interest to students taking courses on homicide, sexual homicide, and serial homicide.

Male Femaling - Richard Ekins 2002-11

**Estrogen Receptor Beta Contributes to the Transient Sex Difference in Tyrosine Hydroxylase Expression in the Mouse Locus Coeruleus** - Julie Suzanne Pendergast 2007

Estrogen receptors (ERs) ERalpha and ERbeta are important for sexual differentiation of the brain. Previous studies in rats reported that the locus coeruleus (LC), a catecholaminergic nucleus in the brain stem, is sexually dimorphic such that females have more neurons than males. We hypothesized that ERs may be important for sexual differentiation of this nucleus in mice. Since previous studies reported conflicting results regarding ER protein expression in the mouse LC, we evaluated ERalpha and ERbeta gene expression by in situ hybridization and real-time RT-PCR. We demonstrated that both ERalpha and ERbeta mRNAs are present in tyrosine hydroxylase (TH)-positive cells in the male LC. In the female LC, ERalpha is present at levels similar to males while ERbeta

expression is significantly lower than in males. Like rats, male mice have fewer TH-positive cells in the LC than females at 60 days after birth, but the difference is absent at 120 days after birth when females exhibit a similar reduction in TH-positive cells. This transient sex difference is abolished in ERbeta knockout mice (betaERKOs). In addition, the ERbeta-dependent sex difference in wild type (WT) mice results from regulation of TH expression and not from death of TH-positive cells. Testicular hormones produced at adolescence are necessary for the regulation of TH expression in the male LC since orchidectomy of pre-pubertal males prevented the decrease in TH-positive cells, while treatment of gonadectomized males with testosterone restored the intact male phenotype. In contrast, treatment of ovariectomized females with testosterone or its metabolites, dihydrotestosterone (DHT) and 5alpha-androstane-3beta, 17beta-diol (3beta-diol), did not decrease the number of TH-positive cells in the LC. Testosterone could be converted to DHT or 3beta-diol in the adolescent LC since the enzymes necessary for this reaction, 5alpha-reductase and 3alpha-hydroxysteroid dehydrogenase, are locally expressed. Overall, these studies indicate that ERbeta is differentially expressed in males and females and is important in directing morphological changes in the mouse LC.
