## **Fascinating Womanhood, Or, The Art of Attracting Men - 1922**

*Husband Magnet* - Dr. Barba Maulana Koroma Phd 2020-11-15

One of the biggest decisions you will make in life is to pair up in marriage. While this is an important consideration for both men and women, it is an especially important one for women. This is because the number of eligible women surpasses that of eligible men in most communities. Secondly, men tend to take longer to decide on settling down in marriage, which makes test-driving relationships that end nowhere frustrating for women. But, if you have been looking and Mr. Right has yet to come knocking at your door, what do you do? Simply, you don't leave it all to chance as though you expect him to fall from the sky, you do your homework. As you do, please don't chase a man, attract him! Are you tired of being played by men who won't commit? Do you look forward to the day when you are the bride rather than the bridesmaid? Have you had enough of being bumped by less endowed women time and again? Do you believe that it is time for you to be the main show in the arms of your own man? If the answer to any of these questions is "yes", for you, a friend, schoolmate, family member, coworker, churchmate, or friend of a friend, then look no further. This is your moment to act and the tool you need. Husband Magnet will not only help a single woman fast-track to success in attracting a worthy man for marriage, it is a handy companion for a married woman who wishes to spice up her marriage. This book will teach you how to be a husband magnet.

Twelve Ways to Please and Keep Your Woman Or Wife - Raymond Sturgis 2012-07-01

Women are the strength and foundation of any relationship or marriage; however, quite often they are taken for granted or unappreciated. Most men agree that their women are special; still, they fail to do what is required of them to keep them happy or satisfied. Every relationship and marriage has more obstacles that make them unsuccessful, and mainly because people stop doing, what they did to win the heart of their mates. Nowadays, women work, take care of the children, and contribute with finances of their families, and all they ask for is a thank you or something that says, "I appreciate you ". Moreover, after conversing with over a hundred women on family, love, relationship and marriage, I enclosed here in this book the twelve important things they ask of their men. Today, it is easy for women to leave their men, and find success on their own or with another man. Therefore, it is important for men to understand the signs that are driving their women away, and do the simple things that are conducive to keeping their women happy. I understand that implementing these twelve things will not be easy, because it takes giving more of oneself, which sometimes make men appear vulnerable or 'unmanly'. However, we are talking about pleasing and bringing love and joy to the special women in their lives, besides, if they refuse, another man would relish the opportunity. Men know that

their women love them (at least I hope they do), and making them feel secure, and needed in relationships and marriages is what make women stand by their man during trying times. If men apply these twelve essential things, I guarantee that their women would be more giving, understanding, sexual and pleasing to be around.
