Sex in the Ancient World from A to Z John Younger 2004-10-07 In this fascinating and revealing A-to-Z, John G. Younger examines the sexual practices, expressions and attitudes of the Greeks and Romans, from Catullus and Caligula, to orgies and obscenity, and from abstinence and incest, to pederasty and prostitution. The book opens with an overview of current thinking on ancient sex and sexuality, and goes on to provide an extraordinarily wide coverage of a sexual culture so very different from our own, approaching the subject from the perspectives of literature, history, archaeology and art. Comprehensive, reliable and eye-opening, this A-to-Z illuminates an important aspect of the classical world. For those who want to take their reading further, there are numerous references to ancient sources and modern scholarship, as well as a separate section of works of art. This is an ideal introduction to and exploration of sex in the ancient world for readers at every level.

Refiguring the Archive Carolyn Hamilton 2012-12-06 Refiguring the Archive at once expresses cutting-edge debates on 'the archive' in South Africa and internationally, and pushes the boundaries of those debates. It brings together prominent thinkers from a range of disciplines, mainly South Africans but a number from other countries. Traditionally archives have been seen as preserving memory and as holding the past. The contributors to this book question this orthodoxy, unfolding the ways in which archives construct, sanctify, and bury pasts. In his contribution, Jacques Derrida (an instantly recognisable name in intellectual discourse worldwide) shows how remembering can never be separated from forgetting, and argues that the archive is about the future rather than the past. Collectively the contributors demonstrate the degree to which thinking about archives is embracing new realities and new possibilities. The book expresses a confidence in claiming for archival discourse previously unentered terrains. It serves as an early manual for a time that has already begun.

Film Form Sergei Eisenstein 2014-06-17 A classic on the aesthetics of filmmaking from the pioneering Soviet director who made Battleship Potemkin. Though he completed only a half-dozen films, Sergei Eisenstein remains one of the great names in filmmaking, and is also renowned for his theory and analysis of the medium. Edited, translated, and with an introduction by Jay Leyda, this volume allows modern-day film students and fans to gain insights from the man who produced classics such as Alexander Nevsky and Ivan the Terrible and created the renowned "Odessa Steps" sequence.

An Alternative Romp Through History J. R. Daeschner 2009-06-01 You wouldn't necessarily expect to hear the Bee Gees in an S&M club in Paris or meet a gay Israeli who loves Berlin. Then again, the history of sex is nothing if not kinky. In An Alternative Romp Through History, JR Daeschner embarks on a quest to find out why we think the way we do about sex and romance. From Pompeii and the world's oldest whorehouse to Europe's first Masturbate-a-thon in London, JR ventures between the past and present to reveal how sexual attitudes have changed in the West, with more than a little help from the East. On his journey, JR learns how to talk dirty in Latin, gets pick-up tips from a modern Don Juan in Seville and uncovers the story of the 'other' Columbus who discovered the clitoris-and died shortly thereafter. Along the way, he tracks down characters ranging from a male Lesbian in Greece to a Prague spy who tells him about Cold War 'sexpionage', not to mention fashion legend Pierre Cardin (the new master of the Marquis de Sade's domain) and the maker of Emmanuelle (now the mayor of the village that features in A Year in Provence), as well as a producer of 'Muslim porn', the 'booth babes' of the Geneva Motor Show, the 'Happy Hooker' of Manhattan and the King of the Red-Light District in Amsterdam.

Archaeologies of the Future Fredric Jameson 2020-05-05 In an age of globalization characterized by the dizzying technologies of the First World, and the social disintegration of the Third, is the concept of utopia still meaningful? Archaeologies of the Future, Jameson's most substantial work since Postmodernism, Or, the Cultural Logic of Late Capitalism, investigates the development of this form since Thomas More, and interrogates the functions of utopian thinking in a post-Communist age. The relationship between utopia and science fiction is explored through the representations of otherness . alien life and alien worlds . and a study of the works of Philip K. Dick, Ursula LeGuin, William Gibson, Brian Aldiss, Kim Stanley Robinson and more. Jameson's essential essays, including "The Desire Called Utopia," conclude with an examination of the opposing positions on utopia and an assessment of its political value today.

Compiled in 2001 to commemorate the passing of an era, Hatred of Capitalism brings together highlights of Semiotext(e)'s most beloved and prescient works. Semiotext(e)'s three-decade history mirrors the history of American thought. Its Foreign Agents, Native Agents, Active Agents and Double Agents imprints have brought together thinkers and writers as diverse as Gilles Deleuze, Assata Shakur, Bob Flanagan, Paul Virillio, Kate Millet, Jean Baudrillard, Michelle Tea, William S. Burroughs, Eileen Myles, Ulrike Meinhof, and Fanny Howe. In Hatred of Capitalism, editors Kraus and Lotringer bring these people together in the same volume for the first time.

Writings on Art and Literature Sigmund Freud 1997 Despite Freud's enormous influence on twentieth-century interpretations of the humanities, there has never before been in English a complete collection of his writings on art and literature. These fourteen essays cover the entire range of his work on these subjects, in chronological order beginning with his first published analysis of a work of literature, the 1907 "Delusion and Dreams in Jensen's Gradiva" and concluding with the 1940 posthumous publication of "Medusa's Head." Many of the essays included in this collection have been crucial in contemporary literary and art criticism and theory. Among the subjects Freud engages are Shakespeare's Hamlet, The Merchant of Venice, King Lear, and Macbeth, Goethe's Dichtung und Wahrheit, Michelangelo's Moses, E. T. A. Hoffman's "The Sand Man," Dostoevsky's The Brothers Karamazov, fairy tales, the effect of and the meaning of beauty, mythology, and the games of aestheticization. All texts are drawn from The Standard Edition of the Complete Psychological Works of Sigmund Freud, edited by James Strachey. The volume includes the notes prepared for that edition by the editor. In addition to the writings on Jensen's Gradiva and Medusa, the essays are: "Psychopathic Characters on the Stage," "The Antithetical Meaning of Primal Words," "The Occurrence in Dreams of Material from Fairy Tales," "The Theme of the Three Caskets," "The Moses of Michelangelo," "Some Character Types Met with in Psycho-analytic Work," "On Transience," "A Mythological Parallel to a Visual Obsession," "A Childhood Recollection from Dichtung und Wahrheit," "The Uncanny," "Dostoevsky and Parricide," and "The

Goethe Prize."

Combining historical, political, and textual analysis, the author develops a pattern of cinematic invention and experimentation from neorealism through the modernist interventions of Jean-Luc Godard and Rainer Maria Fassbinder, focusing along the way on such major figures as Luis Buñuel, Joseph Losey, the Brazilian director Glauber Rocha, and the work of major Cuban filmmakers. Kolker's book has become a much quoted classic in the field of film studies providing essential reading for anybody interested in understanding the history of European and international cinema. This new and revised edition includes a substantive new Preface by the author and an updated Bibliography.

Feminizing the Fetish Emily Apter 2018-03-15 Shoes, gloves, umbrellas, cigars that are not just objects—the topic of fetishism seems both bizarre and inevitable. In this venturesome and provocative book, Emily Apter offers a fresh account of the complex relationship between representation and sexual obsession in turn-of-the-century French culture. Analyzing works by authors in the naturalist and realist traditions as well as making use of documents from a contemporary medical archive, she considers fetishism as a cultural artifact and as a subgenre of realist fiction. Apter traces the web of connections among fin-de-siècle representations of perversion, the fiction of pathology, and the literary case history. She explores in particular the theme of "female fetishism" in the context of the feminine culture of mourning, collecting, and dressing.

Stuff You Should Know Josh Clark 2020-11-26 Josh Clark and Chuck Bryant started the podcast Stuff You Should Know back in 2008 because they were curious-curious about the world around them, curious about what they might have missed in their formal educations, and curious to dig deeper on stuff they thought they understood. As it turns out, they aren't the only curious ones. They've since amassed a rabid fan base, making Stuff You Should Know one of the most popular podcasts in the world. Armed with their inquisitive natures and a passion for sharing, they research and discuss a wide variety of topics-always working to uncover the weird, fascinating, delightful, or unexpected pieces of any given subject, and then talking about it together in an accessible and humorous way. The pair have now taken their near-boundless "whys" and "hows" from your earbuds to the pages of a book for the first time-and with it comes loads of new content, covering subjects about which they've long wondered or wanted to explore in greater detail. Follow along as they dig into the underlying stories and interesting ways things fit into the world, touching on everything from the origin of Murphy beds, to the history of facial hair, to the psychology of being lost. An additional layer of visual material allows the duo to further embellish their engaging storytelling and bring these topics to life in a snappy new way-including charts and graphs, illustrations, and sidebars for rabbit-hole tangents and wandering digressions. Have you ever wondered about the world around you, and wished to see the magic in everyday things? Come get curious with Stuff You Should Know. With Josh and Chuck as your guide, there's something interesting about everything (...except maybe jackhammers)

Mighty Lewd Books J. Peakman 2003-06-24 *Mighty Lewd Books* describes the emergence of a new home-grown English pornography. Through the examination of over 500 pieces of British erotica, this book looks at sex as seen in erotic culture, religion and medicine throughout the long eighteenth-century, and provides a radical new approach to the study of sexuality.

Sexual Personae Camille Paglia 1990-09-10 From ancient Egypt through the nineteenth century, *Sexual Personae* explores the provocative connections between art and pagan ritual; between Emily Dickinson and the Marquis de Sade; between Lord Byron and Elvis Presley. It ultimately challenges the cultural assumptions of both conservatives and traditional liberals. 47 photographs.

Pornography and Representation in Greece and Rome Amy Richlin 1992 The first large-scale application of feminist theory to the study of Greek and Roman cultures, this book points to some striking similarities between our culture and that of the ancient world, challenging Foucauldian assumptions about the nature of sexuality. Covering such topics as vase painting, tragic and comic drama from fifth-century Athens, Hellenistic philosophy and sex manuals, Roman history, poetry, wall-painting, representations of gladiatorial combat, and romance novels, the contributors approach sexuality from both sides of the feminist pornography debate, including the use of film theory. A path-breaking application of feminist theory to the study of Greek and Roman cultures, this text offers new insight into the notion of sexuality in the ancient world.

The Closure of Space in Roman Poetics Victoria Rimell 2015-06-05 An ambitious analysis of the Roman literary obsession with retreat and closed spaces, in the context of expanding empire.

The Museum of Augustus Peter Heslin 2015-05-01 In the Odes, Horace writes of his own work, "I have built a monument more enduring than bronze,"—a striking metaphor that hints at how the poetry and built environment of ancient Rome are inextricably linked. This fascinating work of original scholarship makes the precise and detailed argument that painted illustrations of the Trojan War, both public and private, were a collective visual resource for selected works of Virgil, Horace, and Propertius. Carefully researched and skillfully reasoned, the author's claims are bold and innovative, offering a strong interpretation of the relationship between Roman visual culture and literature that will deepen modern readings of Augustan poets. The Museum of Augustus first provides a comprehensive reconstruction of paintings from the remaining fragments of the cycle of Trojan frescoes that once decorated the Temple of Apollo in Pompeii. It then finds the echoes of these paintings in the Augustan-dated Portico of Philippus, now destroyed, which was itself a renovation of Rome's de facto temple of the Muses—in other words, a museum, both in displaying art and offering a meeting place for poets. It next examines the responses of the Augustan poets to the decorative program of this monument that was intimately connected with their own literary aspirations. The book concludes by looking at the way Horace in the Odes and Virgil in the Georgics both conceptualized their poetic projects as temples to rival the museum of Augustus.

Constructive Drinking Mary Douglas 2013-10-16 First published in 1987, *Constructive Drinking* is a series of original case studies organized into three sections based on three major functions of drinking. The Equation that Couldn't Be Solved Mario Livio 2005-09-19 What do Bach's compositions, Rubik's Cube, the way we choose our mates, and the physics of subatomic particles have in common? All are governed by the laws of symmetry, which elegantly unify scientific and artistic principles. Yet the mathematical language of symmetry-known as group theory-did not emerge from the study of symmetry at all, but from an equation that couldn't be solved. For thousands of years mathematicians solved progressively more difficult algebraic equations, until they encountered the quintic equation, which resisted solution for three centuries. Working independently, two great prodigies ultimately proved that the quintic cannot be solved by a simple formula. These geniuses, a Norwegian named Niels Henrik Abel and a romantic Frenchman named Évariste Galois,

both died tragically young. Their incredible labor, however, produced the origins of group theory. The first extensive, popular account of the mathematics of symmetry and order, *The Equation That Couldn't Be Solved* is told not through abstract formulas but in a beautifully written and dramatic account of the lives and work of some of the greatest and most intriguing mathematicians in history.

Dictionary of the British English Spelling System Greg Brooks 2015-03-30 This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

A Hypersexual Society K. Kammeyer 2008-11-10 As many can attest, the prevalence of sexual imagery has increased in modern society over the past half century. In this timely new study, Kenneth Kammeyer traces the historical development of sexual imagery in America and society's preoccupation with it, all within a firm theoretical and sociological framework.

The Phantom Image Patrick R. Crowley 2019-12-10 Drawing from a rich corpus of art works, including sarcophagi, tomb paintings, and floor mosaics, Patrick R. Crowley investigates how something as insubstantial as a ghost could be made visible through the material grit of stone and paint. In this fresh and wide-ranging study, he uses the figure of the ghost to offer a new understanding of the status of the image in Roman art and visual culture. Tracing the shifting practices and debates in antiquity about the nature of vision and representation, Crowley shows how images of ghosts make visible structures of beholding and strategies of depiction. Yet the figure of the ghost simultaneously contributes to a broader conceptual history that accounts for how modalities of belief emerged and developed in antiquity. Neither illustrations of ancient beliefs in ghosts nor depictions of afterlife, these images show us something about the visual event of seeing itself. *The Phantom Image* offers essential insight into ancient art, visual culture, and the history of the image.

Fire in the Minds of Men James H. Billington 1999 This book traces the origins of a faith--perhaps the faith of the century. Modern revolutionaries are believers, no less committed and intense than were Christians or Muslims of an earlier era. What is new is the belief that a perfect secular order will emerge from forcible overthrow of traditional authority. This inherently implausible idea energized Europe in the nineteenth century, and became the most pronounced ideological export of the West to the rest of the world in the twentieth century. Billington is interested in revolutionaries--the innovative creators of a new tradition. His historical frame extends from the waning of the French Revolution in the late eighteenth century to the beginnings of the Russian Revolution in the early twentieth century. The theater was Europe of the industrial era; the main stage was the journalistic offices within great cities such as Paris, Berlin, London, and St. Petersburg. Billington claims with considerable evidence that revolutionary ideologies were shaped as much by the occultism and proto-romanticism of Germany as the critical rationalism of the French Enlightenment. The conversion of social theory to political practice was essentially the work of three Russian revolutions: in 1905, March 1917, and November 1917. Events in the outer rim of the European world brought discussions about revolution out of the school rooms and press rooms of Paris and Berlin into the halls of power. Despite his hard realism about the adverse practical consequences of revolutionary dogma, Billington appreciates the identity of its best sponsors, people who preached social justice transcending traditional national, ethnic, and gender boundaries. When this book originally appeared *The New Republic* hailed it as "remarkable, learned and lively," while *The New Yorker* noted that Billington "pays great attention to the lives and emotions of individuals and this makes his book absorbing." It is an invaluable work of history and contribution to our understanding of political life.

Epistemologies of the South Boaventura de Sousa Santos 2015-11-17 This book explores the concept of 'cognitive injustice': the failure to recognise the different ways of knowing by which people across the globe run their lives and provide meaning to their existence. Boaventura de Sousa Santos shows why global social justice is not possible without global cognitive justice. Santos argues that Western domination has profoundly marginalised knowledge and wisdom that had been in existence in the global South. She contends that today it is imperative to recover and valorize the epistemological diversity of the world. *Epistemologies of the South* outlines a new kind of bottom-up cosmopolitanism, in which conviviality, solidarity and life triumph against the logic of market-ridden greed and individualism.

The Female Thermometer Terry Castle 1995 A collection of the author's essays on the history and development of female identity from the 18th to the early 20th centuries. Throughout the book are woven themes which are constant in Castle's work: fantasy, hallucination, travesty, transgression and sexual ambiguity.

Screening Love and Sex in the Ancient World Monica S. Cyrino 2013-02-05 This dynamic collection of essays by international film scholars and classicists addresses the provocative representation of sexuality in the ancient world on screen. A critical reader on approaches used to examine sexuality in classical settings, contributors use case studies from films and television series spanning from the 1920s to the present.

Dilettanti Bruce Redford 2008-08-07 Bruce Redford re-creates the vibrant culture of connoisseurship in Enlightenment England by investigating the multifaceted activities and achievements of the Society of Dilettanti. Elegantly and wittily he dissects the British connoisseurs whose expeditions, collections, and publications laid the groundwork for the Neoclassical revival and for the scholarly study of Graeco-Roman antiquity. After the foundation of the society in 1732, the Dilettanti commissioned portraits of the members. Including a striking group of mock-classical and mock-religious representations, these portraits were painted by George Knapp, Sir Joshua Reynolds, and Sir Thomas Lawrence. During the second half of the century, the society's expeditions to the Levant yielded a series of pioneering architectural folios, beginning with the first volume *The Antiquities of Athens* in 1762. These monumental volumes aspired to empirical exactitude in text and image alike. They prepared the way for *Specimens of Antient Sculpture* (1809), which combines the didactic (detailed investigations into technique, condition, restoration, and provenance) with the connoisseurial (plates that bring the illustration of ancient sculpture to new artistic heights). The Society of Dilettanti's projects and publications exemplify the Enlightenment ideal of the gentleman amateur, which is linked in turn to a culture of wide-ranging curiosity.

Who Rules America Now? G. William Domhoff 1986 The author is convinced that there is a ruling class in America today. He examines the American power structure as it has developed in the 1980s. He presents systematic, empirical evidence that a fixed group of privileged people dominates the American economy and government. The book demonstrates that an upper class comprising only one-half of one percent of the population occupies key positions within the corporate community. It shows how leaders within this "power elite" reach government and dominate it through processes of special-interest lobbying, policy planning and candidate selection. It is written not to promote any political ideology, but to analyze our society with accuracy.

Everyone's a Mate Fred Mayer 1998 It was my friend, Howard Roby, who first talked me into starting my memoirs. It is largely his fault, as well, that I have dwelled upon myself for not just one, but two books that make up this tome that is my life. Because I pledged to myself that I would always keep my eye on the facts and would not be carried away with any "bull", whatsoever. I have kept the famous saying by the tennis player,

John McEnroe, in mind throughout: "The older I get, the better I was," Today, in spite of all the ill winds that circulate among businesses, I am in my seventieth year with no financial worries and am relatively healthy to boot. This results from my lifetime habit of hardwork, long hours, and continual challenges as I have made sure that I am providing well for my family. Has it been worth it? What do I have to show for it besides the material comforts? Was my life a success? So finally, I would like to see us play on the same side together, family, friends and world. After all, everyone's a mate!
