The Night of God's Suicide - Barney Vincelette 2013-03-01

This is savage satire on religious fundamentalism and pop culture. Mephistopheles took over the religions of the world and after thousands of years of holy wars, genocides, inquisitions and holocausts, will unite his religions and establish his kingdom on Earth. Trailer Park Buford, college football hero, is arrested for raping and murdering a six-year-old girl, but because he is so passionately admired by sports fans, corporate

America spends billions on his defense. The oratory in the trial is so brilliant that bin Laden, who sees it on television, concludes that Buford is the Seventh Mullah, makes peace with the television evangelism industry, and Buford becomes Buford Christ. Mephistopheles' new religion turns the world into a low class trailer park that is so ugly that it causes God to begin His suicide. But little Laurie, the only child to survive an encounter with Buford, stands alone and fights back against Mephistopheles as the stars go out. The universe hangs in the balance.

[Too Hot to Handle](#) - Jonathan Zimmerman 2016-09-13

The first comprehensive history of sex education around the world *Too Hot to Handle* is the first truly international history of sex education. As Jonathan Zimmerman shows, the controversial subject began in the West and spread steadily around the world over the past century. As people crossed borders, however, they joined hands to block sex education from most of their classrooms. Examining key players who supported and opposed the sex education movement, Zimmerman takes a close look at one of the most debated and divisive hallmarks of modern schooling. In the early 1900s, the United States pioneered sex education to protect citizens from venereal disease. But the American approach came under fire after World War II from European countries, which valued individual rights and pleasures over social goals and outcomes. In the so-called Third World, sex education developed in response to the deadly crisis of HIV/AIDS. By the early 2000s, nearly every country in the world addressed sex in its official school curriculum. Still, Zimmerman demonstrates that sex education never won a sustained foothold: parents and religious leaders rejected the subject as an intrusion on their authority, while teachers and principals worried that it would undermine

their own tenuous powers. Despite the overall liberalization of sexual attitudes, opposition to sex education increased as the century unfolded. Into the present, it remains a subject without a home. *Too Hot to Handle* presents the stormy development and dilemmas of school-based sex education in the modern world.

The Power - Naomi Alderman 2017-10-10

In this stunning bestseller praised as "our era's *Handmaid's Tale*," a fierce new power has emerged—and only women have it (*Washington Post*). In *The Power*, the world is a recognizable place: there's a rich Nigerian boy who lounges around the family pool; a foster kid whose religious parents hide their true nature; an ambitious American politician; a tough London girl from a tricky family. But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power: they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. From award-winning author Naomi Alderman, *The Power* is speculative fiction at its most ambitious and provocative, at once taking us on a thrilling journey to an alternate reality, and exposing our own world in bold and surprising ways.

"Captivating, fierce, and unsettling...I was riveted by every page. Alderman's prose is immersive and, well, electric." —*New York Times Book Review*
