Trafficking and the Law 2011 With reference to India; includes judgments by the Indian courts.
The International Law of Human Trafficking Anne T. Gallagher 2010-09-30 Although human trafficking has a long and ignoble history, it is only recently that trafficking has become a major political issue for states and the international community and the subject of detailed international rules. Anne T. Gallagher calls on her direct experience working within the United Nations to chart the development of new international laws on this issue. She links these rules to the international law of state responsibility as well as key norms of international human rights law, transnational criminal law, refugee law and international criminal law, in the process identifying and explaining the major legal obligations of states with respect to preventing trafficking, protecting and supporting victims, and prosecuting perpetrators. This book is a groundbreaking work: a unique and valuable resource for policymakers, advocates, practitioners and scholars working in this controversial and important field.

HM Government: Serious Organised Crime Strategy - Cm. 8715 Great Britain: Home Office 2013-10-07 This is a new strategy to deal with the challenges we face from serious and organised crime. It is published to coincide with the launch of the new National Crime Agency (NCA) and reflects changes to the threats faced and the lessons learned from previous work. Organised crime includes drug trafficking, human trafficking, and organised illegal immigration, high value fraud and other financial crimes, counterfeiting, organised acquisitive crime and cyber crime. The aim of the strategy is to substantially reduce the level of serious and organised crime affecting the UK and its interests. The strategy uses the framework developed for our counter-terrorist work and has four components: prosecuting and disrupting people engaged in serious and organised crime (Pursue); preventing people from engaging in this activity (Prevent); increasing protection against serious and organised crime (Protect); and reducing the impact of this criminality where it takes place (Prepare). The strategy lists strategic objectives under each of the four areas of work. Tactical operational objectives (e.g. priority crime groups) will be set by the NCA with law enforcement agency counterparts. Our immediate priority is the work set out under Pursue to prosecute and relentlessly disrupt organised criminals and reduce the threat they pose. Like other threats to our national security, serious and organised crime requires a response across the whole of government, and close collaboration with the public, the private sector and with many other countries

Human Trafficking Noël Bridget Busch-Armendariz 2017-03-31 This practical, interdisciplinary text draws from empirically grounded scholarship, survivor-centered practices, and an ecological perspective to help readers develop an understanding of the meaning and scope of human trafficking. Throughout the book, the authors address the specific vulnerabilities of human trafficking victims, their medical-psycho-social needs, and issues related to direct service delivery. They also address the identification of human trafficking crimes, traffickers, and the impact of this crime on the global economy. Using detailed case studies to illuminate real situations, the book covers national and international anti-trafficking policies, prevention and intervention strategies, promising practices to combat human trafficking, responses of law enforcement and service providers, organizational challenges, and the cost of trafficking to human wellbeing.

Assessment of U.S. Activities to Combat Trafficking in Persons 2003

Combating Trafficking in Persons 2009 Trafficking in persons is a form of modern-day slavery, a human rights violation that constitutes a crime against the individual and the State. It must be recognized and punished by legislative means. Parliamentarians have an essential role to play in the fight against human trafficking. The Handbook for Parliamentarians suggests some practical ways in which they can develop and promote the comprehensive frameworks needed to do so.

The National Action Plan to Combat Human Trafficking The United States Government 2020-10-14 I am proud to present my Administration's National Action Plan to Combat Human

Trafficking. Life, liberty, and the pursuit of happiness are among the unalienable rights enshrined in America's founding documents. Tragically, through force, fraud, and coercion, human traffickers deprive victims of these cherished rights. Often referred to as "modern slavery," human trafficking can involve the exploitation of both adults and children, for labor and sex. It can devastate people of all ages, genders, races, religions, and nationalities. My Administration is determined to eradicate this evil from our cities, suburbs, rural areas and tribal lands. This National Action Plan represents our unwavering commitment to fighting human trafficking. It is built around the "three pillars" laid out in the Trafficking Victims Protection Act of 2000 (TVPA) - Prevention, Protection, and Prosecution - and lays out specific action items we are taking underneath each pillar. The National Action Plan also emphasizes collaboration, cutting across all sectors, to make our efforts as effective as possible. Through this whole-of-government approach, the United States will use every tool at its disposal to combat human trafficking and build on existing momentum.

Third Party Sex Work and Pimps in the Age of Anti-trafficking Amber Horning 2017-01-03 This volume is a compilation of new original qualitative and ethnographic research on pimps and other third party facilitators of commercial sex from the developed and developing world. From African-American pimps in the United States and Eastern European migrants in Germany to Brazilian cafetões and cafetinas this volume features the lives and voices of the men and women who enable diverse and culturally distinct sex markets around the world. In scholarly, popular, and policy-making discourses, such individuals are typically viewed as larger-than-life hustlers, violent predators, and brutal exploiters. However, there is actually very little empirical research-based knowledge about how pimps and third party facilitators actually live, labor, and make meaning in their everyday lives. Nearly all previous knowledge derives from hearsay and post-hoc reporting from ex-sex-workers, customers, police and government agents, neighbors, and self-aggrandizing fictionalized memoirs. This volume is the first published compilation of empirically researched data and analysis about pimps and third parties working in the sex trade across the globe. Situated in an age of highly punitive and ubiquitous global anti-trafficking law, it challenges highly charged public policy stereotypes that conflate pimping and sex trafficking, in order to understand the lived experience of pimps and the men and women whose work they facilitate.

and winner of the Vaclav Havel Human Rights Prize, Nadia Murad is a courageous young woman who has endured unimaginable tragedy (losing eighteen members of her family) and degradation through sexual enslavement to ISIS. But she has fought back. This inspiring memoir takes us from her peaceful childhood in a remote village in Iraq through loss and brutality to safety in Germany. Responding to Human Trafficking Alicia W. Peters 2015-08-31 Signed into law in 2000, the Trafficking Victims Protection Act (TVPA) defined the crime of human trafficking and brought attention to an issue previously unknown to most Americans. But while human trafficking is widely considered a serious and despicable crime, there has been far less consensus as to how to approach the problem—owing in part to a pervasive emphasis on forced prostitution that overshadows repugnant practices in other labor sectors affecting vulnerable populations. *Responding to Human Trafficking* examines the ways in which cultural perceptions of sexual exploitation and victimhood inform the drafting, interpretation, and implementation of U.S. antitrafficking law, as well as the law's effects on trafficking victims. Drawing from interviews with social workers and case managers, attorneys, investigators, and government administrators as well as trafficked persons, Alicia W. Peters explores how cultural and symbolic frameworks regarding sex, gender, and victimization were incorporated into the drafting of the TVPA and have been replicated through the interpretation and implementation of the law. Tracing the path of the TVPA over the course of nearly a decade, *Responding to Human Trafficking* reveals the profound gaps in understanding that pervade implementation as service providers and criminal justice authorities strive to collaborate and perform their duties. Ultimately, this sensitive ethnography sheds light on the complex and wide-ranging effects of the TVPA on the victims it was designed to protect.

Sex Trafficking, Human Rights, and Social Justice Tiantian Zheng 2010-09-13 The recognition of women's human rights to migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nation's definition of trafficking. This volume explores the life experiences, agency, and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and national discourses and its effects on migrant women, but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran, Denmark, Paris, Hong Kong, and south east Asia and offering perspectives from transnational migrant population, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders, and reassert the social justice and the needs, agency, and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology.

The Domestication of Human Trafficking Katrin Roots 2022-11-01 Human trafficking has emerged as one of the top international and domestic policy concerns, and is well covered and often sensationalized by the media. The nature of the topic combined with various international pressures has resulted in an array of government-led mandates to combat the issue. *The Domestication of Human Trafficking* examines Canada's criminal justice approaches to human trafficking, with a particular focus on the ways in which the intersecting factors of race, class, gender, and sexuality

impact practice. Using a wide range of qualitative and empirically grounded research methods, including extensive analysis of court documents, trial transcripts, and interviews with criminal justice actors, this book contributes to much-needed research that examines, specifies, and sometimes complicates the narratives of how trafficking works as a criminal offence. The Domestication of Human Trafficking turns our attention to the ways in which the offence of human trafficking is made on the front lines of criminal justice efforts in Canada.

Journeys of Jeopardy Elizabeth Kelly 2002 "In this report, Professor Elizabeth Kelly assesses the current state of knowledge on the trafficking of women and children in Europe. She concludes that despite the growing interest and concern, information on the scale of trafficking, the methods used, and the most effective means to counter it, remains limited. To advance our current knowledge, Professor Kelly identifies a number of priorities for further research, including on the structure of and the methods used by criminal groups, on state compliance with relevant international law, and an evaluation of the effectiveness of counter-trafficking initiatives. This report was presented at the European Conference on Preventing and Combating Trafficking in Human Beings: A Global Challenge for the 21st Century, held under the auspices of IOM and the European Commission, in September 2002 in Brussels, Belgium."--Publisher's website.

Ending Human Trafficking in the Twenty-First Century Jamille Bigio 2021-06-10 "Human trafficking is more than a violation of human rights: it is also a threat to national security, economic growth, and sustainable development," warns a new Council Special Report, *Ending Human Trafficking in the Twenty-First Century*. However, the United States "lacks sufficient authorities and coordination across the federal government to address human trafficking adequately, instead treating this issue as ancillary to broader foreign policy concerns." "Critics who challenge the allocation of political and financial capital to combat human trafficking underestimate trafficking's role in bolstering abusive regimes and criminal, terrorist, and armed groups; weakening global supply chains; fueling corruption; and undermining good governance," write Council on Foreign Relations (CFR) Senior Fellows Jamille Bigio and Rachel B. Vogelstein. Trafficking generates \$150 billion in illicit profits, and "an estimated twenty-five million people worldwide are victims-a number only growing in the face of vulnerabilities fueled by the COVID-19 pandemic." Despite efforts by multilateral institutions and governments around the world, the authors explain that "anti-trafficking efforts are undermined by insufficient authorities, weak enforcement, limited investment, and inadequate data." To address these gaps, the Joe Biden administration "should lead on the global stage . . . by strengthening institutional authorities and coordination, improving accountability, increasing resources, and expanding evidence and data," the authors contend. Specifically, it should "enact due diligence

reforms to promote corporate accountability for forced labor in supply chains," including by expanding the U.S. National Action Plan to Combat Human Trafficking; "reform labor recruitment systems to combat the exploitation of migrant workers"; "increase trafficking prosecutions by scaling the successful U.S. anti-trafficking coordination team model, which includes law enforcement, labor officials, and social service providers"; "leverage technology against human trafficking; and increase investment to counter it"; and "enlist leaders in the private, security, and global development sectors to propose innovative and robust prevention and enforcement initiatives." Such efforts will advance U.S. economic and security interests by boosting GDP with improved productivity and human capital, and saving governments the direct costs of assisting survivors. By elevating the issue, Bigio and Vogelstein conclude, "human trafficking can be eradicated with a comprehensive and coordinated response."

Human Trafficking Louise Shelley 2010-07-29 This book examines all forms of human trafficking globally, revealing the operations of the trafficking business and the nature of the traffickers themselves. Using a historical and comparative perspective, it demonstrates that there is more than one business model of human trafficking and that there are enormous variations in human trafficking in different regions of the world. Drawing on a wide body of academic research - actual prosecuted cases, diverse reports and field work and interviews conducted by the author over the last sixteen years in Asia, Latin America, Africa, Europe and the former socialist countries - Louise Shelley concludes that human trafficking will grow in the twenty-first century as a result of economic and demographic inequalities in the world, the rise of conflicts and possibly global climate change. Coordinated efforts of government, civil society, the business community, multilateral organizations and the media are needed to stem its growth.

unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Model Law Against Trafficking in Persons United Nations Office on Drugs and Crime 2009 The publication was developed by the United Nations Office on Drugs and Crime (UNODC) in response to the request of the General Assembly to the Secretary-General to promote and assist the efforts of Member States to become party to and implement the United Nations Convention against Transnational Organized Crime and the Protocols thereto. It was developed in particular to assist States in implementing the provisions contained in the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing that Convention. The Model Law will both facilitate and help systematize provision of legislative assistance by UNODC as well as facilitate review and amendment of existing legislation and adoption of new legislation by States themselves. It is designed to be adaptable to the needs of each State, whatever its legal tradition and social, economic, cultural and geographical conditions.

Global Report on Trafficking in Persons 2018 United Nations 2019-03-21 This report, which comprises three booklets, provides a comprehensive analysis of the crime of trafficking in persons and how different countries are responding to this crisis. Countries worldwide have been detecting and reporting a larger number of victims and are also convicting more traffickers than ever before. This may well be the result of an increase in the capacity to identify victims over the last few years. While the number of reporting countries did not significantly increase, the number of victims reported in different countries did increase. The trend has unfortunately been growing over the past few years.
