Recreating Sexual Politics (Routledge Revivals) - Victor Seidler 2009-12-15

This thought-provoking book, first published in 1991, examines sexual politics in a world which is being radically changed by the challenges of feminism. Seidler explores how men have responded to feminism, and the contradictory feelings men have towards dominant forms of masculinity. Seidler's stimulating and original analysis of social and political theory connects personally to everyday issues in people's lives. It reflects the growing importance of sexual and personal politics within contemporary politics and culture, and demonstrates clearly the challenge that feminism brings to our inherited forms of morality, politics and sexuality.

Encyclopedia of Women and Gender -

Feminism, Sexuality, and the Return of Religion - Linda Alcoff 2011-05-19

Feminist theory and reflections on sexuality and gender rarely make contact with contemporary continental philosophy of religion. Where they all come together, creative and transformative thinking occurs. In *Feminism, Sexuality, and the Return of Religion*, internationally recognized scholars tackle complicated questions provoked by the often stormy intersection of these powerful forces. The essays in this book break down barriers as they extend the richness of each philosophical tradition. They discuss topics such as queer sexuality and religion, feminism and the gift, feminism and religious reform, and religion and diversity. The contributors are Hélène Cixous, Sarah Coakley, Kelly Brown Douglas, Mark D. Jordan, Catherine Keller, Saba

**Foucault's History of Sexuality Volume I,
The Will to Knowledge** - Mark G. E. Kelly
2013-02-25

A step-by-step guide to Foucault's History of Sexuality Volume I, The Will to Knowledge In the first volume of his History of Sexuality, The Will to Knowledge, Foucault weaves together the most influential theoretical account of sexuality since Freud. Mark Kelly systematically unpacks

the intricacies of Foucault's dense and sometimes confusing exposition, in a straightforward way, putting it in its historical and theoretical context. This is both a guide for the reader new to the text and one that offers new insights to those already familiar with Foucault's work.

Confessions of the Flesh - Michel Foucault
2022-01-18

The fourth and final volume in Michel Foucault's acclaimed History of Sexuality, completed just before his death in 1984 and finally available to the public. One of the most influential thinkers of the twentieth century, Michel Foucault made an indelible impact on Western thought. The first three volumes in his History of Sexuality—which trace cultural and intellectual notions of sexuality, arguing that it has been profoundly shaped by the power structures applied to it—constitute some of Foucault's most important work. This fourth volume posits that the origins of totalitarian self-surveillance began with the

Christian practice of confession. The manuscript had long been secreted away, in accordance with Foucault's stated wish that there be no posthumous publication of his unpublished work. With the sale of the Foucault archives in 2013, Foucault's nephew felt that the time had come to publish this final volume in Foucault's seminal history. Philosophically, it is a chapter in his hermeneutics of the desiring subject. Historically, it focuses on the remodeling of subjectivity carried out by the early Christian Fathers, who set out to transform the classical Logos of truthful human discourse into a theologos—the divine Word of a pure sovereign. What did God will in the matter of righteous sexual practice? Foucault parses out the logic of the various responses proffered by theologians over the centuries, culminating with Saint Augustine's fascinating discussion of the libido. Sweeping and deeply personal, *Confessions of the Flesh* is a tour de force from a philosophical master

???Its entries manage to avoid the obscurities of an exaggerated brevity without stretching themselves out, as if seeking to embody whole miniature essays. In short it presents itself as a model of clarity and clarification.??? Alan Montefiore

Nietzsche on Gender - Frances Nesbitt Oppel 2005

Although Nietzsche has been considered by some critics to be a misogynist for his treatment of woman, women, and the feminine, Frances Nesbitt Oppel offers a radical reinterpretation of the philosopher's ideas on sex, gender, and

sexuality. In Nietzsche on Gender: Beyond Man and Woman, she argues that a closer reading of Nietzsche's texts and rhetorical style (especially his use of metaphor and irony), as well as his letters and notes, shows that he was strategically and deliberately dismantling dualistic thinking in general, not only the logical hierarchies of western thought (God/human, heaven/earth, mind/body, reason/emotion, ethos/pathos) but also the assumed gender opposition of man/woman. In the process, she pulls the rug out from under the accusation of his alleged misogyny. Oppel's is the first study to combine recent speculations in gender study and queer theory with an in-depth analysis of Nietzsche's texts. This approach enables her to break through the impasse in feminist studies that has stalled for so long on the question of his misogyny, to redirect attention to the importance he gives to human creativity and self-fashioning rather than convention, and to gesture toward a future human sexuality beyond

rivalry and resentment in favor of a sensual materialism in relationship with others and the earth. Oppel concludes that for Nietzsche, breaking the gender barrier liberates human beings as individuals and as a species to love themselves, each other, and their earthly home as they choose. By emphasizing the physical and material stuff of human existence (bodies and the earth), she says, Nietzsche reclaims for all humanity concepts that have been traditionally associated with "woman" and the feminine. No longer seen as a strong masculine hero, Nietzsche's "superman" becomes a supreme human achievement: the complete acceptance of time, change, and mortality in which human beings will possess the best characteristics of each gender in themselves. Nietzsche on Gender should be equally engaging for readers interested in Nietzsche in particular and in sexual politics and in philosophy and literature more generally.

Foucault, Subjectivity, and Identity - Robert M.

Downloaded from
legacy.opendemocracy.net on 2022-04-27
by guest

Strozier 2002

An examination of the notions of subject and self from the Sophists to Foucault. Although the writings of Foucault have had tremendous impact on contemporary thinking about subjectivity, notions of the subject have a considerable history. In *Foucault, Subjectivity and Identity* Robert Strozier examines ideas of subject and self that have developed throughout western thought. He expands Foucault's idea of the subject as historically determined into a wide-ranging treatment of ideas of subjectivity, extending from those expressed by the ancient Sophists to notions of the subject at the end of the twentieth century. Strozier examines these traditions against the background of Foucault's work, especially Foucault's later writings on the history of self-relation and the subject and his idea of historical subjectivity in general. Strozier explores various periods of western thought, notably the Hellenistic era, the early Italian Renaissance, and the seventeenth century, to

show that almost every treatment of subjectivity is related to the Sophist idea of the originating Subject. Drawing on a wide spectrum of writings - by Epicurus and Seneca, Petrarch and Montaigne, Dickens and Conrad, Fr

Sex and Reason - Richard A. Posner 2009-07-01
Sexual drives are rooted in biology, but we don't act on them blindly. Indeed, as the eminently readable judge and legal scholar Richard Posner shows, we make quite rational choices about sex, based on the costs and benefits perceived. Drawing on the fields of biology, law, history, religion, and economics, this sweeping study examines societies from ancient Greece to today's Sweden and issues from masturbation, incest taboos, date rape, and gay marriage to Baby M. The first comprehensive approach to sexuality and its social controls, Posner's rational choice theory surprises, explains, predicts, and totally absorbs.

The Madwoman's Reason - Nancy J. Holland 2010-11

Downloaded from
legacy.opendemocracy.net on 2022-04-27
by guest

Most people want to be able to make valid moral judgments and to respect the ethical values of other cultural groups. Taking Jean Giraudoux's play THE MADWOMAN OF CHAILLOT as a starting point, philosopher Nancy Holland draws on the work of Heidegger and Derrida in an effort to find a middle way in ethics between relativism and foundationalism.

Kierkegaard and the Philosophy of Love - Michael Strawser 2015-10-08

Ironically, the philosophy of love has long been neglected by philosophers, so-called “lovers of wisdom,” who would seemingly need to understand how one best becomes a lover. In Kierkegaard and the Philosophy of Love, Michael Strawser shows that the philosophy of love lies at the heart of Kierkegaard’s writings, as he argues that the central issue of Kierkegaard’s authorship can and should be understood more broadly as the task of becoming a lover. Strawser starts by identifying the questions (How should I love the other? Is self-love

possible? How can I love God?) and themes (love’s immediacy, intentionality, unity, and eternity) that are central to the philosophy of love, and he develops a rich context that includes analyses of the conceptions of love found in Plato, Spinoza, and Hegel, as well as prominent contemporary thinkers. Strawser provides an original and wide-ranging analysis of Kierkegaard’s writings—from the early The Concept of Irony and Edifying Discourses to the late The Moment, while maintaining the prominence of Works of Love— to demonstrate how Kierkegaard’s writings on love are relevant to the emerging study of the philosophy of love today. The most unique perspective of this work, however, is Strawser’s argument that Kierkegaard’s writings on love are most fruitfully understood within the context of a phenomenology of love. In interpreting Kierkegaard as a phenomenologist of love, Strawser claims that it is not Husserl and Heidegger that we should look to for a

connection in the first instance, but rather Max Scheler, Dietrich von Hildebrand, Emmanuel Levinas, and most importantly, Jean-Luc Marion, who for the most part center their thinking on the phenomenological nature of love. Based on an analysis of the works of these thinkers together with Kierkegaard's writings, Strawser argues that Kierkegaard presents readers with a first phenomenology of love, a point of view that serves as a unifying perspective throughout this work while also pointing to areas for future scholarship. Overall, this work brings seemingly divergent perspectives into a unity brought about through a focus on love—which is, after all, a unifying force.

Misogyny in the Western Philosophical

Tradition - Beverley Clack 2016-04-22

First published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

[Up Against Foucault](#) - Caroline Ramazanoglu 1993

Questions of sexuality and power were central to

Foucault's writing - yet Foucault largely ignored feminism. This book considers the implications of his work for feminism - and of feminism for his work.

Sexual Love and Western Morality - Donald Phillip Verene 1995

Considered as a form of love, sex is clearly involved in the total set of ethical relationships that exists between persons and is therefore ethically significant.

Reason and Sexuality in Western Thought - David West 2005-05-06

This book traces the genealogy of ideas of reason, self and sexuality in the West, opening the way to a richer and more diverse understanding of sexual experience. Western philosophy and religion have distorted and continue to distort our experience of sex and love through three far-reaching constellations of reason, self and sexuality. Thinkers like Plato, Aquinas and Kant helped to fashion an ascetic ideal of reason hostile to bodily pleasures and

sexual diversity. By contrast, philosophical hedonism advocates a less demanding conception of rationality and defends sexual pleasure. But this approach of thinkers like Hume, Bentham, La Mettrie and de Sade is still one-sided and limiting. A third constellation, Romanticism avoids the limitations of both forms of rationalism, but in the name of a religion of love and passion that ultimately threatens the integrity of the self. In *Reason and Sexuality in Western Thought*, a richer understanding of sexual experience is traced to a dissident philosophical tradition. In their different ways Montaigne, Spinoza, Hegel and Kierkegaard, Marcuse and Foucault contribute to a more holistic, multi-layered and open conception of reason, sexuality and the self. This book will be essential reading for all students of philosophy and gender studies.

Ontologies of Sex: Philosophy in Sexual

Politics - Zeynep Direk 2020-06-17

Ontologies of Sex: Philosophy in Sexual Politics

considers the ontological presuppositions of feminist theories of sexual difference and brings them into conversation with phenomenological, ontological accounts of erotic experience. Erotic relation is a corporeal, intimate, and affective encounter with the other in which the subjects have the possibility of being revealed to themselves and to each other in who they are. In eroticism, law paradoxes, death, abjection, subjectivity, sovereignty, commitment, engagement, freedom are at stake. By inquiring into various types of analyzes of sexual oppression and different accounts of ethics of Eros, this book invites the reader to deepen their existential reflection on the significance of Eros for human life in general, and for political subjectivity in particular.

The Metaphysics of Sexual Love - Arthur Schopenhauer 1986-10

Religion and Culture - Michel Foucault
2013-09-13

Downloaded from
legacy.opendemocracy.net on 2022-04-27
by guest

First Published in 1999. Postmodern theorist Michel Foucault is best known for his work on power/ knowledge, and on the regulation of sexuality in modern society. Yet throughout his life, Foucault was continually concerned with Christianity, other spiritual movements and religious traditions, and the death of God, and these themes and materials scattered are throughout his many writings. Religion and Culture collects for the first time this important thinker's work on religion, religious experience, and society. Here are classic essays such as The Battle for Chastity , alongside those that have been less widely read in English or in French.

Selections are arranged in three groupings: Madness, Religion and the Avant-Garde; Religions, Politics and the East; and Christianity, Sexuality and the Self: Fragments of an Unpublished Volume. Ranging from Foucault's earliest studies of madness to Confessions of the Flesh , the unpublished fourth volume of his History of Sexuality , his final thoughts on early Christianity, Religion and Culture makes Foucault's work an indispensable part of contemporary religious thought, while also making an important link between religious studies and cultural studies.
