

Dating Undated Medieval Charters

Henry II - John Hosler 2007-04-30

Intended as a military biography, this book studies the scope of Henry Plantagenet's warfare during his tenure as count of Anjou, duke of Normandy, and king of England. Relying heavily upon medieval documents, it analyzes his generalship and reexamines his place amongst the important military commanders in English history.

Conquered England - George Garnett 2007-01-25

Conquered England argues that Duke William of Normandy's claim to succeed Edward the Confessor on the throne of England profoundly influenced not only the practice of royal succession, but also played a large part in creating a novel structure of land tenure, dependent on the king. In these two fundamental respects, the attempt made in the aftermath of the Conquest to demonstrate seamless continuity with Anglo-Saxon England severed almost all continuity. A paradoxical result was a society in which instability in succession at the top exacerbated instability lower down. The first serious attempt to address these problems began when arrangements were made, in 1153, for the succession to King Stephen. Henry II duly succeeded him, but claimed rather to have succeeded his grandfather, Henry I, Stephen's predecessor. Henry II's attempts to demonstrate continuity with his grandfather were modelled on William the Conqueror's treatment of Edward the Confessor. Just as William's fabricated history had been the foundation for the tenurial settlement recorded in the Domesday Book, so Henry II's, in a different way, underpinned the early common law procedures which began to undermine aspects of that settlement. The official history of the Conquest played a crucial role not only in creating a new society, but in the development of that society.

The Acts of Welsh Rulers, 1120-1283 - Huw Pryce 2010-10-15

Now republished with minor corrections, this volume provides the first comprehensive collection of charters, letters and other documents issued by native rulers of Wales from the early twelfth century to the Edwardian conquest of 1282 - 3 that extinguished independent rule.

Resourcing Sources - K. S. B. Keats-Rohan 2002

The Abbey of Cluny - Giles Constable 2010

The essays published in this volume cover many aspects of the history of Cluny from its foundation until the end of the twelfth century. Four of them are published here for the first time, and others appear in a revised form. The three articles on Cluny in the tenth, eleventh, and twelfth centuries constitute a brief survey of Cluny at the height of its prestige and influence. Others, such as the articles on Cluny and the Investiture Controversy and the First Crusade, deal with the influence of Cluny outside its walls. Yet others are concerned with the relations between Cluny and other orders, between Cluny and its dependent houses, and between the abbey and town of Cluny. The remainder study the internal history of the abbey, the administration, legislation, and finances of the order, and its development and problems, especially in the twelfth century.

The Long Twelfth-Century View of the Anglo-Saxon Past - Martin Brett 2016-03-03

Scholars have long been interested in the extent to which the Anglo-Saxon past can be understood using material written, and produced, in the twelfth century; and simultaneously in the continued importance (or otherwise) of the Anglo-Saxon past in the generations following the Norman Conquest of England. In order to better understand these issues, this volume provides a series of essays that moves scholarship forward in

two significant ways. Firstly, it scrutinises how the Anglo-Saxon past continued to be reused and recycled throughout the *longue durée* of the twelfth century, as opposed to the early decades that are usually covered. Secondly, by bringing together scholars who are experts in various different scholarly disciplines, the volume deals with a much broader range of historical, linguistic, legal, artistic, palaeographical and cultic evidence than has hitherto been the case. Divided into four main parts: The Anglo-Saxon Saints; Anglo-Saxon England in the Narrative of Britain; Anglo-Saxon Law and Charter; and Art-history and the French Vernacular, it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history. In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo-Saxon past continued to be of importance and interest throughout the twelfth century.

Landscapes of Monastic Foundation - Tim Pestell 2004

Pre-Conquest monastic foundations, (in the present-day counties of Norfolk and Suffolk) in their topographical, social, economic and political environment; evolution of religious devotion in East Anglia since the 7th-century Conversion; the influence of the Anglo-Saxon past on the post-Conquest monastic landscape.

Dating Undated Medieval Charters - Michael Gervers 2002

Many of the millions of medieval charters surviving in European archives and repositories were written without any reference to a date of issue. The proliferation of undated charters in England and Normandy indicates that the custom was especially peculiar to lands under Norman rule, but charters issued by major religious houses are often also undated. The DEEDS Project at the University of Toronto has developed a computerised methodology for dating charters, relying on analysis of vocabulary, syntax and formulae. In this volume an international group of scholars concerned with the problem of charter chronology consider the potential of the computerised methodology compared to other more traditional methods of dating, such as identification of names, changing in wording and address, and handwriting. Discussion also touches on

regional differences in the production, use and distribution of charters, and on ways both manual and mechanical to date and analyse the content of large numbers of them. MICHAEL GERVERS is Director of the DEEDS Project at the University of Toronto, Canada. Contributors: MICHAEL GERVERS, RODOLFO FIALLOS, MARJORIE CHIBNALL, VÉRONIQUE GAZEAU, BENOIT-MICHEL TOCK, NICHOLAS VINCENT, GEORGES DECLERCQ, ZSOLT HUNYADIR, ATTILA ZSOLDOS, MARIA HILLEBRANDT, TREVOR CHALMERS, LAZSLO VESZPRÉMI, P.D.A. HARVEY, ANDRAS GRYNÆUS, JOZSEF PALFY

British Borough Charters, 1216-1307 (Classic Reprint) - Adolphus Ballard
2018-03-26

Excerpt from *British Borough Charters, 1216-1307* Dolphus ballard, who died in 1915 at the early age of forty-eight, was a conspicuous instance of single-minded and fruitful devotion to a chosen study. The son of an alderman of Chichester, and himself for many years town clerk of what he liked to describe as the smallest borough in England, his innate zest of inquiry naturally turned to the field of town history. It was quickened and widened by the striking results of the researches of Gross, Maitland and Miss Bateson into municipal origins in this country. After preparing the ground by a series of studies and articles, he published in 1913 his *British Borough Charters 1042 - 1216*, which established him in the position of leading authority on early municipal growth in the British Isles. A further volume, to extend to the end of the reign of Edward I was projected and by the time of his death about nine-tenths of the charters had been copied and typed. A few notes and textual corrections were made, provisional dates were affixed to the undated charters and the position of each clause in his subject classification was indicated on the slips, but the introduction still remained to be written and the tables of sources and contents to be drawn up. A page or two of rough jottings was the only guide left to the very varied and widely scattered sources from which he had drawn the charters. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art

technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

Anglo-Norman Studies XXX - C. P. Lewis 2008

The latest collection of articles on Anglo-Norman topics, with a particular focus on Wales.

English Government in the Thirteenth Century - Adrian Jobson 2004

Papers on aspects of the growth of royal government during the century. The size and jurisdiction of English royal government underwent sustained development in the thirteenth century, an understanding of which is crucial to a balanced view of medieval English society. The papers here follow three central themes: the development of central government, law and justice, and the crown and the localities. Examined within this framework are bureaucracy and enrolment under John and his contemporaries; the Royal Chancery; the adaptation of the Exchequer in response to the rapidly changing demands of the crown; the introduction of a licensing system for mortmain alienations; the administration of local justice; women as sheriffs; and a Nottinghamshire study examining the tensions between the role of the king as manorial lord and as monarch. Contributors: NICK BARRATT, PAUL R. BRAND, DAVID CARPENTER, DAVID CROOK, ANTHONY MUSSON, NICHOLAS C. VINCENT, LOUISE WILKINSON

Queenship, Gender, and Reputation in the Medieval and Early Modern West, 1060-1600 - Zita Eva Rohr 2016-10-08

This edited collection opens new ways to look at queenship in areas and countries not usually studied and reflects the increasingly interdisciplinary work and geographic range of the field. This book is a forerunner in queenship and re-invents the reputations of the women and

some of the men. The contributors answers questions about the nature of queenship, reputation of queens, and gender roles in the medieval and early modern west. The essays question the viability of propaganda, gossip, and rumor that still characterizes some queens in modern histories. The wide geographic range covered by the contributors moves queenship studies beyond France and England to understudied places such as Sweden and Hungary. Even the essays on more familiar countries explores areas not usually studied, such as the role of Edward II's stepmother, Margaret of France in Gaveston's downfall. The chapters clearly have a common thread and the editors' summary and description of the collection is valuable in assisting the reader. The collection is divided into two sections "Biography, Gossip, and History" and "Politics, Ambition, and Scandal." The editors and contributors, including Zita Eva Rohr and Elena Woodacre, are scholars at the top of their field and several and engage and debate with recent scholarship. This collection will appeal internationally to literary scholars and gender studies scholars as well historians interested in the countries included in the collection.

International Medieval Bibliography - 2002

Lists articles, notes, and similar literature on medieval subjects in journals, Festschriften, conference proceedings, and collected essays. Covers all aspects of medieval studies within the date range of 450 to 1500 for the entire continent of Europe, the Middle East and North Africa for the period before the Muslim conquest and parts of those areas subsequently controlled by Christian powers.

Henry II - Christopher Harper-Bill 2007

Henry II is the most imposing figure among the medieval kings of England. His fiefs & domains extended from the Atlantic to the Mediterranean, & his court was frequented by the greatest thinkers of his time. Best known for his dramatic conflicts, it was also a crucial period in the evolution of legal & governmental institutions.

Political Order and Forms of Communication in Medieval and Early Modern Europe - Autori Vari 2014-07-09T00:00:00+02:00

'Communication' has become one of the most vibrant areas of current

research on medieval and early modern Europe, almost paralleling the heightened popularity of conflict study since the 1980s. However, the nature of this concept seems to be ambiguous and has been defined with multiple nuances. Needless to say, communication in the Middle Ages was usually accomplished by personal presence, contact, and interaction, including conflict and its settlement. In this sense, the process of communication often comprised symbolic and ritual action. In response to concerns about the study of political communication, it should be emphasised that communication may confirm and spread certain fundamental ideas, social values and norms, bringing about certain patterns of behaviour and mentality that can be shared by members of the political body and community. The authors of these essays discuss the characteristics of political communication in medieval and early modern Europe by highlighting two aspects: 'ritual and symbolic communication', and 'conflict, feuds and communication'.

Proceedings of the Battle Conference 2002 - John Gillingham 2003

In studies ranging from Norman Sicily to Scandinavia, six focus on aspects of Scottish history. Papers discuss authenticity and forgery, royal and aristocratic values, the history of William the Conqueror and the Marshal earls. Contemporary historians' perceptions of the Jews and Byzantium complete the roll call.

The Intellectual Property of Nations - Laura R. Ford 2021-05-20

This sweeping sociological analysis traces the emergence of intellectual property as a new type of legal property.

Charters and Charter Scholarship in Britain and Ireland - M. Flanagan 2005-07-14

This book draws together a collection of essays looking at the ways in which charters and charter scholarship in different areas of Britain and Ireland, highlighting comparisons and contrasts in charter production and use. The book shows the crucial importance of charters as sources for understanding the history of royal administration and, more broadly, the perceptions and portrayals of kingly power, as well as developments in written culture.

Charters and Custumals of Shaftesbury Abbey, 1089-1216 - N. E. Stacy 2006-05-11

"This is a critical edition of six twelfth-century surveys of the vast estates of Glastonbury Abbey, five of which are printed for the first time." "They deal with both the monastic household and the Abbot's lordship as tenant-in-chief. They throw much light on the changing methods by which he exploited the resources of his demesne manors, and provide evidence of how the services and holdings of the peasantry were affected by a rising population." "The introduction explains the contemporary context of surveys - documents which are of fundamental importance for the economic, social, and monastic history of twelfth-century England."--BOOK JACKET.
