

Couples Gender And Power Creating Change In Intimate Relationships

An Introduction to Marriage and Family Therapy - Joseph L. Wetchler 2014-08-27

Now in its second edition, this text introduces readers to the rich history and practice of Marriage and Family Therapy, with 32 professionals from across the US presenting their knowledge in their areas of expertise. This blend of approaches and styles gives this text a unique voice and makes it a comprehensive resource for graduate students taking their first course in Marriage and Family Therapy. The book is divided into three sections: Part 1 focuses on the components on which 21st century family therapy is based and summarizes the most recent changes made to not only therapeutic interventions, but to the very concept of "family." Part 2 presents an overview of the 7 major theoretical models of the field: structural, strategic, Milan, social constructionist, experiential, transgenerational, and cognitive-behavioral family therapy. Each chapter in this section • Focuses on the founder of the theory, its theoretical tenants, and its key techniques • Shows how the model focuses on diversity • Presents the research that supports the approach Part 3 addresses specific treatment areas that are common to marriage and family therapists, such as sex therapy, pre-marital therapy, research, and ethics and legal issues. As an introduction to the field of Marriage and Family Therapy, this volume stands above the rest. Not only will readers gain an understanding of the rich history of the field and its techniques, but they will also see a complete picture of the context in which families are embedded, such as gender, culture, spirituality, and sexual orientation. This knowledge is the key to understanding what differentiates Marriage and Family Therapy from individual

psychotherapy. Glossaries, case studies, tables, figures, and appendices appear generously throughout the text to present this information and give students a thorough overview to prepare them for their professional lives.

Ethics and Professional Issues in Couple and Family Therapy - Megan J. Murphy 2016-10-04

Ethics and Professional Issues in Couple and Family Therapy, Second Edition builds upon the strong foundations of the first edition. This new edition addresses the 2015 AAMFT Code of Ethics as well as other professional organizations' codes of ethics, and includes three new chapters: one on in-home family therapy, a common method of providing therapy to clients, particularly those involved with child protective services; one chapter on HIPAA and HITECH Regulations that practicing therapists need to know; and one chapter on professional issues, in which topics such as advertising, professional identity, supervision, and research ethics are addressed. This book is intended as a training text for students studying to be marriage and family therapists.

Clinical Handbook of Couple Therapy - Jay L. Lebow 2022-11-14

"Regarded as the authoritative reference and text, this handbook presents the most effective, widely studied approaches to couple therapy. The distinguished coeditors bring together other leading experts, most of whom developed the approaches they describe. Adhering closely to a uniform structure to facilitate study and comparison, chapters cover the history, theoretical and empirical underpinnings, and techniques of each model. The volume also describes cutting-edge applications for particular relationship contexts (such as blended families, LGBT couples, and

separated couples) and clinical problems (such as partner aggression, psychological disorders, and medical issues)"--

Parenting Across Cultures - Helaine Selin 2022-11-22

This second edition of Helaine Selin's successful *Parenting Across Cultures* comes at a time where interest in parenting has increased across the world as a result of the COVID pandemic, as parents and children were put into different and often challenging conditions. This new edition, like the first, contains chapters from countries in Asia, Africa, and South America as well as from indigenous cultures of several Western countries. The chapters were revised to include new research in the post-pandemic world. They show that there is a strong connection between culture and parenting: there are differences in affection and distance, harshness and repression, and acceptance and criticism. Some parents insist on obedience; others are concerned with individual development. This clearly differs from parent to parent, but there is just as clearly a connection to culture, which these chapters explore. In addition to the chapters on individual countries, the second edition includes a section on the pandemic, as well as new research on parenting and technology, gender, religion, adoption, step parenting, divorce, single parents, racism, gay parents, disabilities, autism, eating habits, transgender, attachment, migration, bullying, and refugee resettlement.

Socioculturally Attuned Family Therapy - Teresa McDowell
2022-09-28

Socioculturally Attuned Family Therapy, 2nd edition, is a fully updated and essential textbook that addresses the need for marriage and family therapists to engage in socially responsible practice by infusing diversity, equity, and inclusion throughout theory and clinical practice. Written accessibly by leaders in the field, this new edition explores why sociocultural attunement and equity matter, providing students and clinicians with integrative, equity-based family therapy guidelines and case illustrations that clinicians can apply to their practice. The authors integrate principles of societal context, power, and equity into the core concepts and practice of ten major family therapy models, such as structural family therapy, narrative family therapy, and Bowen family

systems, with this new edition including a chapter on socio-emotional relationship therapy. Paying close attention to the "how to's" of change processes, updates include the use of more diverse voices that describe the creative application of this framework, the use of reflexive questions that can be used in class, and further content on supervision. It shows how the authors have moved their thinking forward, such as in clinical thinking, change, and ethics infused in everyday practice from a third order perspective, and the limits and applicability of SCAFT as a transtheoretical, transnational approach. Fitting COAMFTE, CACREP, APA, and CSWE requirements for social justice and cultural diversity, this new edition is revised to include current cultural and societal changes, such as Black Lives Matter, other social movements, and environmental justice. It is an essential textbook for students of marriage, couple, and family therapy and important reading for family therapists, supervisors, counselors, and any practitioner wanting to apply a critical consciousness to their work.

Couple Relationships in a Global Context - Angela Abela 2020-04-03
This book examines the significance of the couple relationship in the 21st century, exploring in depth how couple relationships are changing in different parts of the world. It highlights global trends and cultural variations that are shaping couple relationships. The book discusses diverse relationships, such as intercultural couples, same sex couples, long distance couples, polygynous marriages, and later life couples. In addition, chapters offer suggestions for ways to best support couples through policy, clinical practices, and community support. The book also investigates aspects of a relationship that help predict fidelity and stability. Topics featured in this book include: Couple relationships when one partner has an acquired physical disability. Impact of smartphones on relationships. Online dating and its implications for couple relationships. Assessment and intervention in situations of infidelity and non-monogamy. Parenting interventions for the transition from partnership to parenthood. Online couple psychotherapy to support emotional links between long distance partners. *Couple Relationships in a Global Context* is an essential resource for researchers, professors, and

graduate students as well as clinicians and practitioners in family therapy, clinical psychology, general practice/family medicine, social work, and related psychology and medical disciplines.

Couples, Gender, and Power - Carmen Knudson-Martin, PhD
2009-02-16

"[A] comprehensive, critical, empirical, and practical compilation of investigations about how diverse couples are trying to implement change and pursue equality in their relationships." -Katherine R. Allen, PhD Virginia Polytechnic Institute & State University "[A] true gift to couple research. The studies reported in this marvelously disciplined collection hold living implications for couples and their therapists." -Evan Imber-Black Director, Center for Families and Health, Ackerman Institute for the Family While numerous couples strive for equality in their relationships, many are unaware of the insidious ways in which gender and power still affect them—from their career choices to communication patterns, child-rearing, housework, and more. Written for mental health professionals and others interested in contemporary couple relationships, this research-based book shows how couples are able to move beyond the dangers of gendered inequality and the legacy of hidden male power. The book analyzes the relationships of couples from various racial, ethnic, and socioeconomic backgrounds. The contributors present innovative clinical interventions, and suggest strategies therapists can use to help couples transform their relationships from being gender-based to equality-based. Explores these key issues: The risks of being in a relationship ruled by "gender legacy" behavior The differences between couples who get caught in gender legacy patterns and those who do not Gender-based patterns across the life cycle, including newly formed couples; early marriage; child-rearing; mothering and fathering Gendered power in couples dealing with illness; ethnic and racial differences; immigration and displacement issues

Transition and Change in Collectivist Family Life - Karen Mui-Teng Quek
2017-03-23

This research-to-practice volume grounds clinicians in a robust, culturally-informed framework for conducting effective therapy with

Asian-American couples, families, and individuals. Family, cultural, social, and spiritual dynamics are explored across ethnicities, generations, relationships, and immigrant/citizen experience to reflect a diverse, growing population. Discussion and case examples focus on contrasts, conflicts, and balances involved in acculturation and change, notably the shift from collectivist cultural tradition to a more independent view of the self, gender, choices, and relationships. The contributors' finely shaded guidance and accessible approach will help therapists provide appropriate services for Asian-American clients without minimizing or pathologizing their experiences. Included in the coverage: How Asian American couples negotiate relational harmony: collectivism and gender equality. Through religion: working-class Korean immigrant women negotiate patriarchy. The role of Chinese grandparents in their adult children's parenting practices in the United States. Balancing the old and the new: the case of second generation Filipino American women. Bicultural identity as a protective factor among Southeast Asian American youth who have witnessed domestic violence. *Transition and Change in Collectivist Family Life* is a cogent clinical resource for practitioners and mental health professionals with interests in Asian-American family therapy, psychotherapy, collectivism, and faith-based community and counseling.

Clinical Casebook of Couple Therapy - Alan S. Gurman 2012-11-26
An ideal supplemental text, this instructive casebook presents in-depth illustrations of treatment based on the most important couple therapy models. An array of leading clinicians offer a window onto how they work with clients grappling with mild and more serious clinical concerns, including conflicts surrounding intimacy, sex, power, and communication; parenting issues; and mental illness. Featuring couples of varying ages, cultural backgrounds, and sexual orientations, the cases shed light on both what works and what doesn't work when treating intimate partners. Each candid case presentation includes engaging comments and discussion questions from the editor. See also *Clinical Handbook of Couple Therapy, Fourth Edition*, also edited by Alan S. Gurman, which provides an authoritative overview of theory and

practice.

Socio-Emotional Relationship Therapy - Carmen Knudson-Martin
2015-02-02

This path-breaking volume introduces Socio-Emotional Relationship Therapy for clinical work with troubled couples. Practice-focused and engaging, it integrates real-world knowledge of the intersections of gender, culture, power, and identity in relationships with empirical findings on the neurobiology of attraction. Case examples detail the process of therapists in the moment as they develop both their clinical skills and their understanding of the social contexts fueling couples' difficulties. Applications of the method, which can be used with same-sex couples as well as heterosexual ones, are shown in addressing infidelity, tapping into partners' spirituality, and modeling and encouraging mutual respect and support. Among the topics covered: Undoing gendered power in heterosexual couple relationships. Interpersonal neurobiology, couples, and the societal context. How gender discourses hijack couple therapy—and how it can be avoided. How SERT therapists develop interventions that address the larger context. Building a circle of care in same-sex couple relationships. Couple therapy with adult survivors of child abuse: gender, power, and trust. Socio-Emotional Relationship Therapy opens out practical new possibilities for marriage and family therapists, clinical psychologists, social workers, and counselors seeking ideas for more meaningful couples work.

Loving with the Brain in Mind: Neurobiology and Couple Therapy (Norton Series on Interpersonal Neurobiology) - Mona DeKoven Fishbane
2013-09-30

Facilitating change in couple therapy by understanding how the brain works to maintain—and break—old habits. Human brains and behavior are shaped by genetic predispositions and early experience. But we are not doomed by our genes or our past. Neuroscientific discoveries of the last decade have provided an optimistic and revolutionary view of adult brain function: People can change. This revelation about neuroplasticity offers hope to therapists and to couples seeking to improve their relationship. *Loving With the Brain in Mind* explores ways to help

couples become proactive in revitalizing their relationship. It offers an in-depth understanding of the heartbreaking dynamics in unhappy couples and the healthy dynamics of couples who are flourishing. Sharing her extensive clinical experience and an integrative perspective informed by neuroscience and relationship science, Mona Fishbane gives us insight into the neurobiology underlying couples' dances of reactivity. Readers will learn how partners become reactive and emotionally dysregulated with each other, and what is going on in their brains when they do. Clear and compelling discussions are included of the neurobiology of empathy and how empathy and selfregulation can be learned. Understanding neurobiology, explains Fishbane, can transform your clinical practice with couples and help you hone effective therapeutic interventions. This book aims to empower therapists—and the couples they treat—as they work to change interpersonal dynamics that drive them apart.

Understanding how the brain works can inform the therapist's theory of relationships, development, and change. And therapists can offer clients "neuroeducation" about their own reactivity and relationship distress and their potential for personal and relational growth. A gifted clinician and a particularly talented neuroscience writer, Dr. Fishbane presents complex material in an understandable and engaging manner. By anchoring her work in clinical cases, she never loses sight of the people behind the science.

Abidance - Lois Tschetter Hjelmstad 2018

It is the precise moment in which we concede our transience that life and love become most cherished. Lois and Les had been married 64 years, still crazy-in-love, when they found themselves in a sudden transition from the category of active-old to old-old. This remarkable story of their next five years describes their ongoing effort to maintain their lifelong egalitarian love affair as they cope with health changes. "Hjelmstad, in her lyrical prose and poetry, gives us a rare--sometimes funny, sometimes poignant, but always realistic--view of life from the parallel universe of the old-old. This is a story we rarely hear. It is a book for all of us, and a must for health care professionals with older clients." - Anne Mahoney, PhD, Professor Emeritus in Sociology, University of Denver,

author of *Couples, Gender, and Power: Creating Change in Intimate Relationships* "This beautifully written love story inspires couples to renew their commitment to living fuller live together." - Connie Shoemaker, author of *The Good Daughter: Secrets, Life Stories, and Healing* "Growing old. It is something we all do. Some do it with more grace and good humor than others. Few are as elegant as Lois and Les." - Fred Silverman, NY Producer It is the precise moment in which we concede our transience that life and love become most cherished. Lois and Les had been married 64 years, still crazy-in-love, when they found themselves in a sudden transition from the category of active-old to old-old. Power in Close Relationships - Christopher R. Agnew 2019-02-28

An outline of how power, an inherent feature of social interactions, operates and affects close relationships.

Normal Family Processes, Fourth Edition - Froma Walsh 2015-10-02

Widely adopted, this valued course text and practitioner guide has expanded the understanding of family normality and healthy functioning in our increasingly diverse society. The editor and contributors are at the forefront of research and clinical training. They describe the challenges facing contemporary families and ways in which clinicians can promote resilience. With consideration of sociocultural and developmental

influences, chapters identify key family processes that nurture and sustain strong bonds in couples; dual-earner, divorced, single-parent, remarried, adoptive, and kinship care families; gay and lesbian families; culturally diverse families; and those coping with adversity, such as trauma, poverty, and chronic illness. New to This Edition*Reflects important research advances and the changing contexts of family life.*Additional chapter topics: kinship care, family rituals, evidence-based assessment, and neurobiology.*All chapters have been fully updated.

The Handbook of Systemic Family Therapy, Systemic Family Therapy with Couples - Adrian J. Blow 2020-10-19

Volume III of *The Handbook of Systemic Family Therapy* focuses on therapy with couples. Information on the effectiveness of relational treatment is included along with consideration of the most appropriate modality for treatment. Developed in partnership with the American Association for Marriage and Family Therapy (AAMFT), it will appeal to clinicians, such as couple, marital, and family therapists, counselors, psychologists, social workers, and psychiatrists. It will also benefit researchers, educators, and graduate students involved in CMFT.

A Step-by-Step Guide to Socio-Emotional Relationship Therapy - Carmen Knudson-Martin 2023-12-19

Writing to the practicing clinician, this book offers a step-by-step practical guide to Socio-Emotional Relationship Therapy (SERT) when working with individuals, couples, and families. Most therapists know sociocultural systems influence their clients' lives, but few know how to connect the dots between what happens in the wider society, interpersonal neurobiology, relational processes, and client well-being. Written by a founder of SERT, Carmen Knudson-Martin draws on knowledge from multiple disciplines to innovatively weave together a practical step-by-step guide that demystifies the connections between micro and macro processes and relational/self-development. Divided into four parts, chapters cover how to conceptualize clinical issues through a socio-emotional lens, the therapist's role in assessment, goal-setting, clinical decision-making, the "how-to" of each of the three phases of the

SERT clinical sequence, and self-of-the-therapist work and clinical research that inform the model. The clear writing style and detailed examples make complex social processes accessible, demonstrating how good practice is—and must be—equitable and socially responsible. This practical guide is essential reading for all mental health professionals, such as seasoned family therapists, counselors, psychologists, social workers, and students in training in these fields.

Last Chance Couple Therapy: Bringing Relationships Back from the Brink - Peter Fraenkel 2023-01-10

Strategies and skills for therapists working with couples about to dissolve. Therapy with couples on the brink of relationship dissolution involves unique challenges. Partners present with high levels of conflict, low levels of intimate connection, disdain and discouragement, and limited patience or hope. These couples have often tried therapy without lasting success, and announce that “this is our last chance.” Partners want to see evidence in the first session that the therapist can offer something new and that change is possible. Peter Fraenkel presents a practical, creative, integrative approach that combines action- and insight-oriented techniques to help last-chance couples manage conflict, modulate intense negative emotions, address power struggles, develop mutual compassion, and restore emotional intimacy and pleasurable connection. Special attention is paid to developing a collaborative therapeutic alliance when partners have little motivation for therapy or faith that it can be effective. Through engaging in “nonbinding experiments in possibility,” partners can then better evaluate whether to “stay or go.”

Creating Connection - Judith V. Jordan 2014-05-01

Relational-Cultural Therapy (RCT) is developed to accurately address the relational experiences of persons in de-valued cultural groups. As a model, it is ideal for work with couples: it encourages active participation in relationships, fosters the well-being of everyone involved, and acknowledges that we grow through and toward relationships throughout the lifespan. Part and parcel with relationships is the knowledge that, whether intentionally or not, we fail each other,

misunderstand each other, and hurt each other, causing an oftentimes enduring disconnect. This book helps readers understand the pain of disconnect and to use RCT to heal relationships in a variety of settings, including with heterosexual couples, lesbian and gay couples, and mixed race couples. Readers will note a blending of approaches (person-centered, narrative, systems, and feminist theory), all used to change the cultural conditions that can contribute to problems: unequal, sometimes abusive power arrangements, marginalization of groups, and rigid gender, race, and sexuality expectations. Readers will learn to help minimize economic and power disparities and encourage the growth of mutual empathy while looking at a variety of relational challenges, such as parenting, stepfamilies, sexuality, and illness. Polarities of “you vs. me” will be replaced with the healing concept of “us.”

Normal Family Processes - Froma Walsh 2011-12-08
