Composing for the Screen - Scott W. Hallgren 2022-07-20

This book is a collection of essays written by and interviews with working composers for film and television, and video games, exploring the business side of composing, addressing the lack of understanding about career development and business responsibilities as they relate to composers. Over 30 industry professionals, composers, directors, educators and business agents at all levels dispel myths about the industry and provide practical advice on topics such as how to break into the field; how to develop, nurture, and navigate business relationships; and how to do creative work under pressure. Readers will also learn about the entrepreneurial expectations in relation to marketing, strategies for contending with the emotional highs and lows of composing, and money management whilst pursuing a career in composing. Written for undergraduates and graduates studying composing, sound production, and filmmaking, as well as aspiring composers for film, TV, and games, this book provides readers with a wealth of first-hand information that will help them create their own opportunities and pursue a career in film and television.

Who Makes the Franchise? - Rhonda Knight 2022-10-28

Fans and the billion-dollar franchises in which they participate have together become powerful agents within popular culture. These franchises have launched avenues for fans to expand and influence the stories that they tell. This book examines those fan-driven narratives as "wilderness texts," in which fans use their platforms to create for themselves while also communicating their visions to the franchises, thus spurring innovation. The essays in this collection look at how fans intervene in the production of mass media. Scholars analyze the negotiations between fan desires for both novelty and familiarity that franchises must maintain in order to achieve critical and commercial success. Applying varying theoretical approaches to discussions of fan responses to franchises, including Star Wars, Marvel, Godzilla, Firefly, The Terminator, Star Trek, DC, and The Muppets, these essays provide insight into the ever-changing relationships between fandom and transmedia storytelling.

The SAGE Encyclopedia of Journalism - Gregory A. Borchard 2022-02-22

Journalism permeates our lives and shapes our thoughts in ways that we have long taken for granted. Whether it is National Public Radio in the morning or the lead story on the Today show, the morning newspaper headlines, up-to-the-minute Internet news, grocery store tabloids, Time magazine in our mailbox, or the nightly news on television, journalism pervades our lives. The Encyclopedia of Journalism covers all significant dimensions of journalism, such as print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts, and journalists, under the direction of lead editor Gregory Borchard of University of Nevada, Las Vegas.

Hollywood Shutdown - Kate Fortmueller 2021-07-20

By March 2020, the spread of COVID-19 had reached pandemic proportions, forcing widespread shutdowns across industries, including Hollywood. Studios, networks, production companies, and the thousands of workers who make film and television possible were forced to adjust their time-honored business and labor practices. In this book, Kate Fortmueller asks what happened when the coronavirus closed Hollywood. Hollywood Shutdown examines how the COVID-19 pandemic affected film and television production, influenced trends in distribution, reshaped theatrical exhibition, and altered labor practices. From January movie theater closures in China to the bumpy September release of Mulan on the Disney+ streaming platform, Fortmueller probes various choices made by studios, networks, unions and guilds, distributors, and exhibitors during the evolving crisis. In seeking to explain what happened in the first nine months of 2020, this book also considers how the pandemic will transform Hollywood practices in the twenty-first century.

Release the Snyder Cut - Sean O'Connell 2021-03-01

We're currently in the golden age of superhero blockbusters. Movies like Black Panther, Wonder Woman, Joker, and Avengers: Endgame routinely break box office records and compete for Oscars. Yet, Zack Snyder's 2017 behemoth Justice League—a veritable sure bet at the Hollywood

casino—tanked miserably, and the behind-the-scenes reasons for the movie's demise are fascinating. The true story behind Justice League's failure is only half of the juicy narrative, though. Snyder—who left the project months before filming concluded—still fans the flames that surround the rumor of a "Snyder Cut" of the film. This allegedly is the version of the story he wanted to tell before the studio, Warner Bros., pulled him off of the project. Hence, the "Snyder Cut." Pop-culture fans love a meaty mystery, and the controversy swirling around the lost Snyder Cut of Justice League has been captivating comic-book movie fans for years. Additionally, an army of passionate DC and Snyder fans are committed to getting the "Cut" released. They already have gone to incredible lengths to fight for the movie's opening, and have found strength, support, and charitable goals in their global "family" of Snyder Cut supporters. Their stories are remarkable, and the book is just as much about the dedicated fans who make up the Snyder Cut movement as it is about the unreleased film. Their efforts finally paid off with the recent announcement that Snyder's cut will be released in 2021 by Warner Bros. and HBO Max. Release the Snyder Cut tells the entire story.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The final season of fantasy TV series Game of Thrones was premiered at Radio City Music Hall in New York City. It was a send-off to the most-watched show in the history of HBO. #2 The Radio City premiere was a bittersweet affair, as the company was undergoing a massive restructuring process. Richard Plepler, the company's longtime New York headquarters building's owner, had already packed his office and was about to leave the company. #3 John Stankey, the 57-year-old Eagle Scout who grew up in Southern California, was in charge of restructuring HBO and breaking down the silos that made Time Warner a collection of largely autonomous nation-states. He also wanted to take on his greatest enemy on its own turf: Netflix. #4 Standing in the Radio City lobby, Stankey looked relaxed in an unbuttoned blue oxford dress shirt. He ate small handfuls of popcorn from one of the red-and-white-striped boxes being handed out to attendees.

The Global Film Market Transformation in the Post-Pandemic Era - Qiao Li 2023-05-04

This book reviews the development and performance of the global film industry during the COVID-19 pandemic and examines new trends in film production, distribution and consumption through a global lens. The COVID-19 pandemic has had a substantial impact on the global film industry since the beginning of 2020. There has been significant transformation in terms of film production, distribution and consumption. Hollywood, like many national cinemas across the globe, has suffered the most significant impact at all levels: the interruption of new film productions, shutdowns of movie theatres in many countries and delays in the release of new films, among them. Many movies made for cinemas were forced to move from release in theatres to various streaming platforms, and nontraditional production companies continued to grow their market share. This book places the global film industry in a post-Pandemic context. It provides detailed analyses of specific systems of film production, distribution and consumption in national cinemas, as well as in Hollywood, while also engaging with the key theoretical and

methodological questions from the film studies literature. This volume is a critical reference for students and scholars of film studies and general readers who are interested in the new trends and transformation of the global film industry in a post-pandemic era. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

The Value Gap - Courtney Brannon Donoghue 2023-08-08

How female directors, producers, and writers navigate the challenges and barriers facing female-driven projects at each stage of filmmaking in contemporary Hollywood. Conversations about gender equity in the workplace accelerated in the 2010s, with debates inside Hollywood specifically pointing to broader systemic problems of employment disparities and exploitative labor practices. Compounded by the devastating #MeToo revelations, these problems led to a wide-scale call for change. The Value Gap traces female-driven filmmaking across development, financing, production, film festivals, marketing, and distribution, examining the realities facing women working in the industry during this transformative moment. Drawing from five years of extensive interviews with female producers, writers, and directors at different stages of their careers, Courtney Brannon Donoghue examines how Hollywood business cultures “value” female-driven projects as risky or not bankable. Industry claims that “movies targeting female audiences don’t make money” or “women can’t direct big-budget blockbusters” have long circulated to rationalize systemic gender inequities and have served to normalize studios prioritizing the white male-driven status quo. Through a critical media industry studies lens, The Value Gap challenges this pervasive logic with firsthand accounts of women actively navigating the male-dominated and conglomerate-owned industrial landscape.

Media Management and Artificial Intelligence - Alex Connock 2022-11-18

This cutting-edge textbook examines contemporary media business models in the context of Artificial Intelligence (AI) and digital transformation. AI has dramatically impacted media production and distribution, from recommendation engines to synthetic humans, from

video-to-text tools to natural language models. "AI is really the change agent of the media industry," answered a natural language generation model when AI was 'asked' about the subject of this book. "It will open incredible opportunities." This book seeks to explore them. The media is examined through four sections. 'Principles' maps business models and the key tools of AI. 'Platforms' covers distribution channels in Games, Streamers, Social Networks, Broadcast and Digital Publishing. 'Producers' covers the engines of content-making, including Scripted, Entertainment, Factual, Content Marketing, Creators and Music. Finally, 'Pioneers' covers emerging sectors of Podcasting, Esports, the Metaverse and other AI-driven developments. Then in each chapter, a standard value creation model is applied, mapping a single sector through development, production, distribution and monetisation. Diverse case studies are analysed from India, Nigeria, South Korea, South Africa, France, the Netherlands, the US, the UK, Denmark and China - around creative entrepreneurship, revenue models, profit drivers, rights and emerging AI tools. Questions are provided for each case, whilst chapter summaries cement learning. Applied and technology-focused, this text offers core reading for advanced undergraduate and postgraduates studying Media Management - or the relationship between Entertainment, Media and Technology. Online resources include chapter-by-chapter PowerPoint slides and an Instructor's Manual with further exercises and case studies.

Superheroes Smash the Box Office - Shawn Conner 2023-09-06
In 1997, the superhero movie was all but dead. The last Superman flick had been released a decade earlier to disastrous reviews and ticket sales. The most recent Batman film was a franchise-killing bomb. And an oft-promised Spider-Man feature was grounded. Yet a mere five years later this once-derided genre would be well on its way to world domination at the box office and even critical respectability. How did this happen? And why, two decades later, does the phenomenon show no sign of abating? Here, for the first time, is an extensively researched soup-to-nuts history of the superhero movie, from the first bargain-basement black-and-white serials to today's multiverse blockbusters. Chronicling eight decades of stops and starts, controversies and creators, good guys and bad guys--onscreen and off--this entertaining account explains how and why our entertainment universe came to be overpowered by costumed crimefighters and their nefarious counterparts.

NOLLYWOOD'S PATH TO ASCENSION: lessons From Hollywood's Rise - Oluwasegun Babatunde 2023-08-31

"The science is strong, but a test is only as good as the men carrying it out," was said by Valery Legasov in the Chernobyl Mini-series. The quote resonates with me, as do the words, "Art pieces are as formidable as the quality of work, people, and resources drawn to bring them to life." Motion pictures are among the most radical art forms, and their role as sources of entertainment on both small and big screens speaks volumes. For more than a century, people have been making movies, and this trend will continue as long as people exist. In Nigeria's Nollywood, much has been accomplished, and much more is awaited. Therefore, the need to caution, educate, and take bold steps is greatly warranted. Nollywood's Path To Ascension (NPTA) aims to provide practical guidance and steps to reach the zenith.

Proceedings of the 2022 4th International Conference on Literature, Art and Human Development (ICLAHD 2022) - Bootheina Majoul 2023-03-14

This is an open access book. The 4th International Conference on Literature, Art and Human Development (ICLAHD 2022) was successfully held on October 28th-30th, 2022 in Xi'an, China (virtual conference). ICLAHD 2022 brought together academics and experts in the field of Literature, Art and Human Development research to a common forum, promoting research and developmental activities in related fields as well as scientific information interchange between researchers, developers, and engineers working all around the world. We were honored to have Assoc. Prof. Chew Fong Peng from University of Malaya, Malaysia to serve as our Conference Chair. The conference

covered keynote speeches, oral presentations, and online Q&A discussion, attracting over 300 individuals. Firstly, keynote speakers were each allocated 30-45 minutes to hold their speeches. Then in the oral presentations, the excellent papers selected were presented by their authors in sequence.

The Cinematic Superhero as Social Practice - Joseph Zornado 2021-11-06

This book analyzes the cinematic superhero as social practice. The study's critical context brings together psychoanalysis and restorative and reflective nostalgia as a way of understanding the ideological function of superhero fantasy. It explores the origins of cinematic superhero fantasy from antecedents in myth and religion, to twentieth-century comic book, to the cinematic breakthrough with Superman (1978). The authors then focus on Spider-Man as reflective response to Superman's restorative nostalgia, and read MCU's overarching narrative from Iron Man to End Game in terms of the concurrent social, political, and environmental conditions as a world in crisis. Zornado and Reilly take up Wonder Woman and Black Panther as self-conscious attempts to reflect on gender and race in restorative superhero fantasy, and explore Christopher Nolan's Dark Knight trilogy as a meditation on the need for authoritarian fascism. The book concludes with Logan, Wonder Woman 1984, and Amazon Prime's The Boys as distinctly reflective fantasy narratives critical of the superhero fantasy phenomenon.

#MeToo and Modernism - Robin E. Field 2023-01-16

#MeToo and Modernism offers a blend of cultural, historical, literary, and pedagogical responses applied to the themes behind today's ongoing #MeToo Movement. This volume is organized into four sections: a three-part chronological response in which scholars analyze literary understandings of how ripples of the #MeToo Movement began to emerge in Modernist literature, followed by a pedagogical section on how to incorporate such teachings in university classrooms. Editors Robin E. Field and Jerrica Jordan foreword the collection with an introduction answering the question of why such a volume is necessary in today's educational landscape. The introduction summarizes the

current scholarship regarding #MeToo and Modernism, while also uncovering the omissions, particularly in approaching nonbinary or queer writers, as well as writers of color, that still exist; as a response,

many of these essays attempt to approach these gaps. Furthermore, the introduction shows how more traditional Modernist writers--including Woolf, Forster, Wells, and Joyce--served as forerunners of early glimmers of the #MeToo Movement in Modernist Literature.
