

Sambia Ritual Sexuality And Change In Papua New Guinea

Evolution and Human Sexual Behavior -

Peter B. Gray 2013-04-01

A comprehensive survey of the evolutionary science of human sexual behavior, *Evolution and Human Sexual Behavior* invites us to imagine human sex from the vantage point of our primate cousins, in order to underscore the role of evolution in shaping all that happens, biologically and behaviorally, when romantic passions are aroused.

The Missing Myth - Gilles Herrada 2013-02-26

In *The Missing Myth*, Gilles Herrada tackles the many questions about the role and meaning of homosexuality in the evolution of our species and the development of civilization: what evolutionary edge same-sex relationships have provided to the human species; what biological mechanisms generate the sexual diversity that we observe; why homosexual behavior ended up being prohibited worldwide; why homophobia has persisted throughout history; why the homosexual community resurfaced after World War II; and others. In this heartfelt, beautifully written, and painstakingly researched text, the author sculpts a vision of homosexuality that integrates its many dimensions. Stressing the connection between the social status of homosexuality and how same-sex love is depicted in the myths of a particular culture, *The Missing Myth* advocates the creation of a new mythos—not only informed by all the fields of knowledge, but also inclusive of the beauty, truth, and goodness of same-sex love.

Readings for a History of Anthropological

Theory, Fifth Edition - Paul A. Erickson

2016-10-19

The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory, with a sharpened focus on gender and anthropology, and the anthropology of new media and technology. Short introductions and key terms accompany every reading, and light annotations have been added

to aid students in reading original articles. Used on its own or together with *A History of Anthropological Theory, Fifth Edition*, this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today.

Children, Sexuality, and the Law - Sacha M. Coupet 2015-05-22

American political and legal culture is uncomfortable with children's sexuality. While aware that sexual expression is a necessary part of human development, law rarely contemplates the complex ways in which it interacts with children and sexuality. Just as the law circumscribes children to a narrow range of roles—either as entirely sexless beings or victims or objects of harmful adult sexual conduct—so too does society tend to discount the notion of children as agents in the domain of sex and sexuality. Where a small body of rights related to sex has been carved out, the central question has been the degree to which children resemble adults, not necessarily whether minors themselves possess distinct and recognized rights related to sex, sexual expression, and sexuality. *Children, Sexuality, and the Law* reflects on some of the unique challenges that accompany children in the broader context of sex, exploring from diverse perspectives the ways in which children emerge in sexually related dimensions of law and contemporary life. It explores a broad range of issues, from the psychology of children as sexual beings to the legal treatment of adolescent consent. This work also explores whether and when children have a right to expression as understood within the First Amendment. The first volume of its kind, *Children, Sexuality, and the Law* goes beyond the traditional discourse of children as victims of adult sexual deviance by highlighting children as agents and rights holders in the realm of sex, sexuality, and sexual orientation.

Always Hungry, Never Greedy - Miriam Kahn
1993-12-30

The Wamira people of Papua New Guinea display what outsiders would describe as an obsession with food. Who owns how many pigs, how much taro grows in whose garden, and who contributes what food at a feast, are all questions uppermost in their thoughts.

Wamirans account for this preoccupation by saying that they suffer from perpetual famine. They explain this by means of an elaborate and colorful myth about Tamodukorokoro, a monster who would have brought them abundant food, but whom, in typical Wamiran style of fearing what they desire, they chased away. In this carefully crafted and beautifully evocative book, Kahn, who lived with the Wamira people for two and a half years, argues that Wamirans famine has in fact little to do with the belly. For Wamirans, concepts of food and hunger are cultural constructs. By means of food, they objectify emotions, balance relations between men and women, communicate rivalries among men, and ultimately, control the ambivalent desires that they fear would otherwise control them. Effectively combining analyses of myths and symbols with analytical accounts of subsistence and ritual behavior, Kahn writes with a degree of nuance that takes the reader beyond academic analyses into the experience of the ethnographer and the daily lives of the people with whom she resided.

Sexual Antagonism, Gender, and Social Change in Papua New Guinea - Fitz John Porter Poole
1982

[The Sambia: Ritual, Sexuality, and Change in Papua New Guinea](#) - Gilbert Herdt 2006

This cultural and psychological study of gender identity and sexual development in a New Guinea Highlands society includes rich material on initiation rites and socialization studies, and contrasts the Sambia with other societies, including the United States. For example, Sambia boys experience ritualized homosexuality before puberty and continue this practice until marriage, after which homosexual activity is prohibited. The implications are developed cross-culturally and contextualized in gender literature. This new edition contains updated information about the Sambian

ritualization and socialization of gender practices and will include a new chapter on sexuality, gender and social change among the Sambia. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The Sambia](#) - Gilbert H. Herdt 1987

This cultural and psychological study of gender identity and sexual development in a New Guinea Highlands society includes initiation rites and socialization studies, and contrasts the Sambia with other societies, including our own. Sambia boys experience ritualized homosexuality before puberty and do not leave it until marriage, after which homosexual activity is prohibited. The implications are developed cross-culturally and contextualized in gender literature.

Neither Man Nor Woman - Serena Nanda
1999

This ethnography is a cultural study of the Hijras of India, a religious community of men who dress and act like women. It focuses on how Hijras can be used in the study of gender categories and human sexual variation.

The Oxford Handbook of Global Lgbt and Sexual Diversity Politics - Michael J. Bosia
2020

Struggles for LGBT rights and the security of sexual and gender minorities are ongoing, urgent concerns across the world. For students, scholars, and activists who work on these and related issues, this handbook provides a unique, interdisciplinary resource. In chapters by both emerging and senior scholars, the Oxford Handbook of Global LGBT and Sexual Diversity Politics introduces key concepts in LGBT political studies and queer theory. Additionally, the handbook offers historical, geographic, and topical case studies contextualized within theoretical frameworks from the sociology of sexualities, critical race studies, postcolonialism, indigenous theories, social movement theory, and international relations theory. It provides readers with up-to-date empirical material and critical assessments of the analytical significance, commonalities, and differences of global LGBT politics. The forward-looking analysis of state practice, transnational networks, and historical context presents crucial

perspectives and opens new avenues for debate, dialogue, and theory.

Readings for a History of Anthropological Theory, Fifth Edition - Liam D. Murphy
2017-01-01

The fifth edition of this bestselling reader builds a strong foundation in both classical and contemporary theory, with a sharpened focus on gender and anthropology, and the anthropology of new media and technology. Short introductions and key terms accompany every reading, and light annotations have been added to aid students in reading original articles. Used on its own or together with *A History of Anthropological Theory, Fifth Edition*, this anthology offers a flexible and unrivalled introduction to anthropological theory that reflects not only the history but also the changing nature of the discipline today.

Secrecy and Cultural Reality - Gilbert Herdt
2010-02-22

Gilbert Herdt is Director of the Program in Human Sexuality Studies at San Francisco State University, where he is also Professor of Human Sexuality Studies and Anthropology.

A History of Anthropological Theory, Fifth Edition - Paul A. Erickson 2017-01-01

"An accessible and engaging overview of anthropological theory that provides a comprehensive history from antiquity through to the twenty-first century. The fifth edition has been revised throughout, with substantial updates to the Feminism and Anthropology section, including more on Gender and Sexuality, and with a new section on Anthropologies of the Digital Age. Once again, *A History of Anthropological Theory* will be published simultaneously with the accompanying reader, mirroring these changes in the selection of readings, so they can easily be used together in the classroom. Additional biographical information about some of the theorists has been added to help students."--

Scottish Crofters - Susan Parman 2005

SCOTTISH CROFTERS: A HISTORICAL ETHNOGRAPHY OF A CELTIC VILLAGE focuses on Geall, a community in the Scottish Outer Hebrides. With an understanding gained from an intimate, long-term relationship with Scotland, things Scottish, and the people of the community, the author describes Geall as a

human community and places it in the wider cultural, historical, economic, and sociopolitical contexts of maintaining relationships to Scotland, England and Europe. The book emphasizes the way symbols are used to interpret elements of the culture such as economy, power, mental illness, and religion by exploring the significant symbols associated with the state, the mechanisms for integrating community and state, and how people define leaders and social role.

The Pacific Islands - Moshe Rapaport
2013-05-31

The Pacific is the last major world region to be discovered by humans. Although small in total land area, its numerous islands and archipelagoes with their startlingly diverse habitats and biotas, extend across a third of the globe. This revised edition of a popular text explores the diverse landforms, climates, and ecosystems of the Pacific island region. Multiple chapters, written by leading specialists, cover the environment, history, culture, population, and economy. The work includes new or completely revised chapters on gender, music, logging, development, education, urbanization, health, ocean resources, and tourism.

Throughout two key issues are addressed: the exceptional environmental challenges and the demographic/economic/political challenges facing the region. Although modern technology and media and waves of continental tourists are fast eroding island cultures, the continuing resilience of Pacific island populations is apparent. This is the only contemporary text on the Pacific Islands that covers both environment and sociocultural issues and will thus be indispensable for any serious student of the region. Unlike other reviews, it treats the entirety of Oceania (with the exception of Australia) and is well illustrated with numerous photos and maps, including a regional atlas. Contributors: David Abbott, Dennis A. Ahlburg, Glenn Banks, John Barker, Geoffrey Bertram, David A. Chappell, William C. Clarke, John Connell, Ron Crocombe, Julie Cupples, Derrick Depledge, Colin Filer, Gerard J. Fryer, Patricia Fryer, Brenden S. Holland, E. Alison Kay, David M. Kennedy, Lamont Lindstrom, Rick Lumpkin, Harley I. Manner, Selina Tusitala Marsh, Nancy McDowell, Hamish A. McGowan, Frank

McShane, Simon Milne, R. John Morrison, Dieter Mueller-Dombois, Stephen G. Nelson, Patrick D. Nunn, Michael R. Ogden, Andrew Pawley, Jean-Louis Rallu, Vina Ram-Bidesi, Moshe Rapaport, Annette Sachs Robertson, Richard Scaglione, Donovan Storey, Andrew P. Sturman, Lynne D. Talley, James P. Terry, Randolph R. Thaman, Frank R. Thomas, Caroline Vercoe, Terence Wesley-Smith, Paul Wolfram.

Sambia Sexual Culture - Gilbert Herdt
1999-06

This collection of essays on the sexual culture of the Sambia of Papua New Guinea examines: fetish and fantasy; ritual nose-bleeding; the role of homoerotic insemination; the role of the father and mother in the process of identity formation.

Cultural Politics of Gender and Sexuality in Contemporary Asia - Tiantian Zheng 2017-07-31

In globalizing Asia, sexual mores and gender roles are in constant flux. How have economic shifts and social changes altered and reconfigured the cultural meanings of gender and sexuality in the region? How have the changing political economy and social milieu influenced and shaped the inner workings and micro-politics of family structure, gender relationships, intimate romance, transactional sex, and sexual behaviors? This volume offers up-to-date, grounded, critical analysis of the complex intersections of gender, sexuality, and political economy across a diverse array of Asian societies: China, Japan, Cambodia, Vietnam, India, Pakistan, Hong Kong, Thailand, and Taiwan. Based on intense ethnographic fieldwork, the chapters disentangle the ways in which gendered and sexual experiences are impinged upon by state policies, economic realities, cultural ideologies, and social hierarchies. Whether highlighting intimate relationships between elite businessmen and their mistresses in China; nightclub performances by Thai men in Bangkok; single women's views of romance, motherhood, and marriage in Hong Kong, Shanghai, and Tokyo; or male same-sex relationships in Pakistan—each chapter centers around the stories of the gendered subjects themselves and how they are shaped by outside forces. Taken together they provide a provocative entrée into the cultural politics of gender and sexuality in Asia. By

foregrounding cross-cultural ethnographic research, this volume sheds light on how configurations of gender and sexuality are constituted, negotiated, contested, transformed, and at times, perpetuated and reproduced in private, intimate experiences. It will be of particular interest to students and scholars in anthropology, sociology, political science, and women's and LGBTQ studies.

New Meanings for Ancient Texts - Steven L. McKenzie 2013

"As . . . newer approaches [to biblical criticism] become more established and influential, it is essential that students and other serious readers of the Bible be exposed to them and become familiar with them. That is the main impetus behind the present volume, which is offered as a textbook for those who wish to go further than the approaches covered in *To Each Its Own Meaning* by exploring more recent or experimental ways of reading." □from the introduction This book is a supplement and sequel to *To Each Its Own Meaning*, edited by Steven L. McKenzie and Stephen R. Haynes, which introduced the reader to the most important methods of biblical criticism and remains a widely used classroom textbook. This new volume explores recent developments in, and approaches to, biblical criticism since 1999. Leading contributors define and describe their approach for non-specialist readers, using examples from the Old and New Testament to help illustrate their discussion. Topics include cultural criticism, disability studies, queer criticism, postmodernism, ecological criticism, new historicism, popular culture, postcolonial criticism, and psychological criticism. Each section includes a list of key terms and definitions and suggestions for further reading.

Human Sexuality - Anne Bolin 2009-09-10

Human Sexuality: Biological, Psychological, and Cultural Perspectives is a unique textbook that provides a complete analysis of this crucial aspect of life around the world. Utilizing viewpoints across cultural and national boundaries, and deftly weaving evolutionary and psychological perspectives, Bolin and Whelehan go beyond the traditional evolution and primatology to address cross-cultural and contemporary issues, as well as anthropological contributions and psycho-social perspectives.

Taking into account the evolution of human anatomy, sexual behavior, attitudes, and beliefs, this far-reaching text goes beyond what is found in traditional books to present a wide diversity of beliefs, attitudes, and behaviors found globally. In addition to providing a rich array of photographs, illustrations, tables, and a glossary of terms, this extraordinary textbook explores: pregnancy and childbirth as a bio-cultural experience life-course issues related to gender identity, sexual orientations, behaviors, and lifestyles socioeconomic, political, historical, and ecological influences on sexual behavior early childhood sexuality, puberty and adolescence birth control, fertility, conception, and sexual differentiation HIV infection, AIDS, AIDS globalization and sex work Fusing biological, socio-psychological, and cultural influences to offer new perspectives on understanding human sexuality, its development over millions of years of evolution, and how sexuality is embedded in specific socio-cultural contexts, this is the text for educators and students who wish to understand human sexuality in all of its richness and complexity.

Why Men? - Nancy Lindisfarne 2023-09-28

How did humans, a species that evolved to be cooperative and egalitarian, develop societies of aggressively enforced inequality? Why did our ancestors create a world of patriarchal power, war and abuse? Did it have to be this way? Powerful elites have always called hierarchy and violence unavoidable facts of human nature. The 'science' of evolution, they say, caused--and causes--men to fight, and people to have different, unequal roles, starting with men and women. But that is bad science. In this fascinating, fun and important book, two anthropologists tell the real story of humanity, from early behaviours to contemporary cultures. From bonobo sex and prehistoric childcare to human sacrifice, Joan of Arc, Darwinism and Abu Ghraib, they reveal humankind's evolutionary predisposition to both equality and inequality. Very old ideas of difference, invented by the earliest class societies, have hidden this truth, causing much female, queer and minority suffering. But there is hope. 'Why Men?' is not a book about what men and women are or do. It's about what privileges humans claim, how they rationalise them, and how we unpick those ideas about our roots. It will change how you see the nature of injustice, violence and even yourself.
