Good Trouble - Joe Biel 2016-03-15

In 1996, everything about Joe Biel's life seemed like a mistake. He was 18, he lived in Cleveland, he got drunk every day, and he had mystery health problems and weird social tics. All his friends' lives were as bad or worse. To escape a nihilistic, apocalyptic worldview and to bring reading and documentation into a communal punk scene, he started assembling zines and bringing them in milk crates to underground punk shows. Eventually this became Microcosm Publishing. But Biel's head for math was stronger than his ability to relate to people, and it wasn't until he was diagnosed with Asperger's Syndrome that it all began to fall into place. This

is the story of how, over 20 years, one person turned a litany of continuing mistakes and seeming wrong turns into a happy, fulfilled life and a thriving publishing business that defies all odds.

The Girl from Kandahar - James Ward

2019-08-26

In Afghanistan, British secret servicewoman Marcie Brown, posing as the third wife of one of ISAF's most trusted operatives, is killed in a drone strike. Or at least, that's what the official report states. Deep inside enemy territory, what remains of her body is deemed irrecoverable. Seven thousand miles away, in Britain, her grieving husband, MI7 Officer Nicholas Fleming, joins a police investigation which stumbles onto an Islamist plot to bomb central London. Handed

responsibility for the counter-terrorism initiative, he uncovers evidence that one of the bombers is his wife. By degrees, the utterly unbelievable becomes plausible and, at last, undeniable. Questions such as what really happened to her become academic as love and duty are rendered incompatible. To save the lives of hundreds of innocent people, Fleming must order the destruction of the only woman he has ever loved. To make matters worse, there is evidence that she is slowly recovering her memory ... The Girl From Kandahar is a love story played out on both sides of the War on Terror. Its detailed understanding of Pashtun culture and Islam is matched by a corresponding recognition of Western motives and concerns. Above all, it deals with the human side of the conflict: families split, loved ones lost, communities broken, distrust, hostility, grief. Yet its prognosis is far from bleak. In the end, it may be that no ideology is as powerful as the simple truth that our best hope lies in each other.

Wired for Love - Stan Tatkin 2012-01-02

"What the heck is my partner thinking?" is a common refrain in romantic relationships, and with good reason. Every person is wired for love differently, with different habits, needs, and reactions to conflict. The good news is that most people's minds work in predictable ways and respond well to security, attachment, and rituals, making it possible to actually neurologically prime the brain for greater love and fewer conflicts. *Wired for Love* is a complete insider's guide to understanding a partner's brain and promoting love and trust within a romantic relationship. scientific principles they can use to avoid triggering fear and panic in their partners, manage their partners' emotional reactions when they do become upset, and recognize when the brain's threat response is hindering their ability to act in a loving way. By learning to use simple gestures and words, readers can learn to put out emotional fires and help their partners feel more safe and secure. The no-fault view of conflict in this book encourages readers to move past a "warring brain" mentality and toward a more cooperative "loving brain" understanding of the relationship. Based in the sound science of neurobiology, attachment theory, and emotion regulation research, this book is essential reading for couples and others interested in understanding the complex dynamics at work behind love and trust in intimate relationships. *Report[s, with Appendices]* - Great Britain. Unprotected - Miriam Grossman 2007-08-28
Our campuses are steeped in political correctness—that's hardly news to anyone. But no one realizes that radical social agendas have also taken over campus health and counseling centers, with dire consequences. Psychiatrist Miriam Grossman knows this better than anyone. She has treated more than 2,000 students at one of America's most prestigious universities, and she's seen how the anything-goes, women-are-just-like-men, "safer-sex" agenda is actually making our sons and daughters sick. Dr. Grossman takes issue with the experts who suggest that students problems can be solved with free condoms and Zolof. What campus counselors and health providers must do, she argues, is tell uncomfortable, politically incorrect truths, especially to young patients in their most vulnerable and confused moments. Instead of platitudes and misinformation, it's time to offer them real protection.

Dataclysm - Christian Rudder 2014-09-09

A New York Times Bestseller An audacious, irreverent investigation of human behavior—and a first look at a revolution in the making Our personal data has been used to spy on us, hire and fire us, and sell us stuff we don't need. In Dataclysm, Christian Rudder uses it to show us who we truly are. For centuries, we've relied on polling or small-scale lab experiments to study human behavior. Today, a new approach is possible. As we live more of our lives online, researchers can finally observe us directly, in vast numbers, and without filters. Data scientists have become the new demographers. In this daring and original book, Rudder explains how Facebook "likes" can predict, with surprising accuracy, a person's sexual orientation and even intelligence; how attractive women receive exponentially more interview requests; and why

you must have haters to be hot. He charts the rise and fall of America's most reviled word through Google Search and examines the new dynamics of collaborative rage on Twitter. He shows how people express themselves, both privately and publicly. What is the least Asian thing you can say? Do people bathe more in Vermont or New Jersey? What do black women think about Simon & Garfunkel? (Hint: they don't think about Simon & Garfunkel.) Rudder also traces human migration over time, showing how groups of people move from certain small towns to the same big cities across the globe. And he grapples with the challenge of maintaining privacy in a world where these explorations are possible. Visually arresting and full of wit and insight, Dataclysm is a new way of seeing ourselves—a brilliant alchemy, in which math is made human and numbers become the narrative of our time.

But the sweet—unmarried—mom-to-be refused to name the daddy. And then agent Nick Russo unexpectedly returned to town. She couldn't believe Nick didn't recall their one night of passion. True, it had been nearly nine months ago, but how could he have forgotten such an earth-shattering experience? And if he didn't remember, Faith wasn't about to inform him it was his child she was carrying—no matter how much she longed to recapture the ecstasy she'd found in his arms. Daddy Knows Last. How to Date a Younger Man - Kendall Ryan
2020-07-21

If you accidentally bang your best friend's younger brother, here are a few important tips . . . One: Do not brag to your friend about how well-endowed her brother is. Two: Do not go back for seconds (or thirds). Three: Do not let him see your muffin top or jiggle behind. And definitely don't let him feed you cookies in bed. Cookies are bad. Remember that. Four: Act like a damn grown-up and apologize for riding him like a bull at the rodeo. And do not flirt with him

when he laughs at said apology. Five: This one is crucial, so pay attention. Do not, under any circumstances, fall in love with him.
