**Win Your Partner Back After A Break Up?** - Louisa Jackson  
2021-05-08

Those that go searching for love only make manifest their own lovelessness - D.H. Lawrence If you're going through the agony of a break up and you long, desperately, to reunite with your partner - this book is for you. Perhaps you're still with your partner but they're losing interest or pulling away - this book is also for you. Not all relationships can be saved. However, given the right inner conditions, some relationships can - and do - heal. Here you will learn precisely how to cultivate those conditions. Author, Louisa Jackson, describes how her life spiralled downwards after the break-up of a relationship. This triggered a long and intense period of study. Immersed in quantum physics, spirituality and Law of Attraction principles, she started to experiment with these concepts in her day-to-day life. Slowly, her intense suffering transformed into deep peace and happiness. A completely new way of living emerged and miraculous changes to all areas of her life then

followed. Her long-term battle with depression, social anxiety and bulimia came to an end. Financial and family difficulties also resolved. So, too, did the cycle of toxic and dysfunctional relationships that she kept repeating over and over. Louisa now enjoys a happy, long-term, relationship - one which was successfully rekindled after applying the techniques and principles outlined in this book. The focus here is what's going on inside you, rather than on the outer circumstances of your life. For when you transform your inner world, you'll find that your outer world transforms in equal measure - sometimes in miraculous ways. As you'll see, this isn't merely a spiritual concept but is backed up by quantum physics principles. This book gets right to the heart of your beliefs about love, happiness and the fundamental nature of reality. It's faulty beliefs in these areas which are so often at the root of dysfunctional relationships. You'll learn what real happiness is, and how to cultivate it. You'll also discover techniques for sustaining the honeymoon period and how to prevent a repeating pattern of heartbreak. With practice, you'll stop needing love and instead start to radiate love. When this happens, you cannot help but attract love, whether that's from your existing partner or a new one. This is a new way of 'being' which will radiate out into all areas of your life. Whether you want to save a long-term marriage or a short-term romance, the same formula applies. You may even find after reading this book that you no longer want, or need, your partner to return.

How to Fix a Broken Heart - Guy Winch 2018-02-13

'HOW TO FIX A BROKEN HEART PROVIDES THE VALIDATION,

COMFORT AND HOPE ANYONE WHO IS HEARTBROKEN DESPERATELY NEEDS.' ESTHER PEREL, BESTSELLING AUTHOR OF THE STATE OF AFFAIRS AND MATING IN CAPTIVITY Every one of us has or will have our heart broken at some point in our lives. Heartbreak, whether it comes in the form of romantic love or through loss, is universal, yet we know so little about how to deal with it. Psychologist Dr Guy Winch imagines how different our lives and our society would be if we paid more attention to this unique emotional pain. Heartbreak can last for days, weeks, months and even years. Yet while we wouldn't expect someone to go to work or function well with a broken limb, heartbroken people are expected to function in their lives, despite the emotional pain they feel. How to Fix a Broken Heart argues that if we don't understand how heartbreak works, we won't be able to heal it and we are likely to make it worse, which we do, and regularly. Dr Winch reveals how and why heartbreak impacts our brain and our behaviour in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve and to function. Recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Dr Winch offers a toolkit on how to handle and cope with a broken heart and how to, eventually, move on. 'A great read for anyone going through heartbreak, anyone trying to help someone go through heartbreak, or anyone who simply wants to understand humans better' Tim Urban, creator of Wait But Why?

**Marriage Isn't for You** - Seth Adam Smith 2014

What is the best wedding advice you ever received? For author Seth Adam Smith, it was the advice from his father who said, "Marriage is not for you. It is about the person you marry." These few words completely changed the way Seth looked at his relationship with his wife-to-be. Because at that moment he realized that an expression of love is not about the person expressing it. Rather, it is about the person they choose to be with. It is about making the person you marry feel loved. Seth's blog post on the subject was viewed by more than thirty million people,

and he has been featured on several national TV programs including "The Today Show." Now released as a hardcover book, these sage words make the perfect gift for newly married couples, those who have been around the block a few times, or anyone who wants to learn how to make their relationships stronger.

**How to Get Over Anyone in Few Days (Paperback)** - M. Farouk Radwan 2008-10-23

How can the book help This book is a 100 percent guarantee that you will get over any person. All you have to do is read the book well and

apply what's written in it exactly. Again I am proudly repeating it, it's a 100% guarantee that you will recover, not 99 nor 98 or 97. This book is by far the most powerful guide in the world to getting over someone. The book is not just different than other books that tackle the same subject but it's not even comparable to them. The book will make the worst breakup ever become a simple state that you can recover from in few weeks if not days. Personally I get over the worst breakup ever in three days but this is not how I used to be, I used to feel broken and to stay depressed for months until I grasped extensive knowledge about the psychology of love. This book intends to transfer to you this knowledge that can make you forget about anyone in few days. How effective is it? Even if you were so deeply in love, after reading the book and applying what is in it you will have no emotions towards that person you loved. If you feel that the person you love is your soul mate and that you simply can't get over him/her then after reading this book and applying what's written in it he/she will become just like a brother or a sister to you. Moreover, breakups will never affect you the same way they used to affect you after reading this book. Few days after applying what's written you will start to feel better, by the second week you will recover up to 50%, your mood will become more positive and you will start feeling better everyday. The only thing you have to do is to stick to what's written. The other thing that makes this book different is that it's a 100% guarantee that you will recover unlike other books that just promise you to feel better. I have helped thousands of people to completely forget about the people they were in love with using the techniques in this book. Again I am repeating it strongly and clearly, it's a 100% guarantee that you will recover. What's different about the book? This book is not about intuitive tricks or logical ideas that can be easily guessed like "be strong", "stop thinking of her" or "focus on other things" but is rather one that is based on complex psychological principles simplified enough to be understood by all. All of the techniques in this book are backed by psychology and scientific research. The techniques in the book are derived from Love psychology, Friendship psychology, Neuro-linguistic programming, subconscious mind programming, Behavioral psychology,

Hypnosis, Physiology and scientific research. The other thing that makes the book different is that it has no alternatives, browse the web, search for free tips, grab all the advice you can and as soon as you discover that they aren't working come back and buy it. There are no free alternatives to the information found in this book and that's why i am increasing its price every now and then. Bookmark this page and come back when you are tired of searching. Why is the price a bit high? What is the amount of money you think is worth paying to get over someone completely? What is the price of permanently forgetting about the suffering you have been living through? The price of this book is not based on its number of papers but its based on its ability to completely heal your pain forever. Warning If you think that falling in love should involve suffering, pain, feeling bad or becoming depressed then don't proceed as the book will permanently change your reaction to breakups. I am not responsible if you never felt bad whenever you broke up with someone or if you become indifferent when it comes to breaking up with someone. Don't worry, the book won't affect your ability to love and to be loved but it will just change your belief

**Stronger Than You Think** - Gary Lewandowski 2021-02-11

'It should be on every bookshelf.' John Gottman, author of The Seven Principles for Making Marriage Work \_\_\_\_\_ What if everything you thought you knew about your relationship was wrong? We all have faulty thinking when it comes to our closest relationships. Our default ways of thinking about love can blind us to what is good (and bad), lead us to find problems where they don't exist, and potentially sabotage even a great relationship. To prove it, and because it's fun, here's a pop quiz. True or False: - It's wrong to be selfish in a relationship. - If we're not having a lot of sex, we're not in love. - Men aren't as romantic as women. - It's better to hold back and not argue about it. - You should never give up looking for your soulmate. Stronger Than You Think presents a refreshing and eye-opening new take on the relationship genre and gives readers a guided tour of the most common blind spots that plague

relationships at all the major friction points. Blind spots are the key questions you aren't asking, the signals you're missing, the signs you aren't seeing, qualities that you're overvaluing, or the indicators you're misinterpreting. Award-winning professor, psychologist, and relationship scientist Dr Gary Lewandowski leverages his 20 years of experience to provide readers with a way out of this self-sabotage in this eye-opening look at their relationship's good side.
