Rebels in White Gloves - Miriam Horn

2011-05-04

When the women of the Wellesley class of 1969 entered the ivory tower, they were initiated into a rarefied world. Many were daughters of privilege, many were going for their "MRS." But by the time they graduated four years later, they faced a world turned upside down by the Pill, NOW, student protests, the counterculture, and the Vietnam War. In this social history, Miriam Horn retraces the lives of women caught on a historic cusp. This generation was the first to test-drive modern rules that remain complicated and contentious regarding sexuality, marriage, motherhood, paid work, spirituality, aging, and the difficulties of reconciling public and private life. The result is a story of uncommon subtleties and vibrancy that reflects this generation's fateful choices.

*Female Masculinity* - Jack Halberstam

2019-01-05

In this quintessential work of queer theory, Jack Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two centuries. Demonstrating how female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. He rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity; considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities; and explores issues of transsexuality among "transgender

dykes"—lesbians who pass as men—and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. Featuring a new preface by the author, this twentieth anniversary edition of *Female Masculinity* remains as insightful, timely, and necessary as ever.

*Charting the Sea of Darkness* - Donald S. Johnson 1995

NATIONAL BOOK AWARD NOMINEE Long regarded as the most magical of the European dynasties, the Rothschild family today remains one of the most powerful and wealthy in the world. No family in the past two centuries has been so constantly at the center of Europe's great events, has featured such varied and spectacular personalities, has had anything close to the wealth of the Rothschilds. In Frederic

Morton's classic tale, the family is brought vividly to life. Here you'll meet characters as lively as you can imagine: Mayer, long-time advisor to Germany's princes, who broke through the barriers of a Frankfurt ghetto and placed his family on the road to wealth and power; Lord Alfred, who maintained a private train, private orchestra (which he conducted), and private circus (of which he was ringmaster); Baron Philippe, whose rarefied vintages bear labels created by great artists, among them Picasso, Dali, and Haring; and Kathleen Nica Rothschild de Koenigswarter, the "jazz baroness," in whose arms Charlie Parker died. The family itself has been at the center of some of the most crucial moments in history: the defeat of Napoleon at Waterloo, the development of the Suez Canal, the introduction of Jews in the House of Lords. Through it all, the Rothschild name has continued to represent the family ideal: a shrewd business and financial sense, activity in the Jewish community and the arts, and an always luxurious-and often eccentric-lifestyle. Nominated for a National Book Award when it was first published in 1962, Frederic Morton's *The Rothschilds* is here reissued with a new afterword by the author, bringing the tale of this extraordinary family to the present.

*Adorning Bodies* - Marilyn Johnson 2023-10-19  
How is meaning in our bodies constructed? To what extent is meaning in bodies innate, evolved through biological adaptations? To what extent is meaning in bodies culturally constructed? Does it change when we adorn ourselves in dress? In *Adorning Bodies*, Marilyn Johnson draws on evolutionary theory and philosophy in order to think about art, beauty, and aesthetics. Considering meaning in bodies and bodily adornment, she explores how the ways we use our bodies are similar to - yet at other times different from - animals. Johnson engages with the work of evolutionary theorists, philosophers of language, and cultural theorists - Charles Darwin, H. P. Grice, and Roland Barthes respectively - to examine both natural and non-natural meanings. She addresses how both systems of meaning signify relevant information to other humans, with respect to both bodies and clothes. Johnson also demonstrates that how we dress could negatively influence the way our bodies can be read, and how some humans and

animals use their bodies to deceive.

**La nuova intolleranza. Superare la paura dell'islam e vivere in una società più libera** - Martha C. Nussbaum 2012-11-21

Quale ragione ha spinto diversi giornali ad attribuire la strage di 77 norvegesi a non meglio precisati estremisti islamici, finché non è stato chiarito che l'esecutore era un terrorista xenofobo autoctono? Perché la Svizzera, un paese con quattro minareti, indice un referendum per proibire questi simboli religiosi? Per quale motivo la proposta di costruzione di un centro culturale islamico nel Lower Manhattan, vicino a Ground Zero, accende un dibattito politico incandescente negli Stati Uniti? Nella «Nuova intolleranza», Martha C. Nussbaum esamina alcuni casi esemplari di islamofobia per raccontare la pericolosità delle reazioni dettate dalla paura. Attingendo alla grande tradizione umanista della filosofia, della storia e della letteratura, indica un percorso che va oltre le ristrette risposte offerte dall'Occidente, verso un modello di società più equa, inventiva e libera. La paura, scrive Nussbaum, è la più narcisistica delle nostre emozioni. Manipolando le ansie legittime si producono leggi e politiche contro

chi è diverso. Per superare l'intolleranza è necessario applicare con costanza il rispetto delle coscienze e la capacità di comprensione. Nussbaum ci sfida ad abbracciare la libertà di religione per tutti, estendendo agli altri quello che chiediamo per noi. Ci incoraggia a espandere la nostra capacità di immaginazione empatica attraverso la curiosità, la conoscenza delle culture religiose e una forte etica del vivere civile. Solo così, argomenta Nussbaum, possiamo sconfiggere la politica della paura e avviarci verso un futuro più aperto e inclusivo. *The New Religious Intolerance* - Martha C. Nussbaum 2012-04-24

The author identifies the fear behind intolerant reactions and drawing inspiration from philosophy, history, and literature, she suggests a route toward a more equitable, imaginative and free society.

**The Private War of Mrs. Packard** - Barbara Sapinsley 1995

International in scope, this series of non-fiction trade paperbacks offers books that explore the lives, customs and thoughts of peoples and cultures around the world. This is the story of 19th-century feminist, Mrs Packard. *Sex and Suits* - Anne Hollander 1995

Since the dawn of western fashion in the Middle Ages, women's dress has never stopped evolving, yet menswear has seen far fewer style revolutions. At the centre of the male wardrobe is the suit: relatively unchanged since the 17th century, its cut and cloth suggest athleticism, seriousness, sexuality and strength - qualities which contrasted with the perceived superficiality and frivolity of female dress, and eventually led to the adoption of the suit into the female wardrobe where it remains to this day. In *Sex and Suits* brilliant essayist and art critic Anne Hollander charts the development of men's and women's fashion from their divergence in the medieval period to their convergence through to the late 20th century. Challenging the idea that the suit's success is merely down to its practicality, this trailblazing book argues that men have been fashion's true style-setters and that as women's fashion has taken on elements of men's style through tailoring, so men have reclaimed the embellishment and colour of past eras. First published in 1994 to great acclaim, this classic text is as fresh and provocative as

ever and remains a must-read for students, scholars and anyone fascinated by the history of fashion and gender.

*The Winning Line* - Vicky Lynn Skorich 1997

**A Nation in Torment** - Edward Robb Ellis 1995

**Jerusalem, Battlegrounds of Memory** - Amos Elon 1995

A unique, interpretative biography of the eternal city.

**Female Masculinity** - Judith Halberstam 1998  
Masculinity without men. In *Female Masculinity* Judith Halberstam takes aim at the protected status of male masculinity and shows that female masculinity has offered a distinct alternative to it for well over two hundred years. Providing the first full-length study on this subject, Halberstam catalogs the diversity of gender expressions among masculine women from nineteenth-century pre-lesbian practices to contemporary drag king performances. Through detailed textual readings as well as empirical research, Halberstam uncovers a hidden history of female masculinities while arguing for a more nuanced understanding of gender categories that would incorporate rather than pathologize them. She rereads Anne Lister's diaries and Radclyffe Hall's *The Well of Loneliness* as foundational assertions of female masculine identity. She considers the enigma of the stone butch and the politics surrounding butch/femme roles within lesbian communities. She also explores issues of transsexuality among "transgender dykes"--lesbians who pass as men--and female-to-male transsexuals who may find the label of "lesbian" a temporary refuge. Halberstam also tackles such topics as women and boxing, butches in Hollywood and independent cinema, and the phenomenon of male impersonators. *Female Masculinity* signals a new understanding of masculine behaviors and identities, and a new direction in interdisciplinary queer scholarship. Illustrated with nearly forty photographs, including portraits, film stills, and drag king performance shots, this book provides an extensive record of the wide range of female masculinities. And as Halberstam clearly

demonstrates, female masculinity is not some bad imitation of virility, but a lively and dramatic staging of hybrid and minority genders.

**Stone Age Present** - William Allman  
1995-11-07

Have you ever wondered why men don't ask for directions? Why we react with anger to infidelity? Why we love music and art? Why war and racism still thrive in our most sophisticated cultures? In this fascinating synthesis of the disciplines of anthropology, psychology, linguistics, philosophy, and biology, William Allman shows us how our minds have evolved in response to challenges faced by our prehistoric ancestors, and reveals how our brains continue to harbor that legacy in the present day.

Scientists speculate that many of the problems of modern life -- from obesity to war -- arise because our "Stone Age mind" hasn't caught up with our technologically sophisticated world. But Allman also reveals how morality, rather than being the result of arbitrary convention, is deeply rooted in our need to cooperate, which has been essential to the survival of our species through its evolution.
