Stuck-Up Suit Vi Keeland 2019-12-17 It started out like any other morning on the train. Until I became mesmerized by the guy sitting across the aisle. He was barking at someone on his phone like he ruled the world. Who did the stuck-up suit think he was...God? Actually, he looked like a God. That was about it. When his stop came, he got up suddenly and left. So suddenly, he dropped his phone on the way out. I might have picked it up. I might have gone through all of his photos and called some of the numbers. I might have held onto the mystery man's phone for days—until I finally conjured up the courage to return it. When I traipsed my ass across town to his fancy company, he refused to see me. So, I left the phone on the empty desk outside the arrogant jerk's office. I might have also left behind a dirty picture on it first though. I didn't expect him to text back. I didn't expect our exchanges to be hot as hell. I didn't expect to fall for him—all before we even met. The two of us couldn't have been any more different. Yet, you know what they say about opposites. When we finally came face to face, we found out opposites sometimes do more than attract—we consumed each other. Nothing could have prepared me for the ride he took me on. And I certainly wasn't prepared for where I'd wind up when the ride was over. All good things must come to an end, right? Except our ending was one I didn't see coming.

Evolve Your Brain Joe Dispenza 2010-01-01 Why do we keep getting the same jobs, taking on the same relationships, and finding ourselves in the same emotional traps? Dr. Joe Dispenza not only teaches why people tend to repeat the same negative behaviors, he shows how readers can release themselves from these patterns of disappointment. With the dynamic combination of science and accessible how-to, Dispenza teaches how to use the most important tool in ones body and life—the brain. Featured in the underground smash hit of 2004, "What the Bleep Do We Know!?", Dispenza touched upon the brain's ability to become addicted to negative emotions. Now, in his empowering book *Evolve Your Brain* he explains how new thinking and new beliefs can literally rewire one's brain to change behavior, emotional reactions, and habit forming patterns. Most people are unaware of how addicted they are to their emotions, and how the brain perpetuates those addictions automatically. In short, we become slaves to our emotional addictions without even realizing it. By observing our patterns of thought, and learning how to 're-wire the brain' with new thought patterns, we can break the cycles that keep us trapped and open ourselves to new possibilities for growth, happiness and emotional satisfaction. Key Features A radical approach to changing addictive patterns and bad habits. Based on more than twenty years of research. Bridges the gap between science, spirituality and self-help—a formula that has proven success. Easy to understand and written for the average reader.

Another story, "The Return," introduces a father whose work takes him far from home for months at a time. A Great Improvisation Stacy Schiff 2006-01-10 Soon to be a streaming series ● In this dazzling work of history, a Pulitzer Prize-winning author follows Benjamin Franklin to France for the crowning achievement of his career In December of 1776 a small boat delivered an old man to France." So begins an enthralling narrative account of how Benjamin Franklin--seventy years old, without any diplomatic training, and possessed of the most rudimentary French--convinced France, an absolute monarchy, to underwrite America's experiment in democracy. When Franklin stepped onto French soil, he well understood he was embarking on the greatest gamble of his career. By virtue of fame, charisma, and ingenuity, Franklin outmaneuvered British spies, French informers, and hostile colleagues; engineered the Franco-American alliance of 1778; and helped to negotiate the peace of 1783. The eight-year French mission stands not only as Franklin's most vital service to his country but as the most revealing of the man. In *A Great Improvisation*, Stacy Schiff draws from new and little-known sources to illuminate the least-explored part of Franklin's life. Here is an unfamiliar, unforgettable chapter of the Revolution, a rousing tale of American infighting, and the treacherous backroom dealings at Versailles that would propel George Washington from near decimation at Valley Forge to victory at Yorktown. From these pages emerge a particularly human and yet fiercely determined Founding Father, as well as a profound sense of how fragile,

Truth to Tell Lanny J. Davis 1999-08-06 On a November afternoon in 1996, Lanny Davis got a phone call that would change his life. It was from a top aide at the White House, asking him if he was interested in joining the president's senior staff. Within a few short weeks he had signed on as special counsel to the president. Fourteen months later, his tour of duty almost over, he got another phone call, this time from a Washington Post reporter who asked, "Have you ever heard the name Monica Lewinsky?" In the time between those two phone calls, Davis received an extraordinary political education. As President Bill Clinton's chief spokesman for handling "scandal matters" he had the unenviable job of briefing reporters and answering their pointed questions on the most embarrassing allegations against the president and his aides, from charges of renting out the Lincoln Bedroom, to stories of selling plots in Arlington Cemetery, from irregular campaign fundraising to sexual improprieties. He was the White House's first line of defense against the press corps and the reporters' first point of entry to an increasingly reticent administration. His delicate

task was to remain credible to both sides while surviving the inevitable crossfire. Upon entering the White House, Davis discovered that he was never going to be able to turn bad news into good news, but he could place the bad news in its proper context and work with reporters to present a fuller picture. While some in the White House grew increasingly leery of helping a press corps that they regarded as hostile, Davis moved in the opposite direction, pitching unfavorable stories to reporters and helping them garner the facts to write those stories accurately. Most surprisingly of all, he realized that to do his job properly, he sometimes had to turn himself into a reporter within the White House, interviewing his colleagues and ferreting out information. Along the way, he learned the true lessons of why politicians, lawyers, and reporters so often act at cross-purposes and gained some remarkable and counterintuitive insights into why this need not be the case. Searching out the facts wherever he could find them, even if he had to proceed covertly, Davis discovered that he could simultaneously help the reporters do their jobs and not put the president in legal or political jeopardy. With refreshing candor, Davis admits his own mistakes and reveals those instances where he dug a deeper hole for himself by denying the obvious and obfuscating the truth. And in a powerful reassessment of the scandal that led to the president's impeachment, Davis suggests that if the White House had been more receptive to these same hard-won lessons, the Monica Lewinsky story might not have come so close to bringing down an otherwise popular president. For as Davis learned above all, you can always make a bad story better by telling it early, telling it all, and telling it yourself.

seamlessly fusing reflections on language, science, and literature with the loamy environments of the natural worlds around her. Moving between the epic (war, history, art, myth, philosophy) and the specific (CNN, Ancient Rome, Auden, Merleau-Ponty), Helen Macdonald examines with humor and intellect what it means to be awake and watchful in the world. These are poems that probe and question, within whose nimble ecosystems we are as likely to encounter Schubert as we are “a hand of violets,” Isaac Newton as a “winged quail on turf.” Nothing escapes Macdonald’s eye and every creature herein—from the smallest bird to the loftiest thinker—holds a significant place in her poems. “Macdonald is a poet of vision and sound, oracular one moment and playful the next, whose first love and only loyalty is to the music of words.” -O, the Oprah Magazine

Think Like a Monk Jay Shetty 2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast On Purpose, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success - And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness.

Leaders Stanley McChrystal 2018-10-23 The bestselling author of Team of Teams dismantles the Great Man theory of leadership, by profiling leaders whose real stories defy their legends. In Leaders, retired four-star general Stan McChrystal explores what leadership really means, debunking the many myths that have surrounded the concept. He focuses on thirteen great leaders, showing that the lessons we commonly draw from their lives are seldom the correct ones. Leaders featured in the book include: Founders: Walt Disney and Coco Chanel Zealots: Maximilien Robespierre and Abu Musab Zarkawi Powerbrokers: Margaret Thatcher and Boss Tweed And other leaders profiled include geniuses Albert Einstein and Leonard Bernstein, reformers Martin Luther and Martin Luther King, Jr., and heroes Harriet Tubman and Zheng He. Ultimately, McChrystal posits that different environments will require different leaders, and that followers will choose the leader they need. Aspiring leaders will be best served not by cultivating a standard set of textbook leadership qualities, but by learning to discern what is required in each situation. 'Leaders reexamines old notions of leadership - especially the outdated view that history is shaped by great men going it alone' - SHERYL SANDBERG, COO of Facebook and founder of LeanIn.Org 'Leaders takes us deeper than most other leadership books into the true and often messy mechanics of leadership. The Woman with the Bouquet Eric-Emmanuel Schmitt 2010-08-31 In his new collection of stories,

Eric-Emmanuel Schmitt, author of *The Most Beautiful Book in the World*, probes the paradox that the events that shape our lives are often the stuff of dreams, yet nonetheless true. Humor, tenderness, irony and exquisite writing have always been the hallmarks of Schmitt's work. Here, he adds a pinch of philosophy. In one story, a lovelorn writer seeks refuge in Ostende, a remote and charming town on the North Sea. His host is a solitary and eccentric octogenarian. The fairy-tale setting starts to work its magic and the old woman begins to tell her tale—an extraordinary story of passion. Bewitched by what he hears, the writer can no longer distinguish what is real from what is not, and in the woman's account he will finally find a response to his own deep-seated grief. Here, as in the other stories in this collection, Schmitt displays the combination of stylishness and insight into the human condition that prompted Kirkus Reviews to write of his tales that they "echo Maupassant's with their lean narratives, surprise endings, mordant humor and psychological acuity." An exceptional collection by one of Europe's most beloved authors.

The Price of Illusion Joan Juliet Buck 2017-11-07 "From Joan Juliet Buck, former editor-in-chief of Paris Vogue comes her dazzling, compulsively readable memoir: a fabulous account of four decades spent in the creative heart of London, New York, Los Angeles, and Paris, chronicling her quest to discover the difference between glitter and gold, illusion and reality, and what looks like happiness from the thing itself. Born into a world of make-believe as the daughter of a larger-than-life film producer, Joan Juliet Buck's childhood was a whirlwind of famous faces, ever-changing home addresses, and a fascination with the shiny surfaces of things. When Joan became the first and only American woman ever to fill Paris Vogue's coveted position of Editor in Chief, a "figurehead in the cult of fashion and beauty," she had the means to recreate for her aging father, now a widower, the life he'd enjoyed during his high-flying years, a splendid illusion of glamorous excess that could not

be sustained indefinitely. Joan's memoir tells the story of a life lived in the best places at the most interesting times: London and New York in the swinging 1960s, Rome and Milan in the dangerous 1970s, Paris in the heady 1980s and 1990s. But when her fantasy life at Vogue came to an end, she had to find out who she was after all those years of make-believe. She chronicles this journey in beautiful and at times heartbreaking prose, taking the reader through the wild parties and the fashion, the celebrities and creative geniuses as well as love, loss, and the loneliness of getting everything you thought you wanted and finding it's not what you'd imagined. While Joan's story is unique, her journey toward self-discovery is refreshing and universal"--

Ugly Love Colleen Hoover 2014-08-05 From Colleen Hoover, the #1 New York Times bestselling author of *It Starts with Us* and *It Ends with Us*, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.
