*The Charisma Myth* - Olivia Fox Cabane 2013-03-26

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

**Get Over Yourself!** - Patti Novak 2008-12-30

True love doesn't just happen, notes professional matchmaker Patti Novak. You have to work for it—and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, *Get Over Yourself!* will help you get the love you've always wanted and deserve.

**Girl Talk-The New You** - L. E. Blair 1990

**Girl Talk** - Julianna Baggott 2001-04-05

Lissy Jablonski was fifteen during the summer of 1985. That was the summer her father, a soft-spoken, seemingly passionless gynecologist, up and left her mother for a redheaded bank teller. The same summer Lissy and her mother disappeared from their quiet New Hampshire lives to have an adventure of their own amid a cast of unlikely characters, including a Valium-addicted ex-debutante and a suspected mobster. The summer the reliably comforting "girl talks" with her mother began to reveal startling secrets. It was also the summer that Lissy's mother would ever after refer to as "the summer that never happened." Now an almost-thirty-years-old advertising executive in Manhattan, faced with her father's imminent death and

newly pregnant by her married ex-lover, an unmoored Lissy finds herself looking back across the years. Contending with her affections for an old boyfriend and his doomed marriage to a Korean stripper named Kitty Hawk, as well as the tangible legacies of that unmentionable summer with her mother, she realizes that she has become more like her mother than she ever could have imagined. In her debut novel, acclaimed short-story writer and poet Julianna Baggott has woven a precise, smartly comic, and compassionate tale of discovery and desire. With a lyrical sensibility, Baggott reminds us -- through the witty and unsparingly realistic voice of her narrator, Lissy -- of the pleasures and sorrows that can come from the most unreasonable realities of the heart.

**Girl Talk** - Jacqueline Mroz 2018-11-13

A veteran science reporter's investigation into the fascinating and distinctive nature of women's friendships In *Girl Talk*, New York Times science reporter Jacqueline Mroz takes on the science of female friendship -- a phenomenon that's as culturally powerful as it is individually mysterious. She examines friendship from a range of angles, from the historical to the experiential, with a scientific analysis that reveals new truths about what leads us to connect and build alliances, and then "break up" when a friendship no longer serves us. Mroz takes a new look at how friendship has evolved throughout history, showing how friends tend to share more genetic commonalities than strangers, and that the more friends we have, the more empathy and pleasure chemicals are present in our brains. Scientists have also reported that friendship directly influences health and longevity; women with solid, supportive friendships experience fewer "fight or flight" impulses and stronger heart function, and women without friendships tend to develop medical challenges on par with those associated with smoking and excessive body weight. With intimate reporting and insightful analysis, Mroz reveals new awareness about the impact of women's friendships, and how they shape our culture at large.
