Men in Transition - Kenneth Solomon
2013-11-11

Every year the few hundred members of the Committees, Task Forces, and Councils of the

American Psychiatric Association meet in Washington, D.C. to conduct their business. They deliberate on a wide variety of issues encompassed in the activities of each group. The psychiatrists constituting this mixed and somewhat elite group include some of the better-known and promising people in the profession, which makes the plenary session and cocktail party good occasions to meet old friends and to make new ones. Several years ago one of us (N.B.L.) attended this gathering as a member of a soon-to-be defunct group, the Committee Liaison with the American College of Physicians, and met Ann Chappell, a member of the Task Force on Women. We were soon joined by Richard Grant. Ann impressed us with the work

her group was doing on issues surrounding the Women's Movement as it relates to patients and the changing roles of the early 1970s. She was struck by the fact that although some women had been very active in this endeavor, nobody in American psychiatry was addressing issues which are arising in men as a result of the changing roles of women in society. Dick and Norm were moved by what she said and decided that they would make an effort to gather together people interested in the issue of the changing roles of males in society at the oncoming meeting of the American Psychiatric Association.

Love & Sex - Nancy Houston 2018-02-05

“So many couples struggle in their sexual lives because they divide sex and love ... Nancy Houston has written an excellent, practical, and very hopeful book on how to reintegrate the division.”—Dr. John Townsend, New York Times bestselling author of *Boundaries* “Without question, one of the greatest communicators of

our generation on Christian sex and intimacy is Nancy Houston.”—Amy Ford, president of Embrace Grace and author of *A Bump in Life* Sex is powerful! Just saying the word “sex” can stir up all kinds of emotions. Maybe it’s a positive emotion for you—or possibly a hurtful, shameful, confusing one. It’s no wonder we struggle to understand its meaning and purpose. It can be difficult to talk about, and if we have experienced unwanted shame or grew up in a home where sex was taboo, addressing the topic can be even more difficult. In a world of sexual chaos and confusion, we all need a healthy dialogue on the topic—not a black-or-white, right-or-wrong lecture, but a safe forum for discovering, learning, processing, and growing into passionate intimacy within the freedom God provides. In *Love & Sex*, Nancy Houston provides a compassionate view of human sexuality. Through the lens of Scripture, she unpacks the good God intended when He created humans as sexual creatures, while

recognizing that many people haven't experienced sex in a positive way. You won't find a critical examination of dos and don'ts, but stories of redemption, grace, and hope. You will understand how you were shaped and that you are more than your sexual behaviors. For some people, sex is a regular part of life. For others, it's a huge deal. Maybe even too big of a deal. This book will be your roadmap to finding sexual health, happiness, and balance. And if you are one of the few unscathed by sexual shame or confusion, this book will help you develop a more compassionate lens for those who do struggle.

Mindshift - Dr. Marty Lerman 2013-02-15
Im too fat. I MUST be successful. Im scared. Its because when I was a kid Daddy is never home. We all have frameworks weve built for ourselves throughout life. Ways of being. Of believing. Glasses through which we see life. Whether positive or negative, they shape our whole being and affect our daily lives. From being unsatisfied at home or in a relationship, to impressions left with us from childhood, we constantly live out of lives through these lenses we create in our mind. In Mindshift, Drs. Marty Lerman and Samuel Kupper seek to take the reader on an experiential journey to show how simple changes in perception, a reworking of the way we see through our own lenses, can create drastic positive change. Read about how one woman

conquered cancer, how a veteran came home and now lives without the lasting effects of war, how kids no longer suffer from ADHD, and more. If these people can create these kinds of changes in their lives with just a simple shift of the mind, imagine what you could do. Your mind is powerful. Harness it. Shift.
