Human Sexuality in Nursing Process - Elizabeth
M. Lion 1982

*Sexual Medicine and Counseling in Office
Practice* - Dennis J. Munjack 1980

FAMLI - 1986

Sexual Health Promotion - Catherine Ingram

Fogel 1990

An expert synthesis of research and practical application, this book provides comprehensive coverage of sexual health. Taking a non-judgmental approach, the authors delve into vital sexual topics, discussing mental health, developmental disabilities, gynecologic conditions, sexually transmitted diseases including AIDS, cultural attitudes towards

sexuality, religion and law, and much more. Chapters on specific diseases and their effects on sexual function are rich with specific suggestions for health care providers.

Medical Books and Serials in Print - 1984

Handbook of Behavioral Assessment - Anthony R. Ciminero 1986-05-14

The most comprehensive review available of the field of behavioral assessment. In four sections, it covers general issues in assessment, including trends in the classification of abnormal behavior, six major general approaches used in behavioral assessment and the use of these general methods to assess various behavior problems, and specific behavioral medicine topics. This second edition provides updated and expanded coverage.

Technical Book Review Index - 1981

Sexual Rehabilitation of the Spinal-Cord-Injured Patient - J. F. J. Leyson 2013-03-09

G. Blasius first described the anatomic aspects of spinal cord injury (SCI) in 1666. Until that time, society had totally ignored the physically disabled, let alone allowed them to mingle socially and sexually.

The military mortality rate between 1814-1914 was estimated to be 50-80%, although sexual and sociocultural implications were not addressed. In a 1928 novel, *Lady Chatterley's Lover*, D.H. Lawrence strongly reflected the sexual concerns of a paraplegic who had been labeled impotent. The modern management of SCI was initiated by Monroe and Guttman in 1943, but with heavy emphasis on physical and urological rehabilitation and only superficial attention to sexual dysfunctions. H.W. Home et al. started the investigation of SCI

infertility problems in 1950. It was not until 1960 that Borsari and Comarr collaborated on a study that classified the types of sexual dysfunction in relation to neurological levels of lesions following spinal cord trauma. Non-disabled (non-disabled) sexuality came of age during the past two decades. This was highlighted by the 1966 publication of W. Masters', Human Sexual Response. However, the topic of sexuality in physically challenged (handicapped) persons remains largely taboo in our present society. There are an estimated 10-12 million SCI persons worldwide. In America, there are approximately 1.2-1.5 million SCI victims, with an annual incidence of 12,000-15,000, or one every 35 minutes. The visibility of SCI persons was enhanced when the United Nations declared 1980-1990 as the decade of disabled persons. Furthermore, the enactment into law, in July,

1990, of the American Disabilities Act, pointed out the handicapped person's right to the fullest pursuit of happiness. Since the release in 1974 of K. Heslinga's Not Made of v vi Preface Stone, only a handful of books on medical sexuality for the disabled have been published. This book has three major objectives: 1. to provide thorough and comprehensive coverage of disabled persons' sexuality in all sexual orientations; 2. to introduce new terminology and theories, to redefine certain sexual dysfunctions, and to describe updated treatment formats; and 3. to present research and innovation that may stimulate further investigations into disabled sexuality during the next decade. The first part of this book defines new sexual terminology and describes the full spectrum of sexual challenges. The second half of the book deals with a variety of diagnostic and therapeutic sexual innovations, AIDS implications, and cosmic sexology. Finally, the

Appendix lists international sexual referral centers and information organizations.

Principles and Practice of Pulmonary Rehabilitation - Richard Casaburi 1993

In this text, the multidisciplinary application of scientific principles to the therapy of lung disease patients is emphasized. The scientific basis of lung disease patients is considered, followed by a comprehensive discussion of therapeutic modalities in rehabilitation. All aspects of conducting a pulmonary rehabilitation programme are covered and the components of the programme are detailed.

Management of Mental Disorders - 2000

Sexual Medicine in Primary Care - William L. Maurice 1999

A practical guide to interviewing patients about sexual matters with suggested questions, guidelines for the assessment and treatment of common sexual problems, and guidelines for referral. It incorporates sample questions and

case histories for a more clinical focus. *

Includes case histories throughout, guiding you through history-taking and the physical exam. *

Contains specific questions to ask when a patient reveals a problem (and special techniques to use with patients who seem reluctant to talk). * Presents up-to-date information on suggested treatments, including Viagra.

Harrison's Principles of Internal Medicine - Robert G. Petersdorf 1983

The American Journal of Psychiatry - 1982

National Library of Medicine Current Catalog - National Library of Medicine (U.S.) 1993-07

Practical Manual of Physical Medicine and Rehabilitation - Jackson C. Tan 2006

This text will serve as a quick reference and review for residents as well as practising physicians. It also offers information needed in

related professions.

From Behavior Theory to Behavior Therapy -

Joseph J. Plaud 1998

Written by the field's leading behavior therapists, this book is the first attempt in 20 years to demonstrate how contemporary behavior principles can be applied to the behavioral treatment of psychiatric and psychological disorders. The book's purpose is to present a forceful argument for behavioral therapy integration. Unlike other books, this comprehensive volume presents both theoretical analyses and clinical applications. Each contributing author has examined the latest findings in basic and experimental research and evaluated the understanding, assessment, and treatments of the major psychological disorders. Topics include: philosophical and theoretical foundations; phobic anxiety and panic; depression; schizophrenia; sexual disorders; sexual dysfunctions; child conduct and developmental disabilities; feminism and

behavior, and more. Clinicians and academics. A Longwood Professional Book

SIECUS Report - 1980

People and Change - Catherine M. Flanagan
2014-01-14

How to capitalize on change -- as a key feature of modern living -- is the central theme of this work. Incorporating the major theoretical advances psychology has made during the last thirty years, *People and Change* describes how clinical levels of psychological difficulty can develop and how problems such as phobias, depression, shyness, marital and sexual disharmony, obsessions, and over-indulgence are treated. Although a psychology text, *People and Change* offers an unusually broad scope. The text acknowledges the interplay of somatic vulnerabilities, environmental influences, large individual differences, and various other factors that can be involved in the complex stress process that leads to bad habits. The ability of

Sexual Medicine And Counseling In Office Practice A Comprehensive Treatment Guide

the individual to adapt to change through self-knowledge is stressed throughout this important

book.

Innovations in Pain Management - 1993
