The Invention of Heterosexuality - Jonathan Ned Katz 2014-12-10

"Heterosexuality," assumed to denote a universal sexual and cultural norm, has been largely exempt from critical scrutiny. In this boldly original work, Jonathan Ned Katz challenges the common notion that the distinction between heterosexuality and homosexuality has been a timeless one. Building on the history of medical terminology, he reveals that as late as 1923, the term "heterosexuality" referred to a "morbid sexual passion," and that its current usage emerged to legitimate men and women having sex for pleasure. Drawing on the works of Sigmund Freud, James Baldwin, Betty Friedan, and Michel Foucault, *The Invention of Heterosexuality* considers the effects of heterosexuality's recently forged primacy on both scientific literature and popular culture. "Lively and provocative."—Carol Tavris, *New York Times Book Review* "A valuable primer . . . misses no significant twists in sexual politics."—Gary Indiana, *Village Voice Literary Supplement* "One of the most important—if not outright subversive—works to emerge from gay and lesbian studies in years."—Mark Thompson, *The Advocate*

True Homosexual Experiences - William E. Jones 2016

Boyd McDonald (1925-1993) had the makings of a successful career in the 1950s—an education at Harvard, jobs at Time/Life and IBM—but things didn't turn out as planned. Containing in-depth interviews with friends and family members and a wealth of previously unpublished material, *True Homosexual Experiences: Boyd McDonald and Straight to Hell* is the first book devoted to this key figure of the American underground.

The Time of AIDS - Gilbert Herdt 1992-01-29

The widespread tragedy of the AIDS epidemic is forcing social scientists to change the way they think about and study subgroups within the majority culture. How is the concept of culture

relevant to the study of AIDS? How can social science methods be used to uncover the epidemiology of this deadly disease? And, how can social scientists deploy what they learn to help solve the problems posed by AIDS? *The Time of AIDS* explores and provides provocative insights on these three critical issues. By examining research conducted with various cultural groups and in different countries, the authors offer insight on how to identify the distinct way different communities respond to the threat of this disease. These studies demonstrate that a single theory and method will not capture the importance of the AIDS epidemic, but a close look at the culture and psychology of a society can inspire more effective ways of education, intervention, and arrest of the transmission of the virus.

Researchers and practitioners in anthropology, psychology, sociology, and nursing will benefit from this enlightening volume.

Articulate Flesh - Gregory Woods 1987-01-01

Arguing that homosexual poetry is part of the mainstream of poetic writing—not a distinct and differentiated category within it—Gregory Woods provides a fastidious study of homosexual poetry in the twentieth century that emphasizes the homo-erotic themes in the works of D.H.

Lawrence, Hart Crane, W.H. Auden, Allen Ginsberg, and Thom Gunn. Woods's controlled and elegant study demonstrates that a critic who ignores the sexual orientation of a poet, particularly a love poet, risks overlooking the significance of the poetry itself.

High-Risk Homosexual - Edgar Gomez
2022-01-11

Winner of the Lambda Literary Award for Gay Memoir/Biography An Honor Book for the 2023 Stonewall Book Award—Israel Fishman Non-Fiction Book Award This witty memoir traces a touching and often hilarious spiralic path to embracing a gay, Latinx identity against a culture of machismo—from a cockfighting ring in Nicaragua to cities across the U.S.—and the bath houses, night clubs, and drag queens who help redefine pride I've always found the definition of machismo to be ironic, considering that pride is a word almost unanimously associated with queer people, the enemy of machistas . . . In a world desperate to erase us, queer Latinx men must find ways to hold on to pride for survival, but excessive male pride is often what we are battling, both in ourselves and in others. A debut memoir about coming of age as a gay, Latinx man, High-Risk Homosexual opens in the ultimate anti-gay space: Edgar Gomez's uncle's cockfighting ring in Nicaragua, where he was sent at thirteen years old to become a man. Readers follow Gomez through

the queer spaces where he learned to love being gay and Latinx, including Pulse nightclub in Orlando, a drag queen convention in Los Angeles, and the doctor's office where he was diagnosed a "high-risk homosexual." With vulnerability, humor, and quick-witted insights into racial, sexual, familial, and professional power dynamics, Gomez shares a hard-won path to taking pride in the parts of himself he was taught to keep hidden. His story is a scintillating, beautiful reminder of the importance of leaving space for joy.

A Sea of Stories - John Dececco, Phd
2013-01-11

Take a look at how narrative has shaped gay and lesbian culture A Sea of Stories: The Shaping Power of Narrative in Gay and Lesbian Cultures: A Festschrift for John P. De Cecco is an unforgettable collection of personal narratives that explores the historical, psychological, and sociological contexts of homosexuality in locations ranging from Nazi Germany to Colorado. Some of the prominent authors in this collection include David Bergman, Louis Crew, Diana Hume George, and Ruth Vanita. Scholars in gay and lesbian studies, political movements, cultural studies, and narratology, and anyone interested in gay history will want to explore these intriguing narratives on topics such as sex and sin in the South, selling gay literature before Stonewall, growing up gay in India, and the story of an interracial male couple facing homophobic ignorance in a small town. A Sea of Stories also contains creative fiction and nonfiction love stories, war stories, oral stories, and bibliographies, and a beautiful post-Stonewall and post-modern narrative set on a South African seascape that tells the story of two professional men and the possibility of a kiss. For a complete list of contents, please visit our Web site at www.haworthpressinc.com. This book offers you a variety of narratives that cover a wide range, including: memoirs of gay Holocaust survivors and the emergence of the first lesbian and gay book club in its wake homophobia in the workplace and the use of coming-out stories to enhance workplace diversity the establishment of a gay/straight alliance in a Salt Lake City high school that is heavily dominated by Mormons gay literary heritage that examines the works of Langston

Hughes as well as Martin Duberman, Paul Monette, and Edmund White in relation to the lesbian 70s creative nonfiction about a woman's love for another woman, her lifelong friend Provincetown's remarkable community response to the AIDS epidemic A collection of chapters written by the colleagues and former students of John P. De Cecco, pioneering editor of the *Journal of Homosexuality*, *A Sea of Stories* takes its title from a phrase Dr. De Cecco used in his keynote address to the "History and Memory" conference at Allegheny College in 1997. This conference sparked the idea for this collection of essays that examine the homosexual experience through historical, psychological, and sociological viewpoints and homosexuality in literature. These courageous stories will assist readers to know themselves more deeply, to identify with others, and to interpret gay and lesbian experiences in different narrative forms. *Scum* - Boyd McDonald 1993

Not Gay - Jane Ward 2015-07-31

A different look at heterosexuality in the twenty-first century A straight white girl can kiss a girl, like it, and still call herself straight—her boyfriend may even encourage her. But can straight white guys experience the same easy sexual fluidity, or would kissing a guy just mean that they are really gay? *Not Gay* thrusts deep into a world where straight guy-on-guy action is not a myth but a reality: there's fraternity and military hazing rituals, where new recruits are made to grab each other's penises and stick fingers up their fellow members' anuses; online personal ads, where straight men seek other straight men to masturbate with; and, last but not least, the long and clandestine history of straight men frequenting public restrooms for sexual encounters with other men. For Jane Ward, these sexual practices reveal a unique social space where straight white men can—and do—have sex with other straight white men; in fact, she argues, to do so reaffirms rather than challenges their gender and racial identity. Ward illustrates that sex between straight white men allows them to leverage whiteness and masculinity to authenticate their heterosexuality in the context of sex with men. By understanding their same-sex sexual practice as meaningless, accidental, or even necessary, straight white

men can perform homosexual contact in heterosexual ways. These sex acts are not slippages into a queer way of being or expressions of a desired but unarticulated gay identity. Instead, Ward argues, they reveal the fluidity and complexity that characterizes all human sexual desire. In the end, Ward's analysis offers a new way to think about heterosexuality—not as the opposite or absence of homosexuality, but as its own unique mode of engaging in homosexual sex, a mode characterized by pretense, dis-identification and racial and heterosexual privilege. Daring, insightful, and brimming with wit, *Not Gay* is a fascinating new take on the complexities of heterosexuality in the modern era.

Culture, Society And Sexuality - Peter Aggleton 2002-01-04

Since the beginnings of time, people have been interested in sex - the form it takes, the pleasure it can give, the circumstances in which it occurs, and what it means - both for the individuals concerned and to society more generally. Often seen as a synonym for love, sometimes as an expression of power, and infrequently as a means of exploitation and abuse, sex is a complex and multi-faceted aspect of human behaviour that has been written about by numerous writers and theorists worldwide. This book offers an introduction to the central debates in sexuality research. Among the issues examined are the social and cultural dimensions of sex, human sexuality and sex research. It will be of use to students of sociology, cultural studies, and health and behavioural studies.

Bad Gays - Huw Lemmey 2023-05-30

An unconventional history of homosexuality We all remember Oscar Wilde, but who speaks for Bosie? What about those 'bad gays' whose unexemplary lives reveal more than we might expect? Many popular histories seek to establish homosexual heroes, pioneers, and martyrs but, as Huw Lemmey and Ben Miller argue, the past

is filled with queer people whose sexualities and dastardly deeds have been overlooked despite their being informative and instructive. Based on the hugely popular podcast series of the same name, *Bad Gays* asks what we can learn about LGBTQ+ history, sexuality and identity through its villains, failures, and baddies. With characters such as the Emperor Hadrian, anthropologist Margaret Mead and notorious gangster Ronnie Kray, the authors tell the story of how the figure of the white gay man was born, and how he failed. They examine a cast of kings, fascist thugs, artists and debauched bon viveurs. Imperial-era figures Lawrence of Arabia and Roger Casement get a look-in, as do FBI boss J. Edgar Hoover, lawyer Roy Cohn, and architect

Philip Johnson. Together these amazing life stories expand and challenge mainstream assumptions about sexual identity: showing that homosexuality itself was an idea that emerged in the nineteenth century, one central to major historical events. *Bad Gays* is a passionate argument for rethinking gay politics beyond questions of identity, compelling readers to search for solidarity across boundaries.
