The Archaeology of Death and Burial - Mike Parker Pearson 2021-09-03  
The archaeology of death and burial is central to our attempts to understand vanished societies. Through the remains of funerary rituals we can learn not only about the attitudes of prehistoric people to death and the afterlife, but also about their way of life, their social organisation and their view of the world. This ambitious book reviews the latest research in this huge and important field, and describes the sometimes controversial interpretations that have led to rapid advances in our understanding of life and death in the distant past. A unique overview and synthesis of one of the most revealing fields of research into the past, it covers archaeology's most breathtaking discoveries, from Tutankhamen to the Ice Man, and will find a keen market among archaeologists, historians and others who have a professional interest in, or general curiosity about, death and burial.

On the Red Hill - Mike Parker 2019-06-06

WINNER OF THE WALES BOOK OF THE YEAR AWARD 2020  
SHORTLISTED FOR THE WAINWRIGHT PRIZE 2020

\_\_\_\_\_ 'A moving story of love, tradition and landscape.' Evening Standard, 'Books of the Year' 'A moving, multilayered memoir... extraordinary, ambitious... its scope is immense. A book that is deep in riches.' Simon Callow, Guardian 'A marvellous book... an uplifting tale of tranquillity sought and found in the nearest Britain gets to paradise.' Simon Jenkins 'There are worlds on worlds within this lyrical and profoundly cultured book. In an age of toxic artifice, this is the most necessary medicine: the tenderness of reality and the living, elemental, world.' Jay Griffiths \_\_\_\_\_ A multi-layered memoir of love, acceptance, finding home and the redemptive power of nature. In 2006, Mike Parker and his partner Peredur were witnesses at the civil partnership of their friends Reg and George, the first in the small Welsh town of Machynlleth. Years later, when Reg and George died within a few weeks of each other, Mike and Peredur discovered that they had been left their home: a whitewashed 'house from the children's stories', buried deep within the hills. On the Red Hill is the story of Rhiw Goch, 'the Red Hill', and its inhabitants, but also the story of a remarkable rural community and a legacy that extends far beyond bricks and mortar. It is a story that celebrates the turn of the year's wheel, of ever-changing landscapes, and of the family found in the unlikeliest of places. Highly commended by the judging panel for the 2020 Wainwright Prize for Nature Writing \_\_\_\_\_ 'A delightful book about beauty, joy, love and home... to be celebrated and read.' Sara Maitland 'A great queer rural triumph of a book - wonderfully passionate, funny and insightful. It overflows with love.' Tom Bullough

**Set the Night on Fire** - Mike Davis 2021-04-13

Los Angeles Times Bestseller "Authoritative and impressive." -Los Angeles Times "Monumental." -Guardian A magisterial, riveting movement history of Los Angeles in the Sixties Los Angeles in the sixties was a hotbed of political and social upheaval. The city was a launchpad for Black Power—where Malcolm X and Angela Davis first came to prominence and the Watts uprising shook the nation. The city was home to the Chicano Blowouts and Chicano Moratorium, as well as being the birthplace of “Asian American” as a political identity. It was a locus of the antiwar movement, gay liberation movement, and women’s movement, and, of course, the capital of California counterculture. Mike Davis and Jon Wiener provide the first comprehensive movement history of L.A. in the sixties, drawing on extensive archival research and dozens of interviews with principal figures, as well as the authors’ storied personal histories as activists. Following on from Davis’s awardwinning L.A. history, *City of Quartz*, *Set the Night on Fire* is a historical tour de force, delivered in scintillating and fiercely beautiful prose.

**How Tobacco Smoke Causes Disease** - 2010

This report considers the biological and behavioral mechanisms that may

underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Stonehenge - Mike Parker Pearson 2012-06-07

Our knowledge about Stonehenge has changed dramatically as a result of the Stonehenge Riverside Project (2003-2009), led by Mike Parker Pearson, and included not only Stonehenge itself but also the nearby great henge enclosure of Durrington Walls. This book is about the people who built Stonehenge and its relationship to the surrounding landscape. The book explores the theory that the people of Durrington Walls built both Stonehenge and Durrington Walls, and that the choice of stone for constructing Stonehenge has a significance so far undiscovered, namely, that stone was used for monuments to the dead. Through years of thorough and extensive work at the site, Parker Pearson and his team unearthed evidence of the Neolithic inhabitants and builders which connected the settlement at Durrington Walls with the henge, and contextualised Stonehenge within the larger site complex, linked by the River Avon, as well as in terms of its relationship with the rest of the British Isles. Parker Pearson's book changes the way that we think about Stonehenge; correcting previously erroneous chronology and dating; filling in gaps in our knowledge about its people and how they lived; identifying a previously unknown type of Neolithic building; discovering Bluestonehenge, a circle of 25 blue stones from western Wales; and confirming what started as a hypothesis - that Stonehenge was a place of the dead - through more than 64 cremation burials unearthed there, which span the monument's use during the third millennium BC. In lively and engaging prose, Parker Pearson brings to life the imposing ancient monument that continues to hold a fascination for everyone.

*Parenting Matters* - National Academies of Sciences, Engineering, and Medicine 2016-12-21

Decades of research have demonstrated that the parent-child dyad and the environment of the family—“which includes all primary caregivers”—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger.

Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and

on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

He's in over his head undercover at the Haven, a swanky gay sex club, determined to find out why members of the club keep vanishing. Five minutes inside and he can no longer deny the truth about his sexuality. He turns to the one man he can't get out of his head, the sexy ex-cop handling security. Too bad Kevin doesn't trust cops. Not since the only night he let himself be with another man. Walter Simon doesn't do the club scene anymore. Not since he found love and lost it. That doesn't mean he'll let anyone hurt more innocent gay men. Even if that means going head-to-head with the klutzy, closeted, much-younger reporter. Kevin has information about the disappearances. Better to keep him close. And safe. Neither is at the club to hook up or fall in love. Now they must work together amid their growing passion in order to uncover the truth before more men disappear. **The Colonel** - Alanna Nash 2014-06-01

Almost the only indisputable fact about Colonel Tom Parker is that he was the manager of the greatest performer in popular music: Elvis Presley. His real name wasn't Tom Parker – indeed, he wasn't an American at all, but a Dutch immigrant called Andreas van Kujik. And he certainly wasn't a proper military colonel: he purchased his title from a man in Louisiana. But while the Colonel has long been acknowledged as something of a charlatan, this book is the first to reveal the extraordinary extent of the secrets he concealed, and the consequences for the career, and ultimately the life, of the star he managed. As Alanna Nash's prodigious research has discovered, the Colonel left Holland most probably because, at the age of twenty, he bludgeoned a woman to death. Entering the US illegally, he then enlisted in the army as "Tom Parker". But, with supreme irony for someone later styling himself as Colonel, Parker's military career ended in desertion, and discharge after a psychiatrist had certified him as a psychopath. He then became a fairground barker, working sideshows with a zeal for small-scale huckstering and the casual scam that never left him. And by the height of Elvis's success, Parker had become a pathological gambler who, at the same time as he was taking, amazingly, a full 50% of Presley's earnings, frittered away all his wealth in the casinos of Las Vegas. As Nash shows, therefore, the often baffling trajectory of Elvis Presley's career makes perfect sense once the secret imperatives of the Colonel's life are known. Parker never booked Presley for a tour of Europe because of the dark secret that ensured he himself could never return there. Even at his most famous, Elvis was still being booked to play out-of-the-way towns in North Carolina – because the former fairground barker (who shamelessly negotiated as such even with top record company and film executives) knew them from his days on the circus circuit. And Elvis was trapped playing years of arduous seasons in Las Vegas – two shows nightly, seven days a week, until boredom and despair brought on the excessive drug use that killed him – because for Parker he was an open chit – whose huge earnings prevented his manager's losses at the gambling tables being called in. Alanna Nash knew Parker towards the end of his life, and has now uncovered the whole story, improbable, shocking, and never less than compelling, of how this larger-than-life man made, and then unmade, popular music's first and greatest superstar.

**Sandy Toes & Salty Kisses** - Michael Parker 2019-07

Bubba's extra-curricular activities, without exception, appear to be illegal. They run the gamut from cash prize bingo, to a rum distillery, to off-track betting. You name it, Bubba is doing it. Arriving at the hotel is Beatrice Rutherford-Smythe (The epitome of the New England blue bloods) and her daughter Traci, to check out the hotel for Traci's wedding. They have an appointment with Madame Coco, the hotel's wedding planner, who unfortunately has eloped. The only staff member

who knows anything about weddings is Uncle Bubba, who, coerced by Audrina, now has to spend the rest of the play, alternating between himself and Madame Coco. Two other guests are checking in today. Traci's fiancé, Peter Mudd, and a mysterious Douglas DuPont. Through a mix up of room numbers, a series of mistaken identities ensues. Candy, the hotel receptionist is bribed by Beatrice to flirt with Peter, but ends up with Douglas. Douglas, who is actually an innocent travel writer for a destination wedding publication, is mistaken for a federal agent from the Bureau of Alcohol, Tobacco, Firearms and Explosives. Candy's report to Beatrice introduces a roller coaster of events creating an on-again-off-again wedding. In the midst of all this mayhem, Bubba and Beatrice appear to be falling in love. Peter and Traci are reconciled (Several times), and Audrina and Douglas find they have a strong attraction for each other. Throughout the play though, one question remains unanswered: Is it true love or is it the mystique of Sandy Toes & Salty Kisses at the Lovers Landing Beach Hotel?

Never Kiss a Naughty Nanny - Michael E. Parker 2008

4 or 5m, 2f / Farce / Interior Mr. Broadbent, a developer and builder, has created "THE HOUSE OF THE FUTURE." He has filled it with gadgets such as: self lighting fire places, a self cleaning bathroom, central trash disposal units, automatic closets, hidden telephones, and his masterpiece "The Personal Ion Chamber." The house, however, has remained unsold for four years, probably because, as we see in the course of the play, most of the innovations of the future fail to work properly. He has, at last found prospective buyers, Fred and Gladys McNicoll, and invites them to stay in the house. He is determined to offload this huge "White Elephant." He bribes two members of his staff, Casey Cody and Ben Adams, to pose as a married couple, who are renting the house. They are to extol its virtues and explain how everything works. He is pulling out all the stops. The fridge is full of expensive wine and he has hired a chef to prepare a gourmet meal. Unknown to The McNicolls', he even has his maintenance man Eddie Cott on hand to make running repairs. He thinks he has all the bases covered. When Gladys hears Casey refer to Mr. Cott by name, the cat seems to be out of the bag, but Casey quickly recovers by saying she didn't say "Mister Cott" but "Mm Turcotte," the children's nanny. Eddie Cott now spends the rest of the play as Nanny Turcotte. A surprise visitor, Mr. Brooks, takes an almost insane fancy to "Nanny" who now has to defend 'her' honor, as well as fix the gadgets, all of which, without exception, misbehave.

*Cult Film as a Guide to Life* - I.Q. Hunter 2016-09-08

*Cult Film as a Guide to Life* investigates the world and experience of cult films, from well-loved classics to the worst movies ever made. Including comprehensive studies of cult phenomena such as trash films, exploitation versions, cult adaptations, and case studies of movies as different as *Showgirls*, *Room 237* and *The Lord of the G-Strings*, this lively, provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world. Using his expertise in two fields, I.Q. Hunter also explores the important overlap between cult film and adaptation studies. He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences' emotional investment not only in texts but also

in the relationships between them, and how such bonds of caring are structured over time. The book's emergent theme is cult film as lived experience. With reference mostly to American cinema, Hunter explores how cultists, with their powerful emotional investment in films, care for them over time and across numerous intertexts in relationships of memory, nostalgia and anticipation.

*Who's in Bed with the Butler* - Michael E. Parker 2004

A California billionaire has bequeathed all of his assets to his only daughter Constance - except the 22-million-dollar yacht he wanted Josephine to have, a 25 million-dollar art collection left to Rene and some priceless antique automobiles willed to Marjorie. Constance arrives at her father's mansion with her lawyer, determined to find out who these

women are and to buy them off or contest the will. The butler seems to hold the key and she learns from him that the three sultry ladies were her father's lovers. She also discovers that the yacht, the art and the cars have vanished, all having been sold to The Bimbo Corporation. Could the butler be behind the shenanigans - and is he carrying on with all of the ladies in question? Does the elderly, deaf housekeeper really have a pet rat? Can the bumbling detective hired by Constance really be so inept, linguistically as well as professionally? And why has the butler hired an actress to play his wife? Hilarity erupts long before the audience realizes that the temptresses are all being played by the same actress! This is a madcap addition to the author's string of inventive American farces.
