

# Just Sex The Cultural Scaffolding Of Rape Women And Psychology

**License to Rape** David Finkelhor 1987

*Preventing Sexual Violence* N. Henry 2014-10-02 While there is much agreement about the scope of sexual violence, how to go about preventing it before it occurs is the subject of much debate. This unique interdisciplinary collection investigates the philosophy and practice of primary prevention of sexual violence within education institutions and the broader community.

*Online Anti-Rape Activism* Rachel Loney-Howes 2020-08-17 The ebook edition of this title is Open Access, thanks to Knowledge Unlatched funding, and freely available to read online. This book examines the nature, use and scope of online spaces for anti-rape activism, offering a critical commentary on its limitations and potentials.

*Perverse Psychology* Jemma Tosh 2014-07-25 Psychology defines people who take pleasure in the suffering of others as having a form of mental illness, while media representations frame such behaviour as 'evil'. This is hotly contested territory, not least where sexual violence is concerned - violence which feminist voices argue is related to power rather than sex. *Perverse Psychology* examines psychiatric constructions of sexual violence and transgender people from the 19th century until the latest DSM-5 diagnoses. It uses discourse analysis to interrogate the discursive boundaries between 'normal' and 'abnormal' rape, as well as the pathologization of gender and sexual diversity. The book illuminates for the first time the parallels between psychiatry's construction of gender

diversity and sexual violence, and leads us to question whether it is violence that the profession finds so intriguing, or the gender nonconformity it represents. *Perverse Psychology* is ideal reading for postgraduate students and researchers in the fields of critical psychology, discourse analysis, feminism, transgender people, LGBT psychology, and the history of psychiatry.

**Women Voicing Resistance** Suzanne McKenzie-Mohr 2014-03-26 Feminist scholars have demonstrated how 'dominant discourses' and 'master narratives' frequently reflect patriarchal influence, thereby distorting and depoliticizing women's storying of their own lives. In this groundbreaking volume a number of internationally recognized researchers, working across a range of disciplines, provide a detailed examination of women's attempts to counter-story their lives when prevailing discourses are unhelpful or, indeed, harmful. As such, it is an exploration of women's agency and resistance, which highlights the challenges and complexities of such discursive work. The chapters explore women's resistance across a wide range of experiences, including: intimate partner violence, casual sex, depression, premenstrual change, disordered eating, lesbian identity, women's work in male-dominated spaces, rape, and child birth. Each chapter combines theoretical analyses with illuminating first-hand accounts, and elaborates practical implications that provide directions for individual and social change. Providing an incisive and comprehensive exploration of discourse, oppression and resistance, that cuts across domains of women's everyday lives, *Women Voicing Resistance* will be of great interest to students, scholars and practitioners in the fields of psychology, gender studies, women's studies, sociology, and social work.

**Gender and Sexuality Justice in Asia** Joseph N. Goh 2020-12-15 This book brings together a group of innovative scholars examining the contemporary issue of effecting gender and sexuality justice in the context of Asia, consonant with engendering a just, equitable and sustainable

development for all. These grassroots initiatives are woven through three complementary sections of the book: gender justice in Asia, sexuality justice in Asia, and finding resolutions through conflict. The book foregrounds strategies that aim to call out and challenge existing gender and sexuality injustices with regard to women and the LGBTIQ+ community by: assessing the efficacy of gender mainstreaming policies through micro-credit schemes for women in East Java, Indonesia; proliferating the signifiers of the hijab (veil) by postmodern Malay-Muslim women or ‘Hijabistas’ within the consumerist culture of Malaysia; making visible the injustices of the Syariah legal system for non-Muslim women, and ground-breaking legislation that could potentially recognise same-sex marriages in Thailand; privileging the narratives of gay women diplomats within the highly masculinised field of diplomacy in the Asia-Pacific region; foregrounding the narratives of Filipino gay men, intimate partner violence among young Indonesian Christian young people, masculine-identifying lesbians in Singapore, young LGBT people in rural Vietnam, and a Chinese-Muslim Malaysian female-to-male transgender person; and proposing new ways of becoming an inclusive church through the radical act of befriending persons living with HIV and AIDS in Southeast Asia. This book celebrates diverse and inclusive voices and strategies of gender and sexual agents of change in envisioning and bringing to fruition a just and transformative society for all. It is of interest to students and scholars researching gender and sexuality in areas of development studies, international relations, socio-legal studies, and literary studies.

**Texts After Terror** Rhiannon Graybill 2021 "It is widely recognized that the Hebrew Bible is filled with rape and sexual violence. However, feminist approaches to the topic remain dominated by Phyllis Trible's 1984 *Texts of Terror*, which describes feminist criticism as a practice of "telling sad stories." Pushing beyond Trible, *Texts after Terror* offers a new framework for reading biblical sexual violence, one that draws on recent work in feminist, queer, and affect theory and activism against sexual violence and rape culture. In the Hebrew Bible as in the contemporary world, sexual violence is frequently fuzzy, messy, and icky. Fuzzy names the ambiguity and confusion that often surround experiences of sexual violence. Messy identifies the consequences of rape, while also describing messy sex and bodies. Icky points out the ways that sexual violence fails to fit into neat patterns of evil perpetrators and innocent victims. Building on these concepts, *Texts after Terror* offers a number of new feminist strategies and approaches to sexual violence: critiquing the framework of consent, offering new models of sexual harm, emphasizing the importance of relationships between women (even in the context of stories of heterosexual rape), reading biblical rape texts with and through contemporary texts written by survivors, advocating for "unhappy reading" that makes unhappiness and open-endedness into key feminist sites of possibility. *Texts after Terror* also discusses a wide range of biblical rape stories, including Dinah (Gen. 43), Tamar (2 Sam. 13), Lot's daughters (Gen. 19), Bathsheba (2 Sam. 11), Hagar (Gen. 16 and 21), Daughter Zion (Lam. 1 and 2), and the Levite's concubine (Judg. 19)"--

*Handbook of Gender Research in Psychology* Joan C. Chrisler 2010-03-12 Donald R. McCreary and Joan C. Chrisler The Development of Gender Studies in Psychology Studies of sex differences are as

old as the field of psychology, and they have been conducted in every subfield of the discipline. There are probably many reasons for the popularity of these studies, but three reasons seem to be most prominent. First, social psychological studies of person perception show that sex is especially salient in social groups. It is the first thing people notice about others, and it is one of the things we remember best (Fiske, Haslam, & Fiske, 1991; Stangor, Lynch, Duan, & Glass, 1992). For example, people may not remember who uttered a witty remark, but they are likely to remember whether the quip came from a woman or a man. Second, many people hold firm beliefs that aspects of physiology suit men and women for particular social roles. Men's greater upper body strength makes them better candidates for manual labor, and their greater height gives the impression that they would make good leaders (i. e. , people we look up to). Women's reproductive capacity and the caretaking tasks (e. g. , breastfeeding, baby minding) that accompany it make them seem suitable for other roles that require gentleness and nurturance. Third, the logic that underlies hypothesis testing in the sciences is focused on difference. Researchers design their studies with the hope that they can reject the null hypothesis that experimental groups do not differ.

**Rape in the Nordic Countries** Marie Bruvik Heinskou 2019-10-29 The Open Access version of this book, available at <http://www.taylorfrancis.com/books/e/9780429467608>, has been made available under a Creative Commons Attribution-NonCommercial-No Derivatives 4.0 license. While the Nordic countries are listed at the top in most international rankings of gender equality and citizens' feelings of security, studies on the prevalence of sexual victimisation present a different picture, suggesting that the very countries that have invested much in establishing gender equality actually see a high prevalence of sexual violence. This book sheds light on the phenomenon and construction of rape and other forms of sexual violence within the Nordic region, exploring the ways in which rape and

sexual violence are dealt with through criminal law and considering governmental policies aimed at combatting it, with a special focus on legal regulations and developments. Thematically organised, it offers new research on perpetrators, victimhood, criminal justice and prevention. Multi-disciplinary in approach, it brings together the latest work from a range of scholars to offer insights into the situation in the five Nordic countries, asking how and why rape and other forms of sexual violence occur, whilst also addressing the timely issues of online sexual cultures, BDSM and the grey areas of sexual offences. As such, it will appeal to scholars of sociology, criminology and law with interests in gender and sexual violence.

*Sexual Harassment, Psychology and Feminism* Lisa Lazard 2020-10-03 This book provides a feminist psychological analysis of contemporary resistance to sexual harassment in and around #MeToo. It explores how women's assumed empowerment in postfeminist and neoliberal feminist discourses has shaped understandings of sexual harassment and social responses to it. This exploration is grounded in the trajectories of feminist activism and psychological theory about sexual harassment. Lazard addresses the gendered binary of female victims and male perpetrators in contemporary victim politics and the treatment of perpetrators within postfeminist and neoliberal frames. In doing so, the author unpacks the cultural conditions which support or deny who gets to speak and be heard in #MeToo politics. This book will be a valuable resource not only for scholars and students from within the psychological sciences and gender studies, but for the wider social sciences and anyone interested in the psychological grounding of the #MeToo movement.

*Just Sex?* Nicola Gavey 2013-10-14 Winner of the Association for Women In Psychology 2006 Distinguished Publication Award! The past two decades have witnessed a significant shift in how rape is understood in Western societies. This shift in perception has revealed the startling frequency

of occurrences of date rape, obscuring the divide between rape and what was once just sex. *Just Sex?* combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic. The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough. The reader is presented with a challenging and original perspective on the issues of rape, sex and the body, incorporating subjects including: \* rape as a social problem \* the social constructionism of sex, subjectivity and the body \* heterosexuality under the microscope This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology, gender studies, cultural studies and sociology. *Just Sex? The Cultural Scaffolding of Rape* was selected as a 2005 winner of AWP's (Association for Women in Psychology) distinguished publication award.

**Rape Culture, Gender Violence, and Religion** Caroline Blyth 2018-03-29 This volume considers the complex relationships that exist between Christianity, rape culture, and gender violence. Each chapter explores the various roles that Christian theologies, teachings, and practices have played in shaping contemporary understandings of gender violence and in sanctioning rape-supportive cultural belief systems and practices. Our contributors explore this topic from a range of disciplinary perspectives, including theology, gender and queer studies, cultural studies, pastoral care, and counseling. Together, the chapters in this volume testify to the considerable influence that Christianity has had, and continues to have, in directing conversations within the Christian tradition around gender violence and rape culture. They therefore invite readers to engage fruitfully in these conversations, fostering transformative dialogues with the Christian community about our shared responsibility to tackle the current global crisis of gender violence.

**Gender, Sex, and Sexualities** Nancy Kimberly Dess 2018 This volume is a compendium of conceptual frameworks and associated research approaches used for inquiry into gender, sex, and sexualities. It is suitable for use as an advanced textbook.

revision now covers discoveries based in neuroscience, clinical psychology's new interest in evidence-based practice and mindfulness, and new findings in social, developmental, and forensic psychology.

**Gender and Culture in Psychology** Eva Magnusson 2012-02-02 Introduction to psychology of gender that anchors psychological life and personal meaning in social interchanges, language, societal structures and culture.

**Big Pharma, Women, and the Labour of Love** Thea Cacchioni 2015-07-27 In 2010, Thea Cacchioni testified before the US Food and Drug Administration against flibanserin, a drug proposed to treat low sexual desire in women, dubbed by the media the “pink Viagra.” She was one of many academics and activists sounding the alarm about the lack of science behind the search for potentially lucrative female sexual enhancement drugs. In her book, *Big Pharma, Women, and the Labour of Love*, Cacchioni moves beyond the search for a sexual pharmaceutical drug for women to ask a broader question: how does the medicalization of female sexuality already affect women’s lives? Using in-depth interviews with doctors, patients, therapists, and other medical practitioners, Cacchioni shows that, whatever the future of the “pink Viagra,” heterosexual women often now feel expected to take on the job of managing their and their partners’ sexual desires. Their search for sexual pleasure can be a “labour of love,” work that is enjoyable for some but a chore for others. An original and insightful take on the burden of heterosexual norms in an era of compulsory sexuality, Cacchioni’s investigation should open up a wide-ranging discussion about the true impact of the medicalization of sexuality.

*The Cambridge Handbook of Sexual Development* Sharon Lamb 2018-12-20 The Cambridge Handbook of Sexual Development is a carefully curated conversation that brings together the top

researchers in child and adolescent sexual development to redefine the issues, conflicts, and debates in the field. The Handbook is organized around three foundational questions: first, what is sexual development? Second, how do we study sexual development? And third, what roles might adults - including the institutions of the media, family, and education - play in the sexual development of children and adolescents? As the first of its kind, this collection integrates work from sociology, psychology, anthropology, history, education, cultural studies, and allied fields. Writing from different disciplinary traditions and about a range of international contexts, the contributors explore the role of sexuality in children's and adolescents' everyday experiences of identity, family, school, neighborhood, religion, and popular media.

**Rape Work** Patricia Yancey Martin 2013-01-11 Despite the proliferation of rape crisis centers and other improvements in the treatment of rape victims over the past 20 years, many victims still find themselves the victims of what has been called a "second rape" by doctors, lawyers, judges, police, and administrators that process them. This book takes a critical look at the organizations and officials that process rape victims to see how the structure of their respective organizations often prevent them from providing responsive care.

*Sex, Sexuality, Law, and (In)justice* Henry F. Fradella 2016-02-26 *Sex, Sexuality, Law, and (In)Justice* covers a wide range of legal issues associated with sexuality, gender, reproduction, and identity. These are critical and sensitive issues that law enforcement and other criminal justice professionals need to understand. The book synthesizes the literature across a wide breadth of perspectives, exposing students to law, psychology, criminal justice, sociology, philosophy, history, and, where relevant, biology, to critically examine the social control of sex, gender, and sexuality across history. Specific federal and state case law and statutes are integrated throughout the book,

but the text moves beyond the intersection between law and sexuality to focus just as much on social science as it does on law. This book will be useful in teaching courses in a range of disciplines—especially criminology and criminal justice, history, political science, sociology, women and gender studies, and law.

Discourse, Peace, and Conflict Stephen Gibson 2018-11-29 This first-of-its-kind volume brings discursive psychology and peace psychology together in a compelling practical synthesis. An array of internationally-recognised contributors examine multiple dimensions of discourse—official and casual, speech, rhetoric, and text—in creating and maintaining conflict and building mediation and reconciliation. Examples of strategies for dealing with longstanding conflicts (the Middle East), significant flashpoints (the Charlie Hebdo case), and current heated disputes (the refugee ‘crisis’ in Europe) demonstrate discursive methods in context as they bridge theory with real life. This diversity of subject matter is matched by the range of discursive approaches applied to peace psychology concepts, methods, and practice. Among the topics covered: Discursive approaches to violence against women. The American gun control debate: a discursive analysis. Constructing peace and violence in the Palestinian-Israeli conflict. Discursive psychological research on refugees. Citizenship, social injustice, and the quest for a critical social psychology of peace. The emotional and political power of images of suffering: discursive psychology and the study of visual rhetoric. Discourse, Peace, and Conflict offers expansive ideas to scholars and practitioners in peace psychology, as well as those in related areas such as social psychology, political psychology, and community psychology with an interest in issues pertaining to peace and conflict.

**Accounting for Rape** Irina Anderson 2007-11-26 Accounting for Rape presents an original perspective on the subject of rape, focusing on both female and male sexual violence. The authors

investigate everyday beliefs about rape, to examine how blaming the victim and the normalization of rape are achieved by people in a discussion about sexual violence. They synthesize discursive psychology and a feminist standpoint to explore precisely how rape and rape victimhood are defined in ways that reflect the social, political and cultural conditions of society. By analysing conversational data, Anderson and Doherty suggest that the existing social psychological experimental research into rape and rape perception fails to analyse the subtlety and political significance of rape supportive reasoning. *Accounting for Rape* provides a critical interrogation of the dominant theories and methodologies, focusing on: How the gender and sexual orientation of alleged victims and perpetrators is crucial to social participants when making sense of a rape report and in apportioning blame and sympathy How arguments that are critical of alleged victims are built in ways that are 'face saving' for the participants in the conversations, and how victim-blaming arguments are presented as 'common sense'. The potential of applying this approach in both professional and academic contexts to promote attitude change. The book will be of great interest to those studying social and clinical psychology, cultural studies, sociology, women's studies and communication studies.

Female-Perpetrated Sex Abuse Sherianne Kramer 2017-06-26 *Female-Perpetrated Sex Abuse* is a groundbreaking study into gender, sexuality and victimhood. It examines the cultural conditions of possibility for FSA victimhood as a means to advance contemporary critical understandings of the role of gender and sexuality as instruments of modern power. As the first direct exploration of FSA victimhood, this book analyses: why victims of FSA remain so underexplored and invisible as objects of human science knowledge; the limited and overly rigid discourses in local and global psychological theory and practice that continues to treat particular subjects as 'victim worthy'

through paradigms that construct victimhood as gendered; and the possibility of new discourses that could disrupt normative understandings of gender, sexuality, and power in sex abuse, and as constitutive to the beginnings of a counter-knowledge on transgressive sexualities. By tracing the historical and cultural conditions of the emergence of FSA broadly and FSA victimhood specifically, Kramer illustrates how deeply engrained constructions of gender and sexuality both produce and constrain the possibilities for reporting, disclosing and self-identifying victimhood. *Female-Perpetrated Sex Abuse* is essential reading for academics, researchers and students alike, in the areas of psychology, sociology, gender studies, criminology, counselling and social work.

**New Versions of Victims** Sharon Lamb 1999-06 The papers collected here present a critical analysis of popular debates about victimization. The authors argue that we must move beyond polarized positions to examine the "victim" as a socially constructed term and to explore, in nuanced terms, why we see victims the way we do. Must one have been subjected to extreme or prolonged suffering to merit designation as a victim? How are we to explain rape victims who seemingly "get over" their experience with no lingering emotional scars? The papers simultaneously critique exaggerated claims by victim advocates about the harm of victimization, while taking on the reactionary boilerplate of writers such as Katie Roiphe and Camille Paglia, and offering further strategies for countering the backlash.

**Rape On The Public Agenda** Maria Bevacqua 2000-08-10 An examination of the history, development, and impact of the feminist anti-rape movement.

**Everyday Pornography** Karen Boyle 2010-09-13 Public and academic debate about 'porn culture' is proliferating. Ironically, what is often lost in these debates is a sense of what is specific about pornography. By focusing on pornography's mainstream - contemporary commercial products for a

heterosexual male audience - Everyday Pornography offers the opportunity to reconsider what it is that makes pornography a specific form of industrial practice and genre of representation. Everyday Pornography presents original work from scholars from a range of academic disciplines (Media Studies, Law, Sociology, Psychology, Women's Studies, Political Science), introducing new methodologies and approaches whilst reflecting on the ongoing value of older approaches. Among the topics explored are: the porn industry's marketing practices (spam emails, reviews) and online organisation commercial sex in Second Life the pornographic narratives of phone sex and amateur videos the content of best-selling porn videos how the male consumer is addressed by pornography, represented within the mainstream, understood by academics and contained by legislation. This collection places a particular emphasis on anti-pornography feminism, a movement which has been experiencing a revival since the mid-2000s. Drawing on the experiences of activists alongside academics, Everyday Pornography offers an opportunity to explore the intellectual and political challenges of anti-pornography feminism and consider its relevance for contemporary academic debate.

**Intimate Partner Sexual Violence** Louise McOrmond Plummer 2013-10-21 Intimate Partner Sexual Violence (IPSV) is the most common type of sexual violence and a common component of domestic violence, yet most cases go unreported and service responses are often inadequate. This book brings together advice for all those professionals working with individuals who have experienced IPSV and puts forward recommendations to tackle this prevalent form of sexual violence. With contributions from leading experts on IPSV, Intimate Partner Sexual Violence is a comprehensive guide to the subject which bridges the gap between research and practice. Multidisciplinary and international in approach, the book covers key issues salient to all

professionals - the impact of IPSV, reproductive coercion, the physical and psychological indicators, possible consequences of taking a case to court, and best practice service responses. One section also addresses the risks and needs of IPSV victims in different contexts, such as those in same-sex or teenage relationships, immigrant victims, and those living in rural areas or in prison. This is an authoritative resource for all professionals who work with IPSV victims including counselors, social workers, refuge workers, victim advocates, mental health professionals, pastoral workers, lawyers, police, and health practitioners.

*Gender and Culture in Psychology* Eva Magnusson 2012-02-02 *Gender and Culture in Psychology* introduces new approaches to the psychological study of gender that bring together feminist psychology, socio-cultural psychology, discursive psychology and critical psychology. It presents research and theory that embed human action in social, cultural and interpersonal contexts. The

book provides conceptual tools for thinking about gender, social categorization, human meaning-making, and culture. It also describes a family of interpretative research methods that focus on rich talk and everyday life. It provides a close-in view of how interpretative research proceeds. The latter part of the book showcases innovative projects that investigate topics of concern to feminist scholars and activists: young teens' encounters with heterosexual norms; women and men negotiating household duties and childcare; sexual coercion and violence in heterosexual encounters; the cultural politics of women's weight and eating concerns; psychiatric labelling of psychological suffering; and feminism in psychotherapy.

**Handbook of Critical Psychology** Ian Parker 2015-04-17 Choice Recommended Read Critical psychology has developed over time from different standpoints, and in different cultural contexts, embracing a variety of perspectives. This cutting-edge and comprehensive handbook values and reflects this diversity of approaches to critical psychology today, providing a definitive state-of-the-art account of the field and an opening to the lines of argument that will take it forward in the years to come. The individual chapters by leading and emerging scholars plot the development of a critical perspective on different elements of the host discipline of psychology. The book begins by systematically addressing each separate specialist area of psychology, before going on to consider how aspects of critical psychology transcend the divisions that mark the discipline. The final part of the volume explores the variety of cultural and political standpoints that have made critical psychology such a vibrant contested terrain of debate. The Handbook of Critical Psychology represents a key resource for researchers and practitioners across all relevant disciplines. It will be of particular interest to students and researchers in psychology, psychosocial studies, sociology, social anthropology and cultural studies, and to discourse analysts of different traditions, including

those in critical linguistics and political theory.

**The Dark Side of Courtship** Sally A. Lloyd 2000 The negative interactions that take place between dating and courting partners, most notably physical aggression and sexual exploitation, are explored in this volume. The authors blend qualitative interviews with current research findings.

*Global Empowerment of Women* Carolyn M. Elliott 2007-12-12 The empowerment of women is a broadly endorsed strategy for solving a host of difficult problems, from child poverty to gender violence to international development. The seventeen international scholars in this multi-disciplinary volume offer thoughtful critiques of the notion of empowerment based on their studies in twenty countries in all regions of the world. The comparative introduction places concepts of empowerment in the context of models of the market and of community, showing how contradictions in these models as they are enacted on the ground provide both spaces and constraints for women. The chapters consider opportunities for women in the context of globalization, resurgent nationalism and politicized religion, cultures of masculinity, and the HIV/AIDS epidemic in Africa. They show how initiatives at national or global levels are transformed by local cultures and power structures, and demonstrate the fruitfulness of tensions between universal values of human rights and contextualized understandings. This landmark, multi-disciplinary collection of original studies by distinguished international feminist scholars will be an essential addition to the fields of Political Science, Women's Studies, Economics, Sociology, International Development, and Environmental Studies.

Rape and Resistance Linda Martín Alcoff 2018-05-04 Sexual violence has become a topic of intense media scrutiny, thanks to the bravery of survivors coming forward to tell their stories. But, unfortunately, mainstream public spheres too often echo reports in a way that inhibits proper

understanding of its causes, placing too much emphasis on individual responsibility or blaming minority cultures. In this powerful and original book, Linda Martín Alcoff aims to correct the misleading language of public debate about rape and sexual violence by showing how complex our experiences of sexual violation can be. Although it is survivors who have galvanized movements like #MeToo, when their words enter the public arena they can be manipulated or interpreted in a way that damages their effectiveness. Rather than assuming that all experiences of sexual violence are universal, we need to be more sensitive to the local and personal contexts - who is speaking and in what circumstances - that affect how activists' and survivors' protests will be received and understood. Alcoff has written a book that will revolutionize the way we think about rape, finally putting the survivor center stage.

*Ama, a Story of the Atlantic Slave Trade* Manu Herbstein 2018-01-05 "I am a human being; I am a woman; I am a black woman; I am an African. Once I was free; then I was captured and became a slave; but inside me, here and here, I am still a free woman." During a period of four hundred years, European slave traders ferried some 12 million enslaved Africans across the Atlantic. In the Americas, teaching a slave to read and write was a criminal offense. When the last slaves gained

their freedom in Brazil, barely a thousand of them were literate. Hardly any stories of the enslaved and transported Africans have survived. This novel is an attempt to recreate just one of those stories, one story of a possible 12 million or more. Lawrence Hill created another in *The Book of Negroes* (Someone Knows my Name in the U.S.) and, more recently, Yaa Gyasi has done the same in *Homegoing*. Ama occupies center stage throughout this novel. As the story opens, she is sixteen. Distant drums announce the death of her grandfather. Her family departs to attend the funeral, leaving her alone to tend her ailing baby brother. It is 1775. Asante has conquered its northern neighbor and exacted an annual tribute of 500 slaves. The ruler of Dagbon dispatches a raiding party into the lands of the neighboring Bekpokpam. They capture Ama. That night, her lover, Itsho, leads an attack on the raiders' camp. The rescue bid fails. Sent to collect water from a stream, Ama comes across Itsho's mangled corpse. For the rest of her life she will call upon his spirit in time of need. In Kumase, the Asante capital, Ama is given as a gift to the Queen-mother. When the adolescent monarch, Osei Kwame, conceives a passion for her, the regents dispatch her to the coast for sale to the Dutch at Elmina Castle. There the governor, Pieter de Bruyn, selects her as his concubine, dressing her in the elegant clothes of his late Dutch wife and instructing the obese chaplain to teach her to read and write English. De Bruyn plans to marry Ama and take her with him to Europe. He makes a last trip to the Dutch coastal outstations and returns infected with yellow fever. On his death, his successor rapes Ama and sends her back to the female dungeon. Traumatized, her mind goes blank. She comes to her senses in the canoe which takes her and other women out to the slave ship, *The Love of Liberty*. Before the ship leaves the coast of Africa, Ama instigates a slave rebellion. It fails and a brutal whipping leaves her blind in one eye. The ship is becalmed in mid-Atlantic. Then a fierce storm cripples it and drives it into the port of Salvador,

capital of Brazil. Ama finds herself working in the fields and the mill on a sugar estate. She is absorbed into slave society and begins to adapt, learning Portuguese. Years pass. Ama is now totally blind. Clutching the cloth which is her only material link with Africa, she reminisces, dozes, falls asleep. A short epilogue brings the story up to date. The consequences of the slave trade and slavery are still with us. Brazilians of African descent remain entrenched in the lower reaches of society, enmeshed in poverty. "This is story telling on a grand scale," writes Tony Simões da Silva. "In Ama, Herbstein creates a work of literature that celebrates the resilience of human beings while denouncing the inscrutable nature of their cruelty. By focusing on the brutalization of Ama's body, and on the psychological scars of her experiences, Herbstein dramatizes the collective trauma of slavery through the story of a single African woman. Ama echoes the views of writers, historians and philosophers of the African diaspora who have argued that the phenomenon of slavery is inextricable from the deepest foundations of contemporary western civilization." Ama, a Story of the Atlantic Slave Trade, won the 2002 Commonwealth Writers Prize for the Best First Book.

**The Science/fiction of Sex** Annie Potts 2002 Contemporary feminist and poststructuralist theories of sex and gender are explored alongside an investigation of how people make sense of such concepts as heterosexuality, orgasm, sexual dysfunction and femininity and masculinity.

**What We Talk About When We Talk About Rape** Sohaila Abdulali 2018-10-25 Thoughtful, provocative and intelligent, this game-changing book looks at sexual assault and the global discourse on rape from the viewpoint of a survivor, writer, counsellor and activist. Sohaila Abdulali was the first Indian rape survivor to speak out about her experience. Gang-raped as a teenager in Mumbai and indignant at the deafening silence on the issue in India, she wrote an article for a women's magazine questioning how we perceive rape and rape victims. Thirty years later she saw the story

go viral in the wake of the fatal 2012 Delhi rape and the global outcry that followed. Drawing on three decades of grappling with the issue personally and professionally, and on her work with hundreds of other survivors, she explores what we think about rape and what we say. She also explores what we don't say, and asks pertinent questions about who gets raped and who rapes, about consent and desire, about redemption and revenge, and about how we raise our sons. Most importantly, she asks: does rape always have to be a life-defining event, or is it possible to recover joy?

**The Hunting Ground** Kirby Dick 2016-05-17 The debate over sexual violence on campus is reaching fever pitch, from headlines about out-of-control fraternities, to the “mattress protests” by female students at Columbia University and other colleges. *The Hunting Ground*, the new documentary by award-winning filmmakers Kirby Dick and Amy Ziering, has taken this debate to a new level, becoming a galvanizing catalyst for discussion at the hundreds of campuses where the documentary is being screened each month. The film has sparked calls for legislation by Governor Andrew M. Cuomo of New York and other prominent public figures and sparked a backlash from university administrators, fraternities, and conservative groups. Now, in a new companion volume to the film, all those concerned about the “rape culture” on campus will be offered an inside perspective on the controversy, as well as reactions to the film from a range of leading writers and guidance on how to learn more and get active. As in the film, it’s the gripping personal stories told by female students—and the obstinate refusal of college administrators and law enforcement authorities to recognize the severity of the problem—that will rivet readers.
