The Benefits of Brahmacharya -

Swami Nirmalananda Giri
(Abbot George Burke)
2023-04-05

“Brahmacharya is the basis for morality. It is the basis for eternal life. It is a spring flower that exhales immortality from its petals.” -Swami Sivananda
Brahmacharya is conservation and mastery of all the energy systems and powers of our being. Sexuality is usually considered the main focus of brahmacharya because it has such a powerful grip and influence on the human being. It is considered that if sex is mastered, all the senses will be mastered as well. The conservation and application of energy is the main determinant of success or failure in spiritual endeavor. Diffusion and dissipation of energy always weakens us. Hence brahmacharya is a vital

element of Yoga, without which we cannot successfully pursue the greater life of Higher Consciousness. In this volume, Swami Nirmalananda has collected valuable writings from a number of authorities on the various beneficial aspects of self-control related to sexuality: Swami Sivananda and Swami Chidananda of Rishikesh, Sri Ramakrishna and Swami Vivekananda, Paramhansa Yogananda, Gandhi, Swami Jagadishwarananda, Dr. Edwin Flatto, Dr. Raymond Bernard, as well as his own articles on the subject. This unique collection of articles provides important information and perspectives on how brahmacharya contributes to the well-being of all levels of our lives - physical, psychological, and social/moral - and as an indispensable foundation for progress on the liberating path of Yoga. And most importantly, the aspirant will discover practical recommendations for achieving success in brahmacharya. "Far from denying self-expression,

[brahmacharya] is giving full expression to yourself because you are no longer identified with the lesser aspect of your total personality. You are identified with the higher aspect. It is a sort of a liberation and evolution to a higher level." Swami Chidananda, Divine Life Society

Global Prescriptions - Rosalind P. Petchesky 2003-08

Global Prescriptions is a critical yet optimistic analysis of the role of transnational women's groups in setting the agendas for women's health in international and national settings. The book reviews a decade of women's participation in UN conferences, transnational networks, national advocacy efforts and sexual and reproductive health provision, assessing both their strengths and weaknesses. It critiques the Cairo, Beijing and Copenhagen conference documents and World Bank, WHO and health sector reform policies. It also offers case studies of national-level reform and advocacy efforts and

appraises the controversy concerning TRIPS, trade, and essential AIDS drugs. The author takes into account the formidable political and ideological forces confronting global justice movements and also offers a sobering reassessment of transnational women's NGOs themselves and such problems as 'NGOization', fragmentation and donor-dependency. Petchesky argues that the power of women's transnational coalitions is only as great as their organic connection with grassroots social movements.
