How to Attract and Approach a Woman - Roman G. Turkowsky

2012-04-04

Picture this. If you are a guy that has spent any time in any place at all trying to talk to a woman, you know how this scene goes. You see the woman of your dreams. Okay, this may be a little exaggeration. But you see a pretty woman somewhere. Of course, when you see her, you

naturally want to go talk to her. Thus far, you haven't done a thing wrong. You walk over to her and say hi. She greets you back, not incredibly interested. As pretty as she is, there is no doubt that she has been randomly approached by men that look just as good, if not better than you on a regular basis. This is just to be expected, no matter how good you think you look, or actually do. She is just used to it. You

introduce yourself and offer your hand to shake. She accepts your hand and tells you her name. Once again, you are doing just fine. This is where the story starts to go downhill, though. There is an awkward pause as she looks at you expecting you to say something else. After all, you approached her. You try desperately to think of something to say. All that comes out is three strikes in a single question because you have nothing better to say. She answers you absently, and looks around for someone that she knows to talk to, greeting them from across the room. She smiles and takes off, politely casting a "nice to meet you" over her shoulder as she runs off with her friends, planning to talk about you when she gets over there and not talk to you for the rest of the night. And you have failed. Now, your question or statement, whatever it was, can be one of many different things. No matter what you said to her or asked her, the message portrayed was the same exact thing. And she read the message loud and clear. What was the message? It is simply: I have nothing to say. That is why she walked away from you without any interest whatsoever. That is why she will not remember your name in fifteen minutes, if she remembers it that long. And that is why you are going home alone.

I'm warning and preparing you in advance so that when you do come across something in here that seems like it will never work, just remember this... If what you're doing right now is not working, it's time to try something new, something different, even something that may seem crazy and counter-intuitive to you right now. So, do keep that in mind as you go through this book. And, remember that what I share with you here has been proven to work countless times, by countless men, on many beautiful women. And, while the focus of this book is on "how to approach a woman successfully," I will also throw in some bonus tips on how to take things further, and escalate things in a romantic and/or sexual way.

If they do start conversations, they do not know how to steer the course of the conversation in order to come out quite impressive in the girl. This book comes to show that section is something that any man can achieve if a man can just acquire the right mindset and understand how to present their personality to the woman. It could be that some men do not understand how women think and how they react to certain messages. This book helps men peer into the world of being a woman to know how they can be evoked to gain attraction towards a man. The book discusses the mindset that can make a man successful with socialization. You will learn how to be socially intelligent in order to be perceptive about how a woman wants you to say to her in order to make her tick. The book also discusses the strategies of using small talk. It

guides you on how to transition small talk into a deeper engagement and a catching conversation. Here, you will learn how your approach has been making you fail.
