Marx Returns - Jason Barker 2018-02-23

Karl Marx is a revolutionary. He is not alone. It is November 1849 and London is full of them: a bunch of fanatical dreamers trying to change the world. Persecuted by a tyrannical housekeeper and ignored by his sexually liberated wife, Marx immerses himself in his writing, believing that his book on capital is the surest way of ushering in the workers' revolution and his family out of poverty. But when a mysterious figure begins to take an obsessive interest in his work Marx's revolutionary journey takes an unexpected turn... Marx Returns combines historical fiction, psychological mystery, philosophy, differential calculus and extracts from Marx and Engels's collected works to reimagine the life and times of one of history's most exceptional minds, in this next fiction offering from Zero Books.

Karl Marx - Francis Wheen 2000

Looks at the life of the father of Communism focusing primarily on the human side of the man rather than his works.

[Sasha and Emma](#) - Paul Avrich 2012-11-01

In 1889 Emma Goldman and Alexander Berkman met in a Lower East Side coffee shop. Over the next fifty years they became fast friends, fleeting lovers, and loyal comrades. This dual biography offers a glimpse into their intertwined lives, the influence of the anarchist movement they shaped, and their unyielding commitment to equality and justice.

Karl Marx: Man and Fighter (RLE Marxism)

- Boris Nicolaievsky 2015-04-24

Strife has raged about Karl Marx for decades, and never had it been so embittered as at the time of this book's first publication, 1936. Marx had impressed his image on the time as not other had done. To some he was - and still is - a fiend, the arch-enemy of human civilisation, and the prince of chaos, while to others he is a far-seeing and beloved leader, guiding the human race towards a brighter future. The arena in which Marx was fought about in 1936 was in the factories, in the parliaments and at the barricades. In both camps, the bourgeois and the socialist, Marx was first of all, if not exclusively,

the revolutionary. This book sets out to describe the life of Marx the fighter.

The Enemy Within - Seumas Milne 2014-04-01
Margaret Thatcher branded the leaders of the 1984-85 miners strike "the enemy within." In this classic account, Seumas Milne reveals the astonishing lengths to which her government and its intelligence machine were prepared to go to destroy the power of Britain's miners union. In this 30th anniversary edition new material brings the story up to date with further revelations about the secret war against organized labour and political dissent, and the devastating price paid for the Thatcher administrations onslaught by communities across Britain.

Notorious Victoria - Mary Gabriel 1998-01-28
"A remarkable biography . . . Well written and researched, this book warrants a spot on every serious American history student's bookshelf."
—Kirkus Reviews, starred review She was the first woman to run for president. She was the first woman to address the U.S. Congress and to operate a brokerage firm on Wall Street. She's the woman Gloria Steinem called "the most controversial suffragist of them all." So why have most people never heard of Victoria Woodhull? In this extensively researched biography, journalist Mary Gabriel offers readers a balanced portrait of a unique and complicated woman who was years ahead of her time—and perhaps ahead of our own. "One of the most controversial American women of the late nineteenth century springs to life in this study that leaves no stone unturned."

—Publishers Weekly "[A] deftly written biography . . . of a hell-raising visionary."
—Mirabella "A meaty slice of feminist history peppered with Victorian drama." —Civilization

Karl Marx - Rolf Hosfeld 2012-12-30
Is the Grand Old Man re-emerging? More than twenty years after the collapse of Communism, and in the midst of the crisis of Capitalism, Karl Marx's ideas, at least in part, are back in vogue. He is often invoked, yet often misunderstood. In this award-winning biography Rolf Hosfeld offers a new, transparent, and critical view of Marx's turbulent life. Linking the contradictory politician and revolutionary to his work-his errors and misjudgments as well as his pioneering ideas-Hosfeld presents a vivid

account of Marx's life between Trier and London. At the same time, he renders accessible Marx's complex work, one of the world's most important contributions to the history of ideas.
Love and Capital - Mary Gabriel 2014-06-29
" ... The rarely glimpsed and heartbreakingly human side of the man whose works would redefine the world after his death, as well as a vivid account of the woman who gave him the strength to follow his dangerous course."--
Jacket.

Karl Marx and the Birth of Modern Society - Michael Heinrich 2019-07-02

For over a century, Karl Marx's critique of capitalism has been a crucial resource for social movements. Now, recent economic crises have made it imperative for us to comprehend and actualize Marx's ideas. But without a knowledge of Karl Marx's life as he lived it, neither Marx nor his works can be fully understood. There are more than twenty-five comprehensive biographies of Marx, but none of them consider his life and work in equal, corresponding measure. This biography, planned for three volumes, aims to include what most biographies have reduced to mere background: the contemporary conflicts, struggles, and disputes that engaged Marx at the time of his writings, alongside his complex relationships with a varied assortment of friends and opponents. This first volume will deal extensively with Marx's youth in Trier and his studies in Bonn and Berlin. It will also examine the function of poetry in his intellectual development and his first occupation with Hegelian philosophy and with the so-called "young Hegelians" in his 1841 Dissertation. Already during this period, there were crises as well as breaks in Marx's intellectual development that prompted Marx to give up projects and re-conceptualize his critical enterprise. This volume is the beginning of an astoundingly dimensional look at Karl Marx - a study of a complex life and body of work through the neglected issues, events, and people that helped comprise both. It is destined to become a classic.

Eleanor Marx - Rachel Holmes 2014-05-08
The extraordinary and dramatic biography of the first modern feminist, who spent her entire life fighting for the principle of equality 'Gripping ... Most lives would be overshadowed by such a

melodramatic end. But Marx's life was so much more than a murder mystery, as Rachel Holmes's gripping and vividly told biography demonstrates' Sunday Times 'Superb ... The story of this remarkable life is so well told, with a rare combination of pace, verve and scholarship' Jeanette Winterson, Daily Telegraph Unrestrained by convention, lion-hearted and free, Eleanor Marx (1855-98) was an exceptional woman. Hers was the first English translation of Flaubert's Mme Bovary. She pioneered the theatre of Henrik Ibsen. She was the first woman to lead the British dock workers' and gas workers' trades unions. For years she worked tirelessly for her father, Karl Marx, as personal secretary and researcher. Later she edited many of his key political works, and laid the foundations for his biography. But foremost among her achievements was her pioneering feminism. For her, sexual equality was a necessary precondition for a just society. Drawing strength from her family and their wide circle, including Friedrich Engels and Wilhelm Liebknecht, Eleanor Marx set out into the world to make a difference - her favourite motto: 'Go ahead!' With her closest friends - among them, Olive Schreiner, Havelock Ellis, George Bernard Shaw, Will Thorne and William Morris - she was at the epicentre of British socialism. She was also the only Marx to claim her Jewishness. But her life contained a deep sadness: she loved a faithless and dishonest man, the academic, actor and would-be playwright Edward Aveling. Yet despite the unhappiness he brought her, Eleanor Marx never wavered in her political life, ceaselessly campaigning and organising until her untimely end, which - with its letters, legacies, secrets and hidden paternity - reads in part like a novel by Wilkie Collins, and in part like the modern tragedy it was. Rachel Holmes has gone back to original sources to tell the story of the woman who did more than any other to transform British politics in the nineteenth century, who was unafraid to live her contradictions.

Karl Marx: A Nineteenth-Century Life -

Jonathan Sperber 2013-03-11

"Absorbing, meticulously researched. . . .

[Sperber] succeeds in the primary task of all biography, re-creating a man who leaps off the page." —Jonathan Freedland, New York Times

Book Review In this magisterial biography of Karl Marx, "likely to be definitive for many years to come" (John Gray, New York Review of Books), historian Jonathan Sperber creates a meticulously researched and multilayered portrait of both the man and the revolutionary times in which he lived. Based on unprecedented access to the recently opened archives of Marx's and Engels's complete writings, *Karl Marx: A Nineteenth-Century Life* provides a historical context for the personal story of one of the most influential and controversial political philosophers in Western history. By removing Marx from the ideological conflicts of the twentieth century that colored his legacy and placing him within "the society and intellectual currents of the nineteenth century" (Ian Kershaw), Sperber is able to present a full portrait of Marx as neither a soothsaying prophet of the modern world nor the author of its darkest atrocities. This major biography fundamentally reshapes our understanding of a towering historical figure.

The Communist Manifesto & Selected Writings - Karl Marx 2018-02-08

Designed to appeal to the booklover, the Macmillan Collector's Library is a series of beautiful gift editions of much loved classic titles. Macmillan Collector's Library are books to love and treasure. This edition contains the most salient extracts from Marx's great work, selected and introduced by Hugh Griffith. Karl Marx's *Communist Manifesto*, first printed just before the French revolution of 1848, is his most accessible and famous work. In his powerful call to arms, Marx expounds his famous theory that class struggle is the real determinant of historical change. Next in this volume comes his treatise, *Wages, Price and Profit*, written in 1865, which serves as an accessible introduction to the ideas which Marx went on to develop in *Capital*, his masterful, multi-volume analysis of how the world was irreversibly changed by the industrial revolution. Whilst old-style Marxism is now dead and buried, today's conflicts within capitalism are as sharp as ever and Marx's brilliant, painstaking writings remain incredibly relevant.

Ninth Street Women - Mary Gabriel 2018-09-25

Five women revolutionize the modern art world in postwar America in this "gratifying, generous,

and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, New York Times). Set amid the most turbulent social and political period of modern times, Ninth Street Women is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In Ninth Street Women, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

Love and Capital - Mary Gabriel 2011-09-14
Brilliantly researched and wonderfully written, *Love and Capital* reveals the rarely glimpsed and heartbreakingly human side of the man whose works would redefine the world after his death. Drawing upon previously unpublished material, acclaimed biographer Mary Gabriel tells the story of Karl and Jenny Marx's marriage. Through it, we see Karl as never before: a

devoted father and husband, a prankster who loved a party, a dreadful procrastinator, freeloader, and man of wild enthusiasms -- one of which would almost destroy his marriage. Through years of desperate struggle, Jenny's love for Karl would be tested again and again as she waited for him to finish his masterpiece, *Capital*. An epic narrative that stretches over decades to recount Karl and Jenny's story against the backdrop of Europe's Nineteenth Century, *Love and Capital* is a surprising and magisterial account of romance and revolution -- and of one of the great love stories of all time.

The Right Fights Back: Playbook 2012 (POLITICO Inside Election 2012) - Mike Allen 2011-11-30

Two of America's most perceptive political reporters join forces for an unprecedented behind-the-scenes look at the race for the White House in POLITICO's Playbook 2012, a series of four instant digital books on the 2012 presidential election. The first edition, *The Right Fights Back*, follows the campaign for the Republican presidential nomination. The battle for the 2012 Republican presidential nomination promises to be one of the most hotly contested and closely fought in recent memory, as establishment Republicans, Tea Party favorites, and dark horse insurgents vie to take on President Obama in the November election. In *The Right Fights Back*, Mike Allen, chief White House correspondent for POLITICO, and Evan Thomas, the award-winning journalist and author of *Robert F. Kennedy and The War Lovers*, chronicle the dramatic events of this historic campaign as it unfolds. With exclusive real-time reporting from the campaign trail, *The Right Fights Back* provides detail, color, and in-depth analysis that take readers beyond the hourly headlines and commentary. From the role of Super PACS and conservative interest groups to the clashes of personality and policy that will define the race to capture the GOP nomination, this is a history-as-it-happens account of the resurgent American right at the crossroads.
Love and Capital - Mary Gabriel 2011-09-14
Brilliantly researched and wonderfully written, *LOVE AND CAPITAL* reveals the rarely glimpsed and heartbreakingly human side of the man whose works would redefine the world after his death. Drawing upon previously unpublished

material, acclaimed biographer Mary Gabriel tells the story of Karl and Jenny Marx's marriage. Through it, we see Karl as never before: a devoted father and husband, a prankster who loved a party, a dreadful procrastinator, freeloader, and man of wild enthusiasms—one of which would almost destroy his marriage. Through years of desperate struggle, Jenny's love for Karl would be tested again and again as she waited for him to finish his masterpiece, *Capital*. An epic narrative that stretches over decades to recount Karl and Jenny's story against the backdrop of Europe's Nineteenth Century, *LOVE AND CAPITAL* is a surprising and magisterial account of romance and revolution—and of one of the great love stories of all time.

A World to Win - Sven-Eric Liedman
2018-05-01

Epic new biography of Karl Marx for the 200th anniversary of his birth In this essential new biography—the first to give equal weight to both the work and life of Karl Marx—Sven-Eric Liedman expertly navigates the imposing, complex personality of his subject through the turbulent passages of global history. *A World to Win* follows Marx through childhood and student days, a difficult and sometimes tragic family life, his far-sighted journalism, and his enduring friendship and intellectual partnership with Friedrich Engels. Building on the work of previous biographers, Liedman employs a commanding knowledge of the nineteenth century to create a definitive portrait of Marx and his vast contribution to the way the world understands itself. He shines a light on Marx's influences, explains his political and intellectual interventions, and builds on the legacy of his thought. Liedman shows how Marx's masterpiece, *Capital*, illuminates the essential logic of a system that drives dizzying wealth, grinding poverty, and awesome technological innovation to this day. Compulsively readable

and meticulously researched, *A World to Win* demonstrates that, two centuries after Marx's birth, his work remains the bedrock for any true understanding of our political and economic condition.

The Art of Acquiring - Mary Gabriel
2002-08-18

For four and a half decades, Etta and Claribel Cone roamed artists' studios and art galleries in Europe, building one of the largest, most important art collections in the world. At one time, these two independently wealthy Jewish women from Baltimore received offers from virtually every prominent art museum in the world, all anxious to house their hitherto private assemblage of modern art. In 1949, they awarded all their holdings to the Baltimore Museum of Art. In 2002, that collection was valued at nearly \$1 billion, making them two of the most philanthropic art collectors of our age. Yet, for complex reasons, the story of the Cone sisters has never been fully or accurately told. Mary Gabriel, an art-minded journalist and women's historian, has, at long last, brought the little-known sisters to life, and shone the spotlight on their remarkable achievements.

The Man Who Stayed Behind - Sidney Rittenberg
2001-04-03

The story of "an idealistic young American who freely cast his lot with the Chinese revolution only to be struck down by that revolution at the floodtide of its success."—Leonard Woodcock, first American Ambassador to China.

Karl Marx - Gareth Stedman Jones 2016-10-03
Gareth Stedman Jones returns Karl Marx to his nineteenth-century world, before later inventions transformed him into Communism's patriarch and fierce lawgiver. He shows how Marx adapted the philosophies of Kant, Hegel, Feuerbach, and others into ideas that would have—in ways inconceivable to Marx—an overwhelming impact in the twentieth century.
