Covering the entire breadth of this rich subject, *The Craft of the Cocktail* provides much more than merely the same old recipes: it delves into history, personalities, and anecdotes; it shows you how to set up a bar, master important techniques, and use tools correctly; and it delivers unique concoctions, many featuring DeGross's signature use of fresh juices, as well as all the classics. It begins with the history of spirits, how they're made (but without too much boring science), the development of the mixed drink, and the culture it created, all drawn from DeGross's vast library of vintage

cocktail books. Then on to stocking the essential bar, choosing the right tools and ingredients, and mastering key techniques—the same information that DeGroff shares with the bartenders he trains in seminars and through his videos. And then the meat of the matter: 500 recipes, including everything from tried-and-true classics to of-the-moment originals. Throughout are rich stories, vintage recipes, fast facts, and other entertaining asides. Beautiful color photographs and a striking design round out the cookbook approach to this subject, highlighting the difference between an under-the-bar handbook and a stylish, full-blown treatment. The Craft of the Cocktail is that treatment, destined to become the bible of the bar.

Consider this College Health 101—an award-winning guide to what students really want (or need) to know about their mental and physical health when they're away from home. College students facing their first illness, accident, or anxiety away from home often flip-flop between wanting to handle it themselves and wishing their parents could swoop in and fix everything. Advice from peers and “Dr. Google” can be questionable. The Ultimate College Student Health Handbook provides accurate, trustworthy, evidence-based medical information (served with a dose of humor) to reduce anxiety and stress and help set appropriate expectations for more than fifty common issues. What if you can't sleep well (or can't sleep at all) in your dorm room? What if a pill “gets stuck” in your throat? What if your roommate falls asleep (or passes out) wearing contacts, and wakes up with one painfully stuck? Your friend's terrible sore throat isn't Strep or Mono? What else could it
