Do you find yourself constantly making plans with friends that fall through? Are you more likely to see your friends' social media posts than their

Professor Kelli's Guide to Finding a Husband - M. S. W. Kelli Miller 2010-05-22

I know what you're thinking. You hate me. You got a glimpse of my ring and you're pissed. I know your kind because I was once your kind. Every time I saw a happy couple I could feel last night's dinner coming up. When I saw wedding magazines I wanted to take a blowtorch to each one of them. Engagement rings? The only way you could talk to me about Okarats was if you were going to feed one to your pet rabbit. Yes, I was sick. Sick of set-ups, match-ups, and break-ups. I've been on blind dates and I've been on dates where I wish I were blind. But I finally did find Mr. Right. And I'm going to show you how. Through humor, empowerment, and basic common sense clinical social worker "Professor Kelli" instills confidence in women, makes them laugh at their situation (or the men they've dated), and teaches them the process of letting go and staying present. Sure, it's about finding a husband but it's more about finding you first.

The Experiences of Black and Minority Ethnic Academics - Kalwant Bhopal 2015-06-26

Recent research suggests that Black and minority ethnic (BME) academics remain underrepresented, particularly at senior levels in higher education, and tend to be concentrated in new, post-1992 universities. This book provides an original comparative study of BME academics in both the UK and the USA, two different yet similar cultural and political climates, considering issues of inequality, difference and identity in the Academy. Presenting a distinctive and engaging voice, the book discusses the complexity of race, gender and identity in the context of higher education, an area that continues to appear to be dominated by white, middle class values and perspectives. Chapters offer an up-to-date commentary on the purpose, failures and potential of research on race, gender and identity, and its place within contemporary education and sociology. The book broadens the understanding of educational research, considering both sociological and cultural discourse, as well as examining racialized and gendered identities from a theoretical and analytical standpoint. The book closes by offering suggestions for viable policy shifts in this area. *The Experiences of Black and Minority Ethnic Academics* will be of key interest to researchers, academics and postgraduate students in the field of education, as well as sociologists wanting to learn more about black and minority academics in higher education.

The Scheme of Things - Tim Parks 2016-07-18

The Scheme of Things, a coming-of-age story with a thriller twist, poses the question: Have you ever had a secret? For young Henry Dodge, every day is an exercise in keeping his. Whether it's his sketchbook falling into the hands of his older brother, John, or saying the wrong thing to his parents Big Ed and Kate, which may tip them off to the fact that he knows he is different. He would rather spend his afternoons with his friend Kelley, perfecting their disco moves than join in with the neighborhood boys and their sporting ways. When Danny Woodson moves into the neighborhood and becomes his brother's best friend, Henry's world is turned upside down, as his attraction to him is electrifying. In an effort to find a place to hide, Henry turns to TV, movies and music that provide him a great escape, a solace, which he can't get from the world-at-large. Unfortunately, the nighttime soap operas of the 80's plant the seeds of a scheme that involves running away to find Danny in Los Angeles. But the City of Angels holds only devils in disguise, backstabbing and heartache, as Henry thinks he has found shelter in The Palace of King George and his court of supporting players. In a tale that is equal parts comedy and heartbreak, Henry struggles to find acceptance and eventually going against the grain to find his place in the scheme of things.
