A Foodie Afloat Di Murrell 2020-07-28 A Foodie Afloat is the story of a cook's journey through France on a barge. Di Murrell takes us on a gentle journey across France; her main preoccupation being to make sure that tasty food arrives on the table each day. As she voyages across the country she shows, through her recipes, how the cuisine changes with the landscape. Whether bought in the market, dug from a lock-keeper's garden or even foraged along the towpath, the food she finds and cooks is always seasonal and local to the region. This book is more than just a collection of recipes though. It is the result of a life spent on the waterways of Europe. She talks to lock-keepers, skippers of working barges and those, who, like her, find their sustenance on or near the canal. Di's enjoyment of good champagne, foie gras and truffles leads to an eclectic mix of simplicity and sophistication in her cooking. The boating life, though rarely sensational, is full of small events and chance encounters. This is an enticing story of slow boats and slow food. Di makes it come alive, and her combination of travel and recipe book tempts us to give up everything and join her on the waterways of Northern and Central France. A Foodie Afloat is the 2020 UK winner of the World Gourmand Cookbook Awards in the Food Tourism category.

Fashion & Music Jochen Strähle 2017-08-10 This book will broaden readers' understanding of the links between the music and fashion industries. It highlights the challenges currently facing the fashion industry in terms of hyper-competition, definition of ever-faster trends, changing consumer demands etc. In fact, the fashion industry is heavily influenced by the digital revolution in the music industry, which has changed the face of individual music consumption and social reference, and therefore, also has impacts on fashion consumption and social reference. This understanding is crucial in order to realign any fashion company's strategies to the demands of modern fashion consumers. In terms of content, the book first discusses the social perspective of fashion and music. This includes an analysis of music as a key influencer of fashion trends, both theoretically and on the basis of a case study on grunge music. Then the role of music in the fashion business is addressed, and covers in-store music and the role of music in fashion communication. Following up, the role of fashion in the music business is analyzed. Gardens and Gardening in Early Modern England and Wales, 1560-1660 Jill Francis 2018 The extravagant gardens of the 16th- and 17th-century British aristocracy are well-documented and celebrated, but the more modest gardens of the rural county gentry have rarely been examined. Jill Francis presents new, never-before published material as well as fresh interpretations of previously examined sources to reveal gardening as a practical activity in which a broad spectrum of society was engaged - from the laborers who dug, manured, and weeded, to the gentleman owners who sought to create gardens that both exemplified their personal tastes and displayed their wealth and status. Enhanced by beautiful and compelling illustrations, this book contributes to a broader understanding of early modern society and its culture by situating the activity of gardening within the wider social and cultural concerns of the age, reflecting the anxieties, hopes, and aspirations of people at the time. Published in association with the Paul Mellon Centre for Studies in British Art

Modern Rustic Emily Henson 2021-02-09 Rustic isn't what it used to be. Gone are the days when rustic style meant fusty dried flower arrangements, antlers over a stone fireplace and acres of tartan. At its heart, the modern rustic look celebrates the fabric of a home, from the roof beams to the brickwork. This style revels in earthy colours and rich textures; in natural materials such as wood and stone; and the ruggedly handsome bones of a building. Outrageous! Paul Baker 2022-03-11 Now in paperback, a personal and impassioned history of the infamous Section 28, the 1988 UK law banning the teaching “of the acceptability of homosexuality.” On May 23, 1988, Paul Baker sat down with his family to eat cake on his sixteenth birthday while The Six O’Clock News played in the background. But something was not quite right. There was muffled shouting—“Stop Section 28!”—and a scuffle. The papers would announce: “Beeb Man Sits on Lesbian.” The next day Section 28 passed into UK law, forbidding local authorities from teaching “of the acceptability of homosexuality as a pretended family relationship.” It would send shockwaves through British society: silencing gay pupils and teachers, while galvanizing mass protests and the formation of the LGBTQ+ rights groups OutRage! and Stonewall. *Outrageous!* tells its story: the background to the Act, how the press fanned the flames and what politicians said during debates, how protestors fought back to bring about the repeal of the law in the 2000s, and its eventual legacy. Based on detailed research, interviews with key figures—including Ian McKellen, Michael Cashman, and Angela Mason—and personal recollection, *Outrageous!* is an impassioned, warm, often moving account of unthinkable prejudice enshrined within the law and of the power of community to overcome it.

computation. Writing performance-sensitive code requires a programming language that puts programmers in control of how memory, processor time, and other system resources are used. The Rust systems programming language combines that control with a modern type system that catches broad classes of common mistakes, from memory management errors to data races between threads. With this practical guide, experienced systems programmers will learn how to successfully bridge the gap between performance and safety using Rust. Jim Blandy, Jason Orendorff, and Leonora Tindall demonstrate how Rust's features put programmers in control over memory consumption and processor use by combining predictable performance with memory safety and trustworthy concurrency. You'll learn: Rust's fundamental data types and the core concepts of ownership and borrowing How to write flexible, efficient code with traits and generics How to write fast, multithreaded code without data races Rust's key power tools: closures, iterators, and asynchronous programming Collections, strings and text, input and output, macros, unsafe code, and foreign function interfaces This revised, updated edition covers the Rust 2021 Edition.

Arts and Crafts Pioneers Stuart Evans 2021-02-15 Surveying for the first time the Century Guild of Artists (CGA) and its influential periodical, the Century Guild Hobby Horse, this original publication asserts the significance of the CGA in the development of the Arts and Crafts movement and its modernist successors. Founded by the architect Arthur Heygate Mackmurdo and his 18-year-old assistant Herbert Percy Horne (afterwards joined by the artist and poet Selwyn Image), the three men were driven by the ambition to answer John Ruskin's radical call to regenerate art and society. Motivated by the concept of 'the Unity of Art', the CGA embraced a spectrum of arts which included architecture, painting, sculpture, metalwork, textiles and stained glass. It also reached out to music and literature, aiming to educate its public in practical form. Skilfully weaving chronology with the impressive artistic achievements of the collective, the authors also draw out the lively personalities of each of the protagonists and their wider circle. For anyone fascinated by the Arts and Crafts movement, this is essential reading.

Hark! A Vagrant Kate Beaton 2020-05-28 Since Kate Beaton appeared on the comics scene in 2007 her cartoons have become fan favourites and gathered an enormous following, appearing in the New Yorker, Harper and the LA Times, to name but a few. Her website, Hark! A Vagrant, receives an average of 1.2 million hits a month, 500 thousand of them unique. Why? Because she's not just making silly jokes. She's making jokes about everything we learned in school, and more. Praised for their expression, intelligence and comic timing, her cartoons are best known for their wonderfully light touch on historical and literary topics. The jokes are a knowing look at history through a very modern perspective, written for every reader, and are a crusade against anyone with the idea that history is boring. It's pretty hard to argue with that when you're laughing your head off at a comic about Thucydides. They also cover whatever's on her mind that week - be it the perils of city living or the pop-cultural infiltration of Sex and the City, featuring an array of characters, from a mischievous pony, to reinvented superheroes, to a surly teen duo who could be the anti-Hardy-Boys. Perceptive, sharp and wonderfully irreverent, Hark! A Vagrant is as informative as it is hilarious, and a comic collection to treasure.
