Perloff 2000-11-01 *Persuading People to Have Safer Sex* offers a lucid, in-depth, student-friendly and academically thorough discussion of AIDS prevention and health persuasion. In so doing it provides an introduction to the ways that social scientific research can be brought to bear on a daunting health problem. Covering many aspects of the AIDS crisis, the book introduces readers to the severity of the AIDS problem and explains the epidemiology of the disease. It discusses why persuasion is so important, explicates cognitive theories of AIDS prevention, and notes the role emotions and communication play in safer sex prevention. It also discusses: \*functions that unsafe sex plays in peoples' lives; \*why people, notably minority women, frequently choose to engage in unsafe sex; and \*social factors underlying the spread of AIDS in urban America and portions of Africa. As a resource for introducing students to the role that theory and research play in health communication and psychology, the volume is appropriate for use in communication, journalism, social psychology, and public health courses, and will be of value to scholars, researchers, and all who seek to understand the use of persuasion in changing behavior.

**Mapping Desire** David Bell 1995 This is the first book to explore sexualities from a geographical perspective. The nature of place and notions of space are of increasing centrality to cultural and social theory. *Mapping Desire* presents the rich and diverse world of contemporary sexuality, exploring how the heterosexual body has been appropriated and resisted on the individual, community and city scales. The geographies presented here range across Europe, America, Australasia, Africa, the Pacific and the imaginary, cutting across city and country and analysing the positions of gay men, lesbians, bisexuals and heterosexuals. The contributors ring different interests and approaches to bear on theoretical and empirical material from a wide range of sources. The book is divided into four sections: cartographies/identities; sexualised spaces: global/local; sexualised spaces: local/global; sites of resistance. Each section is separately introduced. Beyond the bibliography, an annotated guide to further reading is also provided to help the reader map their own way through the literature.

**A View from the Bottom** Tan Hoang Nguyen 2014-07-28 *A View from the Bottom* offers a major critical reassessment of male effeminacy and its racialization in visual culture. Examining portrayals of Asian and Asian American men in Hollywood cinema, European art film, gay pornography, and experimental documentary, Nguyen Tan Hoang explores the cultural meanings that accrue to sexual positions. He shows how cultural fantasies around the position of the sexual "bottom" overdetermine and refract the meanings of race, gender, sexuality, and nationality in American culture in ways that both enable and constrain Asian masculinity. Challenging the association of bottoming with passivity and abjection, Nguyen suggests ways of thinking about the bottom position that afford agency and pleasure. A more capacious conception of bottomhood—as a sexual position, a social alliance, an affective bond, and an aesthetic form—has the potential to destabilize sexual, gender, and racial norms, suggesting an ethical mode of relation organized not around dominance and mastery but around the risk of vulnerability and shame. Thus reconceived, bottomhood as a critical category creates new possibilities for arousal, receptiveness, and recognition, and offers a new framework for analyzing sexual representations in cinema as well as understanding their relation to oppositional political projects.

*The Gay Sex Deck* Oliver Peers 2009

RePresenting Bisexualities Donald E. Hall 1996 Is bisexuality coming out in America? Bisexual characters are surfacing on popular television shows and in film. Newsweek proclaims that a new sexual identity is emerging. But amidst this burgeoning acknowledgment of bisexuality, is there an understanding of what it means to be bisexual in a monosexual culture? *RePresenting Bisexualities* seeks to answer these questions, integrating a recognition of bisexual desire with new theories of gender and sexuality. Despite the breakthroughs in gender studies and queer studies of recent years, bisexuality has remained largely unexamined. Problematic sexual images are usually attributed either to homosexual or heterosexual desire while bisexual readings remain unexplored. The essays found in *RePresenting Bisexualities* discuss fluid sexualities through a variety of readings from the fence, covering texts from Emily Dickinson to Nine Inch Nails. Each author contributes to the collection a unique view of sexual fluidity and transgressive desire. Taken together, these essays provide the most comprehensive bisexual theory reader to date.

The pieces in *Six Positions* are designed to offer an intelligent and creative consideration of gay bodies and acts, at the same time celebrating determined and unadulterated sexual desire.'

Sexuality Repositioned 2004 Despite the advent of new sexual knowledges, new perspectives, new experiences even, we do not routinely or habitually reflect on the interface of social and legal dimensions of sexuality. Rather, the law is periodically reviewed in response to some crisis or campaign. The idea for the book thus came from awareness that it is important to explore some of the social and moral censures, contours and controversies that shape and mark the boundaries of sexuality. The production of the book has coincided with a major review and new legislation concerning sexual offences, fuelling the authors' concer.

**Queer Transfigurations** James Welker 2022-05-31 The boys love (BL) genre was created for girls and women by young female manga (comic) artists in early 1970s Japan to challenge oppressive gender and sexual norms. Over the years, BL has seen almost irrepressible growth in popularity and since the 2000s has become a global media phenomenon, weaving its way into anime, prose fiction, live-action dramas, video games, audio dramas, and fan works. BL's male-male romantic and sexual relationships have found a particularly receptive home in other parts of Asia, where strong local fan communities and locally produced BL works have garnered a following throughout the region, taking on new meanings and engendering widespread cultural effects. *Queer Transfigurations* is the first detailed examination of the BL media explosion across Asia. The book brings together twenty-one scholars exploring BL media, its fans, and its sociocultural impacts in a dozen countries in East, Southeast, and South Asia—and beyond. Contributors draw on their expertise in an array of disciplines and fields, including anthropology, fan studies, gender and sexuality studies, history, literature, media studies, political science, and sociology to shed light on BL media and its fandoms. *Queer Transfigurations* reveals the far-reaching influences of the BL genre, demonstrating that it is truly transnational and transcultural in diverse cultural contexts. It has also helped bring about positive changes in the status of LGBT(Q) people and communities as well as enlighten local understandings of gender and sexuality throughout Asia. In short, *Queer Transfigurations* shows that, some fifty years after the first BL manga appeared in print, the genre is continuing to reverberate and transform lives.

**The Course of Gay and Lesbian Lives** Bertram J. Cohler 2000-08 The authors argue that there is little support for assuming that homosexuality has a biological basis. **Every Inch a Woman** Carellin Brooks 2011-11-01 What makes the textual image of a woman with a penis so compelling, malleable, and persistent? The phallic woman can be a ribald joke, a fantastical impossibility, a masculine usurper, an ultimately unthreatening sexual style, an interrogation into the I of the author, or an examination of female culpability. Every Inch a Woman takes note of a proliferation of phallic feminine figures in disparate North American and European texts from the end of the nineteenth century onward. Carellin Brooks traces this phallic-woman motif backward to the sexological case study, and forward to newspaper accounts of testosterone-taking third-sexers. Brooks examines both high and low literature, pornography, postmodern theory, and writing.

**A Coincidence of Desires** Tom Boellstorff 2007-04-04 In *A Coincidence of Desires*, Tom Boellstorff considers how interdisciplinary collaboration between anthropology and queer studies might enrich both fields. For more than a decade he has visited Indonesia, both as an anthropologist exploring gender and sexuality and as an activist involved in HIV prevention work. Drawing on these experiences, he provides several in-depth case studies, primarily concerning the lives of Indonesian men who term themselves gay (an Indonesian-language word that overlaps with, but does not correspond exactly to, the English word "gay"). These case studies put interdisciplinary research approaches into practice. They are preceded and followed by theoretical meditations on the most productive forms that collaborations between queer studies and anthropology might take. Boellstorff uses theories of time to ask how a model of "coincidence" might open up new possibilities for cooperation between the two disciplines. He also juxtaposes his own work with other scholars' studies of Indonesia, Thailand, the Philippines, Malaysia, and Singapore to compare queer sexualities across Southeast Asia. In doing so, he asks how comparison might be understood as a queer project and how queerness might be understood as comparative. The case studies contained in *A Coincidence of Desires* speak to questions about the relation of sexualities to nationalism, religion, and globalization. They include an examination of zines published by gay Indonesians; an analysis of bahasa gay—a slang spoken by gay Indonesians that is increasingly appropriated in Indonesian popular culture; and an exploration of the place of warias (roughly, "male-to-female transvestites") within Indonesian society. Boellstorff also considers the tension between Islam and sexuality in gay Indonesians' lives and a series of incidents in which groups of men, identified with Islamic fundamentalism, violently attacked gatherings of gay men. Collectively, these studies insist on the primacy of empirical investigation to any queer studies project that wishes to speak to the specificities of lived experience.

**Home and Community for Queer Men of Color** C. Winter Han 2020-01-15 This edited volume examines how and where gay men of color find “home” and what kind of home they find, how they make sense of race and sexuality, and how their experiences reflect what it means to be “raced” and “sexed” in America. The contributors argue both racially and sexually marginalized groups all confront levels of racism and heterosexism that is practiced by the larger ethnic and sexual communities that use white heterosexuality as the “norm” to which all others are compared. They further argue that despite different constructions of race and ethnicity, there are similar themes for racialized groups that need to be explored.

**Gender, Power, and Communication in Human Relationships** Pamela J. Kalbfleisch 2012-12-06 This edited volume establishes a state-of-the-art perspective on theory and research on gender, power, and communication in human relationships. Both theoretical essays and review chapters address issues relevant to female and male differences in power, dominance, communication, equality, and expectations/beliefs. All chapter contributors share two commonalities. First, each provides a 1990s assessment of power and equality in female and male relationships. Second, each reviews respective programs of research and focuses attention on the relevance of this research to understanding the relationships of women and men. Unique because it incorporates a multidisciplinary approach to the study of gender and the communication of power in human relationships, this book includes the original work of intellectuals with national and international reputations in the social sciences. The volume provides both scholastic breadth and centralized treatment of issues that form the very foundation of social and personal relationships. It will appeal to scholars working in the disciplines of communication and psychology as well as other areas of social science research.
