Subject Index of the Modern Books Acquired by the British Museum in the Years ... - British Museum 1927

Catalog of Copyright Entries. New Series - Library of Congress. Copyright Office 1925

Part 1, Books, Group 1, v. 21 : Nos. 1 - 135 (Issued March, 1924 - April, 1925)

Dictionary of Symbols - J. C. Cirlot 2006-10-19

The unvarying essential meanings of around 1,000 symbols and symbolic themes commonly found in the art, literature and thought of all cultures through the ages are clarified.

The "seven Deadly Sins" in Medieval English Literature - Morton Wilfred Bloomfield 1938

The Secret Teachings of All Ages - Manly P. Hall 2010-01-01

Acclaimed by Publishers Weekly as "a classic reference, dizzying in its breadth," this volume explores the themes underlying ancient mythology, philosophy, and religion. Hundreds of entries range from esoteric elements of Islamic and Christian history to arcane rituals practiced by Druids, Freemasons, alchemists, and other secret societies. 16 pages of color plates, 100 black-and-white illustrations.

The Forbidden Tree and the Jinn - Serkan Zorba 2023-05-10

Foremost among the most alluring mysteries and symbolisms of the Quran are the concepts of jinn, the Forbidden Tree and the expulsion of Adam and Eve from paradise (a.k.a. the Fall of Adam or the Fall of Man). Notwithstanding the importance of these concepts to the Islamic religion and culture—and the ever-mounting modern scientific know-how—the contemporary Muslim understanding of them is, truth be told, nebulous. The legends of the Forbidden Tree and the Fall of Adam are central to the story of the creation of humanity's primogenitors not only in the Quran but also in the Bible. However, the meaning and significance of these stories have not yet been rationally elucidated. Islamic scholars, imams and the so-called sheiks cannot shed much scholarly light to further our understanding of these topics as they almost never go beyond rehashing what is written in the traditional sources. Likewise, Judaic and Christian authorities have not advanced any rationally satisfactory explanations for these narrations. In fact, studying the contemporary Abrahamic religious, cultural, and self-proclaimed scientific expositions on these subjects is an example of *obscurum per obscurius*. This book presents two bold ideas pertaining to these topics, which are complementary to one another: (1) A novel interpretation of the Forbidden Tree and the Fall of Adam legends. It deciphers the true meaning behind the Quranic and Biblical accounts of Adam and Eve eating from this "forbidden tree," exposing their private parts, incurring the punishments of having to constantly struggle for survival, and of being "enemies" with other living beings and shedding blood. This interpretation also naturally resolves another age-old enigma of God teaching Adam "the names of all things." (2) It shows that the concepts of jinn and devils do not refer to supernatural beings, as traditionally assumed, but rather to tangible beings that are all important for the biosphere and human health and wellbeing. The interpretation that Dr. Zorba has developed of these motifs is strictly based on a close-reading of the Quran and the Hadith with the help of physics, microbiology, microbial ecology, biogeochemistry and the fast-emerging science of microbiota.

The Book of Primal Signs - Nigel Pennick 2014-06-16

An in-depth study of the sacred meanings behind ancient and enduring symbols • Explains the multiple forms and uses of symbols from ancient times to the present day, reflecting their roots in folk magic and the

Western Mystery tradition • Examines more than 40 glyphs, such as the cross, fleur de lis, and pentagram, as well as several families of symbols, such as craftsmen's marks and runes • Includes more than 300 unique woodcuts, drawings, calligraphy, and photographs--many never before reproduced From ancient rock and cave art to the contemporary brand logos of politics and business, human beings have always created symbols to denote specific ideas, groups, or important objects as well as to convey deeper information than can be communicated in words. Many glyphs have retained their meanings over millennia whereas some have modern meanings vastly different from the original connotation. In this study of symbols, Nigel Pennick explores glyphs as agents of higher consciousness and ports of access to the collective unconscious, acknowledging the continuity of tradition, both deliberate and not, as well as how interpretations of some symbols, such as the swastika, have changed dramatically. With more than 300 unique woodcuts, drawings, calligraphy, and photographs--many never before reproduced--Pennick examines ancient and enduring glyphs in detail, such as the circle, cross, eye, pentagram, fleur de lis, tree of life, and horseshoe, as well as several families of symbols, such as craftsmen's marks, runes, symbolic beasts, human heads and skulls, and the sigils of Mammon. The author explains the multiple forms and uses of each from ancient times to the present day, reflecting their roots in the Western Mystery tradition. He explores the symbols of high magic such as the glyph of John Dee's monad, those of folk magic such as the traditional cock on the weather vane, and the creation of modern glyphs such as the peace sign and the anarchy symbol. Contrasting the hi-jacked use of power symbols in modern advertising with the vital role of symbols in traditional arts and crafts, Pennick reveals how symbols link the cosmic with the terrestrial and allow us to infuse the mundane with the numinous.

The Sacred Tree as an Early Christian Literary Symbol - Stephen Jerome Reno 1978

A Dictionary of Symbols - J. E. Cirlot 2023-07-11

This classic encyclopedia of symbols by the renowned Spanish poet illuminates the imagery of myth, modern psychology, literature, and art. J. E. Cirlot's *A Dictionary of Symbols* is a feat of scholarship, an act of the imagination, and a tool for contemplation, as well as a work of literature—a reference book that is as indispensable as it is brilliant and learned. Cirlot was a composer, poet, critic, and champion of modern art whose interest in surrealism helped introduce him to the study of symbolism. This volume explores the space between the world at large and the world within, where nothing is meaningless, and everything is in some way related to something else. Running from "abandonment" to "zone" by way of "flute" and "whip," spanning the cultures of the world, and including a wealth of visual images to further bring the reality of the symbol home, *A Dictionary of Symbols* is a luminous and illuminating investigation of the works of eternity in time.

Isis - George Sarton 1926

"Brief table of contents of vols. I-XX" in v. 21, p. [502]-618.

An Illustrated Encyclopaedia of Traditional Symbols - J. C. Cooper 2012-01-02

In nearly 1500 entries, many of them strikingly and often surprisingly illustrated, J.C. Cooper has documented the history and evolution of symbols from prehistory to our own day. With lively, informative and often ironic texts, she discusses and explains an enormous variety of symbols extending from the Arctic to Dahomey, from the Iroquois to Oceania, and coming from systems as diverse as Tao, Christianity, Judaism, Buddhism, Islam, Tantra, the cult of Cybele and the Great Goddess, the Pre-Columbian religions of the Western Hemisphere and the Voodoo cults of Brazil and West Africa.

Aleister Crowley and Western Esotericism - Henrik Bogdan 2012-09-20

Henrik Bogdan and Martin P. Starr offer the first comprehensive examination of one of the twentieth century's most distinctive occult iconoclasts, Aleister Crowley (1875-1947), one of the most influential

thinkers in contemporary western esotericism.

Life Symbols as Related to Sex Symbolism - Elizabeth Edwards Goldsmith 1924

Animated Mischief - Brian N. Duchaney 2023-09-28

Over the last century, the medium of animation has served as an expression of childhood as well as a method of subverting the expectations of what society has promised for the future. Separated into three parts, this work assembles various explorations of taste, culture and passion through animation. Section I features essays that outline the historical changes in art and society that gave rise to an outsider culture that found a home in animation. In the second section, essays examine the practical use of animation as a voice for the underserved. Finally, in Section III, essays analyze the ways in which animation has reshaped the acceptance of outsider status to embrace otherness. Featuring everything from feature-length films to self-produced YouTube videos, the essays in this text reflect a shared love of animation and its unique ability to comment on society and culture.

THE CRAFTSMAN'S SYMBOLOGY - ANTHONY MONGELLI, JR. 2013-07-13

The first book by Bro. Anthony Mongelli, Jr. This is the first in a three-volume set that treats nine symbols and emblems of the first degree of Freemasonry, that of Entered Apprentice. This first volume, Book 1, discusses the circumpunct (the point-within-a-circle), the twin pillars and the Masonic apron. The section on the circumpunct is perhaps the most exhaustive treatment of this astounding symbol. Bro. Mongelli seeks after the significance that these symbols and emblems have had amongst diverse cultures across time with an eye toward how those meanings may inform our own interpretation of them. This book is extensively researched, having referenced more than 160 works. Features a revised and expanded version of the essay "Some Words to Newly Made Masons." Each chapter is thoroughly footnoted, features copious illustrations and a complete reference list.

The Sacred Fire - Ben Zion Goldberg 1958

Life Symbols As Related to Sex Symbolism - Elizabeth E. Goldsmith 2013-10

This is a new release of the original 1924 edition.

Subject Index of the Modern Works Added to the British Museum Library - 1927
