[With Love, From Malaysia - M. Bakri Musa 2004-04-01](#)

With Love, From Malaysia is an intimate look at Malaysia in the 1970s, through a series of letters home by a young Canadian mother. With two toddlers and her Malaysian surgeon husband, she adjusts to life in a new country and strange culture. Karen E. Musa chronicles the challenges of

tolerating a stifling bureaucracy and accommodating "how they do things differently." With Love, From Malaysia narrates the young family's rich and varied experiences, from their royal audience with the Sultan of Johore to visits to the kampong. For Karen Musa, the warmth of her husband's large extended family considerably eased her culture shock of "enjoying" the "luxury" of household maids, her continuing "saga of the telephone," and other tribulations in dealing with Third World officialdom. The family's adventures in the mundane chores of daily living, which the natives take in stride, make for entertaining reading. This is the Malaysia that natives and foreigners alike rarely experience or appreciate.

This fourth edition has been fully revised and expanded to include even more acts than ever before, with additional sections to cover Band Aid-style charity congregations and compilation albums from the early '80s K-Tel efforts through to the Now That's What I Call Music series and its competitors. Compiled by Steve Binnie, editor of the '80s music website Sound of the Crowd and writer, producer and co-host of the unconventional '80s chart show Off The Chart, broadcast weekly on Mad Wasp Radio.

**Elastic Language in Persuasion and Comforting - Grace Zhang 2019-09-28**

This innovative book examines the discourse of reality television, and the elasticity of language in the popular talent show The Voice from a cross-cultural perspective. Analysing how and why elastic language is used in persuasion and comforting, a comparison between Chinese and English is made, and the authors highlight the special role that elastic language plays in effective interactions and strategic communication. Through the lens of the language variance of two of the world's most commonly spoken languages, the insights and resources provided by this book are expected to advance knowledge in the fields of contrastive pragmatics and cross-cultural communication, and inform strategies in bridging different cultures. This study highlights the need to give the elastic use

of language the attention it deserves, and reveals how language is non-discrete and strategically stretchable. This book will be of interest to academics and postgraduate students engaged in elastic/vague language studies, cross-cultural pragmatics, media linguistics, discourse analysis, sociolinguistics and communication studies.
