*Why We Love* - Helen Fisher  
2005-01-02

A groundbreaking exploration of our most complex and mysterious emotion Elation, mood swings, sleeplessness, and obsession—these are the tell-tale signs of someone in the throes of romantic passion. In this revealing new book, renowned anthropologist Helen Fisher explains why this experience—which cuts across time, geography, and gender—is a force as powerful

as the need for food or sleep. *Why We Love* begins by presenting the results of a scientific study in which Fisher scanned the brains of people who had just fallen madly in love. She proves, at last, what researchers had only suspected: when you fall in love, primordial areas of the brain "light up" with increased blood flow, creating romantic passion. Fisher uses this new research to show exactly what you experience when you fall in love, why you choose one person rather than another, and how romantic love affects your sex drive and your feelings of attachment to a partner. She argues that all animals feel romantic attraction, that love at first sight comes out of nature, and that human romance evolved for crucial reasons of survival.

love worth the risk? Are any decent guys left? Single women often feel left alone to find answers to their deep questions about love and intimacy. Some hang out and hook up, hoping for love. Others are afraid even to hope. At some point, every woman needs reassurance that she—and her standards—are not the problem. **Running as a Woman** - Linda Witt 1995-08-01

Women have become a strong force in electoral politics, as candidates, office holders, and vocal constituents. In *Running as a Woman*, Linda Witt, Karen Paget, and Glenna Matthews explore the significant issues for women in public life: their marital status, the threat of sexual innuendo, what's involved in becoming a credible

candidate, and raising enough money to run. They also explain how voters are mobilized to vote for women, how the media cover them, how they get their campaign message out, what it's like to lose, and what difference women make once elected. In addition, *Running as a Woman* includes a compelling history of women in politics that both records the political role women have played throughout the last two centuries and explains how and why women have continually been stifled in their attempts to enter political life. While the 1992 elections were hailed as a giant leap forward for women, the 1994 elections created a skepticism that real, permanent changes occurred. In *Running as a Woman*, the authors set the record straight with a chapter that analyzes the results of the 1994 elections and their relevance for women today.

challenges them, and who refuses to be pushed around by women (or anything else for that matter). This is especially true of women who seek a more traditional male-female gender role dynamic in their romantic relationships. Even if a man knows how to attract women, cultivating a mind-blowing relationship with one requires a different set of skills entirely. Women want men who can make them feel secure - men with strong boundaries and unwavering commitment. Sadly, most dating and relationship books rarely show men how to keep a woman happy without them having to sacrifice their manhood in the process. How to Understand Women and Pass Their Tests With Unshakeable Confidence Men around the world have no idea that the women they know and love are testing them. These men go about their lives interacting with the opposite sex in absolute darkness, ignorant to the fact that they're being judged, appraised, approved, and rejected based on their subconscious reactions

to female testing. If you had no idea that women test men and why they have to, you're about to take a journey onto a road less traveled - the more mysterious side of female psychology and how women think. Attract Women Through Authenticity and Be the Strong Man a Woman Wants For a Relationship It's important for a man to learn how to walk that thin line between caring, thoughtful lover and firm, assertive leader. The man who masters the art of being the perfect gentleman and a strong alpha male is the ideal specimen to a high-quality woman. This is what you're going to learn in this book. So if you're dating or in a relationship and women constantly create drama, lose interest in you, or manipulate you, it's time you finally got some advice from one of the only relationship books for men that won't turn you into a doormat. Here's what you're going to learn inside: How to be radically honest with a woman and why this makes her MORE attracted to you. The
