**Sex at Dawn** - Christopher Ryan 2021-01-05  
The 10th-anniversary edition of the book that radical re-evaluates the origins and nature of human sexuality. Since Darwin's day, we've been told that sexual monogamy comes naturally to our species. Mainstream science — as well as religious and cultural institutions — has maintained that men and women evolved in families in which a man's possessions and protection were exchanged for a woman's fertility and fidelity. In this groundbreaking book, however, Christopher Ryan and Cacilda Jethá argue that human beings evolved in egalitarian groups that shared food, child care,

and, often, sexual partners. Weaving together evidence from anthropology, archaeology, primatology, anatomy, and psychosexuality, the authors show how far from human nature monogamy really is. With intelligence and humour, Ryan and Jethá explain how our promiscuous past haunts our contemporary struggles. They explore why many people find long-term fidelity so difficult; why sexual passion tends to fade even as love deepens; why homosexuality persists in the face of standard evolutionary logic; and what the human body reveals about the prehistoric origins of modern sexuality. Shocking, enlightening, and ultimately

inspiring, Sex at Dawn offers a revolutionary understanding of why we live and love as we do.

*Male Sexuality* - Michael J. Bader 2009

At first glance the sexual male seems easy to understand, but beneath the surface lie complexities that disrupt lives and relationships. Respected psychologist Michael Bader takes an honest look at the nuances of male sexuality, addressing issues such as sexual boredom, internet sex, and sexual fantasies that can leave women bewildered and men ashamed.

Illustrated with engaging examples from his practice, *Male Sexuality* gives readers, both women and men, deeper understanding of male behavior. Through increased awareness of the psychology behind the sex, Bader aims to enhance individual self-esteem and improve communication in relationships.

"Does the fact that as much as fifty percent of our waking hours [finds] us failing to focus on the task at hand represent a problem? Michael Corballis doesn't think so, and with [this book], he shows us why, rehabilitating woolgathering and revealing its ... useful effects. Drawing on the latest research from cognitive science and evolutionary biology, Corballis [posits that] mind-wandering not only frees us from moment-to-moment drudgery, but also from the limitations of our immediate selves"-- Amazon.com.

[Understanding Barriers to Workplace Equality: A Focus on the Target's Perspective](#) - Michelle K. Ryan 2020-08-07

**Disinformation Book of Lists** - Russ Kick 2004-06-01

Can you name five military leaders who were transgendered? Twelve cases of involuntary human experimentation by the U.S. government? How about the four porn novels written by famous authors, 11 books left out of the Bible and over 50 side effects of NutraSweet that have been reported to the FDA? In 1977, David Wallechinsky, Irving Wallace and Amy Wallace published The Book of Lists, causing an immediate sensation. Not only did it lead to three direct sequels (in 1980, 1983 and 1993), it also created a new genre. Soon, shelves were lined with The First Original Unexpurgated

Authentic Canadian Book of Lists (1978), The Book of Sports Lists (1979) and Meredith's Book of Bible Lists (1980), among many others. Using this popular, enduring format, Russ Kick's Disinformation Book of Lists delves into the murkier aspects of politics, current events, business, history, science, art and literature, sex, drugs, death and more. Despite such unusual subject matter, this book presents hard, substantiated facts with full references. Among the lists presented: Innocent People Freed from Prison Members of the Skull & Bones Secret Society at Yale Drugs Pulled Off the Market After They Killed Too Many People Legal Substances that Will Get You High Scenes that Were Cut from Movies Raunchy Songs that Were Never Released Military Officers, Government Officials, Astronauts, and Airline Personnel Who Say UFOs Are Real Words and Phrases No Longer Allowed in Textbooks

**Sexing the Body** - Anne Fausto-Sterling 2020-06-30

Downloaded from  
[legacy.opendemocracy.net](http://legacy.opendemocracy.net) on  
2020-10-06 by guest

Now updated with groundbreaking research, this award-winning classic examines the construction of sexual identity in biology, society, and history. Why do some people prefer heterosexual love while others fancy the same sex? Is sexual identity biologically determined or a product of convention? In this brilliant and provocative book, the acclaimed author of *Myths of Gender* argues that even the most fundamental knowledge about sex is shaped by the culture in which scientific knowledge is produced. Drawing on astonishing real-life cases

and a probing analysis of centuries of scientific research, Fausto-Sterling demonstrates how scientists have historically politicized the body. In lively and impassioned prose, she breaks down three key dualisms -- sex/gender, nature/nurture, and real/constructed -- and asserts that individuals born as mixtures of male and female exist as one of five natural human variants and, as such, should not be forced to compromise their differences to fit a flawed societal definition of normality.
