Calling in the Remnant - Joanna 2010-11

Do you bounce from church to church wondering why the churches today do not resemble the early church in the Bible? Are you told you are too sensitive or worse yet, in rebellion, when you refuse to sit quietly by, when people are lied to and manipulated into submitting themselves to a corrupt system? Are you told you will never find a perfect church since they are all made up of imperfect people, like you? I don't buy it? John the Baptist called for the church to repent to prepare the way for the birth of our Lord. Today I am calling for the church to repent, the whole Christian church, in preparation for Our

Lord's Second Coming! I am "Calling In The Remnant" to be unified not in possessions, or property, but in unity of purpose, looking to survive what is to come as the true body of Christ, not enabling dysfunction but encouraging ALL of the saints to "keep the faith and finish the race." JOANNA moved to Tulsa in 1986, a single mom of three little boys, completed her Bachelor's Degree at Oral Roberts University, and began her search for where God wanted her to serve and belong. Eventually, God led her to minister with the homeless, where she found fulfillment in helping people that truly needed her help and appreciated her knowledge and

experience about alcoholism and dysfunctional families. In 1992, she married her current husband Barry, who had been homeless off and on for 12 years. Sober now for 19 years, he currently works for DOC as a maintenance technician. Their son, Jacob, is now a junior in High School. Joanna's first book "Are Christians the Hitlers of Today? A Search for Truth" is also published by Xulon Press. Visit Joanna at www.myspace.com/joannamini stries.

It's Just a Little Crush -

Caroline Fardig 2013-01-30
Meet Lizzie Hart. Small town girl...big time problems. Hindered only by her raging crush on the office hunk,

wannabe sleuth Lizzie Hart spies, accuses, and gossips her way to the truth in bestselling author Caroline Fardig's first book of The Lizzie Hart Mysteries Series! The sleepy town of Liberty hasn't seen murder in...well...ever. Residents are stunned when the body of a young woman is found strangled, and reporters at the Liberty Chronicle are thrilled, rather disturbingly, over the biggest news story to hit town this century. Lizzie Hart has even bigger problems. Lately, she can't seem to concentrate on her job as copy editor at the Chronicle with the new hunky investigative reporter, Blake Morgan, swaggering around the office. How can a girl work when she's using all of her energy combating Blake-induced hot flashes and struggling to repress the giggly inner schoolgirl that's constantly rearing her dorky head? It's a good thing that Blake barely knows Lizzie exists. After an odd string of events, however, Lizzie begins to wonder if Blake is really as fabulous as

she has fantasized. When Lizzie and Blake find a co-worker dead, Blake's personality changes completely--and not in a good way. Even though the police rule the death as an accident, Lizzie immediately suspects foul play and senses a connection to the recent murder. She is determined to bring the killer to justice, but is having some trouble getting her Nancy Drew on thanks to the pesky stalker she's picked up--Blake Morgan. Wait, didn't she want him to follow her around and pay attention to her? Not like this. Blake has turned from cool and smooth to cold and downright scary, making Lizzie wonder if he should be next on her suspect list.

The 48 Laws of Power - Robert Greene 2000-09-01

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control - from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed "beguiling" and "fascinating," Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence ("Law 1: Never Outshine the Master"), others teach the value of confidence ("Law 28: Enter Action with Boldness"), and many recommend absolute self-preservation ("Law 15: Crush Your Enemy Totally"). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package,

[Breakup Bootcamp](#) - Amy Chan
2020-12-03

'The literary equivalent of a hug from a wordly big sister when you are at your lowest ebb' - Sunday Times 'A new kind of relationship guide for women' - Arianna Huffington A self-affirming, holistic guide to transforming heartbreak into healing Amy Chan hit rock bottom when she discovered that her boyfriend cheated on her. Although she was angry and broken-hearted, Chan soon came to realize that the breakup was the shakeup she needed to redirect her life. Instead of descending into darkness, she used the pain of the breakup as a bridge to self-actualization. She devoted herself to learning various healing modalities from the ancient to the scientific, and dived into the psychology of love. It worked. Fast forward years later, Amy completely transformed her life, her

relationships and founded a breakup bootcamp helping countless of women heal their hurt. In Breakup Bootcamp, Amy Chan directs her experience into a practical, thoughtful guide to turning broken hearts into an opportunity to break out of complacency and destructive habits. Dubbed 'the Chief Heart Hacker,' Amy Chan grounds her practical advice and tried and tested methods rooted in cutting-edge psychology and research, helping readers heal and reclaim their self-love.

Relatable, life-changing, and backed by sound scientific research, Breakup Bootcamp can help anyone turn their greatest heartbreak into a powerful tool for growth

Feminisms and Womanisms -
Althea Prince 2004

This book brings together theory and praxis, so that feminist discourse interacts as a partner with the lived experience of women's social action. The selections combine classics in feminist thought with work from modern theorists and offer a solid foundation in international feminism. The conceptual understanding embedded in the terms 'feminism' and 'womanism' contributes to

feminist discourse, a carefully differentiated focus on the ideological uses of language to define relationships that have been historically mired in domination. The terms also define the way gender often has been used to signify and support domination. Given that feminism and womanism are interpretative concepts, there is always a sense that knowledge-making is in progress; for there is nothing static or stagnant about feminism, feminist theory, and feminist action. The formative nature of the feminist movement has, of necessity, a parallel interpretative theory. This Reader embraces both the formative nature of the movement and the accompanying interpretative theories. It also pays attention to the chronological, cultural, geo-political, racial, and ethnic landscapes and sites where women live, carry out social action, and theorise issues of equality. For both the general and the academic reader, this book will be edifying while providing exposure to the

Falls the Shadow - Stefanie Gaither 2014-09-16

Cate's sister may be a clone, but that doesn't make her a killer. Does it? Murder, morality, and a slow-burning romance fill the pages of this futuristic thriller "for die-hard fans of *Divergent* and *The Hunger Games*" (Kirkus Reviews). When Cate Benson was a kid, her sister, Violet, died. Two hours after the funeral, Cate's family picked up Violet's replacement like nothing had happened. Because Cate's parents are among those who decided to

give their children a sort of immortality by cloning them at birth—which means this new Violet has the same face. The same perfect smile. She even has all of the same memories as the girl she replaced. She also might have murdered the most popular girl in school. At least, that's what the paparazzi and the anti-cloning protestors want everyone to think: that clones are violent, unpredictable monsters. Cate is used to hearing all that. She's used to defending her sister, too. But Violet has vanished, and when Cate sets out to find her, she ends up in the line of fire instead. Because Cate is getting dangerously close to secrets that will rock the foundation of everything she thought was true.
