

Sex Roles In Law And Society Cases And Materials

[The Sex Radicals](#) - Hal D. Sears 2021-10-29

This volume provides the first account of the pioneering efforts at sex reform in America from the Gilded Age to the Progressive era. Despite the atmosphere of extreme prudery and the existence of the Comstock laws after the Civil War, a group of radicals emerged to attack conventional beliefs about sex, from traditional marriage to women's chattel status in society. These men and women had in common a direct, unrespectable, iconoclastic style. They put forth outrageous journalism and had a penchant for martyrdom and for using the courts to publicize their ideologies. From rare and generally unknown sources, Hal D. Sears pieced together the story of the sex radicals and their surprising ideas. Moses Harman, a minister turned abolitionist and freethinker, is a central figure in the narrative. His *Lucifer, the Light Bearer*, the only journal of sexual liberty published from the early 1880s to 1907, was dedicated to free love, sex education, women's rights, and related causes. To a great degree Harman's publication defines the limits of social dissent in the late nineteenth century. Other members of the sex radical circle included E. B. Foote, a medical doctor who made a fortune with a home medical book crammed with sex information; Edwin Walker and Lillian Harman, who became a cause célèbre among radicals when their jailhouse honeymoon in Kansas challenged the right of the state to regulate marriage; Elmina Slenker, who promoted a theory of sexual energy sublimation and the idea that women were the superior sex; and Lois Waisbrooker, Dora Forster, Lillie White, and other feminists who, almost a century ago, taught and preached the very ideas we hear today in the women's movement. Of course, all these people got into trouble with the law, mostly through the machinations of their archvillain, Anthony Comstock. Sears examines Comstock's powers of postal censorship and describes Comstock's personal vendettas against sexual dissenters, particularly the free love philosopher Ezra Heywood. He gives a legal history of obscenity and explains the sex radicals' significance in the emergence of obscenity law. Although the sex radicals attest the important reform vitality of provincial culture in late nineteenth-century America, until now they have been almost ignored by historians. Those who have studied sex radicalism at all, apart from its communitarian and sectarian aspects, have viewed it merely as a subsidiary of the more respectable feminist movement. In this book Sears gives careful consideration to the links between sex radicalism and spiritualism, feminism, anticlericalism, anarchism, and the free-thought movement. He presents sex radicalism as a separate and unique movement which illuminates new reaches of the Victorian landscape and establishes a tradition for present-day liberation trends.

Family Law, Gender and the State - Alison Diduck 2012-02-07

The third edition of this work on family law, comprising text, cases and materials, provides not only an explication of legal principle but also explores, primarily from a feminist perspective, some of the assumptions about, and constructions of, gender, sexual orientation, class and culture that underlie the law. It examines the ideology of the family and, in particular, the role of the law in contributing to and reproducing that ideology. Structured around the themes of equality, welfare, and family privacy, the book aims to offer the benefits of a textbook while also giving students a wide-ranging set of materials for classroom discussion. As well as providing a firm grounding in family law, the text sets the law in its social and historical context and encourages a critical approach by students to the subject. It provides an ideal introduction to family law for undergraduates, but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments. Review of the second edition: 'Diduck and Kaganas examine legal developments to shed light on society, principally by investigating the ways in which family law constructs and regulates family life and responsibilities. Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law. ... [T]he [book] is written and referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels, whether looking for theoretical inspiration or drawing up a literature review. The range of diverse sources that Diduck and Kaganas draw on is impressive: they seem to have included every bit of material that helps feminists make sense of family law. There is a well-pitched selection of further reading of such

material at the end of each chapter. What's more, they undersell themselves by describing their book as "Text, Cases and Materials", because they have woven by far the largest proportion of the cases and materials into the text.' Helen Reece, *Times Higher Education*, May 2007. Reviews of first edition: 'A stimulating work which attempts to situate family law in its social, historical and political context. Its appeal should not be confined to family law students, as its commitment to a critical and analytical approach offers insights and ideas with broader significance.' Mary Childs, *Child and Family Law Quarterly*, September 2002 'The arguments are provocative, the analysis is stimulating and the materials amassed strongly support the authors' aim to question the "axiomatic status of what is traditionally designated as the family".' Fiona E Raitt, *Infant and Child Development*, September 2002 'It is not often that one can say of a textbook in Law that it "makes interesting reading" with quite the enthusiasm that can be expressed for this text. This new publication offers something that few textbooks seem to offer - a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum.' Penny Booth, *The Law Teacher*, September 2002 'All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references. As a teaching manual, it is excellent - a coherent feminist perspective across the entire range of family law' Marty Slaughter, *Feminist Legal Studies*, July 2003 [ABA Journal](#) - 1973-03

The ABA Journal serves the legal profession. Qualified recipients are lawyers and judges, law students, law librarians and associate members of the American Bar Association.

The Legacy of Ruth Bader Ginsburg - Scott Dodson 2022-03-10

This anthology chronicles the legal legacy of Ruth Bader Ginsburg.

A Woman's Wage - Alice Kessler-Harris 2014-10-17

In this pathbreaking book, Alice Kessler-Harris explores the meanings of women's wages in the United States in the twentieth century, focusing on three sets of issues that capture the transformation of women's roles: the battle over minimum wage for women, which exposes the relationship between family ideology and workplace demands; the argument over equal pay for equal work, which challenges gendered patterns of self-esteem and social organization; and the current debate over comparable worth, which seeks to incorporate traditionally female values into new work and family trajectories. Together these issues trace the many ways in which gendered meaning has been produced, transmitted, and challenged.

Gender, Class, Race, and Reform in the Progressive Era - Noralee Frankel 2014-07-11

In this collection of informative essays, Noralee Frankel and Nancy S. Dye bring together work by such notable scholars as Ellen Carol DuBois, Alice Kessler-Harris, Barbara Sicherman, and Rosalyn Terborg-Penn to illuminate the lives and labor of American women from the late nineteenth century to the early 1920s. Revealing the intersections of gender, race, ethnicity, and social class, the authors explore women's accomplishments in changing welfare and labor legislation; early twentieth century feminism and women's suffrage; women in industry and the work force; the relationship between family and community in early twentieth-century America; and the ways in which African American, immigrant, and working-class women contributed to progressive reform. This challenging collection not only displays the dramatic transformations women of all classes experienced, but also helps construct a new scaffolding for progressivism in general.

Pregnancy Discrimination and the American Worker - Michelle D. Deardorff 2016-04-29

This book explores how the federal courts have addressed the two primary federal statutory protections found in the Pregnancy Discrimination Act and the Americans with Disabilities Act and how law mediates conflict between workplace expectations and the realities of pregnancy. While pregnancy discrimination has been litigated under both, these laws establish different forms of equality. Formal equality requires equal treatment of pregnant women in the workplace, and substantive equality requires the worker's needs to be accommodated by the employer. Drawing from a unique database of 1,112 cases, Deardorff and Dahl discuss how courts have addressed pregnancy through these two different approaches to equality. The authors explore the implications for gender equality and the evolution of how pregnancy and pregnancy-related conditions in employment can be addressed by employers.

Sex Roles in Law and Society - Leo Kanowitz 1973

Global Perspectives on Gender and Work - Jacqueline Goodman 2000-04-16

Central to all our lives, work affects our status in the state, the family, and the economy. This comprehensive reader examines the myriad ways in which work—whether it is well-paid, unpaid, or underpaid—profoundly influences our roles in both the public and private spheres. Jacqueline Goodman has selected a key set of essays that examine influential arguments on such central themes as (1) the origins of the gendered division of labor; (2) historical trends and economic transformations that affect and are affected by women's position in market and non-market work; (3) the effects of occupational and job segregation by sex on status, pay, and promotion; (4) the ways in which formal and informal organizational culture shape and in turn are shaped by gender in professional and managerial positions; (5) class consciousness among wage-earning men and women; (6) the different forms of gender discrimination that women and men face in the workplace; (7) the problems working parents face and the ways in which different societies, subcultures, and genders cope; and (8) alternative approaches to improving the lives of working women and their families in the global economy. With its rich interdisciplinary perspective, this text is ideal for courses in sociology, political science, anthropology, and women's and gender studies. Contributions by: Amel Adib, Kevin Bales, Dorothy Sue Cobble, Sharon M. Collins, Ruth Schwartz Cowan, Susan Eisenberg, Ashley English, Yen Le Espiritu, Anne Fausto-Sterling, Nancy Folbre, Carla Freeman, Michele Ruth Gamburd, Jacqueline Goodman, Janet C. Women and the Law - Joan A. Brathwaite 1999

Women's Rights in the USA - Dorothy E. McBride 2014-06-11

In *Women's Rights in the USA*, Fourth Edition, Dorothy E. McBride again examines the policy debates critical to women in politics. Tracing the development of these debates over time in order to illustrate their historical context, McBride shows how these issues have evolved and how they have led to the policies and laws of today. She also examines the evolving attitudes of the feminists and advocacy groups behind these debates as they grapple with the tensions between the themes of equality and sex difference as they relate to women's rights. The book also looks at women's place in shaping the policies, statutes, and laws—from "liberal" activists to policy insiders—and how those roles shape the debates and issues that move forward today. In a broader context, by following these debates as they move through government institutions to become policies and laws, this book shows students the law-making process through issues that directly affect their lives. Of crucial significance is the acknowledgement that these debates do not end when court decisions, policies, and laws are made, but continue on to foster further movements, viewpoints, and political change. This fourth edition features updates on the most vital issues concerning women's rights today: constitutional equality, reproduction, education, family, work, work & family, regulation and intimidation of sexuality, and economic status.

Cases and Materials on Sex Roles in Law and Society - Leo Kanowitz 1972

Non-State Violent Actors and Social Movement Organizations - Julie M. Mazzei 2017-04-26

This volume focusses on non-state actors and political conflicts but also attends to the broader themes of the series. The research emphasizes the roles and motivations of non-state actors in conflicts or post-conflict situations in the post-Cold War era; as well outlining the dynamics of social movements, conflicts, or change.
