Regulating Passion - Kelly A. Ryan 2014-04

This title examines how the American Revolution changed the nature of patriarchal rule by shattering old ways of penalizing and publishing illicit sexual behaviour and more people embarked on policing the sexual morality of society.

*The Preacher's Wife* - Kate Bowler 2020-09-15

Although most evangelical traditions bar women from ordained ministry, many women have carved out unofficial positions of power in their husbands' spiritual empires or their own ministries. The biggest stars write bestselling books, grab high ratings on Christian television, and even preach. Bowler offers a sympathetic and revealing portrait of megachurch women celebrities, showing how they must balance the demands of celebrity culture and conservative, male-dominated faiths. And black celebrity preachers' wives carry a special burden of respectability. A compelling account of women's search for spiritual authority in the age of celebrity. -- adapted from jacket

The Oxford Handbook of American Women's and Gender History - Ellen Hartigan-O'Connor 2018-09-04

From the first European encounters with Native American women to today's crisis of sexual assault, *The Oxford Handbook of American Women's and Gender History* boldly interprets the diverse history of women and how ideas about gender shaped their access to political and cultural power in North America. Over twenty-nine chapters, this handbook illustrates how women's and gender history can shape how we view the past, looking at how gender influenced people's lives as they participated in migration, colonialism, trade, warfare, artistic production,

and community building. Theoretically cutting edge, each chapter is alive with colorful historical characters, from young Chicanas transforming urban culture, to free women of color forging abolitionist doctrines, Asian migrant women defending the legitimacy of their marriages, and transwomen fleeing incarceration. Together, their lives constitute the history of a continent. Leading scholars across multiple generations demonstrate the power of innovative research to excavate a history hidden in plain sight. Scrutinizing silences in the historical record, from the inattention to enslaved women's opinions to the suppression of Indian women's involvement in border diplomacy, the authors challenge the nature of historical evidence and remap what counts in our interpretation of the past. Together and separately, these essays offer readers a deep understanding of the variety and centrality of women's lives to all dimensions of the American past, even as they show that the boundaries of "women," "American," and "history" have shifted across the centuries.

*The Routledge History of Queer America* - Don Romesburg 2018-03-22

*The Routledge History of Queer America* presents the first comprehensive synthesis of the rapidly developing field of lesbian, gay, bisexual, transgender and queer US history. Featuring nearly thirty chapters on essential subjects and themes from colonial times through the present, this collection covers topics including: Rural vs. urban queer histories Gender and sexual diversity in early American history Intersectionality, exploring queerness in association with issues of race and class Queerness and American capitalism The rise of

queer histories, archives, and collective memory Transnationalism and queer history Gathering authorities in the field to define the ways in which sexual and gender diversity have contributed to the dynamics of American society, culture and nation, *The Routledge History of Queer America* is the finest available overview of the rich history of queer experience in US history.

*Proving Pregnancy* - Felicity M. Turner

2022-08-02

Examining infanticide cases in the United States from the late eighteenth to the late nineteenth centuries, *Proving Pregnancy* documents how women—Black and white, enslaved and free—gradually lost control over reproduction to male medical and legal professionals. In the first half of the nineteenth century, community-based female knowledge played a crucial role in prosecutions for infanticide: midwives, neighbors, healers, and relatives were better acquainted with an accused woman's intimate life, the circumstances of her pregnancy, and possible motives for infanticide than any man. As the century progressed, women accused of the crime were increasingly subject to the scrutiny of white male legal and medical experts educated in institutions that reinforced prevailing ideas about the inferior mental and physical capacities of women and Black people. As Reconstruction ended, the reach of the carceral state expanded, while law and medicine simultaneously privileged federal and state regulatory power over that of local institutions. These transformations placed all women's bodies at the mercy of male doctors, judges, and juries in ways they had not been before. Reframing knowledge of the body as property, Felicity M. Turner shows how, at the very moment when the federal government expanded formal civil and political rights to formerly enslaved people, the medical profession instituted new legal regulations across the nation that restricted access to knowledge of the female body to white men.

**The Sewing Girl's Tale** - John Wood Sweet

2022-07-19

New York Times Editors' Choice Winner of the Bancroft Prize Winner of the Francis Parkman Prize Winner of the Gotham Book Prize Winner of the New York Society Library's New York City

Book Award Journal of the American Revolution Book of the Year Winner of the David J. Langum, Sr. Prize in American Legal History A riveting Revolutionary Era drama of the first published rape trial in American history and its long, shattering aftermath, revealing how much has changed over two centuries—and how much has not On a moonless night in the summer of 1793 a crime was committed in the back room of a New York brothel—the kind of crime that even victims usually kept secret. Instead, seventeen-year-old seamstress Lanah Sawyer did what virtually no one in US history had done before: she charged a gentleman with rape. Her accusation sparked a raw courtroom drama and a relentless struggle for vindication that threatened both Lanah's and her assailant's lives. The trial exposed a predatory sexual underworld, sparked riots in the streets, and ignited a vigorous debate about class privilege and sexual double standards. The ongoing conflict attracted the nation's top lawyers, including Alexander Hamilton, and shaped the development of American law. The crime and its consequences became a kind of parable about the power of seduction and the limits of justice. Eventually, Lanah Sawyer did succeed in holding her assailant accountable—but at a terrible cost to herself. Based on rigorous historical detective work, this book takes us from a chance encounter in the street into the sanctuaries of the city's elite, the shadows of its brothels, and the despair of its debtors' prison. *The Sewing Girl's Tale* shows that if our laws and our culture were changed by a persistent young woman and the power of words two hundred years ago, they can be changed again. Includes photographs

**A Companion to American Women's History** - Nancy A. Hewitt 2021-02-08

The most important collection of essays on American Women's History This collection incorporates the most influential and groundbreaking scholarship in the area of American women's history, featuring twenty-three original essays on critical themes and topics. It assesses the past thirty years of scholarship, capturing the ways that women's historians confront issues of race, class, gender, and sexuality. This second edition updates essays related to Indigenous women, slavery, the American Revolution, Civil War, the West,

activism, labor, popular culture, civil rights, and feminism. It also includes a discussion of laws, capitalism, gender identity and transgender experience, welfare, reproductive politics, oral history, as well as an exploration of the perspectives of free Blacks and migrants and refugees. Spanning from the 15th through the 21st centuries, chapters show how historians of women, gender, and sexuality have challenged established chronologies and advanced new understandings of America's political, economic, intellectual and social history. This edition also features a new essay on the history of women's suffrage to coincide with the 100th anniversary of passage of the 19th Amendment, as well as a new article that carries issues of women, gender and sexuality into the 21st century. Includes twenty-three original essays by leading scholars in American women's, gender and sexuality history Highlights the most recent scholarship on the key debates and future directions of this popular and contemporary field Substantially updates the first edition with new authors and topics that represent the expanding fields of women, gender, and sexuality Engages issues of race, ethnicity, region, and class as they shape and are shaped by women's and gender history Covers the breadth of American Women's history, including Native women, colonial law and religion, slavery and freedom, women's activism, work and welfare, culture and capitalism, the state, feminism, digital and oral history, and more A Companion to American Women's History, Second Edition is an ideal book for advanced undergraduates and graduate students studying American/U.S. women's history, history of gender and sexuality, and African American women's history. It will also appeal to scholars of these areas at all levels, as well as public historians working in museums, archives, and historic sites.

*Revolutionary America, 1763-1815* - Francis D. Cogliano 2016-12-01

*Revolutionary America* explains the crucial events in the history of the United States between 1763 and 1815, when settlers of North America rebelled against British rule, won their independence in a long and bloody struggle, and created an enduring republic. Centering the narrative on the politics of the new republic, *Revolutionary America* presents a clear history

of the War of Independence and lays a distinctive foundation for students and scholars of the early American republic. Author Francis D. Cogliano pays particular attention to the experiences of those who were excluded from the immediate benefits and rights secured by the creation of the republic, including women, Native Americans, and African Americans. This third edition has been fully revised and updated to incorporate the insights of the latest scholarship throughout, including additional discussion of regional differences and the role of religion. New chapters cover the War of 1812, the Revolution as a social movement, and the experience of Loyalists, allowing students to grasp further dimensions of the conflict and the emergence of the United States.

*The Historical Globalization of Colorism* - Ronald E Hall 2022-01-01

This topical book shows that racism by skin color is much more embedded and prevalent in the modern world than racism by race. In the aftermath of globalization, humanity has experienced unprecedented levels of interaction. This book presents evidence to show that in the 21st century which is dependent on ever-expanding communication technologies, and new forms of visual media actually exacerbate historical mores of colorism in the lives of humanity, i.e.: African, Asian, Latinx, Native and European descent. The book discusses the historical roots and current values of idealization of light skin, skin bleaching practices, stereotypes of skin color developed through migration and cultural assimilation, and health and educational consequences of colorism.

*Regulating Passion* - Kelly A. Ryan 2014

This title examines how the American Revolution changed the nature of patriarchal rule by shattering old ways of penalizing and publishing illicit sexual behaviour and more people embarked on policing the sexual morality of society.

**Capitalist Patriarchy and the Case for Socialist Feminism** - Zillah R. Eisenstein 1979-01-01

Fourteen provocative papers on the oppression of women in capitalist countries, along with three articles on the subordinate position of women in two communist countries, Cuba and China. These important, often path-breaking

articles are arranged in five basic sections, the titles of which indicate the broad range of issues being considered: Introduction; motherhood, reproduction, and male supremacy; socialist feminist historical analysis; patriarchy in revolutionary society; socialist feminism in the United States. The underlying thrust of the book is toward integrating the central ideas of radical feminist thought with those pivotal for Marxist or socialist class analysis.

*Under Household Government* - M. Michelle Jarrett Morris 2012-12-17

The Puritans were not as busy policing their neighbors' behavior as Nathaniel Hawthorne or many early American historians would have us believe. Keeping their own households in line occupied too much of their time. *Under Household Government* reveals that family members took on the role of watchdogs in matters of sexual indiscretion.

*Everyday Crimes* - Kelly A. Ryan 2019-08-06

The narratives of slaves, wives, and servants who resisted social and domestic violence in the nineteenth century. In the early nineteenth century, Peter Wheeler, a slave to Gideon Morehouse in New York, protested, "Master, I won't stand this," after Morehouse beat Wheeler's hands with a whip. Wheeler ran for safety, but Morehouse followed him with a shotgun and fired several times. Wheeler sought help from people in the town, but his eventual escape from slavery was the only way to fully secure his safety. *Everyday Crimes* tells the story of legally and socially dependent people like Wheeler—free and enslaved African Americans, married white women, and servants—who resisted violence in Massachusetts and New York despite lacking formal protection through the legal system. These "dependents" found ways to fight back against their abusers through various resistance strategies. Individuals made it clear that they wouldn't stand the abuse. Developing relationships with neighbors and justices of the peace, making their complaints known within their communities, and, occasionally, resorting to violence, were among their tactics. In bearing their scars and telling their stories, these victims of abuse put a human face on the civil rights issues related to legal and social dependency, and claimed the rights of individuals to live

without fear of violence.

**Historical Dictionary of New England** - Peter C. Holloran 2017-05-01

This second edition of *Historical Dictionary of New England* contains a chronology, an introduction, appendix, and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, places, institutions, and events. *Vexed with Devils* - Erika Gasser 2019-12-15  
Stories of witchcraft and demonic possession from early modern England through the last official trials in colonial New England. Those possessed by the devil in early modern England usually exhibited a common set of symptoms: fits, vomiting, visions, contortions, speaking in tongues, and an antipathy to prayer. However, it was a matter of interpretation, and sometimes public opinion, if these symptoms were visited upon the victim, or if they came from within. Both early modern England and colonial New England had cases that blurred the line between witchcraft and demonic possession, most famously, the Salem witch trials. While historians acknowledge some similarities in witch trials between the two regions, such as the fact that an overwhelming majority of witches were women, the histories of these cases primarily focus on local contexts and specifics. In so doing, they overlook the ways in which manhood factored into possession and witchcraft cases. *Vexed with Devils* is a cultural history of witchcraft-possession phenomena that centers on the role of men and patriarchal power. Erika Gasser reveals that witchcraft trials had as much to do with who had power in the community, to impose judgement or to subvert order, as they did with religious belief. She argues that the gendered dynamics of possession and witchcraft demonstrated that contested meanings of manhood played a critical role in the struggle to maintain authority. While all men were not capable of accessing power in the same ways, many of the people involved—those who acted as if they were possessed, men accused of being witches, and men who wrote possession propaganda—invoked manhood as they struggled to advocate for themselves during these perilous times. Gasser ultimately concludes that the decline of possession and witchcraft cases was not merely a product of

change over time, but rather an indication of the ways in which patriarchal power endured throughout and beyond the colonial period. *Vexed with Devils* reexamines an unnerving time and offers a surprising new perspective on our own, using stories and voices which emerge from the records in ways that continue to fascinate and unsettle us.

[Dark Inheritance](#) - Brooke N. Newman  
2018-08-28

A major reassessment of the development of race and subjecthood in the British Atlantic Focusing on Jamaica, Britain's most valuable colony in the Americas by the mid-eighteenth century, Brooke Newman explores the relationship between racial classifications and the inherited rights and privileges associated with British subject status. Weaving together a diverse range of sources, she shows how colonial racial ideologies rooted in fictions of blood ancestry at once justified permanent, hereditary slavery for Africans and barred members of certain marginalized groups from laying claim to British liberties on the basis of hereditary status.

**Female Quixotism** - Tabitha Tenney 1825

*Entangled Lives* - Marla Miller 2019-12-17

Offering an intervention into larger conversations about local history, microhistory, and historical scholarship, *Entangled Lives* is a revealing journey through early America.

**Puritan Family** - Edmund S. Morgan  
1966-01-01

The Puritans came to New England not merely to save their souls but to establish a "visible" kingdom of God, a society where outward conduct would be according to God's laws. This book discusses the desire of the Puritans to be socially virtuous and their wish to force social virtue upon others.

[The Origins of Sex](#) - Faramerz Dabhoiwala  
2012-05-01

A man admits that, when drunk, he tried to have sex with an eighteen-year-old girl; she is arrested and denies they had intercourse, but finally begs God's forgiveness. Then she is publicly hanged alongside her attacker. These events took place in 1644, in Boston, where today they would be viewed with horror. How--and when--did such a complete transformation of our culture's attitudes toward sex occur? In *The Origins of Sex*, Faramerz Dabhoiwala provides a landmark history, one that will revolutionize our understanding of the origins of sexuality in modern Western culture. For millennia, sex had been strictly regulated by the Church, the state, and society, who vigorously and brutally attempted to punish any sex outside of marriage. But by 1800, everything had changed. Drawing on vast research--from canon law to court cases, from novels to pornography, not to mention the diaries and letters of people great and ordinary--Dabhoiwala shows how this dramatic change came about, tracing the interplay of intellectual trends, religious and cultural shifts, and politics and demographics. The Enlightenment led to the presumption that sex was a private matter; that morality could not be imposed; that men, not women, were the more lustful gender. Moreover, the rise of cities eroded community-based moral policing, and religious divisions undermined both church authority and fear of divine punishment. Sex became a central topic in poetry, drama, and fiction; diarists such as Samuel Pepys obsessed over it. In the 1700s, it became possible for a Church of Scotland leader to commend complete sexual liberty for both men and women. Arguing that the sexual revolution that really counted occurred long before the cultural movement of the 1960s, Dabhoiwala offers readers an engaging and wholly original look at the Western world's relationship to sex. Deeply researched and powerfully argued, *The Origins of Sex* is a major work of history.
