Moral Wisdom James F. Keenan 2010 At a time when religion and spirituality have been divorced from one another and morality and ethics are viewed as being confining rather than liberating, Fr. James Keenan has developed a new edition to his beloved book *Moral Wisdom*. There are new discussions of social sin and Pope Benedict XVI's encyclical *Caritas in Veritate*, a clearer exploration of Jesus in the New Testament, and new study questions at the end of each chapter. 'Moral wisdom,' as Fr. Keenan calls it, is the distinctive gift of the Catholic tradition, a gift that helps us discern what values to pursue and which virtues to embody on the path to becoming who we really are and who God calls us to be. Fr. Keenan uses a conversational style filled with stories and examples to open the treasure trove of resources in the Catholic tradition for developing moral wisdom. He lifts up the lessons on love, conscience, sin, and suffering, helping readers connect with the formative influences of the Catholic heritage and appreciate what gives meaning to our lives and what enhances our relationships with friends and family

Forming Ministers or Training Leaders? Anthony Clarke 2021-06-15 *Forming Ministers or Training Leaders* is a unique book because it is based on a significant piece of empirical research. Anthony Clarke explores the way that the practice among theological colleges in the UK has been changing and develops the concept of the "pastoral imagination" to express what a theological college is aiming to do with its students. The book then offers an analysis of the "pastoral imagination" that is in fact at work in a selection of Baptist colleges and other theological institutions in the UK. Alongside this Clarke offers a coherent and robust theological account of the work of a theological college, through engaging with recent trinitarian theology, and argues that this is best understood as a process of formation which embraces other ideas of training and education.

Communicative Figurations Andreas Hepp 2017-11-27 This open access volume assesses the influence of our changing media environment. Today, there is not one single medium that is the driving force of change. With the spread of various technical communication media such as mobile phones and internet platforms, we are confronted with a media manifold of deep mediatization. But how can we investigate its transformative capability? This book answers this question by taking a non-media-centric perspective, researching the various figurations of collectivities and organizations humans are involved in. The first part of the book outlines a fundamental understanding of the changing media environment of deep mediatization and its transformative capacity. The second part focuses on collectivities and movements: communities in the city, critical social movements, maker, online gaming groups and networked groups of young people. The third part moves institutions and organizations into the foreground, discussing the transformation of journalism, religion, politics, and education, whilst the fourth and final part is dedicated to methodologies and perspectives.

Nine Keys to Effective Small Group Leadership Carl George 2007-04-30 A survey of resources about small groups at the beginning of the 1990s led to a discovery: Many books on small groups carried an instructional content and touched on groups as instrumental in delivery of that specific subject matter. How a leader was to function relative to a group was discussed as a matter of how to manage an instructional hour. The potential of groups for making connections and building community and serving others was largely unrecognized. What a group leader might do to pull together and maintain a group, or how a group leader might become acknowledged as part of a larger leadership strategy for service and outreach was simply unaddressed. From the insights developed in his complex and widely recommended *Prepare Your Church for the Future*, best-selling author Carl George extracts the most basic, practical elements of how an individual leader can contribute to the well-being of others and the overall organization. He interprets the role of a group

leader in language that is easily understood and remembered: nine commitments leading to a partnership with professional church leaders. Pastors and church consultants consistently report that the people exposed to these nine keys are easy to work with. They readily grasp the reasonableness of the principles, which help them be trustworthy team players in this matter of shared ministry. From the forward, by Robert Coleman, Director of the Billy Graham Institute: "This book speaks to our need for practical leadership training. With profound simplicity, it describes how small groups grow through loving relationships as readers build up one another in the faith. More importantly, the reader learn ways to prepare yourself for leadership in the group. The sequential steps show readers how to bring others into the circle of love, and in the process, how to enlarge your outreach by multiplying disciple makers." This 2007 edition includes an updated Appendix, describing recent developments in the fi

The Folklore Muse Frank de Caro 2008-10-15 Folklore—the inherently creative expression, transmission, and performance of cultural traditions—has always provided a deep well of material for writers, musicians, and artists of all sorts. Folklorists usually employ descriptive and analytical prose, but they, like scholars in other social sciences, have increasingly sought new, creative and reflexive modes of discourse. Many folklorists are also creative writers, some well known as such, and the folk traditions they research often provide shape and substance to their work. This collection of creative writing grounded in folklore and its study brings together some of the best examples of such writing. Contributors to this collection include Teresa Bergen, John Burrison, Norma E. Cantu, Frank de Caro, Holly Everett, Danusha Goska, Neil R. Grobman, Carrie Hertz, Edward Hirsch, Laurel Horton, Rosan Augusta Jordan, Paul Jordan-Smith, Elaine J. Lawless, Cynthia Levee, Jens Lund, Mary Magoulick, Bernard McCarthy, Joanne B. Jesus Insurgency Rev. Rudy Rasmus 2012-02-01 Crunching more data maybe helpful but will not revolutionize, let alone save, a declining church. We need creative thinking done by people who are not afraid to face the institutional church. Indeed, the change we long for is already happening. It is happening on the margins in ministries to the least, the last, and the lost. Written by two creative pastors with different but successful ministries, this breathtaking book will show you how the church can live out its mission and ignite a movement. If we pay attention, we can let this Jesus Insurgency create new life.

Fundamentalism and Education in the Scopes Era A. Laats 2010-05-24 This book takes a new look at one of the most contentious periods in American history. The battles over schools that surrounded the famous Scopes "monkey" trial in 1925 were about much more than evolution. Fundamentalists fought to maintain cultural control of education. As this book reveals for the first time, the successes and the failures of these fundamentalist campaigns transformed both the fundamentalist movement and the nature of education in America. In turn, those transformations determined many of the positions of the "culture wars" that raged throughout the twentieth century.

Deacon Relationships Through the Body of Christ Donald E. Ledbetter 2009-05 Be the leader God intended you to be! Churches often elect deacons and fail to give them the training they need to accomplish their task, assuming that if one is qualified to become a deacon, he doesn't need training.

This assumption has proven injurious both to the individual deacon and to the body of Christ. Dr. Ledbetter is one of the most qualified leaders in the Southern Baptist Convention to assist deacons in becoming the leader God intended them to be. As a pastor, he worked with deacons in four growing churches. Since entering evangelism in January 1984, he has conducted several hundred deacon retreats in both small and large churches across America, in addition to conducting revivals. To be an effective leader, a deacon must have a right relationship with Christ, his family, his church, his pastor, and with himself. This book discusses each of these relationships and provides spiritual insights that will help not only deacons, but every Christian leader to become all God intended them to be.

The Coming Prince Robert Anderson 2007-04-01 He was one of the most popular lay preachers and Christian apologists of his day: Sir Robert Anderson devoutly believed that the Bible was the inerrant word of God, and in this popular 1881 book—a companion to his *Daniel in the Critics' Den*—he mounts a defense of the prophetic Old Testament Book of Daniel, an early example of apocalyptic philosophy in Christianity. Students of the Bible will appreciate this historically valuable attempt to set straight the many controversies surrounding Daniel regarding its authorship and even the date of its writing. And anyone interested in the apocalyptic fervor of modern-day fundamentalist Christianity will find this an instructive and enlightening read. While at Scotland Yard, Irish police official and religious scholar SIR ROBERT ANDERSON (1841-1918) helped investigate the Jack the Ripper murders, but he is best remembered for his works of Bible study, including *Forgotten Truths* and *The Silence of God*.

Generation Rising Andrew C. Thompson 2011 Coming Of Age In The 1970s and 80s, Generation X had a unique experience of the cultural shifts now affecting the way the church works in the world---the advent of personal computers, mass media, consumerism, and family instability. Having perceived the world as less concrete and more detached, Gen X Christians have a deep hunger for authentic community and intentional faith precisely because those things have become more and more difficult to achieve. *Generation Rising* is the collaboration of twelve Gen X authors who believe passionately in the Wesleyan vision of Christian discipleship and holy community. They offer a vision of what the United Methodist Church could be when we preach, gather, study, and serve together with an abiding awareness of God's call to connect and grow in grace. "Generation Rising made me marvel at the ability of Wesleyan Christianity to reinvent itself in each generation. Here is Wesleyanism and our church imagined as having a future as bright as our noble past." ---WILL WILLIMON "Generation Rising is a book of hope. The intelligence and energy represented by these young Methodists gives me hope that Methodism has a future. These essays, while drawing on the gifts of the Wesleys, offer a constructive alternative for all churches." ---STANLEY HAUERWAS "This collection is a hopeful sign for the church---showing that affirmation of the particularity of a new generation does not have to come at the expense of embracing wisdom from earlier generations of God's people. These pages reclaim and develop some of Wesley's deepest convictions about our dependence upon grace, the vital role of community, and the formative power of disciplines." ---
