

Straight Constructions Of Heterosexuality In The Cinema

Taken for Granted - Eviatar Zerubavel
2020-03-10

Why is the term "openly gay" so widely used but "openly straight" is not? What are the unspoken assumptions behind terms like "male nurse," "working mom," and "white trash"? Offering a revealing and provocative look at the word choices we make every day without even realizing it, *Taken for Granted* exposes the subtly encoded ways we talk about race, gender, sexual orientation, religion, social status, and more. In this engaging and insightful book, Eviatar Zerubavel describes how the words we use - such as when we mark "the best female basketball player" but leave her male counterpart unmarked-provide telling clues about the things many of us take for granted. By marking "women's history" or "Black History Month," we are also reinforcing the apparent normality of the history of white men. When we mark something as being special or somehow noticeable, that which goes unmarked-such as maleness, whiteness, straightness, and able-bodiedness-is assumed to be ordinary by default. Zerubavel shows how this tacit normalizing of certain identities, practices, and ideas helps to maintain their cultural dominance-including the power to dictate what others take for granted. A little book about a very big idea, *Taken for Granted* draws our attention to what we implicitly assume to be normal-and in the process unsettles the very notion of normality.

Queering Multiculturalism - Aret Karademir
2018-10-15

Queering Multiculturalism argues for group-specific rights for ethno-cultural minorities, but without ignoring the possibility that such rights may lead to ethnic chauvinism, balkanization, and the cultural marginalization of minorities-within-minorities, such as ethnic LGBT people.

2023-06-09

This edited volume offers a comprehensive

understanding of the queer space in tandem with the transforming socio-cultural-political relationships in a country that exhibits diversified shades of ideologies and history - that is, India. The featured essays deal with the presence of queerness in visual media, particularly in films and the digital arena, from multilingual and multicultural perspectives, thus creating an exhaustive discourse encompassing argument and analysis. This book aims to depict the plurality and complexity of the Indian scenario, fostering mass acceptance of queerness, a rare scholastic endeavour.

A History of Horror - Wheeler Winston Dixon
2010-08-24

Ever since horror leapt from popular fiction to the silver screen in the late 1890s, viewers have experienced fear and pleasure in exquisite combination. Wheeler Winston Dixon's *A History of Horror* is the only book to offer a comprehensive survey of this ever-popular film genre. Arranged by decades, with outliers and franchise films overlapping some years, this one-stop sourcebook unearths the historical origins of characters such as Dracula, Frankenstein, and the Wolfman and their various incarnations in film from the silent era to comedic sequels. *A History of Horror* explores how the horror film fits into the Hollywood studio system and how its enormous success in American and European culture expanded globally over time. Dixon examines key periods in the horror film-in which the basic precepts of the genre were established, then banished into conveniently reliable and malleable forms, and then, after collapsing into parody, rose again and again to create new levels of intensity and menace. *A History of Horror*, supported by rare stills from classic films, brings over fifty timeless horror films into frightfully clear focus, zooms in on today's top horror Web sites, and champions the stars, directors, and subgenres that make the horror film so exciting and popular with

contemporary audiences.

Film Theory and Contemporary Hollywood Movies - Warren Buckland 2009-06-03

Film theory no longer gets top billing or plays a starring role in film studies today, as critics proclaim that theory is dead and we are living in a post-theory moment. While theory may be out of the limelight, it remains an essential key to understanding the full complexity of cinema, one that should not be so easily discounted or discarded. In this volume, contributors explore recent popular movies through the lens of film theory, beginning with industrial-economic analysis before moving into a predominately aesthetic and interpretive framework. The Hollywood films discussed cover a wide range from *300* to *Fifty First Dates*, from *Brokeback Mountain* to *Lord of the Rings*, from *Spider-Man 3* to *Fahrenheit 9/11*, from *Saw* to *Raiders of the Lost Ark*, and much more. Individual essays consider such topics as the rules that govern new blockbuster franchises, the 'posthumanist realism' of digital cinema, video game adaptations, increasingly restricted stylistic norms, the spatial stories of social networks like YouTube, the mainstreaming of queer culture, and the cognitive paradox behind enjoyable viewing of traumatic events onscreen. With its cast of international film scholars, *Film Theory and Contemporary Hollywood Movies* demonstrates the remarkable contributions theory can offer to film studies and moviegoers alike.

Rebel Without a Cause - J. David Slocum 2005-09-27

Assesses the layered meanings and persistent global legacy of an American film classic.

City That Never Sleeps - Murray Pomerance 2007-05-01

New York, more than any other city, has held a special fascination for filmmakers and viewers. In every decade of Hollywood filmmaking, artists of the screen have fixated upon this fascinating place for its tensions and promises, dazzling illumination and fearsome darkness. The glittering skyscrapers of such films as *On the Town* have shadowed the characteristic seedy streets in which desperate, passionate stories have played out-as in *Scandal Sheet* and *The Pawnbroker*. In other films, the city is a cauldron of bright lights, technology, empire, egotism,

fear, hunger, and change--the scenic epitome of America in the modern age. From *Street Scene* and *Breakfast at Tiffany's* to *Rosemary's Baby*, *The Warriors*, and *25th Hour*, the sixteen essays in this book explore the cinematic representation of New York as a city of experience, as a locus of ideographic characters and spaces, as a city of moves and traps, and as a site of allurement and danger. Contributors consider the work of Woody Allen, Blake Edwards, Alfred Hitchcock, Gregory La Cava, Spike Lee, Sidney Lumet, Vincente Minnelli, Roman Polanski, Martin Scorsese, Andy Warhol, and numerous others.

Hetero - Sean Griffin 2009-05-07

Uncovers the queer nature of heterosexuality on film.

American Cinema of the 1940s - Wheeler W. Dixon 2006

The 1940s was a watershed decade for American cinema and the nation. Shaking off the grim legacy of the Depression, Hollywood launched an unprecedented wave of production, generating some of its most memorable classics. Featuring essays by a group of respected film scholars and historians, *American Cinema of the 1940s* brings this dynamic and turbulent decade to life with such films as *Citizen Kane*, *Rebecca*, *The Lady Eve*, *Sergeant York*, *How Green Was My Valley*, *Casablanca*, *Mrs. Miniver*, *The Road to Morocco*, *Yankee Doodle Dandy*, *Kiss of Death*, *Force of Evil*, *Caught*, and *Apology for Murder*. Illustrated with many rare stills and filled with provocative insights, the volume will appeal to students, teachers, and to all those interested in cultural history and American film of the twentieth century.

Queer Images - Benshoff 2005-10-13

Queer Images chronicles representations of lesbian, gay, bisexual, and queer sexualities over one hundred years of American film. The most up-to-date and comprehensive book of its kind, it explores the ever-changing images of queer characters onscreen as well as the work of queer filmmakers and the cultural histories of queer audiences--from the works of discreetly homosexual filmmakers during Hollywood's Golden Age and classical Hollywood's attempt to purge sex perversion from films, to queer exploitation and physique films, cinematic responses to AIDS, and how contemporary Hollywood deals with queer issues. An essential volume for film buffs and anyone interested in sexuality and culture. Visit our website for sample chapter!

Queer Cinema - Harry M. Benshoff 2004

Queer Cinema, the Film Reader brings together key writings that use queer theory to explore cinematic sexualities, especially those historically designated as gay, lesbian, bisexual and/or transgendered.

A Short History of Film - Wheeler Winston Dixon 2008-03-01

The history of international cinema is now available in a concise, conveniently sized, and affordable volume. Succinct yet comprehensive, A Short History of Film provides an accessible overview of the major movements, directors, studios, and genres from the 1880s to the present. More than 250 rare stills and illustrations accompany the text, bringing readers face to face with many of the key players and films that have marked the industry. Beginning with precursors of what we call moving pictures, Wheeler Winston Dixon and Gwendolyn Audrey Foster lead a fast-paced tour through the invention of the kinoscope, the introduction of sound and color between the two world wars, and ultimately the computer generated imagery of the present day. They detail significant periods in world cinema, including the early major industries in Europe, the dominance of the Hollywood studio system in the 1930s and 1940s, and the French New Wave of the 1960s. Special attention is also given to small independent efforts in developing nations and the corresponding more personal independent film movement that briefly

flourished in the United States, the significant filmmakers of all nations, censorship and regulation and how they have affected production everywhere, and a wide range of studios and genres. Along the way, the authors take great care to incorporate the stories of women and other minority filmmakers who have often been overlooked in other texts. Compact and easily readable, this is the best one-stop source for the history of world film available to students, teachers, and general audiences alike.

A History of Horror, 2nd Edition - Wheeler Winston Dixon 2023-02-10

Ever since horror leapt from popular fiction to the silver screen in the late 1890s, viewers have experienced fear and pleasure in exquisite combination. Wheeler Winston Dixon's fully revised and updated A History of Horror is still the only book to offer a comprehensive survey of this ever-popular film genre. Arranged by decades, with outliers and franchise films overlapping some years, this one-stop sourcebook unearths the historical origins of characters such as Dracula, Frankenstein, and the Wolfman and their various incarnations in film from the silent era to comedic sequels. In covering the last decade, this new edition includes coverage of the resurgence of the genre, covering the swath of new groundbreaking horror films directed by women, Black and queer horror films, and a new international wave in body horror films. A History of Horror explores how the horror film fits into the Hollywood studio system, how the distribution and exhibition of horror films have changed in a post-COVID world, and how its enormous success in American and European culture expanded globally over time. Dixon examines key periods in the horror film-in which the basic precepts of the genre were established, then banished into conveniently reliable and malleable forms, and then, after collapsing into parody, rose again and again to create new levels of intensity and menace. A History of Horror, supported by rare stills from classic films, brings over sixty timeless horror films into frightfully clear focus, zooms in on today's top horror Web sites, and champions the stars, directors, and subgenres that make the horror film so exciting and popular with contemporary audiences.

Homo Ludens as a Comic Character in Selected American Films - Artur Skweres 2016-10-25

This book reveals the hitherto critically disregarded ludic elements in popular American comedy films, building on and expanding the theories developed by Johan Huizinga in his classic study *Homo Ludens* (1938) and Roger Caillois in *Les jeux et les hommes* (1958). To address the lack of attention paid to the play principle in film comedy studies, this book focuses exclusively on the elements typical of play that can be found in movies. It introduces two new categories describing play: *óneiros* and *pragma*, which allow analysis of how play in comedies is influenced by the relations between the player and non-players. The text is supplemented by the use of the author's drawings, which, because of their analytical and selective nature, are used as a tool for visual study. The play principle has a long tradition in American humor and the films examined here were chosen for their popularity and wide appeal, often acting as vehicles for Hollywood stars (e.g. Chevy Chase, Dan Aykroyd, Bill Murray, Steve Martin, Eddie Murphy, Goldie Hawn, Mike Myers, Jackie Chan or Chris Tucker). The actors' status allowed the filmmakers to construct situations in which the protagonists distanced themselves from the fictional situation. It is argued that the playful detachment from reality, typifying many of the fictional characters portrayed by actors with star status, is characteristic of the play principle in film. Another major consideration is the hotly debated notion of the accomplishment of goals in playful activities, and the book strongly supports the position that in narratives, play can (but does not have to) yield important results. The introduction of the categories of *óneiros* and *pragma* in play serves to highlight the complex relation between playfulness and practicality in the films discussed. Building on a comprehensive analysis of the ludic elements in selected popular American comedies, the book makes an important contribution to film studies, providing a unique perspective through its focus on the concept of *homo ludens* as a comic hero.

Visions of Paradise - Wheeler Winston Dixon 2006-02-16

Depictions of sex, violence, and crime abound in many of today's movies, sometimes making it seem that the idyllic life has vanished-even from our imaginations. But as shown in this unique book, paradise has not always been lost. For many years, depictions of heaven, earthly paradises, and utopias were common in popular films. Illustrated throughout with intriguing, rare stills and organized to provide historical context, *Visions of Paradise* surveys a huge array of films that have offered us glimpses of life free from strife, devoid of pain and privation, and full of harmony. In films such as *Moana*, *White Shadows in the South Seas*, *The Green Pastures*, *Heaven Can Wait*, *The Enchanted Forest*, *The Bishop's Wife*, *Carousel*, *Bikini Beach*, and *Elvira Madigan*, characters and the audience partake in a vision of personal freedom and safety-a zone of privilege and protection that transcends the demands of daily existence. Many of the films discussed are from the 1960s-perhaps the most edenic decade in contemporary cinema, when everything seemed possible and radical change was taken for granted. As Dixon makes clear, however, these films have not disappeared with the dreams of a generation; they continue to resonate today, offering a tonic to the darker visions that have replaced them.
