As his plane begins its final approach to Kimp'o International Airport in Seoul, South Korea, Roland realizes his life is about to change forever again. Roland has already survived a devastating, life-altering tragedy back home in Ottawa, Canada; he knows that what he needs most now is a clean slate. As he arrives in Chonju, South Korea, where he plans to teach English and leave his past behind, Roland abandons all that is familiar for the unknown. **Awakening the Hermit Kingdom** - Katherine H. Lee Ahn 2009-06-01

Awakening the Hermit Kingdom: Pioneer American Women Missionaries in Korea gives a focused look at the long-ignored subject, the pioneer women missionaries to the Hermit Kingdom, as the early missionaries often called Korea. Based largely on private papers and mission reports of the missionaries, the author explores the life and work of the American women missionaries in the first quarter century of the Protestant mission in Korea. This book brings a new light to the history of Protestantism in Korea by revealing the identity and activities of the women missionaries, as well as the level of religious and social impact made by their presence and work in Korea.

**The Northern Wind** - Therese Park 2012-03-16

The Northern Wind depicts turbulent South Korea in the mid-1960s, a time when her troops were fighting in Vietnam and North Korean infiltrators were terrorizing their southern neighbors with killing and kidnapping. While doing her laundry at a remote creek on Kanghwa Island on a Saturday morning, eighteen-year-old Miyong, a member of women's group involved in urban development, notices a unit of armed South Koreans passing her. As the men gather on a dry creek bed some yards away, she discovers their use of certain words and their accent are not typically South Korean. She waits until they leave and hurries back to the community and reports them to the director, an army reserve officer working for the Central Intelligence Corp (CIC). The next day news reports a botched assassination of the South Korean president. As the person who saw and reported the commandos, Miyong becomes an overnight celebrity. Her exposure to the media leads her to an unexpected journey to North Korea as a South Korean agent, to help a prisoner escape from a labor camp. Edward Yi, a distinguished Korean-American architect, was abducted while visiting his ailing father, who is the brother of Korea's last king, Emperor Yi Sunjong. In the dreary labor camp, Miyong witnesses starvation, forced attendance of executions, rape and forced abortion of women inmates. When she returns, unexpected news awaits her.

**Transnational East Asian Studies** - Kevin Cawley 2022-12-15

Transnational East Asian Studies demonstrates how transnationalism as a mode of intellectual enquiry has wide-ranging interdisciplinary potential and has immense value when examining the past, just as much as when examining the present. Artificially erected borders, which appear on maps and globes, fail to consider the ways people in diverse regions live and practice their everyday lives, existing beyond boundaries. The people of East Asia have always been on the move, they have never been homogeneous, and have evolved together, not apart. In this sense, people around the globe and also in East Asia have always been involved in a process of change and transformation. Hence, transnationalism is a way to overcome methodological nationalism, not only as a concept of identity and spatiality, but also as a concept temporally situated in the modern, because as a methodology, transnationalism does not take the national as a precondition. It allows us to move beyond and across borders, and to examine how ideas have been used and transformed in different contexts. This book thus underscores the complex interactions in the context of East Asia, past and present, while shaping the future of this complicated region.

**North of the River** - Mark Higginson 2000-12-20

North of the River is an exciting and graphic tale of a young Army officer's first tour of duty in the Korean DMZ of 1969. The fact that a low grade war was being fought in Korea at that time is generally unknown to most of the American people. This story provides a fascinating and revealing tale, full of humor, adventure, romance, and an accurate picture of military life and life as a Red Cross "Doughnut Dolly" in this little known theater. It moves quickly through a thirteen month tour until the reader crashes head on into the surprise, action filled conclusion.

**Forever Alien** - Sunny Che 2015-05-12

Korean native Sunny Che spent most of her early childhood in Japan, where she and her family were treated as outsiders. She returned to Korea, only to find herself a stranger in her homeland. This memoir is the story of her personal struggle amidst the crucial events enveloping Asia at midcentury. Part I chronicles her childhood in Japan and the beginning of the war in the Pacific. Part II describes her return to Korea, the turmoil of Korea's liberation from Japan, and the Korean War. From a schoolgirl's perspective, Che describes events both global and intimate. She depicts the alienation and chaos of war and migration, as well as the domestic trials of a family seeking not merely to survive but to hold on to their heritage. Her story is at once a unique perspective on history and a moving chronicle of her own childhood, providing a detailed picture of diverse cultures irrevocably changed by two devastating wars.

**Global Technography** - Grant Kien 2009

This book develops and employs a new methodology - Global Technography - to investigate wireless mobility from a sociological and cultural perspective. It illustrates that technologies are created to perform roles - to act - in everyday life, and this demands an ethnography that can track the social performativity of technology in addition to that of human beings. The book is suitable for graduate and upper level undergraduate courses in methodology, communications, and cultural work dealing with globalization and new digital communications media.

**Supporting Korean American Children in Early Childhood Education** - Sophia Han 2023-11-24

Early childhood professionals can use this one-of-a-kind work to better serve Korean American children in the United States. Four transnational mother-educators share the lived experiences of Korean American children and their families through candid and vivid narratives that counter stereotypical and prejudicial beliefs about Asian American communities. Topics include parenting beliefs and practices, naming practices, portrayals in children's picturebooks, translanguaging home practices, and responses to microaggressions. The text raises awareness about various dynamics within the Korean American community for a more nuanced discourse. The authors bring a wealth of hybrid positioning and experiences as former early childhood educators, first-generation Korean American immigrants, current teacher educators working with pre- and inservice teachers, and researchers in different states, as well as mothers of second-generation Korean American children. Book Features: Shares original stories and experiences of Korean American children and families to dismantle prevalent narrow narratives. Offers practical implications and considerations for classroom teachers regarding family engagement, critical literacy, translanguaging, and social-emotional learning. Includes user-friendly features such as discussion questions, lesson ideas, and a list of appropriate picturebooks.

**The Life and Works of Korean Poet Kim Myŏng-sun** - Jung Ja Choi 2022-11-30

The Life and Works of Korean Poet Kim Myŏng-sun offers an introduction to Korea's first modern woman

writer to publish a collection of creative works, Kim Myŏng-sun (1896–ca. 1954). Despite attempts by male contemporaries to assassinate her character, Kim was an outspoken writer and an early feminist, confronting patriarchal Korean society in essays, plays, poems, and short stories. This volume is the first to offer a detailed analysis in English of Kim's poetry. The poems examined in this volume can be considered early twentieth-century versions of #MeToo literature, mirroring the harrowing account of her sexual assault, and also subversive challenges to traditional institutions, dealing with themes such as romantic free love, same-sex love, single womanhood, and explicit female desire and passion. *The Life and Works of Korean Poet Kim Myŏng-sun* restores a long-neglected woman writer to her rightful place in the history of Korean literature, shedding light on the complexity of women's lives in Korea and contributing to the growing interest in modern Korean women's literature in the West.

[Praxis-oriented Pedagogy for Novice L2 Teachers](#) - Karen E. Johnson 2022-11-30

In this cutting-edge book on L2 teacher education, experts Johnson, Verity, and Childs demonstrate how praxis-oriented pedagogy grounded in the principles of Vygotskian Sociocultural Theory (VSCT) can have a meaningful impact on L2 teachers' development. Starting with a clear definition of praxis-oriented pedagogy, the authors lay out a theoretical foundation and document how appropriately designed praxis-oriented L2 teacher education pedagogy supports the development of novice teacher reasoning. Drawing from a longitudinal study of L2 novice teachers, chapters address the teachers' understanding, learning, and cognitive development and how their capabilities grow in creating and implementing engaging language learning environments for their ESL students. At the core of the book lies a unique set of pedagogical concepts: linguistically compact, conceptually rich chunks of language that function as psychological tools for learning and teaching. By covering teachers' changes in understanding, reasoning, and pedagogical activities, the book reveals the role that pedagogical concepts play in praxis-oriented pedagogy. Essential reading for language teacher educators, language teachers, and researchers, this book makes the VSCT principles that inform praxis-oriented pedagogy both clear and accessible.

**Minorities and Multiculturalism in Japanese Education** - Ryoko Tsuneyoshi 2010-09-13

This volume examines how Japan's increasingly multicultural population has impacted on the lives of minority children and their peers at school, and how schools are responding to this trend in terms of providing minority children with opportunities and preparing them for the adult society. The contributors focus on interactions between individuals and among groups representing diverse cultural backgrounds, and explore how such interactions are changing the landscape of education in increasingly multicultural Japan. Drawing on detailed micro-level studies of schooling, the chapters reveal the ways in which these individuals and groups (long-existing minority groups, newcomers, and the 'mainstream Japanese') interact, and the significant consequences of such interactions on learning at school and the system of education as a whole. While the educational achievement of children of varying minority groups continues to reflect their

places in the social hierarchy, the boundaries of individual and group categories are negotiated by mutual interactions and remain fluid and situational. *Minorities and Education in Multicultural Japan* provides important insights into bottom-up policy making processes and consciously brings together English and Japanese scholarship. As such, it will be an important resource for those interested in education and minority issues in Japan.

**Escaping North Korea** - Mike Kim 2010-05-16

The first of its kind, this book provides a unique inside look into the hidden world of ordinary North Koreans. Mike Kim, who worked with refugees on the Chinese border for four years, recounts their experiences of enduring famine, sex-trafficking, and torture, as well as the inspirational stories of those who overcame tremendous adversity to escape the repressive regime of their homeland and make new lives. One of the few Americans granted entry into the secretive "Hermit Kingdom," Kim came to know the isolated country and its people intimately. His North Korean friends entrusted their secrets to him as they revealed the government's brainwashing tactics and confessed their true thoughts about the repressive regime that so rigidly controls their lives. Civilians and soldiers alike spoke of what North Koreans think of Americans and war with America. Children remembered the suffering they endured through the famine. Women and girls recalled their horrific experiences at the hands of sex-traffickers. Former political prisoners shared their memories of beatings, torture, and executions in the gulags. With the permission of these courageous individuals, Kim now shares their stories and recounts his dramatic experiences leading North Koreans to asylum through the six-thousand-mile modern-day underground railway through Asia. His unflinching narrative exposes the truth about North Korea, stripping away the last veils that still shroud this brutal dictatorship.
