The Cloven - Brian Catling  
2018-07-25

*The Cloven* is the epic climax to B. Catling's beloved genre-busting *Vorrh* Trilogy. In the stunning conclusion to Brian Catling's *Vorrh* trilogy, the colonial city of Essenwald gives up all its secrets, as the ancient forest seeks to reclaim what has been taken from it. Those who have been enslaved shall be no longer, and two heroes once thought dead shall reemerge stronger than ever. A man will be split in two, and a young woman will rise to the height of her powers. Meanwhile, the threat of war looms over London. Germany is gearing up to begin the Blitz,

and only Nicolas the Erstwhile senses the danger to come. Will he be able to save the man who saved him? The Cloven is a book of battles and betrayals, in which Catling's incredible creations all fulfill their destinies and lead us to an epic conflagration with the fate of mankind hanging in the balance as the Vorrh attacks the one thing humankind can't live without.

The Cloven Viscount - Italo Calvino 2012-10-26

When a nobleman is split in two, his separate halves pursue different adventures in a fantastically macabre tale by the author of Invisible Cities. It is the seventeenth century, and the Viscount Medardo of Terralba must go into battle against the Turks. But the inexperienced warrior is soon bisected lengthwise by a cannonball. Through a miracle of stitching, one half of him survives, returning to his feudal estate to lead a lavishly evil life. But soon his other, virtuous half appears—also very much alive. When the two halves become rivals for the

love of the same woman, there's no telling the lengths each will go to in order to win. Now available in an independent volume for the first time, this deliciously bizarre novella of is Calvino at his most devious and winning.

heady, mythical expanse of The Vorrh, a daring debut that Alan Moore has called “a phosphorescent masterpiece” and “the current century's first landmark work of fantasy.”

Next to the colonial town of Essenwald sits the Vorrh, a vast—perhaps endless—forest.

It is a place of demons and angels, of warriors and priests.

Sentient and magical, the Vorrh bends time and wipes memory. Legend has it that the Garden of Eden still exists at its heart. Now, a renegade English soldier aims to be the first human to traverse its expanse. Armed with only a strange bow, he begins his journey, but some fear the consequences of his mission, and a native marksman has been chosen to stop him.

Around them swirl a remarkable cast of characters, including a Cyclops raised by robots and a young girl with tragic curiosity, as well as historical figures, such as writer Raymond Roussel and photographer and Edward

Muybridge. While fact and fictional blend, and the hunter will become the hunted, and everyone's fate hangs in the balance, under the will of the Vorrh.
