The Collapse of Parenting Leonard Sax 2015-12-29 In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world In *The Collapse of Parenting*, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.

The Color of Water James McBride 2012-03-01 From the New York Times bestselling author of *Deacon King Kong* and *The Good Lord Bird*, winner of the National Book Award for Fiction: The modern classic that Oprah.com calls one of the best memoirs of a generation and that launched James McBride's literary career. More than two years on The New York Times bestseller list. As a boy in Brooklyn's Red Hook projects, James McBride knew his mother was different. But when he asked her about it, she'd simply say 'I'm light-skinned.' Later he wondered if he was different too, and asked his mother if he was black or white. 'You're a human being! Educate yourself or you'll be a nobody!' she snapped back. And when James asked about God, she told him 'God is the color of water.' This is the remarkable story of an eccentric and determined woman: a rabbi's daughter, born in Poland and raised in the Deep South who fled to Harlem, married a black preacher, founded a Baptist church and put twelve children through college. A celebration of resilience, faith and forgiveness, *The Color of Water* is an eloquent exploration of what family really means.

Silently Seduced Kenneth M. Adams 2011-09 In this revised and updated 20th anniversary edition of his groundbreaking book, Dr. Kenneth Adams, a leading expert on covert incest, sex addiction, and childhood trauma, offers tools for identifying and healing from covert incestuous relationships that affect adult relationships and lives. He explains how 'feeling close' with a parent is not always the source of comfort the phrase suggests, especially when that child is cheated out of a childhood by being a parent's surrogate partner. Dr. Adams includes a new Q&A section that directly

addresses issues including: • How can this be incestuous when there is no physical sexual contact? • Why is sexual addiction so common with covert incest survivors? • Why is it so hard for covert incest survivors to commit to romantic relationships? • If my partner is a covert incest survivor, how can I help? • Can I pass covert incest on to my children? Through new findings and expanded discussions on 'engulfment,' 'excessive guilt,' 'loyalty,' and 'narcissism,' and others, *Silently Seduced* offers a framework to understand covert incest and its effect on sexuality, intimacy, and relationships to facilitate the process of recovery.

Meditation Mentorship Ministry that Teaches Self-Control to Improve Parent-Child Relationships in Korean Immigrant Families JC Ed Choi 2022-12-05 My mentoring service was provided to Korean immigrant parents in pastoral settings for the purpose of helping them renew their family spirit and strengthen their relationships with their Canadian-raised children. Both Jean-Guy Nadeau's pastoral praxeology and Richard Osmer's four main tasks were adopted as guideposts since the nature of this project incorporated pastoral, ethical, and practical theological. The empirical/descriptive task of observation includes data collection, analysis, and interpretation within the framework of the research design and plan. The research findings indicate that conflicts between parents and children diminish family spirit within Korean immigrant families. The interpretive task problematizes the research findings by performing contextual analysis and draws on theories of human sciences to show how Korean immigrant families are affected by the traditional Korean value system founded on Confucianism, Buddhism, and Taoism. The normative task of theological interpretation presents how Christian virtues, evangelical qualities of relationships, and ethical norms and teachings of the Church can become incorporated into the lifestyles of Korean immigrant parents who wish to live in harmony with their children and renew their family spirit in full accordance with the Gospel. The pragmatic task of operational re-elaboration implements a ministerial solution formulated on theoretical and spiritual interpretations that are concerned with how the mentoring service can be used to cultivate Christian virtues in Korean immigrant parents, teach them self-control practice, and strengthen their relationships with their children.

Structured like a legal casebook, *Law and Bioethics* includes the text of almost all the landmark cases that have shaped bioethics. Jerry Menikoff offers commentary on each of these cases, as well as a lucid introduction to the U.S. legal system, explaining federalism and underlying common law concepts. Students and professionals in medicine and public health, as well as specialists in bioethics, will find the book a valuable resource.

The Effect of Children on Parents, Second Edition Anne Marie Ambert 2014-05-22 Recognize the hidden costs and rewards of childrearing! *The Effect of Children on Parents, Second Edition*, thoughtfully explores the interactions by which parents and children change, develop, and sometimes affect each other negatively. Everyone knows that parents influence their children, but few people consider the ways in which children affect their parents. The love, satisfaction, and fulfillment children offer can change parents' lives. So can the stress, worry, and financial drain. *The Effect of Children on Parents, Second Edition*, honestly confronts these long-neglected issues of family dynamics. Taking a unique interdisciplinary approach, this book describes in great detail, with jargon-free language the various aspects of children's effects on their parents. This second edition contains an abundance of fresh information, including nine entirely new chapters that deal with such complex topics as the effects on parents of children with

emotional, behavioral, and delinquency problems. *The Effect of Children on Parents, Second Edition*, asks and answers essential questions on the parent-child dynamic, including: what role does genetic inheritance play in children's responses to their parents? how do peers influence children and through them, their parents? what happens to parents when children are difficult or have emotional problems? what special considerations apply to minority or adoptive parents? how do adult children affect their aging parents? how does society support or undermine parents? what roadblocks prevent parents from being as effective as they would like to be? *The Effect of Children on Parents, Second Edition*, takes a brave look at this often ignored area of family dynamics, giving a richer, more complex, and ultimately more healing view of how humans interact in families. Professors, students, and experts in the fields of child development, family studies, and sociology of childhood and family will find this book a sophisticated tool in their desire to better understand and help families and children.

Born A Crime Trevor Noah 2016-11-17 WINNER OF THE THURBER PRIZE The compelling, inspiring, (often comic) coming-of-age story of Trevor Noah, set during the twilight of apartheid and the tumultuous days of freedom that followed. One of the comedy world's brightest new voices, Trevor Noah is a light-footed but sharp-minded observer of the absurdities of politics, race and identity, sharing jokes and insights drawn from the wealth of experience acquired in his relatively young life. As host of the US hit show *The Daily Show with Trevor Noah*, he provides viewers around the globe with their nightly dose of biting satire, but here Noah turns his focus inward, giving readers a deeply personal, heartfelt and humorous look at the world that shaped him. Noah was born a crime, son of a white Swiss father and a black Xhosa mother, at a time when such a union was punishable by five years in prison. Living proof of his parents' indiscretion, Trevor was kept mostly indoors for the first years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, take him away. A collection of eighteen personal stories, *Born a Crime* tells the story of a mischievous young boy growing into a restless young man as he struggles to find his place in a world where he was never supposed to exist. *Born a Crime* is equally the story of that young man's fearless, rebellious and fervently religious mother - a woman determined to save her son from the cycle of poverty, violence and abuse that ultimately threatens her own life. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Noah illuminates his curious world with an incisive wit and an unflinching honesty. His stories weave together to form a personal portrait of an unlikely childhood in a dangerous time, as moving and unforgettable as the very best memoirs and as funny as Noah's own hilarious stand-up. *Born a Crime* is a must read.

Nineteen Eighty-Four George Orwell 2021-01-09 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical

negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

[Hold on to Your Kids](#) Gabor Maté 2019-01-03 'Maté's book will make you examine your behaviour in a new light' Guardian 'bold, wise and deeply moral. [Maté] is a healer to be cherished' Naomi Klein, author of No Logo and The Shock Doctrine Children take their lead from their friends: being 'cool' matters more than anything else. Shaping values, identity and codes of behaviour, peer groups are often far more influential than parents. But this situation is far from natural, and it can be dangerous - it undermines family cohesion, interferes with healthy development, and fosters a hostile and sexualized youth culture. Children end up becoming conformist, anxious and alienated. In *Hold on to Your Kids*, acclaimed physician and bestselling author Gabor Maté joins forces with Gordon Neufeld, a psychologist with a reputation for penetrating to the heart of complex parenting. Together they pinpoint the causes of this breakdown and offer practical advice on how to 'reattach' to sons and daughters, establish the hierarchy at home, make children feel safe and understood, and earn back your children's loyalty and love. This updated edition also addresses the unprecedented parenting challenges posed by the rise of digital devices and social media. By helping to reawaken our instincts, Maté and Neufeld empower parents to be what nature intended: a true source of contact, security and warmth for their children.

Children Learn What They Live Rachel Harris L.C.S.W., Ph.D. 1998-01-05 The timeless New York Times bestselling guide to parenting that shows the power of inspiring values through example. A unique handbook to raising children with a compassionate, steady hand—and to giving them the support and confidence they need to thrive. Expanding on her universally loved poem "Children Learn What They Live," Dorothy Law Nolte, with psychotherapist Rachel Harris, reveals how parenting by example—by showing, not just telling—instills positive, true values in children that they will carry with them throughout their lives. Addressing issues of security, self-worth, tolerance, honesty, fear, respect, fairness, patience, and more, this book of rare common sense will help a new generation of parents find their own parenting wisdom—and draw out their child's immense inner resources. If children live with criticism they learn to condemn. If children live with sharing, they learn generosity. If children live with acceptance, they learn to love. And more wisdom.
