### **Readings in Money and Banking** - Chester

Arthur Phillips 2022-08-01

DigiCat Publishing presents to you this special edition of "Readings in Money and Banking" (Selected and Adapted) by Chester Arthur Phillips. DigiCat Publishing considers every written word to be a legacy of humankind. Every DigiCat book has been carefully reproduced for republishing in a new modern format. The books are available in print, as well as ebooks. DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature.

[Intercourse](#) - Andrea Dworkin 2008-08-01

Andrea Dworkin, once called "Feminism's Malcolm X," has been worshipped, reviled, criticized, and analyzed-but never ignored. The power of her writing, the passion of her ideals, and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists. Now the book that she's best known for-in which she provoked the argument that ultimately split apart the feminist movement-is being reissued for the young women and men of the twenty-first century. Intercourse enraged as many readers as it inspired when it was first published in 1987. In it, Dworkin argues that in a male supremacist society, sex between men and women constitutes a central part of women's subordination to men. (This argument was quickly-and falsely-simplified to "all sex is rape" in the public arena, adding fire to Dworkin's already radical persona.) In her introduction to this twentieth-anniversary edition of Intercourse, Ariel Levy, the author of Female Chauvinist Pigs, discusses the circumstances of Dworkin's untimely death in the spring of 2005, and the enormous impact of her life and work. Dworkin's argument, she points out, is the stickiest question of feminism: Can a woman fight the power when he shares her bed?

**Thesaurus Erotica** - Teesa Mee 2016-07-01

A marvellous and wide ranging compendium of all the exotic, pretty, blunt and sometimes very

strange terms we use to describe our sexual parts and the interesting things we like to do with them. A must for anyone who wants to write about sex and eroticism.

**Gender, Language and New Literacy** - Eva-Maria Thüne 2009-03-01

A cutting-edge research book that internationally examines cross-cultural research on gender as it is lexically and socially categorized in electronic media >

[The Emotional Wound Thesaurus: A Writer's Guide to Psychological Trauma](#) - Becca Puglisi 2017-10-25

Readers connect to characters with depth, ones who have experienced life's ups and downs. To deliver key players that are both realistic and compelling, writers must know them intimately—not only who they are in the present story, but also what made them that way. Of all the formative experiences in a character's past, none are more destructive than emotional wounds. The aftershocks of trauma can change who they are, alter what they believe, and sabotage their ability to achieve meaningful goals, all of which will affect the trajectory of your story. Identifying the backstory wound is crucial to understanding how it will shape your character's behavior, and The Emotional Wound Thesaurus can help. Inside, you'll find: \* A database of traumatic situations common to the human experience \* An in-depth study on a wound's impact, including the fears, lies, personality shifts, and dysfunctional behaviors that can arise from different painful events \* An extensive analysis of character arc and how the wound and any resulting unmet needs fit into it \* Techniques on how to show the past experience to readers in a way that is both engaging and revelatory while avoiding the pitfalls of info dumps and telling \* A showcase of popular characters and how their traumatic experiences reshaped them, leading to very specific story goals \* A Backstory Wound Profile tool that will enable you to document your characters'

Downloaded from

by guest

negative past experiences and the aftereffects  
 Root your characters in reality by giving them an authentic wound that causes difficulties and prompts them to strive for inner growth to overcome it. With its easy-to-read format and over 100 entries packed with information, The Emotional Wound Thesaurus is a crash course in psychology for creating characters that feel incredibly real to readers.

**Encyclopedia of Evolutionary Psychological Science** - Todd K. Shackelford 2021-03-20

This comprehensive, twelve volume reference work reflects the interdisciplinary influences on evolutionary psychology and serves as a major resource for its history, scientific contributors and theories. It draws on biology, cognitive science, anthropology, psychology, economics, computer science and paleoarchaeology to provide a multifaceted picture of behavioral adaptation in humans and how it adds to our academic and clinical understanding. Edited by a noted figure in evolutionary psychology, with many seminal and renowned contributors, this encyclopedia offers the full breadth of an area that is the forefront of behavioral thinking and investigation.

The End of Gender - Debra Soh 2021-08-31

"International sex researcher, neuroscientist, and frequent contributor to The Globe and Mail (Toronto) Debra Soh [discusses what she sees as] gender myths in this ... examination of the many facets of gender identity"--

Assimilative Memory; Or, How to Attend and Never Forget - Marcus Dwight Larrowe 1896

**Cambridge Advanced Learner's Dictionary KLETT VERSION** - Kate Woodford 2003-02-13

The Cambridge Advanced Learner's Dictionary gives the vital support which advanced students need, especially with the essential skills: reading, writing, listening and speaking. In the book: \* 170,000 words, phrases and examples \* New words: so your English stays up-to-date \* Colour headwords: so you can find the word you are looking for quickly \* Idiom Finder \* 200 'Common Learner Error' notes show how to avoid common mistakes \* 25,000 collocations show the way words work together \* Colour pictures: 16 full page colour pictures On the CD-ROM: \* Sound: recordings in British and American English, plus practice tools to help

improve pronunciation \* UNIQUE! Smart Thesaurus helps you choose the right word \* QUICKfind looks up words for you while you are working or reading on screen \* UNIQUE! SUPERwrite gives on screen help with grammar, spelling and collocation when you are writing \* Hundreds of interactive exercises  
The New Roget's Thesaurus in Dictionary Form - Norman Lewis 1984

The Every Day Book of History and Chronology - Joel Munsell 1858

**The Wave** - Algernon Blackwood 2021-01-04  
 Book Excerpt: ...flicting story: --'A victorious Theban General, Prince of the blood, brought back a Syrian youth from one of his foreign conquests and presented him to his young wife who, first mothering him for his beauty, then made him her personal slave, and ended by caring deeply for him. The slave, in return, loved her with passionate adoration he was unable to conceal. As a Lady of the Court, her quasi-adoption of the youth caused comment. Her husband ordered his dismissal. But she still made his welfare her especial object, finding frequent reasons for their meeting. One day, however, her husband caught them together, though their meeting was in innocence. He half strangled the youth, till the blood poured down upon his own hands, then had him flogged and sent away to On, the City of the Sun.'The Syrian found his way back again, vengeance in his fiery blood. The clandestine yet innocent meetings were renewed. Rank was forgotten. They met among the sand-dunes in the desert behind the city where a pleasu..

**The New Roget's Thesaurus in Dictionary Form** - American Heritage Editors 1986-08-15  
 Published in hardcover as The Penguin Roget's College Thesaurus in Dictionary Form, this new paperback edition of the 20-million-copy bestselling thesaurus has been fully revised, expanded, and updated for the modern home, school, or office.

Urban Dictionary - urbandictionary.com  
 2005-10-01

Urbandictionary.com--bearing the slogan "Define Your World"--serves more than 1.5 million visitors each month. Perfect for those who want to pick up some new slang and those who want

to translate it, Urban Dictionary is a gritty and witty look at our ever-changing language. Urbandictionary.com is a wildly successful site that encourages users to define the world with their own unique terms. In Urban Dictionary, site founder Aaron Peckham culls his more than 170,000 definitions for the funniest, and most provocative phrases that define the modern slang scene. Within urbandictionary.com's lively lexicon are: \* business provocative--Attire used to provoke sexual attention in the workplace. \* communicate--To chat with someone in the same room via instant messaging service instead of in person. \* dandruff--A person who "flakes out" and ditches their friends. \* wingman--A guy who takes one for the team by hooking up with a hot girl's ugly friend so his own friend can hook up with the hot girl. Perfect for those who want to pick up some new slang and those who want to translate it, Urban Dictionary is a gritty and witty look at our ever-changing language. Urban Dictionary covers the language that encompasses the trials and tribulations that anyone under 30 encounters--and leaves everyone over 30 scratching their heads but wanting to know more.

Love, Sex, and Marriage - Julie Coleman  
2022-06-13

If the language we use influences and reflects the way that we see the world, then the fields of LOVE, SEX, and MARRIAGE, will show how speakers of English view their closest social and emotional relationships. Love, Sex, and Marriage provides a classification of English terms for these three fields from the earliest written records of the language until the present day. This volume makes it possible to trace changing attitudes towards social and sexual ties, and to understand those ties as earlier speakers of English did, through the language they used. The terms are arranged by meaning, and are listed chronologically within semantic fields, with their dates of usage. Notes on individual terms provide further information about their connotations and development. Language does not exist in isolation from the people who speak it, so background information about changes in social conditions, religious beliefs, and medical advancements is also included. A brief introduction to basic semantic terminology explains the principles behind the classification,

and an alphabetical index facilitates the location of individual terms.

Sex Slang - Tom Dalzell 2016-08-19

Sex Slang not only gives you 3,000 new words to talk about your favourite pastimes, it will open your eyes to practices you didn't even know existed. Infused with humour, it provides a spectacular sexual vocabulary from all over the English speaking world, as well as hours of reading pleasure.

The Philippine Islands - John Foreman  
1899-01-01

The Latin Sexual Vocabulary - J. N. Adams  
1990-10

Like other languages, Latin contained certain words its speakers considered obscene as well as a rich stock of sexual euphemism and metaphor. Our sources for this information range from surviving graffiti to literary works with a marked sexual content. Yet despite its manifest literary and linguistic interest, the sexual vocabulary of Latin has remained uninvestigated by scholars. J. A. Adams's pioneering and unique reference work collects for the first time evidence of Latin obscenities and sexual euphemisms drawn from both literary and nonliterary sources from the early Republic to about the fourth century A.D. Separate chapters treat each of the sexual parts of the body and the terminology used to describe sexual acts. General topics include the influence of Greek language on Latin, changes in the Latin vocabulary over time (including the evolution of sexual words into general terms of abuse), and lexical differences among various literary genres.

Handbook of African Medicinal Plants, Second Edition - Maurice M. Iwu 2014-02-04

With over 50,000 distinct species in sub-Saharan Africa alone, the African continent is endowed with an enormous wealth of plant resources. While more than 25 percent of known species have been used for several centuries in traditional African medicine for the prevention and treatment of diseases, Africa remains a minor player in the global natural products market largely due to lack of practical information. This updated and expanded second edition of the Handbook of African Medicinal Plants provides a comprehensive review of more

than 2,000 species of plants employed in indigenous African medicine, with full-color photographs and references from over 1,100 publications. The first part of the book contains a catalog of the plants used as ingredients for the preparation of traditional remedies, including their medicinal uses and the parts of the plant used. This is followed by a pharmacognostical profile of 170 of the major herbs, with a brief description of the diagnostic features of the leaves, flowers, and fruits and monographs with botanical names, common names, synonyms, African names, habitat and distribution, ethnomedicinal uses, chemical constituents, and reported pharmacological activity. The second part of the book provides an introduction to African traditional medicine, outlining African cosmology and beliefs as they relate to healing and the use of herbs, health foods, and medicinal plants. This book presents scientific documentation of the correlation between the observed folk use and demonstrable biological activity, as well as the characterized constituents of the plants.

*Exploring the Biological Contributions to Human Health* - Institute of Medicine 2001-07-02

It's obvious why only men develop prostate cancer and why only women get ovarian cancer.

But it is not obvious why women are more likely to recover language ability after a stroke than men or why women are more apt to develop autoimmune diseases such as lupus. Sex differences in health throughout the lifespan have been documented. Exploring the Biological Contributions to Human Health begins to snap the pieces of the puzzle into place so that this knowledge can be used to improve health for both sexes. From behavior and cognition to metabolism and response to chemicals and infectious organisms, this book explores the health impact of sex (being male or female, according to reproductive organs and chromosomes) and gender (one's sense of self as male or female in society). Exploring the Biological Contributions to Human Health discusses basic biochemical differences in the cells of males and females and health variability between the sexes from conception throughout life. The book identifies key research needs and opportunities and addresses barriers to research. Exploring the Biological Contributions to Human Health will be important to health policy makers, basic, applied, and clinical researchers, educators, providers, and journalists-while being very accessible to interested lay readers.
